(The attorney for the Commonwealth may require that the complaint, arrest warrant affidavit, or both be approved by the attorney for the Commonwealth prior to filing. See Pa.R.Crim.P. 507).

CRAIG SCHEETZ (Name of the attorney for the Commonwealth) U. in phone (Signature of the attorney for the Commonwealth) 9/16/16 (Date)

I, BRIAN RIMPLE (Name of the Affiant) 381 (PSP/MPOETC -Assigned Affiant ID Number & Badge #)

of PA OAG (Identify Department or Agency Represented and Political Subdivision) PA0222400 (Police Agency ORI Number)

do hereby state: (check appropriate box)

- 1.  I accuse the above named defendant who lives at the address set forth above
- I accuse the defendant whose name is unknown to me but who is described as \_\_\_\_\_

I accuse the defendant whose name and popular designation or nickname are unknown to me and whom I have therefore designated as John Doe or Jane Doe with violating the penal laws of the Commonwealth of Pennsylvania at [39] 302 MAIN STREET, SLATINGTON, (Subdivision Code) (Place-Political Subdivision) PA 18080 AND OTHER LOCATIONS

in LEHIGH County [39] on or about MARCH 13, 2012 THROUGH FEBRUARY 23, 2014 (County Code)

POI E CRIMINAL COMPLAINT

|                |                    |                     |                                          |

- I ask that a warrant of arrest or a summons be issued and that the defendant be required to answer the charges I have made.
- I verify that the facts set forth in this complaint are true and correct to the best of my knowledge or information and belief. This verification is made subject to the penalties of Section 4904 of the Crimes Code (18 Pa.C.S. § 4904) relating to unsworn falsification to authorities.
- This complaint consists of the preceding page(s) numbered 1 through 2.

The acts committed by the accused, as listed and hereafter, were against the peace and dignity of the Commonwealth of Pennsylvania and were contrary to the Act(s) of the Assembly, or in violation of the statutes cited.  
**(Before a warrant of arrest can be issued, an affidavit of probable cause must be completed, sworn to before the issuing authority, and attached.)**

# POI E CRIMINAL COMPLAINT

|                |                  |                     |                                          |
|----------------|------------------|---------------------|------------------------------------------|
| Docket Number: | Date Filed: / /  | OTN/LiveScan Number | Complaint/Incident Number<br>BN10057-15C |
| Defendant Name | First:<br>STEVEN | Middle:<br>T        | Last:<br>PUCCIO                          |

The acts committed by the accused are described below with each Act of Assembly or statute allegedly violated, if appropriate. When there is more than one offense, each offense should be numbered chronologically. (Set forth a brief summary of the facts sufficient to advise the defendant of the nature of the offense(s) charged. A citation to the statute(s) allegedly violated, without more, is not sufficient. In a summary case, you must cite the specific section(s) and subsection(s) of the statute(s) or ordinance(s) allegedly violated. The age of the victim at the time of the offense may be included if known. In addition, social security numbers and financial information (e.g. PINs) should not be listed. If the identity of an account must be established, list only the last four digits. 204 PA.Code §§ 213.1 - 213.7.)

## AFFIDAVIT of PROBABLE CAUSE

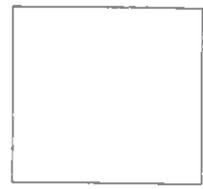

1. Your Affiant, Brian Rimple is a sworn Narcotics Agent for the Pennsylvania Office of Attorney General (OAG), Bureau of Narcotics Investigation and Drug Control (BNIDC). Your Affiant has been with the OAG for over 13 years. Your Affiant has over 25 years of law enforcement experience. Your Affiant was a detective for the Anne Arundel County Police Department (Maryland) for over three years and a detective for the Lehigh County District Attorney's Office for two years.
2. The BNIDC investigates and prosecutes violations of the Pennsylvania Crimes Code including, but not limited to, Act # 64, the Pennsylvania Controlled Substance, Drug Device and Cosmetic Act of 1972.
3. On July 8, 2015, your Affiant received information through SDAG Christie Bonesch to contact Jennifer B. Dodwell, Northampton County Probation Office, in reference to a person she had on probation for DUI that had information about a doctor.
4. Your Affiant contacted Dodwell and was advised that Rachel Puccio is currently on probation for her second drug related DUI. During her initial interview, Rachel Puccio stated her ex-husband had prescribed her a lot of prescriptions between 2007 and 2014. Her ex-husband is Steven Puccio who is an orthopedic doctor for St. Luke's Bethlehem. Dodwell stated Rachel Puccio told her that Dr. Puccio would write her prescriptions to support her drug habits.
5. On August 18, 2015, your Affiant met with Rachel Puccio. Rachel Puccio stated she was married to Steven Puccio from 2003 through 2007. Dr. Puccio works for St. Luke's Bethlehem Orthopedics. Rachel Puccio stated that Dr. Puccio has been writing prescriptions for her since they been married. The first prescriptions were for benzodiazepines and she became addicted to them. Rachel Puccio stated she then moved to cocaine as her drug of choice. Rachel Puccio stated she went to rehabilitation and met a guy who was using Oxycodone. Rachel Puccio stated after she left rehabilitation she moved to Oxycodone. Rachel Puccio stated she then went to a rehabilitation center in Florida for detoxification. Rachel Puccio stated when she returned from Florida, she asked her ex-husband for prescriptions and he would provide her them.

**I, BRIAN RIMPLE, BEING DULY SWORN ACCORDING TO THE LAW, DEPOSE AND SAY THAT THE FACTS SET FORTH IN THE FOREGOING AFFIDAVIT ARE TRUE AND CORRECT TO THE BEST OF MY KNOWLEDGE, INFORMATION AND BELIEF.**

**AFFIDAVIT of PROBABLE CAUSE CONTINUATION**

Rachel Puccio stated she has gotten these prescriptions for the past seven years. Rachel Puccio stated about a year ago, Dr. Puccio cut her off from all prescriptions. Rachel Puccio stated she had filled prescriptions at the Rite Aids in Northampton and Walnutport; Newhard Pharmacy in Northampton and Bechtel's in Slatington. Rachel Puccio stated she was never a patient of Dr. Puccio and he did not maintain any medical records for her.

6. On August 25, 2015, your Affiant went to Bechtel's Pharmacy and contacted the pharmacist Edward Bechtel. Bechtel provided your Affiant a copy of Rachel Puccio's Patient Prescription List from January 12, 2012 through August 25, 2015. This report showed that Dr. Puccio had prescribed her Methadone three times and the prescriptions had been filled at this pharmacy.

7. On April 5, 2016, your Affiant executed a search and seizure warrant on St. Luke's University Health Network at 1110 American Parkway, Allentown, PA. Your Affiant was provided with a disk that contained the medical records for Rachel Puccio. This disk was provided on April 8, 2016. A review of this disk revealed only one patient record for Rachel Puccio during the time period of this case. This visit was for an emergency room with Dr. Shingles. There were no record of any prescriptions be issued to Rachel Puccio from Dr. Puccio.

8. On June 7, 2016, your Affiant requested records from Rite Aid Corporation for all prescriptions filled by Rachel Puccio that were authorized by Dr. Steven Puccio. The date range was from February 6, 2012 through June 7, 2016. A review of these prescriptions showed that twenty-five of them were for Methadone a Schedule II Controlled Substance from March 13, 2012 through February 23, 2014.

9. On August 5, 2016, Puccio and his lawyer Janet Jackson came to the DEA's Resident Office in Allentown to meet with this your Affiant. Dr. Puccio advised he did write prescriptions for his ex-wife Rachel. Dr. Puccio stated Rachel has fought with addiction for a long period of time and is currently in a rehabilitation facility in lieu of prison. Dr. Puccio stated during the time in question he did write prescriptions for Methadone while she was in a program in Philipsburg, New Jersey. Dr. Puccio stated that Rachel would over sleep and miss her appointment at the clinic. Dr. Puccio stated Rachel would call him crying that she was in pain and he felt sorry for her and would write her a prescription for the Methadone to get her through until the next day. Dr. Puccio stated he realized this was wrong but hated to see her in pain.

**RE: MITIGATING STATEMENT ON BEHALF OF STEVEN THOMAS PUCCIO,  
D.O.  
LICENSE NO. OS0077461 (INACTIVE)  
FILE NO. 16-53-13853  
DOCKET No. -53-17  
PHMP NO. 18703**

Dear Mr. Anderson:

In accordance with paragraph 3(h) of the Agreement, this letter is being submitted to the Board as a "mitigating statement", which should be attached as Exhibit B to the Agreement which is contemporaneously being submitted to the Board for approval.

Dr. Puccio has already entered into a Consent Agreement with the PA Health Monitoring Program's ("PHMP") Voluntary Recovery Program ("VRP"), which imposed an indefinite suspension of his license, but stayed that penalty conditioned upon his compliance with the VRP's requirements. Dr. Puccio respectfully requests, consistent with that VRP Consent Agreement, that the Board now impose a similar indefinite suspension of his license, and that such suspension be similarly stayed, retroactively, conditioned upon his satisfactory compliance with the requirements of the Disciplinary Monitoring Unit ("DMU") in lieu of the VRP.

Dr. Puccio pled guilty to a criminal charge of Sale or Giving a Controlled Substance to a Dependent Person, which is a misdemeanor (ungraded) under section 113(a)(13) of the Pennsylvania Controlled Substance, Drug, Device and Cosmetic Act (“Drug Act”), 35 PA.C.S.A. § 780.113(a)(13).<sup>1</sup> The Court imposed a sentence of one year of probation, without any fine.

As described below, the criminal charge arose from Dr. Puccio’s clouded judgment in prescribing methadone and anti-anxiety medications for his ex-wife, in an effort to help her get treatment for her drug addiction problem. The criminal charge did not involve the sale of controlled substances.

Dr. Puccio requests that the Board take into consideration the following mitigating information:

**1. Dr. Puccio’s Background.**

Dr. Puccio is a 52-year old orthopedic surgeon, who was well-respected by his colleagues and patients for his professional skills during his 18 years of medical practice, and for his service to the Allentown-Bethlehem community. Between 2012 and April 2016, he served as the Section Chief for Spinal Surgery of the Department of Orthopedic Surgery of St. Luke’s Hospital in Bethlehem, PA. A copy of his Curriculum Vitae is attached hereto as Attachment 1. Character references from 36 physicians, other health care professionals, former patients, members of his community, and family members, are attached hereto as Attachment 2.

**2. Dr. Puccio’s Acceptance of Criminal Responsibility for His Actions.**

On May 16, 2017, Dr. Puccio plead guilty to a criminal charge of Sale of Controlled Substances to a Dependent Person. His entry of a guilty plea, rather than contesting these charges, demonstrates an acceptance of responsibility, and a recognition that his actions in prescribing controlled substances were wrong, and that they violated the Commonwealth’s criminal laws.<sup>2</sup> Similarly, his entry into a Consent Agreement with the Board, rather than seeking a hearing, demonstrates an acceptance of responsibility for his actions, and his recognition that this conduct violated the standards of conduct expected in his profession.

**3. Dr. Puccio’s Misconduct Was Not Motivated by Financial Gain.**

Although the title of the formal criminal charge which Dr. Puccio plead guilty to is “Sale or Giving a Controlled Substance to a Dependent Person” it covers a broad range of conduct including the

---

<sup>1</sup> Prior to his arrest, Dr. Puccio cooperated with the Attorney General’s Office (“OAG”), and voluntarily surrendered to the OAG when criminal charges were filed on September 30, 2016. On October 20, 2016, Dr. Puccio waived his right to a preliminary hearing, rather than contesting the charges.

<sup>2</sup> Dr. Puccio also properly complied with his obligations under the M-Care Act.

“sale... prescription or “gift” a controlled substance to a dependent person. **The facts in this case did not involve the “sale” of these controlled substances.** It involved the “prescription or gift” of the controlled substances. **Dr. Puccio did not profit financially from improperly writing these prescriptions.** His crime was not motivated by greed.

**4. Dr. Puccio’s Misconduct Was Motivated by a Misguided Desire to Help His Former Wife Cope with Her Addiction.**

His misconduct involved improperly writing prescriptions for controlled substances for his wife/former wife, during her many-years-long struggle to control her addiction and to help her obtain treatment. As his marriage broke down, he became involved in a pattern of improperly prescribing medications for her in connection with her drug addiction and need for treatment. Approximately half of these prescriptions were for methadone. Although she was scheduled to receive this medication as part of her withdrawal treatment at an out-patient clinic, she often failed to appear for her daily appointments to get that medication, and was suffering withdrawal symptoms. The other prescriptions were for anti-anxiety medications. Even after his marriage ended, he continued the pattern of improperly prescribing medications for her, in order to fill gaps in her treatment or to get her into treatment facilities (which he paid for), or to keep her from purchasing drugs on the street.

Dr. Puccio’s description of his attempts to help his former wife in dealing with her addiction problem are set forth in the Affidavit of Probable Cause supporting the criminal Complaint, which stated:

Dr. Puccio advised he did write prescriptions for his ex-wife, Rachel. Dr. Puccio stated Rachel has fought with addiction for a long period of time and is currently in a rehabilitation facility in lieu of prison. Dr. Puccio stated that during the time in question he did write prescriptions for Methadone while she was in a program in Philipsburg, New Jersey. Dr. Puccio stated that Rachel would over sleep and miss her appointment at the clinic. Dr. Puccio stated Rachel would call him crying that she was in pain and he felt sorry for her and would write her a prescription of the Methadone to get her through until the next day. Dr. Puccio stated that he realized this was wrong but hated to see her in pain.

Dr. Puccio’s 19-year old stepdaughter, Katlyn Scott, described his efforts to help her mother get drug treatment, in a reference letter which is attached as part of Attachment 2, which states:

Steve and my mother were divorced in 2008, and shortly after, my mother’s drug addiction began. During the next few years Steve helped her tremendously, even though they were divorced. He paid for her methadone, bought her a house, bought her a car, paid her bills. We all wanted her to get better, especially Steve. He paid over one hundred thousand dollars in treatment for her. He flew her to Florida to a

rehab amongst paying for others locally. **He was always willing to do anything for her....** (emphasis added).

This excessive willingness to do anything to help his former wife clouded his judgment, and has now cost him his job at St. Luke's Hospital and his career, and left him with a criminal record.

**5. Dr. Puccio's Participation in the Voluntary Recovery Program ("VRP").**

Dr. Puccio has been participating in the VRP since October 2016. After his "willingness to do anything" to help his former wife caused him to lose his job and career, he became aware of the complexity of his own underlying psychological issues which contributed to this problem. In early July 2016, he began undergoing a voluntary forensic psychological evaluation by Frank D'Attilio Ph.D., a clinical and forensic psychologist who is a Diplomate in Clinical Psychology of the American Board of Professional Psychology. Dr. D'Attilio concluded that Dr. Puccio's conduct in improperly writing prescriptions for his former wife was directly related to a compulsive personality disorder. He recommended that Dr. Puccio voluntarily begin a counseling and treatment program with Thomas Vellela, ED.D, a psychologist who focuses on the evaluation, prevention, diagnosis, and treatment of mental, emotional and behavioral health issues. Dr. Puccio voluntarily commenced this therapeutic counseling and treatment with Dr. Vellela on August 4, 2016 (approximately two months before the criminal charges were filed against him).

Dr. Puccio initially contacted the Physician's Health Monitoring Program (PHMP) on September 23, 2016, to arrange to enroll in the VRP, and on October 5, 2016, he executed a "Participation Cooperation Form" for the VRP. On January 13, 2017, he signed a final Consent Agreement with the VRP, and his participation in the VRP was formally approved by the Board on February 8, 2017. He has been, and continues to be, in full compliance with the VRP's requirements. His case manager is Kevin Knipe (800-554-3428). Under the supervision of the VRP, Dr. Puccio has continued in treatment and counseling with Dr. Vellela, who has regularly reported to the VRP regarding Dr. Puccio's successful progress.

**6. Dr. Puccio's Recognition of His Obligations to the Public and to the Medical Community.**

Dr. Puccio's misconduct did not affect the quality of the medical care that he provided to his patients. As letters from his patients and colleagues which are attached as Attachment 2 demonstrate, they continue to hold him in high regard for his medical skill and compassion. However, as he became aware of his psychological issues that required treatment and counseling, he recognized that it was in the interest of the public and the medical community that he stop practicing medicine until he had dealt with these personal issues.

In July 2016, he made a formal decision to temporarily give up his medical career. He voluntarily contacted the Board to change his osteopathic medical license status from "active" to "inactive",

**MICHELMAN & BRICKER, P.C.**

**June 13, 2017**

**Page No. -5-**

---

and he ceased practicing medicine. (See his July 21, 2016 correspondence with the Board, attached as Attachment 3). He also voluntarily surrendered his DEA license to prescribe narcotics and other controlled substances. During the 10-month period from July 2016 through May 2017, he has worked as a car salesman, rather than as an orthopedic surgeon.

On May 22, 2017, Dr. Puccio contacted Mr. Knipe to determine what the PHMP's position was concerning whether and when he could return to practicing medicine. Mr. Knipe advised Dr. Puccio that, based upon his treatment progress, the PHMP was satisfied that he could begin to look for work as a physician again.

**7. Conclusion.**

For the foregoing reasons, Dr. Puccio respectfully requests that the Board include this letter and its attachments in the record, for consideration as part of its evaluation of whether or not the Board should accept the proposed consent agreement.<sup>3</sup> Dr. Puccio's treatment through the VRP program has addressed the issues which clouded his judgment and led to his conviction, and the VRP program has determined that he is fit to resume the practice of osteopathic medicine.

Yours truly,

DAVID F. MICHELMAN, ESQ.

---

<sup>3</sup> If for any reason, the Board initially determines that it lacks sufficient evidence to accept the Prosecutor's proposed consent agreement, Dr. Puccio also requests an opportunity to supplement the record with further factual and legal support.

Re: Steven T Puccio

To Whom It May Concern:

Please accept this character reference in support of Steven T Puccio, D.O.

I have known Steve for approximately 6 years both as a colleague and friend.

I know Steve to be a person of the highest character for truthfulness, decency, professionalism, dedicated, caring family man and physician.

In the time I have known him, he has always been a genuine good person. His passion for medicine, ethics, and care for patients is second to none. I have had the pleasure to work with him with many mutual patients.

I can be reached by telephone at 610-573-1154 if you wish to speak to me or if you need additional information.

Sincerely,

Johnny Chung, MD, FACS

RE: Steven T. Puccio, D.O.

To Whom It May Concern:

Please accept this character reference in support of Steven T. Puccio, D.O.

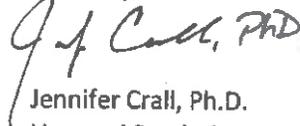

I have known Steven since June 2015, when I began working with his son and family by providing psychological counseling. Treatment focused on family stressors related to their relationship with Steven's ex-wife.

I know Steven to be a person of the highest character based on his dedication to providing the best possible care for his son. He drives over 40 minutes each direction to attend every scheduled counseling session. He has participated in counseling fully, with the willingness to implement and follow through with all recommendations.

In the time that I have known him, Steven prioritizes the needs of his family, consistently and without hesitation. He focuses on protecting his son from undue stress and turmoil. He works to create a home environment that provides nurturance and a consistent, positive structure for his son to thrive. Steven anticipates the needs of his son and responds accordingly. In my office, Steven demonstrates patience, appropriate boundary setting, and encouragement toward his son. These qualities contribute to a strong, loving relationship with him. His son, in turn, voices a strong admiration and respect for Steven.

I can be reached by telephone at 610-730-4755 if you wish to speak to me or if you need additional information.

Sincerely,

Jennifer Crall, Ph.D.  
Licensed Psychologist

Re: Steven T. Puccio, D.O.

To Whom It May Concern:

Please accept this character reference in support of Steven T. Puccio, D.O.

I have known Steve since July 1997 in both a professional and personal capacity. We trained together in spinal surgery in Boston from 1997 to 1998. We continued to be very close and practiced together in the Hudson Valley area of New York for approximately three to four years. He is the godfather to my son Ryan and trust him to the fullest to care for him should the need come.

We have continued to be friends to this day and I continue to rely on Steve, at times, to consult on patients that I may find to have unusual conditions and vs. versa. I find his insight into patients and treatments to be very well thought out and with authority due to his vast experience. I know Steve to be a person of the highest character for his truthfulness, decency and professionalism. I know him to be a very caring family man and an amazing dedicated father to his son, Aydan. I also know him to be dedicated to his patients and his work. I cannot count the times that I have called him, when most of us are at home eating, that he is caring for trauma patients or performing surgery.

I have personally witnessed his skill as a surgeon and his diagnostic acumen over the years. If myself or anyone in my family required orthopedic or spinal treatment, I would not hesitate to ask for his care. These same qualities that he provides to people with whom he has nothing more than a professional relationship with are also provided in his personal life. Over the years, he continued to provide support to his previous step-daughter and continues that relationship to this day.

I hope that this character reference gives some insight to the man that I call friend and my son calls Uncle Steve.

I can be reached by telephone at my office 860-361-6650 or on my cell 860-605-0258 anytime if you wish to speak to me or if you need additional information.

Sincerely,

Mitchell S. Garden, M.D.

To whom it may concern:

I've known Steve for over 10 years and have worked collaboratively with him caring for countless patients with traumatic injuries over that time. I've always known Steve to be a reliable, honest, and compassionate physician. Steve has even stepped outside of his typical job duties to help me implement process changes and clinical pathways that would ultimately improve the quality of care we provide for our patients.

