Historical Review

Sequence of Events	
July 2014	Florida Legislature passed the Compassionate Medical Use Act.
January 2015	Section 381.986, Florida Statutes (F.S.), allowed qualified physicians to issue patient orders for low-THC cannabis for limited medical conditions.
July 2016	Section 381.986, F.S., allowed for full potency medical marijuana for patients with terminal illnesses.
August 2016	The first low-THC cannabis and medical marijuana were available to patients.
November 2016	Florida voters approved Amendment 2, creating Article X, Section 29 of the Florida Constitution, “Medical marijuana production, possession, and use”, which took effect on January 3, 2017.
February 2017	Medical Marijuana Use Registry (MMUR) identification cards issued to qualified patients and caregivers.
June 2017	Senate Bill 8-A signed into law. The bill amended section 381.986, F.S., and included a requirement for the Board of Medicine and the Board of Osteopathic Medicine to create a joint Physician Certification Pattern Review Panel and renamed the Office of Compassionate Use as the Office of Medical Marijuana Use.
March 2019	Senate Bill 182 signed into law. The bill amended section 381.986, F.S., to redefine the term “medical use” to include the possession, use, or administration of marijuana in a form for smoking and required the patient’s informed consent form to include negative health risks associated with smoking marijuana.

Physician Certification Pattern Review Panel

The Florida Board of Medicine and the Florida Board of Osteopathic Medicine created a joint Physician Certification Pattern Review Panel (Panel) on medical marijuana in compliance with section 381.986 (4)(j), F.S. The Panel is responsible for reporting its findings and recommendations by January 1 of each year to the Governor, the President of the Senate, and the Speaker of the House of Representatives.

Florida Board of Medicine

Jorge J. Lopez, M.D. – Vice-Chair
Steven Rosenberg, M.D.
Sarvam TerKonda, M.D.

Florida Board of Osteopathic Medicine

Sandra Schwemmer, D.O. – Chair
Michelle Mendez, D.O.
Joel B. Rose, D.O.

Statutory Requirements for the Annual Report

Section 381.986(4)(j), F.S. (2019): "The Board of Medicine and the Board of Osteopathic Medicine shall jointly create a physician certification pattern review panel that shall review all physician certifications submitted to the medical marijuana use registry. The panel shall track and report the number of physician certifications and the qualifying medical conditions, dosage, supply amount, and form of marijuana certified. The panel shall report the data both by individual qualified physician and in the aggregate, by county, and statewide. The physician certification pattern review panel shall, beginning January 1, 2018, submit an annual report of its findings and recommendations to the Governor, the President of the Senate, and the Speaker of the House of Representatives."

The Panel's Annual Report uses two data sources within the Department of Health.

1. The Office of Medical Marijuana Use (OMMU) is responsible for oversight of the Medical Marijuana Treatment Centers (MMTCs) in Florida and maintains the Medical Marijuana Use Registry (MMUR). This office maintains the listing of all qualified physicians and issues patient and caregiver identification cards. Qualified physicians hold unrestricted Florida licenses and are qualified to issue physician certifications as required by section 381.986 (3), F.S. The MMUR contains qualified physician certification information, including the individual certifications submitted by qualified physicians, as well as patient information, and is the primary source of the data used in this report.

2. The Division of Medical Quality Assurance (MQA) maintains the MQA Licensure Database which contains the licensure data for all licensed practitioners, as well as the practitioner profiles for both allopathic and osteopathic physicians. This database contains the primary practice location provided by each physician and was used to prepare the county-specific information. Physicians are required by law to provide a primary practice location.

October 1, 2018 through September 30, 2019 Statistics

Descriptive statistics are based on the MMUR data from October 1, 2018 through September 30, 2019 and the MQA Licensure Database.

During this period there were 460,469 certifications for 291,865 individual patients by 1,487 qualified physicians.

Total Counts – October 1, 2018 – September 30, 2019

460,469 **Active certifications** (certifications) included dosing information by type and route for at least one order period, or at least one order period of medical marijuana in a form for smoking.

1,487 **Individual qualified physicians** (physicians) with certifications. 1,180 are Allopathic Physicians and 307 are Osteopathic Physicians.

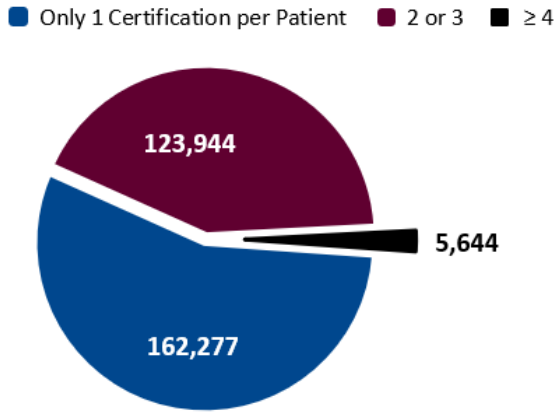
Overall, the average number of certifications per physician = 310; range in certifications per physician = 1 – 8,838 (median = 50; mode = 1).

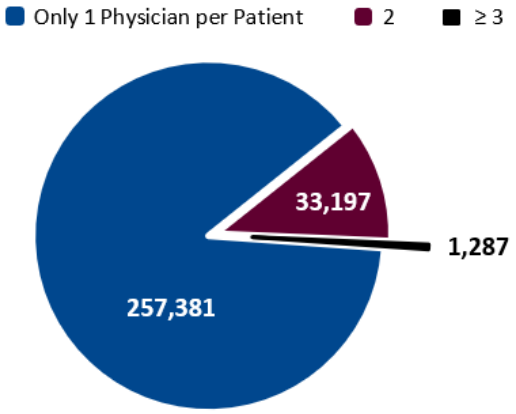
- The number of individual qualified physicians in this report were 59% of the 2,516 reported by OMMU as of October 1, 2019.
- 1,358 physicians had less than 1,000 certifications in this 12-month period. In total these physicians wrote 179,528 certifications, which means 39% of all certifications were written by 91% of physicians.

  For this group, the average number of certifications per physician = 132; range in certifications per physician = 1 – 985 (median = 37; mode = 1).
- 129 physicians had 1,000 or more certifications in this 12-month period. In total these physicians wrote 280,941 certifications, which means 61% of all certifications were written by 9% of physicians.

  For this group, the average number of certifications per physician = 2,178; range in certifications per physician = 1,009 – 8,838 (median = 1,705; mode = 1,010).

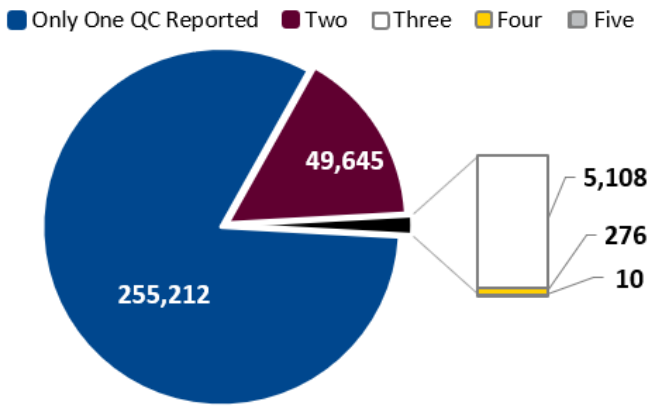
291,865 **Individual patients** with certifications in this 12-month period.





Overview of Physician Certifications by Qualifying Condition

Listed below is the frequency of qualifying conditions (QC) in certifications from October 1, 2018 through September 30, 2019. The three highest counts are in bold font. Some patients in this report period have more than one certification or more than one qualifying condition. Qualifying conditions were reported 535,717 times in the 460,469 certifications for 291,865 individual patients.



Qualifying Conditions		Number and Percent with only one QC[1] Reported		Number and Percent for All QCs[2] Reported	
(a)	Cancer	27,792	7.0%	36,749	6.9%
(b)	Epilepsy	6,187	1.6%	8,698	1.6%
(c)	Glaucoma	5,196	1.3%	7,867	1.5%
(d)	Positive status for human immunodeficiency virus (HIV)	2,726	0.7%	3,861	0.7%
(e)	Acquired immune deficiency syndrome (AIDS)	367	0.1%	626	0.1%
(f)	**Post-traumatic stress disorder (PTSD)**	**88,397**	**22.6%**	**128,030**	**23.9%**
(g)	Amyotrophic lateral sclerosis (ALS)	302	0.1%	408	0.1%
(h)	Crohn's disease	5,873	1.5%	7,931	1.5%
(i)	Parkinson's disease	3,946	1.0%	4,888	0.9%
(j)	Multiple sclerosis (MS)	4,924	1.3%	6,760	1.3%
(k)	**Medical conditions of the same kind or class as or comparable to those enumerated in paragraphs (a)-(j)**	**113,401**	**29.0%**	**135,088**	**25.2%**
(l)	A terminal condition diagnosed by a physician other than the qualified physician issuing the physician certification	290	0.1%	870	0.1%
(m)	**Chronic non-malignant pain**	**131,560**	**33.7%**	**193,941**	**36.2%**
		[255,212 Patients]	**390,961 Certifications**	[291,865 Patients]	**460,469 Certifications**

[1] Only one qualifying condition reported per certification. [2] All qualifying conditions reported (multiple per certification). Some patients have more than one certification, creating a multiple headcount.