In summary, Steve is an outstanding physician who cares deeply about his patients and his colleagues.

Respectfully,

Marc Portner, MD

To whom it May concern:

Please accept this character reference in support of Steven T. Puccio D.O.

I have known Steve since 1988 when we became friends in medical school and we have maintained a personal friendship since that time and furthermore we have been professional colleagues intermittently over the last 28 years. Steven and I were assigned to be internship partners our first year out of medical school, during this time we worked very closely together. Throughout the ensuing 25 years we have routinely discussed medical management of patients with complex medical and social issues. Steve has always represented that which is best in medicine. He is a dedicated physician who puts the needs of patients and their families ahead of the needs of himself. He is compassionate and caring for people from all walks of life and does not judge them based on their place in society. Steve is the type of physician that we rarely encounter in medicine today who is always available to his patients and provides the most up to date care that can be offered. He is the physician that other physicians send their family members to be cared for. Steve cares for my own sister who has chronic spinal issues. Steve was in my wedding because he has always been a true friend that has integrity, honesty and faith. When I discuss values with my children I use Steve as an example of what is good in a person.

Please feel free to contact me if there is any further information I can provide regarding this most outstanding physician.

Sincerely,

Charles W Raudat DO FACS

RE: Steven T. Puccio, D.O.

To whom it may concern:

I have volunteered to write a letter of reference for Dr. Steven T. Puccio. It is a pleasure to do so. I have known Dr. Puccio for almost 18 years, when we both joined practices in the Lehigh Valley at the same time. As I am a dedicated Neuroradiologist with strong background and continuing interest in trauma and spine imaging and research, over this time period I have worked closely with Dr. Puccio, at times on a daily basis, and am fully able to provide this letter of support.

Dr. Puccio is an excellent physician with an academic interest and friendly disposition. He demonstrates compassion and concern for his patients. He stays current on topics of importance in his field and in Medicine in general. He is clear and concise, and communicates well with those with whom he interacts.

In summary, I can recommend Dr. Puccio as an excellent physician and human being, without reservation, for any position that he should seek.

If I can be of further service, please do not hesitate to call my cell: 610-217-1150.

Sincerely,

Michael Rothman, MD

Stroudsburg, PA 18360

**RE: Steven T. Puccio, D.O.**

Dear Ms. Jackson:

I am dictating a reference letter in support of Steven T. Puccio, D.O.

I have known Dr. Puccio for 25 years if not longer years. We met in 1991 doing our rotating internship together at the Philadelphia College of Osteopathic Medicine associated with the osteopathic program in the Philadelphia area. From that time, we became friends. We actually developed a great relationship even though we were competing with each other for orthopedic surgical residency spots at that program, as well as other programs in the area. It just happened to be our fortune that we both did accomplish our goals and get in the orthopedic surgical residency program, and we both obtained that in the New York City area. We were residents together from 1992 to 1996 at Peninsula Hospital/Saint Vincent's/Saint Cabrini Hospital Health Systems for our orthopedic surgical residency program. We actually had to do general surgery for a year together, which is part of the program's prerequisite. After doing that for one year, then we did four years of general orthopedics together.

We became great friends and comrades. We shared many experiences together obviously in the training program, as well as socially. We actually lived together for several years, and then at the end of our program, we both decided to do spine fellowship training. He went to the Boston area in the New England Baptist program, and I went to the University of Colorado. Even during that time, we stayed in constant touch with each other sharing stories and experiences, as well as exchanging surgical cases to determine from each other what we would do and how we would handle those cases. Steve actually helped me move out to Colorado as I helped him move to Boston, and we maintained a great relationship and a friendship that would last forever.

Once finishing our fellowship program, we actually decided to take jobs together, and our first job we took ever out of our fellowship program was in the Bethlehem and Allentown area where he resides today. We went to Coordinated Health Systems where we were brought in to start a spine surgical program and attempted to the best we could for two years, and when it seemed that our ways of wanting to run that program and our development of the program did not match the ways and development of the owner of the group and system, we parted our ways. Steve went back up north in Boston to take on a

April 29, 2016

RE: Steven T. Puccio, D.O.

Page: 2

job, and I took a job in the Indianapolis area. Even during that time, we constantly kept in touch, shared each other experiences and shared cases with each other, and he has always been a confidant to me, not just for my personal life, but more importantly my professional life. Actually in my fellowship training program, we were a little bit weak and deficient in cervical spine than his program was, and thanks to Dr. Puccio that the two years I got to spend with him he mastered my skills and I tell everyone today that my cervical spine training obviously started with my fellowship program at University of Colorado, but it was really mastered and contoured into the cervical spine surgeon I am today because of Dr. Puccio, his skills and his teaching abilities and training abilities, which he has always been very good at and always willing to share with others.

It did not surprise me when Steve end up returning back to the Allentown and Bethlehem area when his job in Boston did not seem to materialize the way he wanted to. He always had wanted to be involved with academic medicine. In fact, what was interesting when we both resigned from Coordinated Health Systems before we took jobs and while we were searching for jobs. Steve and I actually were asked by Saint Luke's to be involved in their trauma program since they had a deficient amount of surgeons to help with it and until we found jobs. We did that for approximately six to eight months and enjoyed doing trauma for them as they were starting to develop a trauma program to where it is the trauma program as it has become today under the direction of Dr. Delong.

As far as what I know about this man's character professionally, there is no one I would ever have performed any surgery on myself or family, but Dr. Puccio. His hands are masterful, and he is always one step ahead of everyone in his thinking process and there is no one I ever respect more when it comes to having a very difficult case before I perform it or having complications after a case that I call first than Dr. Puccio. Through Dr. Puccio, I have met also other great relationships and friends, both in the industry of medicine and outside the industry of medicine. As a testament to his character and truthfulness, decency and professionalism, as well as socially and because he is so well liked, I have met wonderful people that I consider life long friends because of him that have adopted me as their friend and vice versa. There are many times where I have been with Steve both in medicine and outside medicine where he has shown me compassion and care for people. I have seen him help people out both financially, as well as emotionally in their times of need, and they were not even looking for that from him.

As far as anything else about his character, I can just tell you again that this man has become a brother to me. I would trust him with my life, and just an aside and as for fun, his driving skills are impeccable, and many times we tease him that he should have been just a driver for motorsports instead of taking a career in medicine.

Dr. Puccio is a very talented man. I have seen that even though he is talented that he has never become arrogant or presumptuous. He has never put himself above others. I have

April 29, 2016

RE: Steven T. Puccio, D.O.

Page: 3

known him for a long time so I know everything there is to know about him. I know when he makes mistakes. He is the first one to come to me and admit his mistakes even though he may be embarrassed. I know he is always sorry and wants to learn from that and become better, and he has always strived to do that. He has really impressed me when he had difficulties in his marriage and of course while trying to salvage the marriage and becoming a father. He had to take on several roles, and even though I stayed single during this process and there were times that I wanted him to go to a CME course or to play golf or spend time together, he constantly turned me down because his priorities had to be focused on his family and his son. These are qualities that obviously I have seen changed because in the beginning of the career of knowing him, we were single so we could work hard, but we could also play hard and do whatever we wanted to do. In the process of his maturity, becoming a man and then a husband and a father, he has shown me impeccable traits that I hope to emulate one day as I continue my maturation of life, and I look forward to having him next to me during the rest of my life to always give me advice and guidance when I need it.

In ending, I can speak nothing but of high respect and admiration for my friend. I do consider him not just my friend, which we discussed it before, we are family, and he has shown me that throughout my life. He has always been there for me with my good times to celebrate with me, pat me on the back and congratulate me, and the bad times. The great thing about him is he is the friend you want because in my bad times even when I was wrong as you would expect from a real friend he would tell me that I was wrong, but he would also let me know that he is by my side to support me through the process of when you make poor decisions and the consequences they bring. I can tell you that whatever decisions he has made good or bad they are always founded by sound thinking, and when ever he makes bad decisions like all of us, he always wants to recognize it and try to understand how he made that decision so he does not do it again. Again, these are great qualities that make him a great father, a great husband and a great leader in his community.

If you need to know anything else about Dr. Steve Puccio and wish to speak to me about it, feel free to contact me at any time. My cell phone number is (954) 774-1607. My office number is (954) 974-9101. I would be happy to spend time with you, and if you need me to be a character witness for him at any time, I would change my schedule immediately for him and come and represent him with you anywhere you would need me to do that.

Sincerely,

Steven J. Syabek, D.O.  
Board Certified Orthopedic Surgeon

# FLORIDA ORTHOPEDIC and spine center

RE: STEVEN T. PUCCIO, D.O.

To Whom It May Concern:

Please accept this character reference in support of Steven T. Puccio, D.O.

I have known Dr. Puccio for approximately 20 plus years both professionally and socially. I know him to be a person of the highest character for truthfulness, decency, and professionalism; he is a dedicated and caring family man. As a physician and surgeon, I do know no other like him beholden with the exceptional surgical skill, gifted hands, and the clinical intellect to match. He is truly a gifted surgeon.

Over the years I have known him, he has given me personal guidance and advice on many occasions. He is caring and always available to his friends and colleagues. I have worked with him side by side on many patients, and I have collaborated with him on many medical issues and projects. He has shown himself to be thoughtful and fair. He has dedicated himself in providing his own time teaching his fellow surgeons either directly or through our own professional academy.

On a personal level, I have followed his progression through the years. During that time, he has demonstrated to me a strong commitment to the field of orthopedic surgery and to his family, especially his son. With this, he has a strong base of ethics. I have found him to be thoughtful and dependable, which he manifests with diplomacy.

I can be reached by telephone at (954) 978-8842 if you wish to speak to me or if you need additional information.

Very truly yours,

Steven Silberfarb, D.O.  
Board Certified Orthopedic Surgeon

To Whom It May Concern:

Please accept this character reference in support of Steven T. Puccio, D.O.

-----  
I have known Steve Puccio for approximately 4 years as we have worked together.

I know him to be a caring family man whom is always attempting to spend as much time with his son as possible and a guy whom always does what he can to help people whether they be a high status physician or a blue collar guy for which Steve could never gain anything.

I can be reached by telephone at 215-378-4357 if you wish to speak to me or if you need additional information.

Sincerely,

Patrick Clancy

RE: Steven T. Puccio, D.O.

To Whom It May Concern:

Please accept this character reference in support of Steven T. Puccio, D.O.

I have known Steve for approximately 8 years as personal friends as well as working together in the operating room at St Luke's Hospital.

I know Steve to be a person of the highest character for truthfulness, decency, professionalism; dedicated, caring family man and physician. He has the full trust of his colleagues with which he works and patients whom he treats.

In the time I have known him he always puts others needs first often sacrificing of his own time and personal benefit. I have known him to be nothing short of a compassionate and selfless person who wants to help his friends and patients. In the years that I've known him, we have partnered to help deliver spinal cord stimulation therapy to over one hundred patients in that time helping to alleviate their chronic pain. These patients are some of the most challenging patients a spine surgeon will work with and for that reason many never get involved with them. Steve embraces them and works to help them not only surgically, which is the straight forward part, but also with support and compassion for the psychological challenges that come with these patients. He spends as much time as necessary during visits ensuring that these patients feel comfortable and cared for, and will see them back as often as necessary until this is the case. Of all the surgeons I have the privilege of working with Steve is by far the most compassionate and caring I know.

I can be reached by telephone at (570) 301-8477 if you wish to speak to me or if you need additional information.

Respectfully,

Jonathan Bilbow

RE: Steven T. Puccio, D.O.

To Whom It May Concern:

Please accept this character reference in support of Steven T. Puccio, D.O.

I have known Dr. Puccio for approximately 4 years as an orthopedic surgeon and as a leader in the orthopedic department at St. Luke's University Health Network. Dr. Puccio and I work closely together and interact with each other on a weekly basis. In the time I have known Dr. Puccio, I have seen how he treats his patients, co-workers, and myself with the upmost respect and care. He has always been extremely professional with everyone he interacts with while at work. He always has a positive attitude in every situation and looks for the good in others. From the 4 years I've known him, he truly cares about the well-being of others. I am a perfect example because in 2012, I was diagnosed with an illness and when Dr. Puccio found out about this, he was very supportive of me and always asked how I was doing. I hosted an event for the general population and he came to support me and for the cause. Another example that shows his caring and compassionate personality was when I went to pick up a medical supply for myself that insurance would not cover, as I went to pay for the item, the staff explained to me that Dr. Puccio had already purchased it for me. I immediately broke down in tears and knew I had a guardian angel watching over me. In conclusion, Dr. Puccio is a wonderful, caring, honest, and genuine physician. He has displayed these characteristics to me on multiple occasions.

I wanted to write this letter today because I know what a great person and physician Dr. Puccio is and always has been. I can be reached by telephone at 484-560-6774 if you wish to speak with me or if you need additional information.

Sincerely,

Luz Brandon

To Whom It May Concern:

Please accept this character reference in support of Dr. Steven T. Puccio.

I have known Steve since I began my career as a physician assistant in 2001. As one of my mentors, he taught me the technical aspects of being a medical provider in the specialty of orthopedics. Steve modeled everything from evaluation and diagnosis of patients in the office setting to improving skills in the operating room. He allowed me to flourish by offering encouragement and guidance tempered with patience. Working side by side with Steve for the last fifteen years, he always treated me with the utmost respect.

As a skilled spine surgeon, he always strived to make improvements, not for himself, but for the benefit of his patients. But what I observed most about Steve was the manner in which he interacted with his patients. Each patient received his undivided attention. He took as much time as was needed to thoroughly explain the diagnosis, course of treatment and answer any questions. He treated each patient as an individual person.

In 2006, I transitioned to the role of orthopedic sales representative. I continued to work with Steve on a weekly basis and observe his dedication to both his patients and colleagues. He treated the hospital staff with the utmost respect. He was passionate about his work and dedicated to teaching the residents. Last year, Steve was kind enough to go out of his way to care for my father -in -law, during a medical emergency. When I reached out to him for advice and help, he did not hesitate. His quick response/ treatment aided in minimizing my father-in-law's pain and expedited his recovery.

In summary, it is difficult to find the type of talent and dedication that Steve Puccio possesses. He brings to his field the skill, dedication and passion, which improve the quality of life for so many people. I look forward to working with Steve for many years to come.

If you need any additional information, please do not hesitate to contact me at 484-358-4217.

Sincerely,

David Kane  
Orthopedic Sales Associate  
John Hall and Associates

To Whom It May Concern,

Please accept this character reference in support of Steven T. Puccio, D.O.

I have known Steve for approximately four years as a personal friend and working together in the operating room and his offices at St. Luke's Hospital.

Steve is truly a one of a kind individual. As I have gotten to know him more and more each year; the more truly admirable character traits begin to shine through. The first character trait that best describes Dr. Puccio is his care of the well-being of others. As a physician, Steve truly cares about each of his patient's well-being. This includes their physical condition, as well as their comfort level in his office and his ability to listen and truly understand each of their personal needs. However, his care for others goes beyond his job as a healthcare professional into his personal life. I, along with countless others can always rely on Steve to be there to listen, or lend assistance when needed. He is a true humanitarian in his everyday life.

Steve is also an incredibly hard-working and dedicated individual. In getting to know Dr. Puccio in the operating room and in his practice, his endless desire to please others shines through. Many times, this means him sacrificing his personal and free time because he truly wants to. Dr. Puccio has also volunteered his time to assist local high school team's as their acting physician. It has truly been an joy to get to know Steve over these past four years and I look forward to continuing our friendship in the future.

I can be reached by telephone at (717) 682-5524, or by e-mail at [nate.mast6@gmail.com](mailto:nate.mast6@gmail.com) if you need any additional information, or if I can be of more assistance.

Respectfully,

RE: Steven T. Puccio, D.O.

To Whom It May Concern:

Please accept this character reference in support of Steven T. Puccio, D.O.

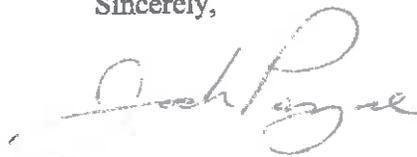

I have known Steven Puccio for approximately 12 years as both a business partner & friend.

I have known Steven in that time to be a person of the highest character for truthfulness, decency, professionalism and most importantly a loving family man to his son Aiden.

In the time I have known Steven he has made every effort to provide a stable home and lifestyle for his son Aiden. He has done so selflessly... and continues to do so despite these present circumstances. The only thing that truly matters to him is that Aiden grows up to be a well-rounded young man. Thusly we all know that this is no small task... as for the vast majority of Aiden's life Steven has had to do this as a single parent (without much support). I commend Steven's efforts in this capacity and know him to be a wonderful father.

I can be reached by telephone at (845)596-6056 if you wish to speak to me or if you need any additional information.

Sincerely,

A handwritten signature in cursive script that reads "Josh Payne". The signature is written in dark ink and is positioned below the word "Sincerely,".

Re: Steven T. Puccio, D.O.

To Whom It May Concern:

Please see below my character reference of Steve.

I have known Steve since the late 1990s. I originally met him in a work capacity, as I was trying to gain his business and have him as one of my customers. We became friends very quickly, as Steve is one of the nicest, most down to earth, caring, sincere, and generous individual I have ever met. It took me several years, and a few companies later, to gain his business. Although we were friends, Steve wouldn't switch his business over to me until I had products that he believed were of a superior quality to ensure his patients would receive the absolute best care that he could provide. Steve's case load with me increased over time, and I can honestly say that he is among the very best surgeons I have worked with during my almost two decades in the operating room. What makes him the best is not just his skill as a surgeon, but his complete dedication to serving his patients. He always puts them above all else.

Over the years, Steve has served as our doctor and treated every member of my immediate family. We have complete trust in him, both as a physician, and as a person of utmost integrity. I know that at any time, day or night, whether a weekday, weekend, or holiday, Steve is available if I, or anyone I know, should need his assistance. This behavior is by no means limited to my family. He is an unbelievably great father, both to his son, Aydan, and to his step-daughter, Katlyn. Steve has put any differences aside regarding his ex-wife, Rachel, and has continued to support her, both financially and emotionally, many years after he had any legal obligation to do so.

I hope, from this very brief letter, I have been able to convey my thoughts as to what makes Steve such an outstanding person. I am extremely lucky, and proud, to call him my friend. Please feel free to contact me at any time regarding Steve.

Sincerely,

Brad Baum

To: All Persons of Interest

I was very disappointed to discover that my Orthopedic Surgeon, Dr Steven T. Puccio would no longer be available to me at St Lukes.

I have known Dr. Puccio since 2002 as a surgical patient and recipient of numerous major surgeries (neck, shoulder, lower spine, and hip) performed by him. I recognize him as being a compassionate, enthusiastic, competent, and understanding professional. He is, and has always been dedicated one hundred percent to his practice of medicine and surgery. He has always expressed empathy when evaluating my numerous problems. He listens closely to my complaints. He never rushes me through and spends the time to explain the issue in a manner that I can understand. He gives me options for the available procedures and recommended treatment. These are the reasons that I have complete trust and respect in him and find him to be outstanding. He had even released his private telephone number to me so that I could contact him with any issues I may be having about my medical situation. How many patients can say that about their physician?

I find Dr. Steven Puccio to be a highly skilled professional. He has always demonstrated the highest character for truthfulness, dedication, and professionalism as an individual and a physician.

If you would like to contact me, I can be reached by telephone at 610-838-9127.

Sincerely,

RE: Steven T. Puccio, D.O.

To Whom It May Concern:

Please accept this letter as a character reference in support of Steven T. Puccio, D.O.

I have known Steve for approximately 12 years, in both a professional and personal manner. First, in the capacity as my physician and surgeon, and then, as time went on, a personal friend.

I know Steve to be a person of the highest character for truthfulness, professionalism, dedication, decency, caring family man and physician.

In the time I have known Steve; I have seen him interact with other members of his practice, patients and family members. Again, he has earned my respect many times over. Not only has Steve treated me on numerous occasions, he has treated members of my family, all in the utmost professional and respectful manner. In fact, knowing Dr. Puccio as well as I do, if I needed cardiac related surgery and Steve said he could perform the procedure, I would want him to do so. I have the highest respect for this man.

Please feel free to contact me if you would like to speak directly to me or if you would need any additional information.

Attorney Janet Jackson  
Jackson Law, LLC  
607 Monroe Street  
Stroudsburg, PA 18360

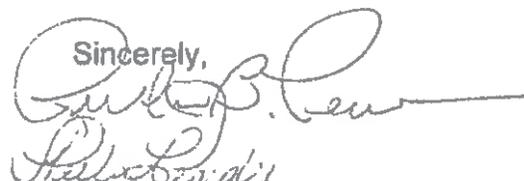

Re: Steven T. Puccio, D.O.

Dear Attorney Jackson,

It has been our privilege to have known Dr. Steven Puccio for over six years; as we are members together at Bethany Wesleyan Church, Cherryville. While considering Dr. Puccio as a close friend, he is also our orthopedic surgeon. In the six years we have known each other, Dr. Puccio has performed spinal fusion surgery, three orthoscopic knee surgeries and most recently bilateral knee replacement. While Rick was the beneficiary of Dr. Puccio's expert care, Dr. Puccio always made himself available to both Shelly and I with open communication regarding his condition and progress. As parents of five children, we would have no hesitation in entrusting their health to Dr. Puccio.

As a member of the Bethany Wesleyan Church Local Board of Administration; I, Richard, can attest to Dr. Puccio being held in high regard with the pastoral staff and church leadership. Dr. Puccio has treated many of our congregants and his reputation as a knowledgeable, honest and passionate physician speaks volumes about the true nature of his heart. Dr. Puccio has contributed generously to the church in so many ways.