Details on qualifying conditions and counts by state, county, and individual physician are on page 15.

Issuance of Certifications for Medical Marijuana

Orders for Low-THC Cannabis and Medical Marijuana

In each certification, physicians may include up to three consecutive order periods (up to 70 days each, 210 days total). In each order period physicians may include up to five routes of administration for each type of medical marijuana. This potentially allows up to 10 different orders of marijuana for medical use products in one order period, or up to 30 orders within one certification.

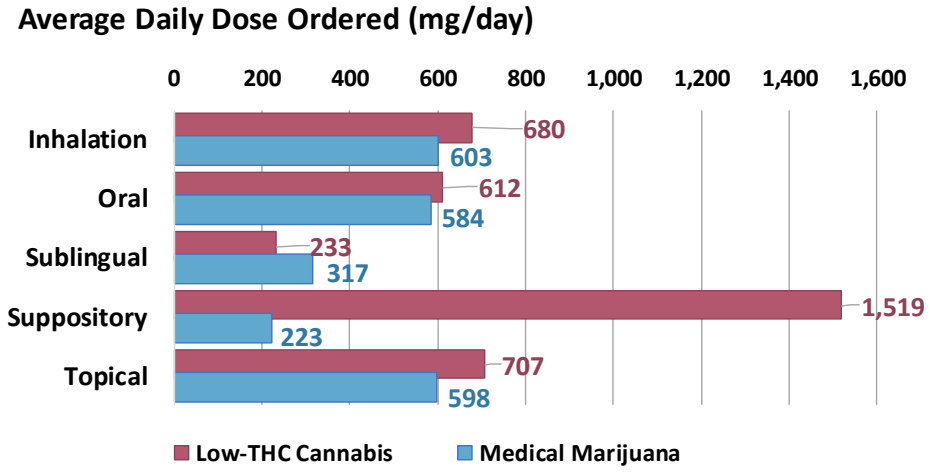
Orders for Medical Marijuana in a Form for Smoking

In addition to the five routes available for each type of medical marijuana, physicians may include orders for medical marijuana in a form for smoking. Within a certification, medical marijuana in a form for smoking is available for up to six consecutive order periods (up to 35 days each, 210 days total) with a maximum order amount of 2.5 ounces of product, or up to 15 ounces of product per certification.

Details on counts of low-THC cannabis and medical marijuana ordered are on page 61, and on page 96 for medical marijuana in a form for smoking.

Average Amounts Ordered and Order Patterns

The average daily dose for route and type ranged from a low of 223 mg/day for medical marijuana – suppository and a high of 1,519 mg/day for low-THC cannabis – suppository. The high average dose was impacted by orders with extremely high dosages. The most frequently ordered type and route were: low-THC cannabis - oral and medical marijuana - inhalation.



Details on average daily dose of low-THC cannabis and medical marijuana ordered by route are on page 288. Total supply details are on page 290.

The average ounces ordered for medical marijuana in a form for smoking were 2.46 ounces. 96% of physicians order on average 2.46 ounces or more.

Medical Marijuana in a Form for Smoking	Order Period 1	Order Period 2	Order Period 3	Order Period 4	Order Period 5	Order Period 6
Average Ounces Ordered (oz/order)	**2.46**	**2.46**	**2.46**	**2.47**	**2.47**	**2.47**
% Physicians who ordered 2.5 ounces	96%	96%	96%	97%	97%	97%

Details on average ounces per order period and total supply for medical marijuana ordered in a form for smoking are on page 96.

Within individual certifications, orders included either or both types (low-THC cannabis, medical marijuana) and/or medical marijuana in a form for smoking. The most frequent pattern of orders within a certification (viewed by physician or viewed by patient) include both types, followed by both types plus smoking. The least common pattern of orders within a certification is to have only low-THC cannabis, only smoking, or low-THC cannabis plus smoking.

Ranking of Most Common Order Patterns

Order Patterns	Physicians	Certifications	Patients
a. Both Types	**1**	**1**	**1**
b. Both Types + Smoking	**3**	**2**	**2**
c. Only Medical Marijuana	**2**	**3**	**3**
d. Medical Marijuana + Smoking	**4**	**4**	**4**
e. Only Low-THC Cannabis	**5**	**5**	**5**
f. Only Smoking	**6**	**6**	**6**
g. Low-THC Cannabis + Smoking	**7**	**7**	**7**

All Orders for Low-THC Cannabis

- 94% of physicians (1,397 of 1,487) wrote 376,654 certifications with orders for low-THC cannabis.
- 85.5% of patients (249,458 of 291,865) received low-THC cannabis orders.
- The total supply of low-THC ordered across the three order periods for all certifications was 117,245,209,825 mgs.

Detailed data for low-THC cannabis begins on page 61 with Tables 3 and 4.

Route of administration information for low-THC cannabis orders by state and county, and by individual physician, is provided on page 128. Total supply details are on page 290.

All Orders for Medical Marijuana

- 98.5% of physicians (1,464 of 1,487) wrote 457,655 certifications with orders for medical marijuana.
- 99.5% of patients (290,408 of 291,865) received medical marijuana orders.
- The total supply of medical marijuana ordered across the three order periods for all certifications was 129,631,509,713 mgs.

Detailed data for medical marijuana begins on page 61 with Tables 3 and 4.

Route of administration information for medical marijuana orders by state and county, and by individual physician, is provided on page 128. Total supply details are on page 290.

All Orders for Medical Marijuana in a Form for Smoking

- 65.4% of physicians (973 of 1,4870) wrote 136,861 certifications with orders for medical marijuana in a form for smoking.
- 44% of patients (128,040 of 291,865) received orders for medical marijuana in a form for smoking.
- The total supply ordered across the six order periods for all certifications was 1,822,766.05 ounces.

Detailed data for medical marijuana in a form for smoking is provided in Tables 5 and 6 on page 95.

Panel Recommendations

The Panel made numerous suggestions to the staff to provide further analysis by expanding the narrative portion of this report. At this time, the Panel has no further recommendations.

Terms and Definitions

Average (AVG) daily dose - the average of all daily doses ordered within a physician certification by route of administration and type (low-THC cannabis or medical marijuana).

Average ounces - the average of all "total ounces per 35-day order period of marijuana in a form for smoking" by certification, physician, county, or state.

Cannabidiol (CBD) for low-THC cannabis ordered by route(s) in the Medical Marijuana Use Registry is measured in milligrams per day.

Certifications for medical marijuana made by qualified physicians for patients with a qualifying medical condition.

Chronic nonmalignant pain - pain that is caused by a qualifying medical condition or that originates from a qualifying medical condition and persists beyond the usual course of that qualifying medical condition.

County is based on the primary practice location (address) physicians provided in the Medical Quality Assurance Licensure Database.

Dose - the milligrams (mg) per day for each route of administration a physician recommends in the Medical Marijuana Use Registry as part of a certification for marijuana. The "total mg/day" is the sum of all doses for a given form and type of marijuana ordered. All dose data entered was used.

Form is a term referenced in section 381.986, F.S., to describe the routes of administration, which is defined in rule 64-4.001, Florida Administrative Code (F.A.C.).

Low-THC cannabis - a plant of the genus *Cannabis*, the dried flowers of which contain 0.8 percent or less of tetrahydrocannabinol and more than 10 percent of cannabidiol weight for weight; the seeds thereof; the resin extracted from any part of such plant; or any compound, manufacture, salt, derivative, mixture, or preparation of such plant or its seeds or resin that is dispensed from a medical marijuana treatment center.

Marijuana - all parts of any plant of the genus *Cannabis*, whether growing or not; the seeds thereof; the resin extracted from any part of the plant; and every compound, manufacture, salt, derivative, mixture, or preparation of the plant or its seeds or resin, including low-THC cannabis, which are dispensed from a medical marijuana treatment center for medical use by a qualified patient.

Marijuana delivery device - an object used, intended for use, or designed for use in preparing, storing, ingesting, inhaling, or otherwise introducing marijuana into the human body, and which is dispensed from a medical marijuana treatment center for medical use by a qualified patient, except the delivery devices intended for the medical use of marijuana by smoking need not be dispensed from a medical marijuana treatment center in order to qualify as marijuana delivery devices.

Medical marijuana - all products with levels of tetrahydrocannabinol higher than 0.8 percent.

Medical marijuana treatment centers (MMTCs) are licensed by the state to grow, process, and dispense marijuana to qualified patients who have certifications and identification cards issued by the Office of Medical Marijuana Use.

Medical Marijuana Use Registry (MMUR) is a secure, electronic, online medical marijuana use registry for physicians, patients, and caregivers that is accessible to law enforcement agencies, qualified physicians, and medical marijuana treatment centers.