If we can be of further assistance to you, please feel free to contact us at any time.

Sincerely,  
  
Richard & Shelly Pender

May 2, 2016

To Whom It May Concern:

Please accept this letter as a character reference in support of Dr. Steven Puccio.

I have known Dr. Puccio for approximately two years. I met him at a time when I was injured and experiencing serious back pain. I needed a physician I could rely on and trust, so I could overcome these issues. I did not want to miss work, take any more medications than needed, and also wanted to continue being active (e.g. running, working out, etc). Dr. Puccio made all that a reality. Following surgery, I returned to work after only a couple weeks and was also running and working out a short time later.

While dealing with my back injury and treatment I came to know Dr. Puccio. We have had many discussions; we've talked about our professions, families, and other things friends discuss (e.g. current events, sports, other friends). I firmly believe that he is a dedicated medical professional and devoted father and husband. He has always been an extremely honest, knowledgeable, trustworthy, and professional-as a doctor and friend to me. That is why I have nothing but support for him and would recommend him to anyone else that may be seeking a dedicated, knowledgeable, trustworthy doctor.

I can be reached at 484-619-0049 if you need any further information.

Sincerely,

A handwritten signature in black ink, appearing to read 'Daniel J. Reagan', with a horizontal line extending to the left.

To whom it concerns:

Please accept this character reference in support of Steven T. Puccio, D.O.

I have known Dr. Puccio for approximately 6 years as a friend, Church member, and my Doctor.

He is the only Doctor that I can truly say has helped me and my family members with our orthro. Problems.

Dr. Puccio is very professional he tells you exactly what to is involved with the procedure and how he will do it. He is also kind, dedicated, decent and friendly professional Doctor.

As long as I personally know him he has never told me anything wrong, never treated me wrong, or for that matter I never have seen him treat any one badly. I want to have him fix my trigger finger, but now I have to wait or find someone that I can trust like Dr. Puccio.

I can be reached by telephone at 610-349-7107 if you wish to speak to me or if you could us me in any way to help Dr. Puccio.

Thank you,

Barry J Weirback

RE: Steven T. Puccio, D.O.

To Whom It May Concern:

Please accept this character reference in support of Steven T. Puccio, D.O.

I have known Dr. Puccio for approximately 10 years as both a friend and a patient.

I know Dr. Puccio to be a person of the highest character for truthfulness, decency, professionalism; dedicated, caring family man and physician.

In the time I have known Dr. Steve, I have seen him as a very caring and compassionate person. His interaction with people on Sundays at church when they share their physical concerns is so very tender and caring. He always takes time to listen and do his best to assist them if possible. He's highly respected by many and people are so comfortable talking to him. As a person on the medical team during church services, he is very professional and so kind and compassionate to the individual having a medical issue.

Personally if Dr. Puccio had not intervened in my physical condition of my back, I do not believe I would be walking today. He has made himself available for questions or fears I may have had following surgery.

I have seen his involvement in his son's life through his volunteerism in the sports program at Bethany. Seeing his son snuggle up to him when sitting in service is priceless.

I can be reached by telephone at 484-241-5528 if you wish to speak to me or if you need additional information.

Sincerely,

Peggy Ziegenfuss

To: Steven Puccio &lt;stevenpuccio@gmail.com&gt;, Jackson Law &lt;jacksonlaw607@gmail.com&gt;

To Whom It May Concern:

Please accept this character reference in support of Steven T. Puccio, D.O.

I have known Steve Puccio for the past 6 years as a parishioner of Bethany Wesleyan Church and as a friend.

I have found Steve to be very approachable and very helpful in a number of different areas. I have observed him assisting children and adults in many different situations.

An elderly couple in our church celebrated their 61st wedding anniversary last year. The wife was experiencing more and more pain and after attending the church each week for many, many years, she got to the point she could no longer attend services with her husband due to the pain in her back. Dr. Puccio had her come to his office and go through some testing and he performed an operation on her and her husband told me that following the surgery she was not experiencing any more back pain.

Although a busy physician, Steve found time to volunteer on a regular basis on the church medical team for our weekend services. One Sunday morning when we had approximately 1000 in our church, a man fell over in our lobby. Dr. Puccio immediately attended him and spoke to his wife to further assess the situation. By the time the ambulance and EMTs arrived, Steve had assisted him and he was able to be safely transported to the hospital.

I have also been able to observe Steve interacting with his son, Aydan at various times. Whether he is cheering for him on the sidelines at the football field or when he brings his son to church, Steve takes parenting Aydan very seriously. I personally believe that Steve has played an extremely important role in the life of his son, who will soon be entering the teen years. The next few years will play a critical role in the life of his son.

If you have additional questions for me, I can be reach at the office at (610) 767-1239 or on my cell phone at (717) 989-8000.

*Peggy Ziegenfuss*  
Administrative Assistant  
Bethany Wesleyan Church

May 3, 2016

To Whom It May Concern:

One of the first impressions I had of Dr. Steve was that he is a concerned, dedicated man. He volunteers to help in many of the ministries at Bethany Wesleyan Church in Cherryville. It is inspiring to see a highly skilled physician involved in so many volunteer ministries such as setting up/tearing down for events, coaching flag football, and coaching Upward basketball for children. He is involved in teaching them the fundamental rules of the game and good sportsmanship conduct.

Dr. Steve also serves as a volunteer on the medical staff at the church. I am always amazed how he treats everybody with compassion and concern when they need medical attention during the worship service. Little did I know that I also would be a recipient of Dr. Steve's help when after years of chronic pain, I, too, passed out during the service. Dr. Steve sent me by ambulance to St. Luke's Hospital on Sunday and he operated on me by Tuesday. That surgery literally changed my life for the better.

I watched him as the medical attendant of the Northampton football game give comfort to the parents of a player that was injured in the game. I am always impressed at how this highly-skilled physician treats everyone with respect, courtesy and compassion. His entire life is devoted to helping people whether it is volunteering in the church, in the community or providing service in his craft.

I am aware of the accusation that led to the termination of Dr. Steve at St. Luke's. This is a time when the law and the human element must be considered. Dr. Steve's termination has affected hundreds of lives, his patients, past, present and future, his fellow workers, friends, church members, family and most of all his precious 10 year-old son, Aydan, who idolizes his father. Aydan has, in his short life, seen his parents go through a divorce and his mother incarcerated multiple times. Now Aydan has a solid family with Steve's new wife, Caitlin, who loves and adores him. This has changed Aydan's life for the better.

Any further legal action against Steven T. Puccio, D.O., who is extremely remorseful, would be a travesty of justice and will only serve to bring more damage and harm to all concerned, especially his 10 year-old son.

Sincerely,

Ken Everett, Business Administrator  
Bethany Wesleyan Church

To Whom It May Concern:

May 3, 2016

Please accept this character reference in support of Steven T. Puccio, D.O.

I have known Steve Puccio for 12 years as a friend and as a parishioner of Bethany Wesleyan Church.

It has been my opportunity to be with Steve in social settings, church settings and I have visited him at his office.

Steve has stood out to me as a person that has made himself available for volunteer service at the church. He has served on the medical volunteer team for various large scale events as well as weekend services. We have approximately 900 attendees each weekend. There have been numerous times that Steve has assisted by assessing situations and by being a calming presence in various emergencies. One particular weekend he assisted an elderly parishioner whose family thought she had the flu. He assessed her situation and it became clear to him that she was suffering from a much greater issue and he recommended she go to the hospital for testing. It was discovered that she had an obstruction which required surgery. That day the helpful operation was performed and she recovered nicely.

One of our parishioners fell about 14 feet while trimming a tree and badly broke both hands and both wrists and sustained other injuries. Steve was able to do strategic surgery to put him back together. I was with this parishioner recently and asked him how he was doing. He showed me his range of motion, grip and I watched him help with all sorts of tasks we were doing that day.

The Business Administrator at my office had been suffering a lot from various issues in his lower back and hip. He was in pain daily and it was quite obvious. He went to see Steve and a plan of action was agreed upon. Steve performed a very helpful surgery for the BA. That surgery was quite beneficial as it relieved the majority of his discomfort. He returned to work and is now functioning in normal ways.

My Office Manager experienced excruciating discomfort in her back while pulling weeds and the pain would not go away. When Steve heard about this he adjusted his Sunday schedule and asked if she would meet at the hospital for x-rays. They saw that she had multiple fractures in the vertebrae in her back. The fractures were due to a condition the OM did not know she had. That Sunday Steve repaired the injured vertebrae and the OM was able to return to work and is doing well without pain.

I was having issues with my hip and went to see Steve. He performed a series of tests and deduced that my discomfort was due to one leg being slightly shorter than the other. No surgery needed. He scheduled me with a podiatrist and I am better off because of it.

The community where Steve serves as a physician is a better place because Steve is in practice there.

Many of my friends and acquaintances have met with him for health situations and have been greatly helped by him. I sincerely hope that Steve can remain a physician who is available to help hurting people. This is what he is gifted to do.

Steve's son, Aydan, is full of energy and quite sharp. I have watched Steve spend time at the football field watching and cheering on his son. I have seen them spend time interacting at family gatherings. Steve takes his son to church and has sought to provide a solid educational experience for him. I believe it is Steve's desire to serve as a positive influence on Aydan both now and in the days ahead.

I can be reached by phone at 610-360-0749 if you wish to speak to me or if you need additional information.

Sincerely,

Kevin Fetterhoff

To: stevenpuccio@gmail.com, jacksonlaw607@gmail.com

To Whom It May Concern;

Please accept this character reference in support of Steven T. Puccio. D.O.

I have known Dr. Puccio for about 12 years as one of his pastors. I know him to be a man with a huge heart for people who are hurting physically, mentally, emotionally, and medically. He is a sensitive and caring father to his son. He listens carefully and acts decisively with a God-given instinct that moves patients toward healing. His name has become a household name in our large congregation for those needing surgery. As well as his own practice he also has given many hours to our church by being on call when he is on site. Once again, his presence has calmed and directed many medical emergencies at our church.

His value to the medical community and to those of us who know him is beyond estimating. He is obviously on the cutting edge of his profession, and it deeply concerns me that in any way his profession would be in jeopardy. He is needed as a father, as a surgeon, and as a friend to his church family. I believe he is worth all efforts that can be made to bring about full restoration of his medical career and his personal life.

I can be reached at 610.442.5587 if you desire additional information.

Sincerely yours,

Rev. Scott L. Weldon  
Staff Pastor  
Bethany Wesleyan Church  
Cherryville, PA

RE: Steven T. Puccio, D.O.

To Whom It May Concern:

Please accept this character reference in support of Steven T. Puccio, D.O.

I have known Steve for approximately 10 years as his pastor and counselor as well as friend and surgeon for my wife Nancy.

I know Steve to be a person of the highest character for caring about his family, decency, professionalism; dedication, and showing compassion to his patients.

In the time I have known him, he has struggled to protect his son from his former wife, who has managed through her addiction to abandon her son time and time again. He has struggled for many years to help her get the help she needs in order to be a decent mother, even at great personal risk and expense. He has negotiated difficult relationships with her family as well.

Steve has performed two critical surgeries on my wife Nancy, both back and neck fusion. She has been able to go from living on narcotics to being pain free through his giftedness and expertise.

I can be reached by telephone at 610-703-5090 if you wish to speak to me or if you need additional information.

Sincerely,

A handwritten signature in black ink, appearing to read "Rev. Rod M. Zottarelli". The signature is fluid and cursive, with a horizontal line extending from the end.

RE: Steven T. Puccio, D.O.

To Whom It May Concern:

Please accept this character reference in support of Steven T. Puccio, D.O.

I have known Dr. Steven Puccio for approximately 12 years as a part of my family. Steven became a part of my family through the marriage to my cousin, Rachel Puccio.

I have always known Steven to be a generous, kind, hardworking and loyal family man.

Even through the hardships of the divorce, Steven always went out of his way to include his son, Aydan, in our family and Steven continues to be a loved member of our family. He has endlessly gone out of his way to help our family in any way possible. If he was not able to help, he would find someone who could. We will always be thankful for his generous heart.

Steven's generosity goes far beyond our family. I have always known Steven to help anyone in need. Steven volunteers his Sundays to help anyone in medical need at his church and is loved and appreciated by many for his care.

As a father, Steven has always put Aydan's well-being first and foremost. He has gone above and beyond to give Aydan a normal life through the hard situations he has had to go through in his life. Steven has done an amazing job raising a wonderful, loving, well-rounded boy despite the difficulties life has handed him.

It is from my personal experience that Steven is a man of good character and integrity. He has always been a loyal, trustworthy, hardworking, dedicated family man and I am proud to have him as my family.

I can be reached by telephone at 484-358-6996 if you wish to speak to me or need additional information.

Sincerely,

Brittany J Dieter

RE: Steven T. Puccio, D.O.

To Whom It May Concern:

Please accept this character reference in support of Steven T. Puccio, D.O.

I have known Steven for approximately 12 years. Steven came into our family when he married my cousin, Rachel Puccio.

Over the past 12 years, I have gotten to know Steven on a more personal level. Steven has shown to be a trustworthy, dedicated family man, a good provider and a man of his word, to name a few. Steven has been a blessing to our family as a whole and I am personally thankful for him.

Steven has shown to be a man of good character. Over the years I have developed a solid friendship with Steven. I have been able to go to him with the struggles of everyday life and know that I can trust him. Steven has been there for me when I needed someone to talk to. He has earned my trust and shown how to be a friend. I have trusted him in watching my children. My son has had sleepovers at his residence and loved staying there with him and his family he has now.

Just as he cares for my family, he cares even more for his own. Steven is dedicated to his wife Caitlyn and his son Aydan. Steven has been a true role model for his son when his biological mother was not always around. Steven has shown an overabundant love for Aydan and has always been there for him even though his work schedule is hectic. I have learned from Steven that no matter how important work and life is, your family is a priority.

In all, it is from my personal experience that Steven is a man of good character and integrity. He has been there for his family through it all and continues to show these traits in tough times. Steven will always be a part of my family. I know Steven will always be there for me and my family whenever I need him. I am blessed to call him a friend, but I am more blessed to call him family.

I can be reached by telephone at 610-217-4551 if you wish to speak to me or if you need additional information.

Sincerely,

Justin M. Heisler

RE: Steven T. Puccio, D.O.

To Whom It May Concern :

Please accept this character reference in support of Steven T. Puccio, D.O.

I have known "Steve" or "Dr. Puccio for approximately 44 years and 10 months as I am his brother, David Puccio.

I know my brother to be a person of great character in high regards to being truthful, decency, being proud of his professionalism as a physician and his love for his family.

As being Steve's younger brother I believe i know him the best, he has guided me through life making me a better person. I just know my brother would never do anything intentional to hurt anyone especially with these false allegations put against him by his ex wife. I know she got involved with the wrong people and got hooked on prescription drugs on her own not by my brother. I even asked for him to write me a prescription and he said no, so I know she had my brother right where she wanted him and she threatened him with his job if he stopped writing her prescriptions. It's not my brother's fault, any person in this situation would have done the same thing.

My brother has worked hard his entire life to become what he is today, a successful Doctor with a wonderful loving family. I just want it to stay that way because he deserves it.

I can be reached by telephone at 856-870-3606 if you wish to speak to me if you need additional information.

Sincerely,

David Puccio

To whom it may concern:

Please accept this character reference in support of Steven T. Puccio, D.O.

We have known Steven all of his life. As a child he was caring and compassionate. From family, friends, neighbors, animals, he is always willing to help any way possible. This is what Steven is all about! He always gives 100% to whomever or whatever needs his help. I have seen him spend hours figuring out a compatible solution to a problem with a patient. Steven P loves his work. He is a son who makes us proud! We can be reached by telephone at (843-215-6949) if you need additional information, or if you wish to speak with us.

Respectfully, David T., & Nancy J.

Puccio

To Whom It May Concern:

Please accept this character reference in support of Steven T. Puccio, D.O.

I have known Steve for approximately fifteen years as not only a friend but also as a stepfather for four years.

I know Steve to be a person of the highest character for truthfulness, decency, professionalism; dedicated, caring, family man and physician.

In the time I have known him I have learned that he not only is a man of great character, but a loving, thoughtful and wonderful person and father. I was four years old when I first met Steve and was seven when he married my mom. Even before they were married, Steve would spend time with me and take me to do fun things such as buying me Hilary Duff concert tickets and sitting through the three hour concerts that I am sure did not entertain him much, all because he loved me. When him and my mom got married we moved to New York away from my father. Steve quickly became a real father figure to me. We would have family game nights, he would take me trick or treating and he taught me how to ride a bike. Not only did he provide for our family, he paid for me to go to private school for several years, which I greatly appreciate. He also took my mother and I on vacations to see his parents in South Carolina and once to the Bahamas. A few years passed and my mother and Steve told me the great news that I was getting a younger brother, Aydan. Steve was not only a wonderful father to me, but also to Aydan. He was so excited when Aydan was born and I believe anyone could see that. In 2007 we moved back to Pennsylvania when he got a job at St. Luke's Hospital. Steve has always been very close with my mother's parents as have all of us. The entire family loved Steve very much and considered him a part of the family. Steve and my mother were divorced in 2008, and shortly after, my mother's drug addiction began. During the next few years Steve helped her tremendously, even though they were divorced. He paid for her methadone, bought her a house, bought her a car, paid her bills. We all wanted her to get better, especially Steve. He paid over one hundred thousand dollars in treatment for her. He flew her to Florida to a rehab amongst paying for others locally. He was always willing to do anything for her, Aydan, and I.

On top of all of the help he has provided for my mother, he has also helped me in many ways. The years that he was my stepfather he taught me so much, and even though they divorced I have always considered him to be like a father to me. I have maintained a relationship with him and Aydan throughout the years and always will. Steve, his wife Caitlyn, and Aydan asked me to go to Florida with them January of 2015, which I very excitedly accepted the invitation. This was one of the best vacations I have been on and am very thankful to have gotten to do that. A few months later, Steve and Caitlyn asked if I would like to go to the Dominican Republic for their wedding, but unfortunately I was unable to do so due to schoolwork. I still talk to Steve very frequently and go out for meals with him. I hope what can be gathered from all of this information is that Steve is a thoughtful, and generous person who goes above and beyond for the people he loves.

I can be reached by telephone at 484-767-4922 if you wish to speak to me or if you need additional information

Sincerely,

Katlyn Smith

## Taylor, Carol

---

**From:** Taylor, Carol  
**Sent:** Friday, April 17, 2020 5:35 PM  
**To:** Allen Grossman  
**Subject:** RE: April 15, 2020 Deficiency Notice for Application of Steven T. Puccio, D.O. (File No. 16930)

**Follow Up Flag:** Follow up  
**Flag Status:** Completed

Thank you for your response.

Please note staff are in receipt of multiple emails regarding Dr. Puccio.

The emails have been placed in a folder specific to Dr. Puccio, to ensure that all processors are aware of the various submissions

Allow me to address your concerns:

1. Upon being asked to have a letter submitted from St. Luke's University Hospital addressing the action against his staff privileges disclosed by Dr. Puccio in his application, Dr. Puccio contacted St. Luke's and requested that a letter be provided to the Florida Board of Osteopathic Medicine. The response he received from the hospital is provided below. We promptly notified you of the hospital's requirement and asked that you contact the hospital with such a request. We have repeated the request multiple times. The deficiency notice indicates that you will not do so. Dr. Puccio is making another request of the hospital, but if you will not make the request, there may simply be nothing Dr. Puccio can do about fulfilling your request for a letter from the hospital. In addition, you have indicated that Dr. Puccio needs to provide an explanation of the incident. Dr. Puccio has already submitted his written statement regarding the termination of his privileges by St. Luke's. It was resubmitted to you in an e-mail dated April 2, 2020 that was sent to you at 12:39 pm on that date. The reason for the action was that his employer, St. Luke's Physician Practice Group, was advised of the criminal investigation against him and terminated his employment. His privileges at St. Luke's University Hospital were coterminous with his employment by the group and were terminated when his employment was terminated. **The deficiency letter does not indicate that the board would not request a letter from St. Luke's Hospital. As long as the letter of explanation from the school remains deficient it will appear in status letters. I have personally emailed the hospital and requested a letter of explanation. I have received a response that the request was forwarded to their Central Verifications Office.**

**Dr. Puccio included a self-explanation on his application. This part of the deficiency language will be removed.**

2. As indicated on the AOA Profile already received by your office, Dr. Puccio's Internship program closed on July 1, 1996. AOA has provided verification of Dr. Puccio's successful completion of the AOA Internship year. AOA has advised Dr. Puccio that there is no entity or person able to provide additional verification of Dr. Puccio's completion of the Internship year and that AOA verification is usually accepted by state boards in such situations.

**If a program has closed, we ask for a statement to that effect from the applicant, noting he/she is unable to obtain a post-graduate training evaluation.**

**Dr. Puccio indicated he was using FCVS. We will check the FCVS for additional information.**

3. Dr. Puccio answered "yes" to the application question asking if he had ever surrendered a DEA registration. He did so, as he explained in his written statement, because he wanted to be completely truthful in answering the application questions. Dr. Puccio was never asked or forced to surrender his DEA registration as a part of any DEA investigation. However, Dr. Puccio, as he explained in his written statement regarding this answer in the application, that he had previously voluntarily surrendered a DEA registration. He did not state or intend to

indicate that action was taken against his registration by the DEA. The question does not ask that. The question on the application simply asks if a DEA registration has ever been denied or surrendered. Dr. Puccio's written explanation of this is included in the previously provided written statement referenced above and provided to you once again with the e-mail dated April 2, 2020.