Medical use - the acquisition, possession, use, delivery, transfer, or administration of marijuana authorized by a physician certification. The term does not include:

1. Possession, use, or administration of marijuana that was not purchased or acquired from a medical marijuana treatment center.
2. Possession, use, or administration of marijuana in the form of commercially produced food items other than edibles or of marijuana seeds.
3. Use or administration of any form or amount of marijuana in a manner that is inconsistent with the qualified physician's directions or physician certification.
4. Transfer of marijuana to a person other than the qualified patient for whom it was authorized or the qualified patient's caregiver on behalf of the qualified patient.
5. Use or administration of marijuana in the following locations:
    a. On any form of public transportation, except for low-THC cannabis not in a form for smoking.
    b. In any public place, except for low-THC cannabis not in a form for smoking.
    c. In a qualified patient's place of employment, except when permitted by his or her employer.
    d. In a state correctional institution, as defined in section 944.02, F.S., or a correctional institution, as defined in section 944.241, F.S.
    e. On the grounds of a preschool, primary school, or secondary school, except as provided in section 1006.062, F.S.
    f. In a school bus, a vehicle, an aircraft, or a motorboat, except for low-THC cannabis not in a form for smoking.
6. The smoking of marijuana in an enclosed indoor workplace is defined in section 386.203(5), F.S.

Medical Quality Assurance (MQA) Licensure Database contains information on health care practitioners in the state of Florida licensed under chapter 458, F.S., and chapter 459, F.S. The information includes an indicator for physicians who have qualified to order low-THC cannabis and medical marijuana for qualified patients.

Office of Medical Marijuana Use (OMMU) is charged with writing and implementing the Florida Department of Health rules for the use of marijuana, overseeing the statewide Medical Marijuana Use Registry, and licensing Florida businesses to cultivate, process, and dispense marijuana to qualified patients. More information about the Medical Marijuana Use Registry is available online at the Office of Medical Marijuana Use website: https://knowthefactsmmj.com/

Order period refers to consecutive order periods, up to three, each with a maximum number of 70 days. Within each order period, physicians can choose to order 10 options: low-THC cannabis and/or medical marijuana in up to five different routes of administration.

Physician certifications for medical marijuana in a form for smoking may have up to six order periods, each with a maximum number of 35 days.

Physician certification - a qualified physician's authorization for a qualified patient to receive marijuana and a marijuana delivery device from a medical marijuana treatment center.

Physician county data is pulled from the most recent data available relative to the end of the reporting period. "Not Practicing" physicians had an active status in the MQA Licensure database when county information was accessed; "Out of State" physicians had out-of-state addresses but were otherwise listed as active status.

Qualified patient - a resident of this state who has been added to the Medical Marijuana Use Registry by a qualified physician to receive marijuana or a marijuana delivery device for medical use and who has a qualified patient identification card.

Qualified physician - a person who holds an unrestricted license as an allopathic physician under chapter 458, F.S., or as an osteopathic physician under chapter 459, F.S., and is in compliance with the physician education requirements of subsection (3) of 381.986, F.S.

Qualifying medical conditions are required for physician certification. A patient must be diagnosed with at least one of the following conditions to qualify to receive marijuana or a marijuana delivery device:

(a) Cancer
(b) Epilepsy
(c) Glaucoma
(d) Positive status for human immunodeficiency virus (HIV)
(e) Acquired immune deficiency syndrome (AIDS)
(f) Post-traumatic stress disorder (PTSD)
(g) Amyotrophic lateral sclerosis (ALS)
(h) Crohn's disease
(i) Parkinson's disease
(j) Multiple sclerosis (MS)
(k) Medical conditions of the same kind or class as or comparable to those enumerated in paragraphs (a)-(j)
(l) A terminal condition diagnosed by a physician other than the qualified physician issuing the physician certification
(m) Chronic nonmalignant pain

Routes of administration is defined in rule 64-4.001, F.A.C., as the appropriate method for the derivative product to be taken into the body of the qualified patient, as certified by a qualified physician, but does not include smoking.

Smoking - burning or igniting a substance and inhaling the smoke. As defined by section 381.986(4)(c), F.S., qualified physicians may determine that smoking is an appropriate route of administration for a qualified patient.

Supply - the total amount in mgs for all orders within a certification (daily dose multiplied by the number of days ordered) for all routes of administration other than smoking. For smoking, supply is the total amount in ounces for all orders within a certification.

Terminal condition - a progressive disease or medical or surgical condition that causes significant functional impairment, is not considered by a treating physician to be reversible without the administration of life-sustaining procedures and will result in death within one year after diagnosis if the condition runs its normal course.

Tetrahydrocannabinol (THC) for medical marijuana ordered by route(s) in the MMUR is measured in milligrams per day.

Type - low-THC cannabis or medical marijuana.