**We are in receipt of Dr. Puccio's self-explanation regarding the DEA registration.**

4. Dr. Puccio submitted licensure requests to Kansas, Massachusetts, Pennsylvania and New York on April 2, 2020. These verifications should have been received already or received soon.

**We will check to see if any have been received.**

5. Dr. Puccio's fingerprints were also submitted on April 2, 2020 and if not yet completed, should be received shortly.

**Background screenings are processed in the Background Screening Unit, once cleared it is forwarded to the board office. At this time, we have not received clearance. We will monitor.**

As I explained, we have implemented a new mail process for use during this pandemic. If we ask for something you believe has been provided and has had at least seven days to be processed, please let me know. Mail is processed by more than one processor so it would be best if you send emails to [MQA.Osteopath@flhealth.gov](mailto:MQA.Osteopath@flhealth.gov) for updates. This will ensure the correct person receives the emails. Copy me and I can monitor.

I am looking at the application and there are several affirmative responses. Most yes responses require additional supporting documentation as indicated on the application. While it is our desire to expedite processing of applications, we must ensure the applicant meets the requirements for licensure. A file is not considered complete until all required supporting documentation is received. I am including the supporting documentation requirements for questions for which Dr. Puccio provided a yes response on his application. Please ensure all required supporting documentation is received. If you have already provided please let me know so that I can attempt to locate. If you have requested, we will keep watch for their receipt.

#### **Required to support yes response to health history**

Explain in full on a separate sheet of paper. Your statement must include, but is not limited to: The Date(s), Location(s), Specific circumstances, Practitioners Treatment Involved. If you have been under treatment for emotional/mental illness, chemical dependency, etc., you must request that each practitioner, hospital, and program involved in your treatment submit a full, detailed report of such to the Board office, to include: Treatment Received Medications Dates of Treatment If applicable, all DSM III R/DSM IV/DSM IV-TR Axis I and II diagnosis(es) code(s), Admission Discharge

#### **Required to support yes response to criminal history**

Submit the arrest and court records along with a disposition of the case to the Board.

Dr. Puccio provided the offense, date of offense and state of jurisdiction on application, but where he was to include a statement there are a bunch of letters.

We have received a copy of the court docket from the LeHigh County regarding this action; however, there are no arrest records, court records or disposition documents included.

#### **Required to support yes response to board action**

Final Orders, Settlement Agreements, Satisfaction of Requirements, etc.

I hope this has been helpful. I am here to serve, please let me know if there is something more I can do. Thank you for your patience and understanding.

Sincerely,

*Carol Taylor*

**Subject:** April 15, 2020 Deficiency Notice for Application of Steven T. Puccio, D.O. (File No. 16930)

We have received the e-mail providing an updated deficiency list for the subject application. These responses are provided to each of the listed deficiencies:

1. Upon being asked to have a letter submitted from St. Luke's University Hospital addressing the action against his staff privileges disclosed by Dr. Puccio in his application, Dr. Puccio contacted St. Luke's and requested that a letter be provided to the Florida Board of Osteopathic Medicine. The response he received from the hospital is provided below. We promptly notified you of the hospital's requirement and asked that you contact the hospital with such a request. We have repeated the request multiple times. The deficiency notice indicates that you will not do so. Dr. Puccio is making another request of the hospital, but if you will not make the request, there may simply be nothing Dr. Puccio can do about fulfilling your request for a letter from the hospital. In addition, you have indicated that Dr. Puccio needs to provide an explanation of the incident. Dr. Puccio has already submitted his written statement regarding the termination of his privileges by St. Luke's. It was resubmitted to you in an e-mail dated April 2, 2020 that was sent to you at 12:39 pm on that date. The reason for the action was that his employer, St. Luke's Physician Practice Group, was advised of the criminal investigation against him and terminated his employment. His privileges at St. Luke's University Hospital were coterminous with his employment by the group and were terminated when his employment was terminated.
2. As indicated on the AOA Profile already received by your office, Dr. Puccio's Internship program closed on July 1, 1996. AOA has provided verification of Dr. Puccio's successful completion of the AOA Internship year. AOA has advised Dr. Puccio that there is no entity or person able to provide additional verification of Dr. Puccio's completion of the Internship year and that AOA verification is usually accepted by state boards in such situations.
3. Dr. Puccio answered "yes" to the application question asking if he had ever surrendered a DEA registration. He did so, as he explained in his written statement, because he wanted to be completely truthful in answering the application questions. Dr. Puccio was never asked or forced to surrender his DEA registration as a part of any DEA investigation. However, Dr. Puccio, as he explained in his written statement regarding this answer in the application, that he had previously voluntarily surrendered a DEA registration. He did not state or intend to indicate that action was taken against his registration by the DEA. The question does not ask that. The question on the application simply asks if a DEA registration has ever been denied or surrendered. Dr. Puccio's written explanation of this is included in the previously provided written statement referenced above and provided to you once again with the e-mail dated April 2, 2020.

4. Dr. Puccio submitted licensure requests to Kansas, Massachusetts, Pennsylvania and New York on April 2, 2020. These verifications should have been received already or received soon.
5. Dr. Puccio's fingerprints were also submitted on April 2, 2020 and if not yet completed, should be received shortly.

\*\* A "yes" in this column indicates that the state board has, at some time, reported final disciplinary actions taken to the AOA. Since this information is historical and never removed from the AOA physician record, the Report user should contact the state board directly for current detailed information.

**Osteopathic Specialty Board Certification(s):**

(Certification by one or more of the 18 AOA certifying boards as reported by the Bureau of Osteopathic Specialists.)  
Physicians holding time-limited board certification (those certifications with expiration dates) are required to participate in Osteopathic Continuous Certification (OCC) in order to maintain their AOA board certification. Physicians holding non-time-limited board certification (no expiration date) may voluntarily participate in OCC, but participation in OCC does not change their non-time-limited certification status. Please note that diplomate files will be closely monitored for compliance with OCC, and your organization will be automatically notified of any change of status. For more information on OCC, visit [www.osteopathic.org](http://www.osteopathic.org)

**American Osteopathic Board of:**

**Federal Drug Enforcement Administration:**

None Reported  
**Please note:** Many states require their own controlled substance registration/license. Please check with your state licensing authority as the AOA does not maintain this information.

**Former Name(s):**

**Please Note:**

The content of this Official Physician Profile Report is intended to assist in the complete credentialing process by providing primary source verified information on physicians. Appropriate use of this instrument in combination with your organizations documented credentialing policies and procedures meets the primary source requirements of the Healthcare Facilities Accreditation Program (HFAP/AAHHS); the Accreditation Association for Ambulatory Health Care, Inc. (AAAHC); The Joint Commission; URAC; DNV GL; and the National Association of Insurance Commissioners (NAIC). The National Committee for Quality Assurance (NCQA) recognizes the information included in this Report as meeting its requirement for primary source verification of predoctoral education, postdoctoral education and specialty board certification.

If you find any discrepancies, please mark them on a copy of this report and email to the AOIA [credentials@AOAprofiles.org](mailto:credentials@AOAprofiles.org). Thank you.

Carol Taylor  
Program Operations Administrator  
Florida Department of Health  
Board of Osteopathic Medicine  
P.O. Box 6330  
Tallahassee, FL 32314-6330

**RE: Steven T. Puccio, D.O.**

Dear Ms. Taylor:

Dr. Steven T. Puccio served as an active staff member of the Medical Staff of St. Luke's University Health Network ("Network") between the dates set forth below:

|               |                       |
|---------------|-----------------------|
| Campus        | Allentown – Bethlehem |
| Staff Status: | Resigned              |
| Appointed:    | 07/13/2001            |
| To:           | 04/21/2016            |

On April 21, 2016, Dr. Puccio's employment was terminated by St. Luke's Physician Group, Inc. (SLPG). His medical staff privileges at St. Luke's University Hospital (SLUH) were coterminous with his employment with SLPG and thus terminated the same day.

We trust the above information is fully responsive to your limited request for information. To be clear, we inquired of the Florida Board of Osteopathic Medicine ("Florida Board") whether it also wanted Dr. Puccio's employment history to explain why his employment ended, culminating in the automatic termination of privileges. You indicated on behalf of the Florida Board that it was only necessary for SLUH to confirm why his staff privileges ended. Should the Florida Board elect to broaden its request and request additional information, including why Dr. Puccio's employment ended, we will supply same upon receipt of any such written request.

Sincerely,

Maria Bassert, RHIT  
Network Director  
Central Verification Office  
St. Luke's University Health Network

My Health. My Hospital. <sup>SM</sup>

pages have been removed.**

SOME OR ALL PAGES IN THIS DOCUMENT ARE PATIENT RECORDS  
AND/OR DOCUMENTS THAT IDENTIFY THE PATIENT BY NAME AND ARE  
EXEMPT FROM PUBLIC RECORDS LAWS.

456.057 - Ownership and control of patient records; report or copies of records to be  
furnished.—

10)(a)All patient records obtained by the department and any other documents  
maintained by the department which identify the patient by name are confidential and exempt  
from s. 119.07(1) and shall be used solely for the purpose of the department and the appropriate  
regulatory board in its investigation, prosecution, and appeal of disciplinary proceedings. The  
records shall not be available to the public as part of the record of investigation for and  
prosecution in disciplinary proceedings made available to the public by the department or the  
appropriate board.

Health and Human Services

MONICA BHAREL, MD, MPH  
Commissioner  
Department of Public Health

To Whom It May Concern:

This certifies that Steven T Puccio, D.O., a 1991 graduate of Philadelphia College of Osteopathic Medicine, has been duly registered by this board as provided by the laws of the Commonwealth.

Certificate Number 150888 was issued to Dr. Puccio on 06/18/1997. The license status is: Lapsed. The lapsed date is 9/24/2006.

Listed below is certain complaint and disciplinary information on this physician. Please note that the Board can neither confirm nor deny the existence of open complaints.

### Closed Complaint Information

Our files contain 0 closed complaint(s) on this physician.

### Final Board Disciplinary Action

Our files contain 0 disciplinary action(s) taken against this physician by the Board.

This information is derived from Board files from January 1, 1987 to the present. It does not include all the information contained in a license application.

As a service to the public and to designated agencies, the Massachusetts Board of Registration in Medicine offers an online profile of all physicians with full licenses who are licensed in the Commonwealth. This profile is updated daily and may include public information that is not otherwise contained in this certification letter. You may access this information at the Board's website:

[www.mass.gov/massmedboard](http://www.mass.gov/massmedboard)

Finally, the Board tallies closed complaints separately from disciplinary actions. If the same underlying incident gives rise to both a complaint and a disciplinary action, the Board counts this as two separate actions. In the same way, multiple disciplinary actions are tallied separately, even if they arise from a single set of circumstances.

**File Number: 16930**

Dear Dr. Puccio:

Your application for Osteopathic Physician license has been processed. Your application is incomplete for the following reason(s):

Your National Practitioner Data Bank (NPDB) report has not been received. You will need to request a self-query from the NPDB by visiting <https://www.npdb.hrsa.gov/ext/selfquery/SQHome.jsp> or contact the NPDB at (800) 767-6732. You will need to submit your self-query to the Board office. The NPDB will not submit this document on your behalf.

You indicated on your application that you have had action taken against you by a hospital or other health care facility regarding staff privileges. Request that the facility submit a letter of explanation regarding each incident and any action taken. You will also need to submit a letter of explanation regarding each incident and any actions taken against you.

Your Postgraduate Training Evaluation Form has not been received. Your program director will need to submit a complete Postgraduate Training Evaluation Form. A copy of the Postgraduate Training Evaluation Form can be found on our website at: <http://floridasosteopathicmedicine.gov/resources>.

You indicated that action has been taken against you by the Drug Enforcement Administration (DEA). Submit all documentation pertaining to the action, as well as your personal statement regarding the incident(s) and action taken.

NBOME exam results for the required COMLEX/COMVEX exam sections have not been received. COMLEX Level 1 and 2 are required, as well as one of the following: COMLEX Level 3 or the COMVEX. Other examinations (USMLE, FLEX) are not accepted.

Your scores must be requested directly from the National Board of Osteopathic Medical Examiners. Information about score requests can be found at [www.nbome.org](http://www.nbome.org). The NBOME can be reached by phone at 866.479.6828 or by email at [ClientServices@nbome.org](mailto:ClientServices@nbome.org) if you require assistance with requesting your scores.

Your American Osteopathic Association (AOA) profile has not been received. Your profile may be sent by visiting <http://www.aoprofiles.org>, or by contacting the AOA directly at (800) 621-1773.

We have not received an official transcript from your School of Osteopathic Medicine. You will need to request that your transcript be sent from your school directly to the Board office; we cannot accept

---

**Florida Department of Health**

Division of Medical Quality Assurance • Bureau of HCPR  
4052 Bald Cypress Way, Bin C06 • Tallahassee, FL 32399-3256  
PHONE: (850) 245-4161 • FAX : (850)

transcripts submitted by applicants. An official transcript must include your dates of enrollment and graduation and list the degree conferred.

Your Federation of State Medical Boards (FSMB) Physician Profile has not been received. Your Profile may be sent by visiting: <http://www.fsmb.org/PDC>.

We have not received official license verification for all licenses listed on your application. License verification must include the date of issuance, date of expiration, method by which you applied for licensure, and any documentation for all disciplinary action taken against the license. Request license verification from the following states: New York, Massachusetts, Kansas and Pennsylvania

We have not received your Livescan results. If you have already had your electronic fingerprinting completed, please allow 24-72 hours for receipt of your results. You can find more information on this process, including how to find a provider in your area and your ORI number, by visiting the Background Screening Website at <http://www.flhealthsource.gov/background-screening/>. Should your Criminal Background Check disclose an arrest record(s), you will need to provide documentation related to each criminal event revealed in your background, if you have not already done so. You can find a detailed description of documents that will be required by visiting the FAQs on the Background Screening Website (Click on 'General FAQs'). Note: Criminal History will be reviewed by the Background Screening Unit, not the Board Office. Please email all criminal history documents to [mqa.backgroundscreen@flhealth.gov](mailto:mqa.backgroundscreen@flhealth.gov). Any original certified documents must be mailed to the following address: Attn: Background Screening Unit Florida Department of Health 4052 Bald Cypress Way, Bin BSU-01 Tallahassee, FL, 32399

You will need to complete your application by submitting what is requested above. Please include your **file number** when submitting additional documentation or correspondence to us.

We may request information, explanation, or documentation based on a review of the documentation you submit. You will receive additional correspondence if anything further is required.

You may follow the progress of your application online at <http://flhealthsource.gov/mqa-services>. Your application will expire one year after submission if all required documentation for licensure has not been received, per 456.013(1)(a), Florida Statutes.

Contact the Board office by email at [mqa.osteopath@flhealth.gov](mailto:mqa.osteopath@flhealth.gov) with additional questions or concerns.

Sincerely,

A handwritten signature in black ink that reads "Jacqueline Clahar-Anderson". The signature is written in a cursive, flowing style.

File #16930

Dear Mr. Grossman:

This letter concerns Dr. Steven Puccio's application/evaluation of credentials received by the Florida Board of Osteopathic Medicine. Upon completion of the initial review of your application/credentials it has been determined your documents must be presented to the Board of Osteopathic Medicine for review and consideration at the next board meeting. You are required to attend the meeting.

Your client's file is being reviewed because he/she answered yes to the license discipline history, health history, yes to ever been denied, or surrender a DEA registration and liability and criminal history questions.

The meeting is scheduled to take place at:

**9:00 a.m., Friday, August 21, 2020**

**Please join from your computer,  
tablet or smartphone.**

<https://global.gotomeeting.com/join/793180125>

**You can also dial in using your phone.**

**United States (Toll Free): 1-866-899-4679**

**Access Code: 793-180-125**

Appearance cases will be heard at approximately 9:00 am. **It is not possible to give you the exact time that your case will be reviewed by the Board.** We appreciate your continued cooperation and assistance.

456.013(3)(c), Florida Statutes - In considering applications for licensure, the board, or the department when there is no board, may require a personal appearance of the applicant. If the applicant is required to appear, the time period in which a licensure application must be granted or denied shall be tolled until such time as the applicant appears. However, if the applicant fails to appear before the board at either of the next two regularly scheduled board meetings, or fails to appear before the department within 30 days if there is no board, the application for licensure shall be denied.

If you have any questions, you may contact the board office at the address listed below, or by telephone at (850) 245-4161.

To whom it may concern,

The following statement is to the best of my recollection from approximately 25 yrs. ago.

I was a locum tenens anesthesiologist with several state licenses - including KY. (I believe I worked at Trover Med Ctr. south of Evansville IN). KY State legislature passed a bill requiring AIDS education requirement. I took an open book test on AIDS and sent in result. I was told I did not pass. My license was suspended. I paid \$500. fine, waited 6 mos., retook the test and passed.

Note My memory and KY statement may or may not correlate - but this is to the best of my recollection.

COMMONWEALTH OF KENTUCKY  
STATE BOARD OF MEDICAL LICENSURE  
CASE NO. TS- 008

K.B.M.L.

IN RE: THE LICENSE TO PRACTICE MEDICINE IN THE COMMONWEALTH OF KENTUCKY HELD BY DANIEL D. TIPPITT, D.O. (LICENSE NO. 02367); ADDRESS OF RECORD: 329 GLENDALE AVE., ATLANTA, GA 30307

ORDER; FINE

The above-styled action comes before the Kentucky Board of Medical Licensure (hereinafter referred to as "the Board"), for final action.

Prior to rendering a final action in this matter, the Board has notified Respondent via certified mail per KRS 311.586 of the mandatory statutory requirement that Respondent obtain the HIV/AIDS education per 902 KAR 2:150(8)(2). It should be noted that Respondent failed to obtain this education despite having been properly notified.

The Board having considered all of the above-referenced information, and otherwise being sufficiently advised, hereby FINDS that sufficient grounds exist for the Board to discipline Dr. Tippitt's license to practice medicine in the Commonwealth of Kentucky.

WHEREFORE, it is ORDERED that DANIEL D. TIPPITT, D.O., be fined Five Hundred Dollars (\$500.00), due and payable to the Kentucky Board of Medical Licensure on or before July 15, 1994. Respondent's Kentucky medical license is hereby immediately suspended for a period of six (6) months.

It is further ORDERED that should Dr. Tippitt pay the

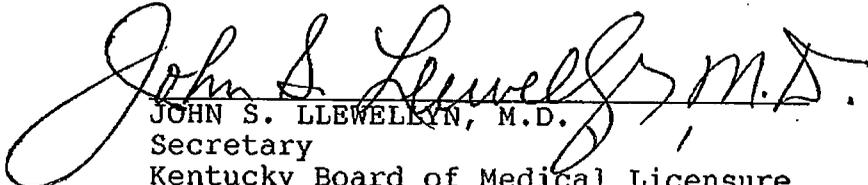

Massage Unit

MAR 03 2020

\$500.00 fine and obtain the HIV/AIDS education required by KRS 214.610 and 902 KAR 2:150(8)(2), within six (6) months, his medical license shall be immediately re-instituted. Should Dr. Tippitt not obtain the required HIV/AIDS education and pay the \$500.00 fine within six (6) months, his license to practice medicine shall be suspended for an additional one (1) year period.

This Order is final and appealable pursuant to KRS 311.593.

So ORDERED this 10<sup>th</sup> day of January, 1994.

KENTUCKY BOARD OF MEDICAL LICENSURE

vs.

DANIEL D. TIPPITT, D.O.  
329 Glendale Avenue  
Atlanta, GA 30307

DEFENDANT

ORDER OF DISMISSAL

The Kentucky Board of Medical Licensure, having been advised that since the date of the issuance of the Order Setting Aside Suspension and Causing "Inactive" Status to Kentucky Medical License, filed on September 26, 1994, Daniel D. Tippitt, D.O., has provided the Kentucky Board of Medical Licensure with documentation of compliance with KRS 214.060 and 902 KAR 2:150, Section 8(2), said statute and regulation mandating specified HIV/AIDS education for licensure in Kentucky. A copy of a certificate dated February 2, 1995, evidencing completion of a course approved by the Cabinet for Human Resources, is attached as Exhibit #1. It is also established that Dr. Tippitt has paid the fine of Five Hundred Dollars (\$500) assessed against his Kentucky medical licensure.

The Board, having reviewed the aforementioned evidence, and otherwise being sufficiently advised, hereby DISMISSES the Order Setting Aside Suspension and Causing "Inactive" Status to Kentucky Medical License issued in this case, and hereby allows for re-registration of Dr. Tippitt's Kentucky medical license.

 Course Presenter/Provider Eva J. Roeger, M.S.N., R.N.

This completed certificate should be retained by you for audit purposes or filed with your appropriate licensure board, if required, in order for you to receive credit for the above CHR-approved course. All CHR-approved courses must have a CHR series number to verify meeting the requirements of KRS 214.610/615.

COMMONWEALTH OF KENTUCKY  
STATE BOARD OF MEDICAL LICENSURE  
CASE NO. TS-008

FILED OF RECORD

FEB 16 1995

K.B.M.L.  
PLAINTIFF

KENTUCKY BOARD OF MEDICAL LICENSURE

vs.

DANIEL D. TIPPITT, D.O.  
329 Glendale Avenue  
Atlanta, GA 30307

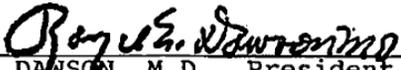

DEFENDANT

ORDER OF DISMISSAL

The Kentucky Board of Medical Licensure, having been advised that since the date of the issuance of the Order Setting Aside Suspension and Causing "Inactive" Status to Kentucky Medical License, filed on September 26, 1994, Daniel D. Tippitt, D.O., has provided the Kentucky Board of Medical Licensure with documentation of compliance with KRS 214.060 and 902 KAR 2:150, Section 8(2), said statute and regulation mandating specified HIV/AIDS education for licensure in Kentucky. A copy of a certificate dated February 2, 1995, evidencing completion of a course approved by the Cabinet for Human Resources, is attached as Exhibit #1. It is also established that Dr. Tippitt has paid the fine of Five Hundred Dollars (\$500) assessed against his Kentucky medical licensure.

The Board, having reviewed the aforementioned evidence, and otherwise being sufficiently advised, hereby **DISMISSES** the Order Setting Aside Suspension and Causing "Inactive" Status to Kentucky Medical License issued in this case, and hereby allows for re-registration of Dr. Tippitt's Kentucky medical license.

SO ORDERED this 16th day of February, 1995.

  
ROYCE E. DAWSON, M.D., President  
Kentucky Board of Medical Licensure

CERTIFICATE

This is to certify that the original of the foregoing Order of Dismissal was hand-delivered to C. William Schmidt, Executive Director for the Kentucky Board of Medical Licensure, Hurstbourne Office Park, 310 Whittington Parkway, Suite 1B, Louisville, Kentucky 40222; and a copy was mailed, postage prepaid, via certified mail, to Daniel D. Tippitt, D.O., 329 Glendale Avenue, Atlanta, GA 30307, on this 16th day of February, 1995.

**To:** TIPPITT, DANIEL DALE  
239 ARIEL HTS  
CHARLESTON, WV 25311-1143

**From:** National Practitioner Data Bank  
**Re:** Response to Your Self-Query

The enclosed information is released by the National Practitioner Data Bank (NPDB) for restricted use under the provisions of Title IV of Public Law 99-660, the Health Care Quality Improvement Act of 1986, as amended; Section 1921 of the Social Security Act; and Section 1128E of the Social Security Act.

Title IV established the NPDB as an information clearinghouse to collect and release certain information related to malpractice payment history and professional competence or conduct of physicians, dentists, and other licensed health care practitioners.

Section 1921 of the Social Security Act expanded the scope of the NPDB. Section 1921 was enacted to protect program beneficiaries from unfit health care practitioners, and to improve the anti-fraud provisions of federal and state health care programs. Section 1921 authorizes the NPDB to collect certain adverse actions taken by state licensing and certification authorities, peer review organizations, and private accreditation organizations, as well as final adverse actions taken by state law or fraud enforcement agencies (including, but not limited to, state law enforcement agencies, state Medicaid Fraud Control Units, and state agencies administering or supervising the administration of a state health care program), against health care practitioners, health care entities, providers and suppliers.

Section 1128E of the Social Security Act was added by Section 221(a) of Public Law 104-191, the Health Insurance Portability and Accountability Act of 1996. The statute established a national data collection program (formerly known as the Healthcare Integrity and Protection Data Bank) to combat fraud and abuse in health care delivery and to improve the quality of patient care. Section 1128E information is now collected and disclosed by the NPDB as a result of amendments made by Section 6403 of the Affordable Care Act of 2010, Public Law 111-148. Section 1128E information includes certain final adverse actions taken by federal agencies and health plans against health care practitioners, providers, and suppliers.

Regulations governing the NPDB are codified at 45 CFR part 60. Responsibility for operating the NPDB resides with the Secretary of the U.S. Department of Health and Human Services (HHS), and HRSA, Division of Practitioner Data Banks.

Reports from the NPDB contain limited summary information and should be used in conjunction with information from other sources in granting privileges, or in making employment, affiliation, contracting or licensure decisions. NPDB responses may contain more than one report on a particular incident, if two or more actions were taken as a result of a single incident (e.g., an exclusion from a federal or state health care program and an adverse licensure action). The NPDB is a flagging system, and a report may be included for a variety of reasons that do not necessarily reflect adversely on the professional competence or conduct of the subject named in the report.

The response received from a self-query belongs to the subject of the self-query. Subjects may share the information contained in their own self-query responses with whomever they choose.

If you require additional assistance, visit the NPDB web site (<https://www.npdb.hrsa.gov>) or contact the NPDB Customer Service Center at 1-800-767-6732 (TDD: 1-703-802-9395). Information Specialists are available to speak with you weekdays from 8:30 a.m. to 6:00 p.m. (5:30 p.m. on Fridays) Eastern Time. The NPDB Customer Service Center is closed on all Federal holidays.

Since this information is historical and never removed from the AOA physician record, the Report user should contact the state board directly for current detailed information.**

**Osteopathic Specialty Board Certification(s):**

(Certification by one or more of the 18 AOA certifying boards as reported by the Bureau of Osteopathic Specialists.)  
Physicians holding time-limited board certification (those certifications with expiration dates) are required to participate in Osteopathic Continuous Certification (OCC) in order to maintain their AOA board certification. Physicians holding non-time-limited board certification (no expiration date) may voluntarily participate in OCC, but participation in OCC does not change their non-time-limited certification status. Please note that diplomate files will be closely monitored for compliance with OCC, and your organization will be automatically notified of any change of status. For more information on OCC, visit [www.osteopathic.org](http://www.osteopathic.org)

**Federal Drug Enforcement Administration:**

As of 02/24/2019 Federal DEA registration is valid.  
**Please note:** Many states require their own controlled substance registration/license. Please check with your state licensing authority as the AOA does not maintain this information.

**Former Name(s):** Daniel Tippitt

**Please Note:**

The content of this Official Physician Profile Report is intended to assist in the complete credentialing process by providing primary source verified information on physicians. Appropriate use of this instrument in combination with your organizations documented credentialing policies and procedures meets the primary source requirements of the Healthcare Facilities Accreditation Program (HFAP/AAHHS); the Accreditation Association for Ambulatory Health Care, Inc. (AAAHC); The Joint Commission; URAC; DNV GL; and the National Association of Insurance Commissioners (NAIC). The National Committee for Quality Assurance (NCQA) recognizes the information included in this Report as meeting its requirement for primary source verification of predoctoral education, postdoctoral education and specialty board certification.

If you find any discrepancies, please mark them on a copy of this report and email to the AOIA [credentials@AOAprofiles.org](mailto:credentials@AOAprofiles.org). Thank you.

RE: **Daniel Tippitt**

TO WHOM IT MAY CONCERN:

This is to certify that the above has been issued a **Physician** license by the Georgia Medical Board.

It is further certified that:

The license number is **34486** and was issued on **June 06, 1991**

The current license status is **Lapsed**

The license expiration date is **December 31, 1997**.

**Board Actions** A review of public records indicates that no public board orders have been docketed.

Certified this day Friday, 20 March, 2020

Sincerely,

LaSharn Hughes  
Executive Director

# ATTENTION

The attached document is an official  
**State of Illinois**  
Licensure certification/verification, prepared by the  
Illinois Department of Financial and Professional Regulation.

This certifies that the named individual has met all of the  
education/examination requirements by law in order to  
receive the credential that is being verified.

The Department has eliminated specific  
examination status from certifications/verifications  
of licensure, as passage of an examination is a  
requirement for licensure.

This information is the **ONLY** certification  
information provided by this Department. If other information is  
needed, it **MUST** be obtained from the applicant.

THANK YOU

**File Number: 16781**

Dear Dr. Tippitt:

Your application for Osteopathic Physician license has been processed. Your application is incomplete for the following reason(s):

Your National Practitioner Data Bank (NPDB) report has not been received. You will need to request a self-query from the NPDB by visiting <https://www.npdb.hrsa.gov/ext/selfquery/SQHome.jsp> or contact the NPDB at (800) 767-6732. You will need to submit your self-query to the Board office. The NPDB will not submit this document on your behalf.

Your Postgraduate Training Evaluation Form has not been received. Your program director will need to submit a complete Postgraduate Training Evaluation Form. A copy of the Postgraduate Training Evaluation Form can be found on our website at: <http://floridasosteopathicmedicine.gov/resources>.

Your American Osteopathic Association (AOA) profile has not been received. Your profile may be sent by visiting <http://www.aoprofiles.org>, or by contacting the AOA directly at (800) 621-1773.

Your Federation of State Medical Boards (FSMB) Physician Profile has not been received. Your Profile may be sent by visiting: <http://www.fsmb.org/PDC>.

We have not received official license verification for all licenses listed on your application. License verification must include the date of issuance, date of expiration, method by which you applied for licensure, and any documentation for all disciplinary action taken against the license. Request license verifications from the following states: Kentucky, Alabama, West Virginia, Georgia, Illinois, Michigan.

You answered "yes" to one or more disciplinary history questions on your application. Submit documentation from the licensing agency of all documentation related to disciplinary history, including final orders, complaints, and current dispositions. You will also need to submit a personal statement regarding the disciplinary history.

We have not received your Livescan results. If you have already had your electronic fingerprinting completed, please allow 24-72 hours for receipt of your results. You can find more information on this process, including how to find a provider in your area and your ORI number, by visiting the Background Screening Website at <http://www.flhealthsource.gov/background-screening/>. Should your Criminal Background Check disclose an arrest record(s), you will need to provide documentation related to each criminal event revealed in your background, if you have not already done so. You can find a detailed description of documents that will be required by visiting the FAQs on the Background Screening Website (Click on 'General FAQs'). Note: Criminal History will be reviewed by the Background

Division of Medical Quality Assurance • Bureau of HCPR  
4052 Bald Cypress Way, Bin C06 • Tallahassee, FL 32399-3256  
PHONE: (850) 245-4161 • FAX: (850)

Screening Unit, not the Board Office. Please email all criminal history documents to [mqa.backgroundscreen@flhealth.gov](mailto:mqa.backgroundscreen@flhealth.gov). Any original certified documents must be mailed to the following address: Attn: Background Screening Unit Florida Department of Health 4052 Bald Cypress Way, Bin BSU-01 Tallahassee, FL, 32399

You will need to complete your application by submitting what is requested above. Please include your **file number** when submitting additional documentation or correspondence to us.

We may request information, explanation, or documentation based on a review of the documentation you submit. You will receive additional correspondence if anything further is required.

You may follow the progress of your application online at <http://flhealthsource.gov/mqa-services>. Your application will expire one year after submission if all required documentation for licensure has not been received, per 456.013(1)(a), Florida Statutes.

Contact the Board office by email at [mqa.osteopath@flhealth.gov](mailto:mqa.osteopath@flhealth.gov) with additional questions or concerns.

Sincerely,

A handwritten signature in black ink that reads "Jacqueline Clahar-Anderson". The signature is written in a cursive, flowing style.

File #16781

Dear Dr. Tippitt:

This letter concerns your application/evaluation of credentials received by the Florida Board of Osteopathic Medicine. Upon completion of the initial review of your application/credentials it has been determined your documents must be presented to the Board of Osteopathic Medicine for review and consideration at the next board meeting. You are required to attend the meeting.

Your file is being reviewed because you answered yes to having professional discipline in another state.

The meeting is scheduled to take place at:

**9:00 a.m., Friday, August 21, 2020**

**Please join from your computer,  
tablet or smartphone.**

<https://global.gotomeeting.com/join/793180125>

**You can also dial in using your phone.**

**United States (Toll Free): 1-866-899-4679**

**Access Code: 793-180-125**

Appearance cases will be heard at approximately 9:00 am. **It is not possible to give you the exact time that your case will be reviewed by the Board.** We appreciate your continued cooperation and assistance.

456.013(3)(c), Florida Statutes - In considering applications for licensure, the board, or the department when there is no board, may require a personal appearance of the applicant. If the applicant is required to appear, the time period in which a licensure application must be granted or denied shall be tolled until such time as the applicant appears. However, if the applicant fails to appear before the board at either of the next two regularly scheduled board meetings or fails to appear before the department within 30 days if there is no board, the application for licensure shall be denied.

If you have any questions, you may contact the board office at the address listed below, or by telephone at (850) 245-4161.

**EXHIBIT 1 – REPORT ON PROFESSIONAL LIABILITY CLAIMS AND ACTIONS**

Practitioner's Name Jocelyn Rae Idema

Include information relating to liability actions occurring within the previous 10 years. The actions are required to be reported under section 456.039(1)(b), F.S. You must submit a completed form for each occurrence. For Allopathic, Osteopathic, and Podiatric physicians, copies of reports previously submitted under the requirements of s. 456.049, F.S., may be submitted in lieu of this exhibit to satisfy this reporting requirement.

Date of occurrence:    /    /    Date reported to licensee: 02 / 20 / 2018 Date claim reported to insurer or self-insurer    /    /   

Injured person's name: (last, first, middle initial) Timothy Early

Street Address:   

City:    State: Maryland Zip Code:   

Age:    Sex:   

Date of suit, if filed: 04 / 18 / 2018

List all defendants with their healthcare provider license number involved in this claim:

- 1. Jocelyn Idema, DO
- 2. Mid-Maryland Musculoskeletal Institute - a Division of CAO
- 3.
- 4.

Date of final claim disposition: 09 / 25 / 2019

Date and amount of judgment or settlement, if any:   

Was there an itemized verdict?  Yes  No (If "YES", attach copy of settlement verdict)

Indemnity paid on behalf of this defendant: \$   

Loss adjustment expense paid to defense counsel: \$   

All other loss adjustment expense paid: \$   

Date and reason for final disposition, if no judgment or settlement: Dismissed

Name of institution at which the injury occurred: Frederick Memorial Hospital

Location of injury occurrence:

- Patient's Room
- Operating Suite
- Recovery Room
- Physical Therapy Dept.
- Nursery
- Critical Care Unit
- Radiology
- Emergency Room
- Other
- Labor & Delivery Room
- Special Procedure Room

Final diagnosis for which treatment was sought or rendered: Chronic pain syndrome

Describe misdiagnosis made, if any, of the patient's actual condition. None

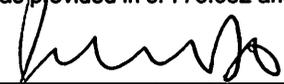

Describe the operation, diagnostic or treatment procedure causing the injury. Use nomenclature and/or descriptions of the procedures used. Include method of anesthesia, or name of drug used for treatment, with detail of administration.

Placement of SCS, uncomplicated. Patient came into ED 3 days later with epidural hematoma. It was emergently evacuated by myself.

Describe the principal injury giving rise to the claim. Use nomenclature and/or descriptions of the injury. Include type of adverse effect from drugs where applicable. Claim was for negligence.

Safety management steps taken by the licensee to make similar occurrences less likely. Standard of care was met through emergently evacuating the epidural hematoma within 3 hours of presentation.

I represent that these statements are true and correct pursuant to s. 837.06, Florida Statutes. I recognize that knowingly making a false statement in writing with the intent to mislead a public servant in the performance of his or her official duty is a misdemeanor of the second degree, punishable as provided in s. 775.082 and 775.083, Florida Statutes.

 Recovery Room  Critical Care Unit  Other \_\_\_\_\_

Final diagnosis for which treatment was sought or rendered. Lumbar degenerative disc disease, foraminal stenosis, and radiculopathy

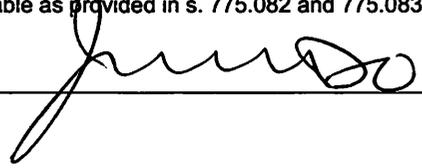

Describe misdiagnosis made, if any, of the patient's actual condition. none

Describe the operation, diagnostic or treatment procedure causing the injury. Use nomenclature and/or descriptions of the procedures used. Include method of anesthesia, or name of drug used for treatment, with detail of administration.  
Patient underwent a uncomplicated lumbar decompression and fusion using general anesthesia. Patient 3 weeks later presented with fever and back pain and was taken for incision, irrigation and debridement with retained hardware. Patient continued with back pain but reported no continued leg pain after primary surgery. Subsequent MRIs showed no continued infection. Patient sought second opinion and recommended revision decompression w/ fusion of adjacent level. Still having pain today despite ac

Describe the principal injury giving rise to the claim. Use nomenclature and/or descriptions of the injury. Include type of adverse effect from drugs where applicable. Claim is for malpositioned hardware but none is documented on MRI or CT scan.

Safety management steps taken by the licensee to make similar occurrences less likely. Standard of care was met with ordering follow up MRIs and CT scans.

I represent that these statements are true and correct pursuant to s. 837.06, Florida Statutes. I recognize that knowingly making a false statement in writing with the intent to mislead a public servant in the performance of his or her official duty is a misdemeanor of the second degree, punishable as provided in s. 775.082 and 775.083, Florida Statutes.

\*\* A "yes" in this column indicates that the state board has, at some time, reported final disciplinary actions taken to the AOA. Since this information is historical and never removed from the AOA physician record, the Report user should contact the state board directly for current detailed information.

**Osteopathic Specialty Board Certification(s):** (Certification by one or more of the 18 AOA certifying boards as reported by the Bureau of Osteopathic Specialists.)  
Physicians holding time-limited board certification (those certifications with expiration dates) are required to participate in Osteopathic Continuous Certification (OCC) in order to maintain their AOA board certification. Physicians holding non-time-limited board certification (no expiration date) may voluntarily participate in OCC, but participation in OCC does not change their non-time-limited certification status. Please note that diplomate files will be closely monitored for compliance with OCC, and your organization will be automatically notified of any change of status. For more information on OCC, visit [www.osteopathic.org](http://www.osteopathic.org)

**American Osteopathic Board of:**

**General Certification(s) :** Orthopedic Surgery **Issue Date:** 03/30/2015 **Expiration Date:** 12/31/2025

**OCC Participating:** Yes

**Federal Drug Enforcement Administration:** As of 02/24/2019 Federal DEA registration is valid.  
*Please note: Many states require their own controlled substance registration/license. Please check with your state licensing authority as the AOA does not maintain this information.*

**Former Name(s):** Jocelyn Idema

**Please Note:**

*The content of this Official Physician Profile Report is intended to assist in the complete credentialing process by providing primary source verified information on physicians. Appropriate use of this instrument in combination with your organizations documented credentialing policies and procedures meets the primary source requirements of the Healthcare Facilities Accreditation Program (HFAP/AAHHS); the Accreditation Association for Ambulatory Health Care, Inc. (AAAHC); The Joint Commission; URAC; DNV GL; and the National Association of Insurance Commissioners (NAIC). The National Committee for Quality Assurance (NCQA) recognizes the information included in this Report as meeting its requirement for primary source verification of predoctoral education, postdoctoral education and specialty board certification.*

*If you find any discrepancies, please mark them on a copy of this report and email to the AOIA [credentials@AOAprofiles.org](mailto:credentials@AOAprofiles.org). Thank you.*

AMERICAN OSTEOPATHIC ASSOCIATION

142 E. Ontario St., Chicago, IL 60611-2864 ph (312) 202-8000 | (800) 621-1773 | [www.osteopathic.org](http://www.osteopathic.org)

Jocelyn Rae Idema, DO  
86 Thomas Johnson Ct  
Mid-Maryland Musculoskeletal Institute  
Frederick, MD 21702-4348

Dear Dr. Idema:

Congratulations! On recommendation of the American Osteopathic Board of Orthopedic Surgery (AOBOS), the Bureau of Osteopathic Specialists (BOS) of the American Osteopathic Association (AOA) has awarded your AOA certification for the following cycle:

Specialty: Orthopedic Surgery  
Certificate Number: 2170  
Effective Date: 3/30/2015  
Valid Through: 12/31/2025

The AOBOS is preparing your certificate, which will be mailed to your address on record within ninety (90) days. If you have any questions about your certificate, please contact the AOBOS at [bsharp@aobos.org](mailto:bsharp@aobos.org) or (877) 982-6267.

In order for your AOA board certification status to remain active, you must meet Osteopathic Continuous Certification (OCC) requirements. Information regarding criteria for OCC may be found at your Board's website, [www.aobos.org](http://www.aobos.org). If you have questions regarding the status of your certification, you may contact the AOA Division of Certification at [certification@osteopathic.org](mailto:certification@osteopathic.org) or (800) 621-1773, ext. 8266.

Professional certification demonstrates your commitment to the osteopathic medical profession. Congratulations again on your achievement.

Sincerely,

*Jeffrey A Kramer*

Jeffrey A Kramer, FACHE, CAE  
BOS Secretary

SOME OR ALL PAGES IN THIS DOCUMENT ARE PATIENT RECORDS  
AND/OR DOCUMENTS THAT IDENTIFY THE PATIENT BY NAME AND ARE  
EXEMPT FROM PUBLIC RECORDS LAWS.

456.057 - Ownership and control of patient records; report or copies of records to be  
furnished.—

10)(a)All patient records obtained by the department and any other documents  
maintained by the department which identify the patient by name are confidential and exempt  
from s. 119.07(1) and shall be used solely for the purpose of the department and the appropriate  
regulatory board in its investigation, prosecution, and appeal of disciplinary proceedings. The  
records shall not be available to the public as part of the record of investigation for and  
prosecution in disciplinary proceedings made available to the public by the department or the  
appropriate board.

**To:** IDEMA, JOCELYN RAE  
105 WHISPERING HEIGHTS LN  
VENETIA, PA 15367-3008

**From:** National Practitioner Data Bank  
**Re:** Response to Your Self-Query

The enclosed information is released by the National Practitioner Data Bank (NPDB) for restricted use under the provisions of Title IV of Public Law 99-660, the Health Care Quality Improvement Act of 1986, as amended; Section 1921 of the Social Security Act; and Section 1128E of the Social Security Act.

Title IV established the NPDB as an information clearinghouse to collect and release certain information related to malpractice payment history and professional competence or conduct of physicians, dentists, and other licensed health care practitioners.

Section 1921 of the Social Security Act expanded the scope of the NPDB. Section 1921 was enacted to protect program beneficiaries from unfit health care practitioners, and to improve the anti-fraud provisions of federal and state health care programs. Section 1921 authorizes the NPDB to collect certain adverse actions taken by state licensing and certification authorities, peer review organizations, and private accreditation organizations, as well as final adverse actions taken by state law or fraud enforcement agencies (including, but not limited to, state law enforcement agencies, state Medicaid Fraud Control Units, and state agencies administering or supervising the administration of a state health care program), against health care practitioners, health care entities, providers and suppliers.

Section 1128E of the Social Security Act was added by Section 221(a) of Public Law 104-191, the Health Insurance Portability and Accountability Act of 1996. The statute established a national data collection program (formerly known as the Healthcare Integrity and Protection Data Bank) to combat fraud and abuse in health care delivery and to improve the quality of patient care. Section 1128E information is now collected and disclosed by the NPDB as a result of amendments made by Section 6403 of the Affordable Care Act of 2010, Public Law 111-148. Section 1128E information includes certain final adverse actions taken by federal agencies and health plans against health care practitioners, providers, and suppliers.

Regulations governing the NPDB are codified at 45 CFR part 60. Responsibility for operating the NPDB resides with the Secretary of the U.S. Department of Health and Human Services (HHS), and HRSA, Division of Practitioner Data Banks.

Reports from the NPDB contain limited summary information and should be used in conjunction with information from other sources in granting privileges, or in making employment, affiliation, contracting or licensure decisions. NPDB responses may contain more than one report on a particular incident, if two or more actions were taken as a result of a single incident (e.g., an exclusion from a federal or state health care program and an adverse licensure action). The NPDB is a flagging system, and a report may be included for a variety of reasons that do not necessarily reflect adversely on the professional competence or conduct of the subject named in the report.

The response received from a self-query belongs to the subject of the self-query. Subjects may share the information contained in their own self-query responses with whomever they choose.

If you require additional assistance, visit the NPDB web site (<https://www.npdb.hrsa.gov>) or contact the NPDB Customer Service Center at 1-800-767-6732 (TDD: 1-703-802-9395). Information Specialists are available to speak with you weekdays from 8:30 a.m. to 6:00 p.m. (5:30 p.m. on Fridays) Eastern Time. The NPDB Customer Service Center is closed on all Federal holidays.

RECEIVED

RELEASE AND AUTHORIZATION INFORMATION

**I hereby affirm that the information I have provided on this application and attachments is true and correct and that it can be relied upon by Weatherby Locums, Inc. and its affiliates (collectively, "Weatherby") for evaluating my potential as a locum tenens physician.**

By applying for membership to, or when evaluating retention with Weatherby, I hereby authorize Weatherby, its affiliates and successors, to obtain any information that may be relevant to an evaluation of my professional qualifications, including but not limited to information about disciplinary actions or other confidential or privileged information, and other credentials.

I agree to provide and authorize the release by Weatherby to Weatherby clients of the following: a) vaccination records; b) reasonable documentation evidencing that I am in good health and free of communicable diseases; c) the result of and/or a copy of my criminal background check, if any; and d) the result of and/or a copy of my drug screen, if any.

I authorize Weatherby to assist me in the completion of this application and to disclose to and receive from current, prior, or potential employers and Weatherby clients making a reasonable inquiry, information relating to my qualifications, ability, and character to practice medicine, including information from the following sources: all medical schools, colleges, universities, transcript offices, medical institutions, or organizations, hospitals, employers, personal references, physicians, attorneys, companies or agencies who may furnish my criminal background history, companies that perform drug screens, medical malpractice carriers or organizations, business and professional associates, all government agencies and instrumentalities, the National Practitioner Data Bank, the Federation of State Medical Boards, the American Medical Association, American Osteopathic Association, American Board of Medical Specialties, DEA, state licensing boards, specialty boards, and any other pertinent source. This is a continuing authorization until such time as I have specifically revoked the same in writing which shall apply to all information received at any time by Weatherby relating to my qualifications, ability, and character to practice medicine.

I hereby forever waive and release Weatherby, its officers, employees, agents and third parties which provide or receive information regarding my credentials, including but not limited to the Federation of State Medical Boards and those entities listed above, from any claims, causes of action, damages and expenses, including reasonable attorney's fees arising from or relating to the provision, collection, verification, and dissemination of information about me.

Further, I agree to hold Weatherby harmless from any and all claims, causes of action, damages, judgments and expenses, including reasonable attorney's fees, arising from or related to the collection, verification and dissemination of credentialing information provided by me. I understand that this does contemplate a duty to hold Weatherby harmless from claims, causes of action and damages which may arise as a result of information provided about me from sources other than myself.

**I understand that I have the burden of providing accurate and adequate information to Weatherby, its affiliates or successors, to demonstrate my qualifications. I understand that any misstatement in this form may constitute grounds for denial of referral to practice opportunities, grounds for civil damages, reporting the same to the NPDB or state licensing boards or cancellation of contract. If any material changes occur affecting my professional status, it is my obligation to notify Weatherby or the appropriate affiliate or successor as soon as possible. I attest that the information contained in this application is correct and complete.**

I understand that the decision to refer me to practice opportunities by Weatherby is solely at the discretion of Weatherby.

I understand that any information received from references by Weatherby, including but not limited to quality evaluations, is confidential and may not be released to me without the consent of the reference.

A copy or facsimile of this document shall have the same effect as the original.

This document shall be interpreted according to the laws of the State of Florida.

**File Number: 17083**

Dear Dr. Idema:

Your application for Osteopathic Physician license has been processed. Your application is incomplete for the following reason(s):

Your National Practitioner Data Bank (NPDB) report has not been received. You will need to request a self-query from the NPDB by visiting <https://www.npdb.hrsa.gov/ext/selfquery/SQHome.jsp> or contact the NPDB at (800) 767-6732. You will need to submit your self-query to the Board office. The NPDB will not submit this document on your behalf.

Your Postgraduate Training Evaluation Form has not been received from **Tulsa Regional Medical Center - 06/15/2005-06/14/2006**. Your program director will need to submit a complete Postgraduate Training Evaluation Form. A copy of the Postgraduate Training Evaluation Form can be found on our website at: <http://floridasosteopathicmedicine.gov/resources>.

NBOME exam results for the required COMLEX/COMVEX exam sections have not been received. COMLEX Level 1 and 2 are required, as well as one of the following: COMLEX Level 3 or the COMVEX. Other examinations (USMLE, FLEX) are not accepted.

Your scores must be requested directly from the National Board of Osteopathic Medical Examiners. Information about score requests can be found at [www.nbome.org](http://www.nbome.org). The NBOME can be reached by phone at 866.479.6828 or by email at [ClientServices@nbome.org](mailto:ClientServices@nbome.org) if you require assistance with requesting your scores.

You indicated on your application that you are NICA exempt. Submit documentation proving that you are NICA exempt. A list of acceptable exemption documents can be found online at: [https://www.nica.com/nonprt\\_obgyns/exemptions.html](https://www.nica.com/nonprt_obgyns/exemptions.html)

Your Federation of State Medical Boards (FSMB) Physician Profile has not been received. Your Profile may be sent by visiting: <http://www.fsmb.org/PDC>.

We have not received an official transcript from your School of Osteopathic Medicine. You will need to request that your transcript be sent from your school directly to the Board office; we cannot accept transcripts submitted by applicants. An official transcript must include your dates of enrollment and graduation and list the degree conferred.

We have not received official license verification for all licenses listed on your application. License verification must include the date of issuance, date of expiration, method by which you applied for

PHONE: (850) 245-4161 • FAX: (850)

licensure, and any documentation for all disciplinary action taken against the license. Request license verification from the following states: West Virginia, Pennsylvania, Virginia.

We have not received your Livescan results. If you have already had your electronic fingerprinting completed, please allow 24-72 hours for receipt of your results. You can find more information on this process, including how to find a provider in your area and your ORI number, by visiting the Background Screening Website at <http://www.flhealthsource.gov/background-screening/>. Should your Criminal Background Check disclose an arrest record(s), you will need to provide documentation related to each criminal event revealed in your background, if you have not already done so. You can find a detailed description of documents that will be required by visiting the FAQs on the Background Screening Website (Click on 'General FAQs'). Note: Criminal History will be reviewed by the Background Screening Unit, not the Board Office. Please email all criminal history documents to [mqa.backgroundscreen@flhealth.gov](mailto:mqa.backgroundscreen@flhealth.gov). Any original certified documents must be mailed to the following address: Attn: Background Screening Unit Florida Department of Health 4052 Bald Cypress Way, Bin BSU-01 Tallahassee, FL, 32399

You will need to complete your application by submitting what is requested above. Please include your **file number** when submitting additional documentation or correspondence to us.

We may request information, explanation, or documentation based on a review of the documentation you submit. You will receive additional correspondence if anything further is required.

You may follow the progress of your application online at <http://flhealthsource.gov/mqa-services>. Your application will expire one year after submission if all required documentation for licensure has not been received, per 456.013(1)(a), Florida Statutes.

Contact the Board office by email at [mqa.osteopath@flhealth.gov](mailto:mqa.osteopath@flhealth.gov) with additional questions or concerns.

Sincerely,

File #17083

Dear Dr. Idema:

This letter concerns your application/evaluation of credentials received by the Florida Board of Osteopathic Medicine. Upon completion of the initial review of your application/credentials it has been determined your documents must be presented to the Board of Osteopathic Medicine for review and consideration at the next board meeting. You are required to attend the meeting.

Your file is being reviewed because you answered yes to the malpractice/liability claims question.

The meeting is scheduled to take place at:

**9:00 a.m., Friday, August 21, 2020**

**Please join from your computer,  
tablet or smartphone.**

<https://global.gotomeeting.com/join/793180125>

**You can also dial in using your phone.**

**United States (Toll Free): 1-866-899-4679**

**Access Code: 793-180-125**

Appearance cases will be heard at approximately 9:00 am. **It is not possible to give you the exact time that your case will be reviewed by the Board.** We appreciate your continued cooperation and assistance.

456.013(3)(c), Florida Statutes - In considering applications for licensure, the board, or the department when there is no board, may require a personal appearance of the applicant. If the applicant is required to appear, the time period in which a licensure application must be granted or denied shall be tolled until such time as the applicant appears. However, if the applicant fails to appear before the board at either of the next two regularly scheduled board meetings or fails to appear before the department within 30 days if there is no board, the application for licensure shall be denied.

If you have any questions, you may contact the board office at the address listed below, or by telephone at (850) 245-4161.

## Statement Regarding Affirmative Answers on Florida Application

### 1. Board Action/Discipline

Dear Sir or Madam,

Please allow this to represent my explanation to my affirmative answer to the question "Have you ever been reprimanded by a licensing agency?"

The answer is NO with regards to my license as a physician. However, for the sake of complete transparency, I have answered yes as it does pertain to my practice as a Physician Assistant PRIOR to my returning and graduating from medical school.

In 2006 I was working full time as a Physician Assistant in emergency and family medicine. I saw and treated two individuals for traumatic injuries on a pro bono basis excepting absolutely nothing in return. Part of these two incidences where evaluation, suturing and treatment with antibiotics and T&C#3 –all as completely appropriate for indication. However, these specific patients had no insurance and as stated, treated for free in the emergency department I was employed at the time. No record of these visits was documented and because the codeine was a controlled substance I was found to be deficient in the care without proper documentation. For this matter, I was placed on a probationary period with NYS and not simply completed but was released from this probationary period early for exemplary participation and transparency.

Again, this was prior to my career as a physician. I regret the poor decision making in regards to documentation and except complete responsibility. However, I in no way was involved in anything immoral or illegal. There has been absolutely no continuing documentation nor practice related issues since. I hope this satisfies your needs but please contact me immediately should you require any further explanation.

### 2. Surrender of DEA license

In 2006 I was working full time as a Physician Assistant in emergency and family medicine. I saw and treated two individuals for traumatic injuries on a pro bono basis excepting absolutely nothing in return. Part of these two incidences where evaluation, suturing and treatment with antibiotics and T&C#3 –all as completely appropriate for indication. However, these specific patients had no insurance and as stated, treated for free in the emergency department I was employed at the time.

1/5/2020

Dear Sir or Madam,

As part of my application for the privilege to practice medicine in the State of Florida, I have been asked for a personal statement regarding the transgressions of my past so my application might better be understood. I appreciate this opportunity to be transparent and move forward.

Currently, I am a double board certified physician in the Western New York area with a well established and respected practice. My family lives here in the border city of Buffalo, NY and I have fostered local children for years and have adopted one such child. I have been completely abstinent of alcohol for 17 years and have professionally documented such with state sponsored medical societies since 2006.

When I was a younger man I had little direction and even less maturity. I openly admit to abusing alcohol when I was young and while ashamed of the hubris I demonstrated then I am equally proud of my life and its accomplishments. These are the events of the incidents that led to my arrest starting 32 years ago.

First Incident:

In the late 1980s I was working locally in restaurants and trades with little direction in life. One evening I was home actually in bed when called by a friend whom recently ended a relationship asking me for a drink. I got dressed and met him for no longer than 2 hours. We consumed a pitcher of beer and had two shot glasses of whiskey and I excused myself home. En route home an officer observed me speeding and pulled me over smelling alcohol. I was subsequently arrested and processed ultimately ending in what is considered a traffic violation in New York—driving while ability impaired as it did not rise to the charge of driving while intoxicated. I paid a fine and complied with alcohol screening and evaluation by the court.

Second incident

In 2000 I was celebrating a friend's graduation from college. This included excessive consumption of beer at a local brew pub. Foolishly, I attempted to drive home and was promptly stopped by local law enforcement for a lane change without a directional and with similar events of the prior. Again, a driving violation of DWAI and fine was issued and subsequent evaluation and compliance.

Last Incident

2 years later, 2003 I was attending a friend's stag party in advance of his wedding. Again, excessive consumption of alcohol led to not only an arrest, but life changing events that ultimately changed my life. I stopped for gasoline at a local station and the good woman working as a cashier smelled what she believed to be alcohol on my while I was paying and she called the police. I was stopped about a mile down the road as my vehicle was recognized from her description. A 3<sup>rd</sup> DWAI violation was reached and with the strength of family, humility and shame I was able to see my youth as it was-aimless and reckless.

Fortunately, no one was ever injured by my poor judgment. This very painful wake up call (yes I know it took three) ultimately led to my complete abstinence of alcohol and re-assessment and direction of my life. I was able to return to college and obtain 4 degrees including graduation from medical school. As you might guess, these events were strictly reviewed prior to my acceptance into such institutions and even more so by the NYS Health Department and U.S. Federal Drug Enforcement Agency prior to my licensure to practice medicine. I have been part of the recovery community in my city for 20 years helping others with treatment in all substance abuse issues. I am a certified opiate treatment physician as well working with other professionals in the fight against the opiate crisis.

Further, these event have been deeply scrutinized by Erie County and New York State again while training to be a certified Erie County foster home and yet AGAIN with the family court system during the adoption of my son.

I understand completely your concerns about my abuse history. My application does not simply ask for forgiveness, nor does it ask anyone to take my word on these issues. I humbly ask you take the factual and unwavering credibility of NYS, Erie County, NYS health Department, NYS medical Society, Federal DEA, and the dedication to sobriety I have been blessed and proud of since 2003—almost 17 years.

Please feel free to contact me at any time should you have any further question.

Sincerely,

Dr. Michael F. Wisiorek

STATE BOARD FOR PROFESSIONAL MEDICAL CONDUCT

IN THE MATTER

CONSENT

OF

AGREEMENT

MICHAEL WISIOREK, R.P.A., D.O.  
BU-10-05-2775-A

MICHAEL WISIOREK, R.P.A., D.O. (Respondent), representing that all of the following statements are true, deposes and says:

That on or about June 13, 2011, I was licensed to practice medicine in the State of New York and issued license number 281764 by the New York State Education Department. I am currently registered with the New York State Education Department to practice medicine through May 31, 2013. I was authorized to practice as a physician's assistant in New York State on or about July 3, 2003 by the issuance of registration number 009377 by the New York State Education Department. I am registered with the New York State Education Department to practice as a physician's assistant through October 31, 2011. I understand this Consent Order and its discipline, along with the attached terms and conditions of probation, apply to my licenses to practice medicine as a physician and as a physician assistant.

My current address is REDACTED ADDRESS and I will advise the Director (Director) of the Office of Professional Medical Conduct (OPMC) of any change of my address within thirty (30) days thereof.

I understand that the New York State Board for Professional Medical Conduct (Board) has charged me with three (3) Specifications of professional misconduct.

A copy of the Statement of Charges, marked as Exhibit A, is attached to and part of this Consent Agreement.

I do not contest the three (3) Specifications, and agree to the following sanction:

Censure and Reprimand;

Respondent shall be subject to five (5) years probation, with terms and conditions in accordance with Exhibit B attached, and any extension and/or modifications thereto;

I agree, further, that the Consent Order shall impose the following conditions:

That Respondent shall remain in continuous compliance with all requirements of New York Education Law § 8502 including, but not limited to, the requirements that a licensee shall register and continue to be registered as a physician with the New York State Education Department (except during periods of actual suspension) and that a licensee shall pay all registration fees. Respondent shall not exercise the option provided in New York Education Law § 8502(4) to avoid registration and payment of fees. This condition shall take effect 30 days after the effective date of the Consent Order and will continue so long as Respondent remains a licensee in New York State; and

That Respondent shall cooperate fully with the OPMC in its administration and enforcement of the Consent Order and in its investigations of matters concerning Respondent. Respondent shall respond in a timely manner to all OPMC requests for written periodic verification of Respondent's compliance with this Consent Agreement. Respondent shall meet with a person designated by the Director, OPMC, as directed. Respondent shall respond promptly and provide all documents and information within Respondent's control, as directed. This condition shall take effect upon the Board's issuance of the Consent Order and will continue so long as Respondent remains licensed in New York State.

I stipulate that my failure to comply with any conditions of the Consent Order shall constitute misconduct as defined by New York Education Law § 6530(29).

I agree that, if I am charged with professional misconduct in future, this Consent Agreement and the Consent Order shall be admitted into evidence in that proceeding.

I ask the Board to adopt this Consent Agreement.

I understand that if the Board does not adopt this Consent Agreement, none of its terms shall bind me or constitute an admission of any of the acts of alleged misconduct; this Consent Agreement shall not be used against me in any way and shall be kept in strict confidence, and the Board's denial shall be without prejudice to the pending disciplinary proceeding and the Board's final determination pursuant to New York Public Health Law.

I agree that, if the Board adopts this Consent Agreement, the Chair of the Board shall issue a Consent Order in accordance with its terms. I agree that the Consent Order shall take effect upon its issuance by the Board, either by mailing of a copy of the Consent Order by first class mail to me at the address in this Consent Agreement, or to my attorney by certified mail, or upon facsimile or email transmission to me or my attorney, whichever is first. The Consent Order, this Consent Agreement, and all attached Exhibits shall be public documents, with only patient identities, if any, redacted. As public documents, they may be posted on the Department of Health website.

I stipulate that the proposed sanction and Consent Order are authorized by New York Public Health Law §§ 230 and 230-a, and that the Board and OPMC have the requisite powers to carry out all included terms. I ask the Board to adopt this Consent Agreement of my own free will and not under duress, compulsion or restraint. In consideration of the value to me of the Board's adoption of this Consent Agreement, allowing me to resolve this matter without the various risks and burdens of a hearing on the merits, I knowingly waive my right to contest the Consent Order for which I apply, administratively and/or judicially, I agree to be bound by the Consent Order, and I ask that the Board adopt this Consent Agreement.

I understand and agree that the attorney for the Department, the Director, OPMC, and the Chair of the Board each retain complete discretion either to enter into the proposed Consent Agreement and Consent Order, based upon my application, or to decline to do so. I further understand and agree that no prior or separate written or oral communication can limit that discretion.

AFFIRMED:

**EXHIBIT A**

NEW YORK STATE DEPARTMENT OF HEALTH  
STATE BOARD FOR PROFESSIONAL MEDICAL CONDUCT

IN THE MATTER  
OF  
MICHAEL WISIOREK, R.P.A., D.O.

STATEMENT  
OF  
CHARGES

MICHAEL WISIOREK, R.P.A., D.O., the Respondent, was authorized to practice medicine in New York State on or about June 13, 2011 by the issuance of license number 261764 by the New York State Education Department. Respondent is currently registered with the New York State Education Department to practice medicine through May 31, 2013. Respondent was authorized to practice as a physician assistant in New York State on July 3, 2003 by the issuance of registration number 009377 by the New York State Education Department. Respondent is registered with the New York State Education Department to practice as a physician assistant in New York State through October 31, 2011.

FACTUAL ALLEGATIONS

- A. Respondent, as a physician assistant, provided medical care to Patient A (patients are identified in the attached appendix), a 19 year old female, in Cheektowaga, New York on or about the summer of 2009. Patient A complained of low back pain, and Respondent prescribed her a narcotic based analgesic. Respondent's care and treatment of Patient A failed to meet accepted standards of medical practice in that:
- f. Respondent, as a physician assistant, made no attempt at the utilization of non-controlled pain management analgesics and adjuvant physical modalities in therapeutics prior to prescribing Patient A a narcotic based analgesic.

2. Respondent, as a physician assistant, failed to adequately document his treatment of Patient A.

B. Respondent, as a physician assistant, provided medical care for Patient B, a 22 year old female, in Cheektowaga, New York on or about the summer of 2009. Patient B complained of back and knee pain, and Respondent prescribed her a narcotic based analgesic. Respondent's care and treatment of Patient B failed to meet accepted standards of medical practice in that:

1. Respondent, as a physician assistant, made no attempt at the utilization of non-controlled pain management analgesics and adjuvant physical modalities in therapeutics prior to prescribing Patient B a narcotic based analgesic.
2. Respondent, as a physician assistant, failed to document his treatment of patient B.

C. Respondent, on occasions from on or about the winter of 1987 to on or about the summer of 2009, consumed alcohol in excessive amounts.

### SPECIFICATION OF CHARGES

#### FIRST SPECIFICATION

#### NEGLIGENCE ON MORE THAN ONE OCCASION

Respondent is charged with committing professional misconduct as defined in N.Y. Educ. Law § 6530(3) by practicing the profession of medicine with negligence on more than one occasion as alleged in the facts of two or more of the following:

1. The facts in paragraphs A and A.1, A and A.2, B and B.1, and/or B and B.2.

**SECOND SPECIFICATION**  
**FAILURE TO MAINTAIN A RECORD**

Respondent is charged with committing professional misconduct as defined in N.Y. Educ. Law § 6530(32) by failing to maintain a record for each patient which accurately reflects the evaluation and treatment of the patient as alleged in the facts of any one of the following:

2. The facts in paragraphs A and A.2 and/or B and B.2.

**THIRD SPECIFICATION**  
**ABUSER OF ALCOHOL**

Respondent is charged with committing professional misconduct as defined in N.Y. Educ. Law § 6530 (8) by being an abuser of alcohol.

3. The facts in paragraph C.

DATED: *December 16, 2011*

REDACTED SIGNATURE

Peter D. Van Buren  
Deputy Counsel  
Bureau of Professional Medical Conduct

**EXHIBIT B**  
**Terms of Probation**

1. Respondent's conduct shall conform to moral and professional standards of conduct and governing law. Any act of professional misconduct by Respondent as defined by N.Y. Educ. Law §§ 6530 or 6531 shall constitute a violation of probation and may subject Respondent to an action pursuant to N.Y. Pub. Health Law § 230(19).
2. Respondent shall maintain active registration of Respondent's license to practice as a physician (except during periods of actual suspension) with the New York State Education Department Division of Professional Licensing Services, and shall pay all registration fees.
3. Respondent shall provide the Director, Office of Professional Medical Conduct (OPMC), Hedley Park Place, 433 River Street Suite 303, Troy, New York 12180-2299 with the following information, in writing, and ensure that this information is kept current: a full description of Respondent's employment and practice; all professional and residential addresses and telephone numbers within and outside New York State; all current and past affiliations and/or privileges, with hospitals, institutions, facilities, medical practices, managed care organizations, and/or applications for such affiliations and/or privileges; and all investigations, arrests, charges, convictions or disciplinary actions by any local, state or federal agency, institution or facility. Respondent shall notify OPMC, in writing, within 30 days of any additions to or changes in the required information.
4. Respondent shall cooperate fully with, and respond in a timely manner to, OPMC requests to provide written periodic verification of Respondent's compliance with the terms of this Consent Order. Upon the Director of OPMC's request, Respondent shall meet in person with the Director's designee.
5. Respondent's failure to pay any monetary penalty by the prescribed date shall subject Respondent to all provisions of law relating to debt collection by New York State, including but not limited to: the imposition of interest, late payment charges and collection fees; referral to the New York State Department of Taxation and Finance for collection; and non-renewal of permits or licenses (Tax Law § 171(27); State Finance Law § 18; CPLR § 5001; Executive Law § 32).
6. The probation period shall toll when Respondent is not engaged in active medical practice in New York State for a period of 30 consecutive days or more. Respondent shall notify the Director of OPMC, in writing, if Respondent is not currently engaged in, or intends to leave, active medical practice in New York State for a consecutive 30 day period. Respondent shall then notify the Director again at least 14 days before returning to active practice. Upon Respondent's return to active practice in New York State, the probation period shall resume and Respondent shall fulfill any unfulfilled probation terms and such additional requirements as the Director may impose as reasonably relate to the matters set forth in Exhibit "A" or as are necessary to protect the public health.
7. Respondent shall adhere to federal and state guidelines and professional standards of care with respect to infection control practices. Respondent shall ensure education, training and oversight of all office personnel involved in medical care, with respect to these practices.

8. Respondent shall maintain complete and legible medical records that accurately reflect the evaluation and treatment of patients and contain all information required by State rules and regulations concerning controlled substances.
9. Respondent shall remain free from alcohol and all other mood altering substances other than those prescribed for Respondent's treatment by a licensed health care professional aware of Respondent's history of chemical dependency. Respondent shall not self-prescribe any medications.
10. Respondent shall notify all treating physicians of Respondent's history of substance abuse. Respondent shall advise OPMC of any controlled or mood-altering substance given or prescribed by treating physicians.
11. Within thirty (30) days of the effective date of the Consent Order, Respondent shall practice only when monitored by qualified health care professional monitors: a Sobriety Monitor, Practice Supervisor and a Therapist. Any medical practice in violation of this term shall constitute the unauthorized practice of medicine.

All monitors shall be proposed by Respondent and approved, in writing, by the Director of OPMC before Respondent may practice after the effective date of this Order. Within 7 days of learning the approved monitor is no longer willing or able to serve, Respondent shall submit the name of a proposed successor to the Director of OPMC. Monitors shall not be family members or personal friends or be in professional relationships that would pose a conflict with monitoring responsibilities. All monitors shall execute acknowledgment forms provided by OPMC certifying familiarity with Respondent's history of substance abuse, with this Order and its terms, and acknowledging a willingness to comply with the monitor's reporting responsibilities regarding Respondent's compliance with the terms of this Order.

- a. Respondent shall ensure that the monitors are familiar with Respondent's history of substance abuse and with the terms of this Order. Respondent shall cause the monitors to report any deviation from compliance with the terms of this Order to OPMC. Respondent shall cause the monitors to submit required reports on a timely basis.
- b. Respondent shall submit to random, unannounced observed blood, breath and/or urine screens for the presence of drugs and alcohol (hereafter "drug screen"), when requested by a monitor. The monitoring shall be on a random, unannounced, directly-observed, 7-day-a-week, 24-hour-a-day basis. Respondent shall report for a drug screen within 4 hours of being contacted by a monitor. Monitors shall report to OPMC immediately if Respondent refuses or delays a test or if a test is positive for alcohol, or any other unauthorized drug or substance. Respondent shall avoid all substances that may cause positive urine drug screens, such as poppy seeds, mouthwash or cough medicine. Any positive test result shall constitute a violation of the terms of this Order.
- c. Respondent shall meet regularly with a Sobriety Monitor. During the first 12 months of monitoring, the Sobriety Monitor shall obtain drug screens at a frequency of no less than 6 times per month. If Respondent is compliant throughout the first 12-month period, subsequent drug screens shall be obtained at a frequency to be proposed by the Sobriety Monitor and approved by OPMC. The Sobriety Monitor shall submit quarterly reports to OPMC certifying Respondent's sobriety or lack of sobriety. These reports are to include

forensically valid results of all drug screens performed and an assessment of self-help group (e.g., AA/NA/Caduceus) attendance and 12-step progress.

- d. Respondent shall practice only when supervised in medical practice by a licensed physician (hereafter "Practice Supervisor"). The Practice Supervisor shall be on-site at all locations, unless determined otherwise by the Director of OPMC, and shall be in a position to regularly observe and assess Respondent's medical practice. The Practice Supervisor shall oversee Respondent's compliance with the terms of practice imposed by the Order and Respondent's prescribing, administering, dispensing, inventorying, wasting and disposal of controlled substances. The Practice Supervisor shall report to OPMC immediately any suspected impairment, inappropriate behavior, questionable medical practice, possible misconduct, or violation by Respondent of any of the terms of this Order. The Practice Supervisor shall submit quarterly reports to OPMC regarding the quality of Respondent's medical practice and prescribing practices, any unexplained absences from work, and certifying Respondent's compliance or detailing Respondent's failure to comply with each term imposed.
- e. Respondent shall engage and continue in therapy with a treating health care professional (hereinafter "Therapist"). Respondent shall cause the Therapist to submit a proposed treatment plan and quarterly reports to OPMC certifying whether Respondent is in compliance with the treatment plan. OPMC, at its discretion, may provide information or documentation from its investigative files concerning Respondent to Respondent's Therapist. The Therapist shall report to OPMC immediately if Respondent leaves treatment against medical advice or displays any symptoms of a suspected or actual relapse.
12. At the direction of the Director of OPMC, Respondent shall submit to evaluations by a board-certified psychiatrist, licensed mental health practitioner or other health care professional or program designated by the Director (hereafter "Evaluator.") Respondent shall provide the Evaluator with a copy of this Order and copies of all previous treatment records. OPMC, at its discretion, may provide information or documentation from its investigative files concerning Respondent to Respondent's Evaluator. The Evaluator shall report to the Director regarding Respondent's condition and fitness or incapacity to practice medicine. Respondent shall comply with all treatment recommendations based upon the evaluation; failure to comply with such treatment recommendations shall constitute professional misconduct.
13. Respondent shall enroll, or continue enrollment, in the Committee for Physician Health (CPH) and shall engage in a contract with CPH that defines the terms, conditions and duration of Respondent's recovery program. Respondent shall comply with the contract. Respondent shall give written authorization for CPH to provide the Director of OPMC with all information or documentation requested by OPMC to determine whether Respondent is in compliance with the contract and with this Order, including full access to all records maintained by CPH will respect to Respondent;
- a. Respondent shall cause CPH to report to OPMC promptly if Respondent refuses to comply with the contract, refuses to submit to treatment or if Respondent's impairment is not substantially alleviated by treatment;
- b. Respondent shall cause CPH to report immediately to OPMC if Respondent is regarded at any time to be an imminent danger to the public.

14. Respondent shall comply with this Consent Order and all its terms, and shall bear all associated compliance costs. Upon receiving evidence of noncompliance with, or a violation of, these terms, the Director of OPMC and/or the Board may initiate a violation of probation proceeding, and/or any other such proceeding authorized by law, against Respondent.

STATE BOARD FOR PROFESSIONAL MEDICAL CONDUCT

IN THE MATTER

CONSENT

OF

ORDER

MICHAEL WISIOREK, R.P.A., D.O.

BPMC No. 11-301

Upon the application of MICHAEL WISIOREK, R.P.A., D.O. (Respondent), in the attached Consent Agreement, that is made a part of this Consent Order, it is

ORDERED, that the Consent Agreement, and its terms, are adopted and it is further

ORDERED, that this Consent Order shall be effective upon issuance by the Board, either by mailing of a copy of this Consent Order, either by first class mail to Respondent at the address in the attached Consent Agreement or by certified mail to Respondent's attorney, or upon facsimile or email transmission to Respondent or Respondent's attorney, whichever is first.

SO ORDERED.

STATE BOARD FOR PROFESSIONAL MEDICAL CONDUCT

IN THE MATTER

CONSENT

OF

AGREEMENT

MICHAEL WISIOREK, R.P.A., D.O.  
BU-10-05-2775-A

MICHAEL WISIOREK, R.P.A., D.O. (Respondent), representing that all of the following statements are true, deposes and says:

That on or about June 13, 2011, I was licensed to practice medicine in the State of New York and issued license number 281764 by the New York State Education Department. I am currently registered with the New York State Education Department to practice medicine through May 31, 2013. I was authorized to practice as a physician's assistant in New York State on or about July 3, 2003 by the issuance of registration number 009377 by the New York State Education Department. I am registered with the New York State Education Department to practice as a physician's assistant through October 31, 2011. I understand this Consent Order and its discipline, along with the attached terms and conditions of probation, apply to my licenses to practice medicine as a physician and as a physician assistant.

My current address is REDACTED ADDRESS and I will advise the Director (Director) of the Office of Professional Medical Conduct (OPMC) of any change of my address within thirty (30) days thereof.

I understand that the New York State Board for Professional Medical Conduct (Board) has charged me with three (3) Specifications of professional misconduct.

A copy of the Statement of Charges, marked as Exhibit A, is attached to and part of this Consent Agreement.

I do not contest the three (3) Specifications, and agree to the following sanction:

Censure and Reprimand;

Respondent shall be subject to five (5) years probation, with terms and conditions in accordance with Exhibit B attached, and any extension and/or modifications, thereto;

I understand that if the Board does not adopt this Consent Agreement, none of its terms shall bind me or constitute an admission of any of the acts of alleged misconduct, this Consent Agreement shall not be used against me in any way and shall be kept in strict confidence, and the Board's denial shall be without prejudice to the pending disciplinary proceeding and the Board's final determination pursuant to New York Public Health Law.

I ask the Board to adopt this Consent Agreement.

I agree that, if I am charged with professional misconduct in future, this Consent Agreement and the Consent Order shall be admitted into evidence in that proceeding.

I stipulate that my failure to comply with any conditions of the Consent Order shall constitute misconduct as defined by New York Education Law § 6530(29).

That Respondent shall cooperate fully with the OPMC in its administration and enforcement of the Consent Order and in its investigations of matters concerning Respondent. Respondent shall respond in a timely manner to all OPMC requests for written periodic verification of Respondent's compliance with this Consent Agreement. Respondent shall meet with a person designated by the Director, OPMC, as directed. Respondent shall respond promptly and provide all documents and information within Respondent's control, as directed. This condition shall take effect upon the Board's issuance of the Consent Order and will continue so long as Respondent remains licensed in New York State.

That Respondent shall remain in continuous compliance with all requirements of New York Education Law § 6502 including, but not limited to, the requirements that a licensee shall register and continue to be registered as a physician with the New York State Education Department (except during periods of actual suspension) and that a licensee shall pay all registration fees. Respondent shall not exercise the option provided in New York Education Law § 6502(4) to avoid registration and payment of fees. This condition shall take effect 30 days after the effective date of the Consent Order and will continue so long as Respondent remains a licensee in New York State, and

I agree, further, that the Consent Order shall impose the following conditions:

I agree that, if the Board adopts this Consent Agreement, the Chair of the Board shall issue a Consent Order in accordance with its terms. I agree that the Consent Order shall take effect upon its issuance by the Board, either by mailing of a copy of the Consent Order by first class mail to me at the address in this Consent Agreement, or to my attorney by certified mail, or upon facsimile or email transmission to me or my attorney, whichever is first. The Consent Order, this Consent Agreement, and all attached Exhibits shall be public documents, with only patient identities, if any, redacted. As public documents, they may be posted on the Department of Health website.

I stipulate that the proposed sanction and Consent Order are authorized by New York Public Health Law §§ 230 and 230-a, and that the Board and OPMC have the requisite powers to carry out all included terms. I ask the Board to adopt this Consent Agreement of my own free will and not under duress, compulsion or restraint. In consideration of the value to me of the Board's adoption of this Consent Agreement, allowing me to resolve this matter without the various risks and burdens of a hearing on the merits, I knowingly waive my right to contest the Consent Order for which I apply, administratively and/or judicially. I agree to be bound by the Consent Order, and I ask that the Board adopt this Consent Agreement.

I understand and agree that the attorney for the Department, the Director, OPMC, and the Chair of the Board each retain complete discretion either to enter into the proposed Consent Agreement and Consent Order, based upon my application, or to decline to do so. I further understand and agree that no prior or separate written or oral communication can limit that discretion.

AFFIRMED:

NEW YORK STATE DEPARTMENT OF HEALTH  
STATE BOARD FOR PROFESSIONAL MEDICAL CONDUCT

IN THE MATTER  
OF  
MICHAEL WISIOREK, R.P.A., D.O.

STATEMENT  
OF  
CHARGES

MICHAEL WISIOREK, R.P.A., D.O., the Respondent, was authorized to practice medicine in New York State on or about June 13, 2011 by the issuance of license number 261764 by the New York State Education Department. Respondent is currently registered with the New York State Education Department to practice medicine through May 31, 2013. Respondent was authorized to practice as a physician assistant in New York State on July 3, 2003 by the issuance of registration number 009377 by the New York State Education Department. Respondent is registered with the New York State Education Department to practice as a physician assistant in New York State through October 31, 2011.

**FACTUAL ALLEGATIONS**

- A. Respondent, as a physician assistant, provided medical care to Patient A (patients are identified in the attached appendix), a 19 year old female, in Cheektowaga, New York on or about the summer of 2009. Patient A complained of low back pain, and Respondent prescribed her a narcotic based analgesic. Respondent's care and treatment of Patient A failed to meet accepted standards of medical practice in that:
1. Respondent, as a physician assistant, made no attempt at the utilization of non-controlled pain management analgesics and adjuvant physical modalities in therapeutics prior to prescribing Patient A a narcotic based analgesic.

2. Respondent, as a physician assistant, failed to adequately document his treatment of Patient A.

B. Respondent, as a physician assistant, provided medical care for Patient B, a 22 year old female, in Cheektowaga, New York on or about the summer of 2009. Patient B complained of back and knee pain, and Respondent prescribed her a narcotic based analgesic. Respondent's care and treatment of Patient B failed to meet accepted standards of medical practice in that:

1. Respondent, as a physician assistant, made no attempt at the utilization of non-controlled pain management analgesics and adjuvant physical modalities in therapeutics prior to prescribing Patient B a narcotic based analgesic.
2. Respondent, as a physician assistant, failed to document his treatment of patient B.

C. Respondent, on occasions from on or about the winter of 1987 to on or about the summer of 2009, consumed alcohol in excessive amounts.

### SPECIFICATION OF CHARGES

#### FIRST SPECIFICATION

#### NEGLIGENCE ON MORE THAN ONE OCCASION

Respondent is charged with committing professional misconduct as defined in N.Y. Educ. Law § 6530(3) by practicing the profession of medicine with negligence on more than one occasion as alleged in the facts of two or more of the following:

1. The facts in paragraphs A and A.1, A and A.2, B and B.1, and/or B and B.2.

**SECOND SPECIFICATION**  
**FAILURE TO MAINTAIN A RECORD**

Respondent is charged with committing professional misconduct as defined in N.Y. Educ. Law § 6530(32) by failing to maintain a record for each patient which accurately reflects the evaluation and treatment of the patient as alleged in the facts of any one of the following:

2. The facts in paragraphs A and A.2 and/or B and B.2.

**THIRD SPECIFICATION**  
**ABUSER OF ALCOHOL**

Respondent is charged with committing professional misconduct as defined in N.Y. Educ. Law § 6530 (8) by being an abuser of alcohol.

3. The facts in paragraph C.

Bureau of Professional Medical Conduct

**EXHIBIT B**  
**Terms of Probation**

1. Respondent's conduct shall conform to moral and professional standards of conduct and governing law. Any act of professional misconduct by Respondent as defined by N.Y. Educ. Law §§ 6530 or 6531 shall constitute a violation of probation and may subject Respondent to an action pursuant to N.Y. Pub. Health Law § 230(19).
2. Respondent shall maintain active registration of Respondent's license to practice as a physician (except during periods of actual suspension) with the New York State Education Department Division of Professional Licensing Services, and shall pay all registration fees.
3. Respondent shall provide the Director, Office of Professional Medical Conduct (OPMC), Hedley Park Place, 433 River Street Suite 303, Troy, New York 12180-2299 with the following information, in writing, and ensure that this information is kept current: a full description of Respondent's employment and practice, all professional and residential addresses and telephone numbers within and outside New York State, all current and past affiliations and/or privileges, with hospitals, institutions, facilities, medical practices, managed care organizations, and/or applications for such affiliations and/or privileges; and all investigations, arrests, charges, convictions or disciplinary actions by any local, state or federal agency, institution or facility. Respondent shall notify OPMC, in writing, within 30 days of any additions to or changes in the required information.
4. Respondent shall cooperate fully with, and respond in a timely manner to OPMC requests to provide written periodic verification of Respondent's compliance with the terms of this Consent Order. Upon the Director of OPMC's request, Respondent shall meet in person with the Director's designee.
5. Respondent's failure to pay any monetary penalty by the prescribed date shall subject Respondent to all provisions of law relating to debt collection by New York State, including but not limited to: the imposition of interest, late payment charges and collection fees; referral to the New York State Department of Taxation and Finance for collection; and non-renewal of permits or licenses [Tax Law § 171(27); State Finance Law § 18; CPLR § 5001; Executive Law § 32].
6. The probation period shall toll when Respondent is not engaged in active medical practice in New York State for a period of 30 consecutive days or more. Respondent shall notify the Director of OPMC, in writing, if Respondent is not currently engaged in, or intends to leave, active medical practice in New York State for a consecutive 30 day period. Respondent shall then notify the Director again at least 14 days before returning to active practice. Upon Respondent's return to active practice in New York State, the probation period shall resume and Respondent shall fulfill any unfulfilled probation terms and such additional requirements as the Director may impose as reasonably relate to the matters set forth in Exhibit "A", or as are necessary to protect the public health.
7. Respondent shall adhere to federal and state guidelines and professional standards of care with respect to infection control practices. Respondent shall ensure education, training and oversight of all office personnel involved in medical care, with respect to these practices.

8. Respondent shall maintain complete and legible medical records that accurately reflect the evaluation and treatment of patients and contain all information required by State rules and regulations concerning controlled substances.
9. Respondent shall remain free from alcohol and all other mood-altering substances other than those prescribed for Respondent's treatment by a licensed health care professional aware of Respondent's history of chemical dependency. Respondent shall not self-prescribe any medications.
10. Respondent shall notify all treating physicians of Respondent's history of substance abuse. Respondent shall advise OPMC of any controlled or mood-altering substance given or prescribed by treating physicians.
11. Within thirty (30) days of the effective date of the Consent Order, Respondent shall practice only when monitored by qualified health care professional monitors: a Sobriety Monitor, Practice Supervisor and a Therapist. Any medical practice in violation of this term shall constitute the unauthorized practice of medicine.

All monitors shall be proposed by Respondent and approved, in writing, by the Director of OPMC before Respondent may practice after the effective date of this Order. Within 7 days of learning the approved monitor is no longer willing or able to serve, Respondent shall submit the name of a proposed successor to the Director of OPMC. Monitors shall not be family members or personal friends or be in professional relationships that would pose a conflict with monitoring responsibilities. All monitors shall execute acknowledgment forms provided by OPMC certifying familiarity with Respondent's history of substance abuse, with this Order and its terms, and acknowledging a willingness to comply with the monitor's reporting responsibilities regarding Respondent's compliance with the terms of this Order.

- a. Respondent shall ensure that the monitors are familiar with Respondent's history of substance abuse and with the terms of this Order. Respondent shall cause the monitors to report any deviation from compliance with the terms of this Order to OPMC. Respondent shall cause the monitors to submit required reports on a timely basis.
- b. Respondent shall submit to random, unannounced observed blood, breath and/or urine screens for the presence of drugs and alcohol (hereafter "drug screen"), when requested by a monitor. The monitoring shall be on a random, unannounced, directly-observed, 7-day-a-week, 24-hour-a-day basis. Respondent shall report for a drug screen within 4 hours of being contacted by a monitor. Monitors shall report to OPMC immediately if Respondent refuses or delays a test or if a test is positive for alcohol, or any other unauthorized drug or substance. Respondent shall avoid all substances that may cause positive urine drug screens, such as poppy seeds, mouthwash or cough medicine. Any positive test result shall constitute a violation of the terms of this Order.
- c. Respondent shall meet regularly with a Sobriety Monitor. During the first 12 months of monitoring, the Sobriety Monitor shall obtain drug screens at a frequency of no less than 6 times per month. If Respondent is compliant throughout the first 12-month period, subsequent drug screens shall be obtained at a frequency to be proposed by the Sobriety Monitor and approved by OPMC. The Sobriety Monitor shall submit quarterly reports to OPMC certifying Respondent's sobriety or lack of sobriety. These reports are to include

forensically valid results of all drug screens performed and an assessment of self-help group (e.g., AA/NA/Caduceus) attendance and 12-step progress.

- d. Respondent shall practice only when supervised in medical practice by a licensed physician (hereafter "Practice Supervisor"). The Practice Supervisor shall be on-site at all locations, unless determined otherwise by the Director of OPMC, and shall be in a position to regularly observe and assess Respondent's medical practice. The Practice Supervisor shall oversee Respondent's compliance with the terms of practice imposed by the Order and Respondent's prescribing, administering, dispensing, inventorying, wasting and disposal of controlled substances. The Practice Supervisor shall report to OPMC immediately any suspected impairment, inappropriate behavior, questionable medical practice, possible misconduct, or violation by Respondent of any of the terms of this Order. The Practice Supervisor shall submit quarterly reports to OPMC regarding the quality of Respondent's medical practice and prescribing practices, any unexplained absences from work, and certifying Respondent's compliance or detailing Respondent's failure to comply with each term imposed.
- e. Respondent shall engage and continue in therapy with a treating health care professional (hereinafter "Therapist"). Respondent shall cause the Therapist to submit a proposed treatment plan and quarterly reports to OPMC certifying whether Respondent is in compliance with the treatment plan. OPMC, at its discretion, may provide information or documentation from its investigative files concerning Respondent to Respondent's Therapist. The Therapist shall report to OPMC immediately if Respondent leaves treatment against medical advice or displays any symptoms of a suspected or actual relapse.

12. At the direction of the Director of OPMC, Respondent shall submit to evaluations by a board-certified psychiatrist, licensed mental health practitioner or other health care professional or program designated by the Director (hereafter "Evaluator.") Respondent shall provide the Evaluator with a copy of this Order and copies of all previous treatment records. OPMC, at its discretion, may provide information or documentation from its investigative files concerning Respondent to Respondent's Evaluator. The Evaluator shall report to the Director regarding Respondent's condition and fitness or incapacity to practice medicine. Respondent shall comply with all treatment recommendations based upon the evaluation; failure to comply with such treatment recommendations shall constitute professional misconduct.

13. Respondent shall enroll, or continue enrollment, in the Committee for Physician Health (CPH) and shall engage in a contract with CPH that defines the terms, conditions and duration of Respondent's recovery program. Respondent shall comply with the contract. Respondent shall give written authorization for CPH to provide the Director of OPMC with all information or documentation requested by OPMC to determine whether Respondent is in compliance with the contract and with this Order, including full access to all records maintained by CPH will respect to Respondent.

- a. Respondent shall cause CPH to report to OPMC promptly if Respondent refuses to comply with the contract, refuses to submit to treatment or if Respondent's impairment is not substantially alleviated by treatment.
- b. Respondent shall cause CPH to report immediately to OPMC if Respondent is regarded at any time to be an imminent danger to the public.

14. Respondent shall comply with this Consent Order and all its terms, and shall bear all associated compliance costs. Upon receiving evidence of noncompliance with, or a violation of, these terms, the Director of OPMC and/or the Board may initiate a violation of probation proceeding, and/or any other such proceeding authorized by law, against Respondent.

\*\* A "yes" in this column indicates that the state board has, at some time, reported final disciplinary actions taken to the AOA. Since this information is historical and never removed from the AOA physician record, the Report user should contact the state board directly for current detailed information.

**Osteopathic Specialty Board Certification(s):**

(Certification by one or more of the 18 AOA certifying boards as reported by the Bureau of Osteopathic Specialists.)  
Physicians holding time-limited board certification (those certifications with expiration dates) are required to participate in Osteopathic Continuous Certification (OCC) in order to maintain their AOA board certification. Physicians holding non-time-limited board certification (no expiration date) may voluntarily participate in OCC, but participation in OCC does not change their non-time-limited certification status. Please note that diplomate files will be closely monitored for compliance with OCC, and your organization will be automatically notified of any change of status. For more information on OCC, visit [www.osteopathic.org](http://www.osteopathic.org)

**American Osteopathic Board of:**

**Federal Drug Enforcement Administration:**

As of 02/24/2019 Federal DEA registration is valid.  
**Please note:** Many states require their own controlled substance registration/license. Please check with your state licensing authority as the AOA does not maintain this information.

**Former Name(s):** Michael F Wisiorek

**Please Note:**

The content of this Official Physician Profile Report is intended to assist in the complete credentialing process by providing primary source verified information on physicians. Appropriate use of this instrument in combination with your organizations documented credentialing policies and procedures meets the primary source requirements of the Healthcare Facilities Accreditation Program (HFAP/AAHHS); the Accreditation Association for Ambulatory Health Care, Inc. (AAAHC); The Joint Commission; URAC; DNV GL; and the National Association of Insurance Commissioners (NAIC). The National Committee for Quality Assurance (NCQA) recognizes the information included in this Report as meeting its requirement for primary source verification of predoctoral education, postdoctoral education and specialty board certification.

If you find any discrepancies, please mark them on a copy of this report and email to the AOIA [credentials@AOAprofiles.org](mailto:credentials@AOAprofiles.org). Thank you.

Buffalo, NY 14202

Dear Wisiorek:

This letter is concerning your application/evaluation of credentials received by the Florida Board of Osteopathic Medicine. Upon completion of the initial review of your application/credentials it has been determined your documents must be presented to the Board of Osteopathic Medicine for review and consideration at the next board meeting. You are required to attend the meeting.

Your file is being reviewed because you responded affirmatively to malpractice questions, licensure history questions and health history questions.

The date of the meeting is **August 21, 2020**.

**You will receive a letter with complete details and instructions as the meeting date is closer.**

The Board is requiring that all persons appearing before the Board join the call prior to the start time. **It is not possible to give you the exact time that your file will be reviewed by the Board.**

456.013(3)(c), Florida Statutes - In considering applications for licensure, the board, or the department when there is no board, may require a personal appearance of the applicant. If the applicant is required to appear, the time period in which a licensure application must be granted or denied shall be tolled until such time as the applicant appears. However, if the applicant fails to appear before the board at either of the next two regularly scheduled board meetings, or fails to appear before the department within 30 days if there is no board, the application for licensure shall be denied.

If you have any questions, you may contact the board office at the address listed below, or by telephone at (850) 245-4161.

Sincerely,

*Carol Taylor*

Carol Taylor  
Program Operations Administrator

Michael F Wisiorek, DO  
192 Rivermist Drive  
Buffalo, NY 14202

**File Number: 16991**

Dear Dr. Wisiorek:

Your application for Osteopathic Physician license has been processed. Your application is incomplete for the following reason(s):

Your National Practitioner Data Bank (NPDB) report has not been received. You will need to request a self-query from the NPDB by visiting <https://www.npdb.hrsa.gov/ext/selfquery/SQHome.jsp> or contact the NPDB at (800) 767-6732. You will need to submit your self-query to the Board office. The NPDB will not submit this document on your behalf.

Your Postgraduate Training Evaluation Form has not been received. Your program director will need to submit a complete Postgraduate Training Evaluation Form. A copy of the Postgraduate Training Evaluation Form can be found on our website at: <http://floridasosteopathicmedicine.gov/resources>.

NBOME exam results for the required COMLEX/COMVEX exam sections have not been received. COMLEX Level 1 and 2 are required, as well as one of the following: COMLEX Level 3 or the COMVEX. Other examinations (USMLE, FLEX) are not accepted.

Your scores must be requested directly from the National Board of Osteopathic Medical Examiners. Information about score requests can be found at [www.nbome.org](http://www.nbome.org). The NBOME can be reached by phone at 866.479.6828 or by email at [ClientServices@nbome.org](mailto:ClientServices@nbome.org) if you require assistance with requesting your scores.

We have not received an official transcript from your School of Osteopathic Medicine. You will need to request that your transcript be sent from your school directly to the Board office; we cannot accept transcripts submitted by applicants. An official transcript must include your dates of enrollment and graduation and list the degree conferred.

Your Federation of State Medical Boards (FSMB) Physician Profile has not been received. Your Profile may be sent by visiting: <http://www.fsmb.org/PDC>.

We have not received official license verification for all licenses listed on your application. License verification must include the date of issuance, date of expiration, method by which you applied for licensure, and any documentation for all disciplinary action taken against the license. Request license verification from the following states: New York.

---

**Florida Department of Health**

Division of Medical Quality Assurance • Bureau of HCPR  
4052 Bald Cypress Way, Bin C06 • Tallahassee, FL 32399-3256  
PHONE: (850) 245-4161 • FAX: (850)

We have not received your Livescan results. If you have already had your electronic fingerprinting completed, please allow 24-72 hours for receipt of your results. You can find more information on this process, including how to find a provider in your area and your ORI number, by visiting the Background Screening Website at <http://www.flhealthsource.gov/background-screening/>. Should your Criminal Background Check disclose an arrest record(s), you will need to provide documentation related to each criminal event revealed in your background, if you have not already done so. You can find a detailed description of documents that will be required by visiting the FAQs on the Background Screening Website (Click on 'General FAQs'). Note: Criminal History will be reviewed by the Background Screening Unit, not the Board Office. Please email all criminal history documents to [mqa.backgroundscreen@flhealth.gov](mailto:mqa.backgroundscreen@flhealth.gov). Any original certified documents must be mailed to the following address: Attn: Background Screening Unit Florida Department of Health 4052 Bald Cypress Way, Bin BSU-01 Tallahassee, FL, 32399.

You will need to complete your application by submitting what is requested above. Please include your **file number** when submitting additional documentation or correspondence to us.

We may request information, explanation, or documentation based on a review of the documentation you submit. You will receive additional correspondence if anything further is required.

You may follow the progress of your application online at <http://flhealthsource.gov/mqa-services>. Your application will expire one year after submission if all required documentation for licensure has not been received, per 456.013(1)(a), Florida Statutes.

Contact the Board office by email at [mqa.osteopath@flhealth.gov](mailto:mqa.osteopath@flhealth.gov) with additional questions or concerns.

Sincerely,

A handwritten signature in black ink that reads "Jacqueline Clahar-Anderson". The signature is written in a cursive, flowing style.

Statement of Institutional Discipline:

I had completed three years, three months of an orthopedic surgery residency at Millcreek Community Hospital in Erie, PA. On September 21, 2014, I received a late-night consult for a shoulder fracture/dislocation in the emergency department. I missed a subtle fracture extending into the patient's proximal humerus and when I went to reduce it, I propagated the fracture. I had a plan with my Attending to fix it the next day, however, the patient wished to transfer to another hospital that she already had an established relationship with another surgeon. Two weeks later on October 3, 2014, I was asked to resign my position. On October 6, 2014, I turned in my letter of resignation.

Thank you,

Robert Ogg, DO, MPT, MEd.

**To:** OGG, ROBERT ANDREW  
2066 HIGBY DR  
STOW, OH 44224-5300

**From:** National Practitioner Data Bank  
**Re:** Response to Your Self-Query

The enclosed information is released by the National Practitioner Data Bank (NPDB) for restricted use under the provisions of Title IV of Public Law 99-660, the Health Care Quality Improvement Act of 1986, as amended; Section 1921 of the Social Security Act; and Section 1128E of the Social Security Act.

Title IV established the NPDB as an information clearinghouse to collect and release certain information related to malpractice payment history and professional competence or conduct of physicians, dentists, and other licensed health care practitioners.

Section 1921 of the Social Security Act expanded the scope of the NPDB. Section 1921 was enacted to protect program beneficiaries from unfit health care practitioners, and to improve the anti-fraud provisions of federal and state health care programs. Section 1921 authorizes the NPDB to collect certain adverse actions taken by state licensing and certification authorities, peer review organizations, and private accreditation organizations, as well as final adverse actions taken by state law or fraud enforcement agencies (including, but not limited to, state law enforcement agencies, state Medicaid Fraud Control Units, and state agencies administering or supervising the administration of a state health care program), against health care practitioners, health care entities, providers and suppliers.

Section 1128E of the Social Security Act was added by Section 221(a) of Public Law 104-191, the Health Insurance Portability and Accountability Act of 1996. The statute established a national data collection program (formerly known as the Healthcare Integrity and Protection Data Bank) to combat fraud and abuse in health care delivery and to improve the quality of patient care. Section 1128E information is now collected and disclosed by the NPDB as a result of amendments made by Section 6403 of the Affordable Care Act of 2010, Public Law 111-148. Section 1128E information includes certain final adverse actions taken by federal agencies and health plans against health care practitioners, providers, and suppliers.

Regulations governing the NPDB are codified at 45 CFR part 60. Responsibility for operating the NPDB resides with the Secretary of the U.S. Department of Health and Human Services (HHS), and HRSA, Division of Practitioner Data Banks.

Reports from the NPDB contain limited summary information and should be used in conjunction with information from other sources in granting privileges, or in making employment, affiliation, contracting or licensure decisions. NPDB responses may contain more than one report on a particular incident, if two or more actions were taken as a result of a single incident (e.g., an exclusion from a federal or state health care program and an adverse licensure action). The NPDB is a flagging system, and a report may be included for a variety of reasons that do not necessarily reflect adversely on the professional competence or conduct of the subject named in the report.

The response received from a self-query belongs to the subject of the self-query. Subjects may share the information contained in their own self-query responses with whomever they choose.

If you require additional assistance, visit the NPDB web site (<https://www.npdb.hrsa.gov>) or contact the NPDB Customer Service Center at 1-800-767-6732 (TDD: 1-703-802-9395). Information Specialists are available to speak with you weekdays from 8:30 a.m. to 6:00 p.m. (5:30 p.m. on Fridays) Eastern Time. The NPDB Customer Service Center is closed on all Federal holidays.

\*\* A "yes" in this column indicates that the state board has, at some time, reported final disciplinary actions taken to the AOA. Since this information is historical and never removed from the AOA physician record, the Report user should contact the state board directly for current detailed information.

**Federal Drug Enforcement Administration:** None Reported  
**Please note:** Many states require their own controlled substance registration/license. Please check with your state licensing authority as the AOA does not maintain this information.

**Former Name(s):** Robert A Ogg

**Please Note:**  
 The content of this Official Physician Profile Report is intended to assist in the complete credentialing process by providing primary source verified information on physicians. Appropriate use of this instrument in combination with your organizations documented credentialing policies and procedures meets the primary source requirements of the Healthcare Facilities Accreditation Program (HFAP/AAHHS); the Accreditation Association for Ambulatory Health Care, Inc. (AAAHC); The Joint Commission; URAC; DNV GL; and the National Association of Insurance Commissioners (NAIC). The National Committee for Quality Assurance (NCQA) recognizes the information included in this Report as meeting its requirement for primary source verification of predoctoral education, postdoctoral education and specialty board certification.

If you find any discrepancies, please mark them on a copy of this report and email to the AOIA [credentials@AOAprofiles.org](mailto:credentials@AOAprofiles.org). Thank you.

RE: Robert Ogg, D.O.

Problem/Situation:

Dr. Ogg has continued to show poor academic performance. He had difficulty passing part 3 of his Complex exam and had to take it a second time. He received very problematic evaluations from his rotations at Meadville Medical Center and he has received extremely low OITE scores. He does not have a behavioral issue, just an academic issue. Dr. Ogg is a potential risk as an orthopedic surgeon.

Action:

Doctors Kalata and Habusta met with Dr. Ogg and came up with this plan.

- 1) Dr. Ogg will take ACOS self assessed exams quarterly with a different topic each quarter.
- 2) Dr. Ogg will take a Board Review Course before the next OITE exam
- 3) Dr. Ogg will log academic studies for me and provide me (Dr. Habusta) with bi-weekly updates
- 4) Dr. Ogg will only receive three month contract renewals.
- 5) Dr. Ogg will let Dr. Habusta know what courses he is taking to fulfill the above requirement.
- 6) Dr. Ogg will have his research data analyzed by 04/01/13

Resolution:

Dr. Ogg is considered to be on academic probation. This is not a behavioral issue.

Additional Comments:

Dr. Ogg had nothing to say when asked if he had any additional questions or comments. He appeared unemotional and did not portray a feeling of concern to us about his poor academic performance. We will meet next month to discuss how Dr. Ogg has decided to meet the above requirements.

**Counseling Report**

Date: 03/13/13

TO: HR File

RE: Robert Ogg, D.O.

**Problem/Situation:**

Dr. Ogg has continued to show poor academic performance. He had difficulty passing part 3 of his Complex exam and had to take it a second time. He received very problematic evaluations from his rotations at Meadville Medical Center and he has received extremely low OITE scores. He does not have a behavioral issue, just an academic issue. Dr. Ogg is a potential risk as an orthopedic surgeon.

**Action:**

Doctors Kalata and Habusta met with Dr. Ogg and came up with this plan.

- 1) Dr. Ogg will take ACOS self assessed exams quarterly with a different topic each quarter.
- 2) Dr. Ogg will take a Board Review Course before the next OITE exam
- 3) Dr. Ogg will log academic studies for me and provide me (Dr. Habusta) with bi-weekly updates
- 4) Dr. Ogg will only receive three month contract renewals.
- 5) Dr. Ogg will let Dr. Habusta know what courses he is taking to fulfill the above requirement.
- 6) Dr. Ogg will have his research data analyzed by 04/01/13

**Resolution:**

Dr. Ogg is considered to be on academic probation. This is not a behavioral issue.

**Additional Comments:**

Dr. Ogg had nothing to say when asked if he had any additional questions or comments. He appeared unemotional and did not portray a feeling of concern to us about his poor academic performance. We will meet next month to discuss how Dr. Ogg has decided to meet the above requirements.

Verification of Ohio Licensure

---

I, **Carlton Jones, Office Professional 2** and official custodian of the records of the Ohio Occupational Therapy, Physical Therapy, and Athletic Trainers Board, do hereby certify that a standard search of the available records of this office indicates the following:

|                  |                         |
|------------------|-------------------------|
| Name:            | Robert Ogg              |
| Profession:      | Physical Therapist (PT) |
| License Number:  | PT011075                |
| Issue Date:      | 3/10/2005               |
| Expiration Date: | 1/31/2009               |
| Status:          | Inactive                |
| Licensed By:     | By Examination, Ohio    |

According to our records, there were no Board actions taken against this license.

The above information is the only verification information provided by this Board. If other information is needed, it must be obtained directly from the above-named individual, or the agency or institution which initially generated the information desired.

To expedite the verification process, the above format is the standard format of information available through this Board.

Stow, OH 44224

**File Number: 17182**

Dear Dr. Ogg:

Your application for Osteopathic Physician license has been processed. Your application is incomplete for the following reason(s):

Your answered Yes to Institution Discipline on the application. Please have the institution send us a letter explaining the circumstances of your discipline and probation.

We have not received official license verification for all licenses listed on your application. License verification must include the date of issuance, date of expiration, method by which you applied for licensure, and any documentation for all disciplinary action taken against the license. Request license verification from the following states: New York and Pennsylvania

You will need to complete your application by submitting what is requested above. Please include your **file number** when submitting additional documentation or correspondence to us.

We may request information, explanation, or documentation based on a review of the documentation you submit. You will receive additional correspondence if anything further is required.

You may follow the progress of your application online at <http://flhealthsource.gov/mqa-services>. Your application will expire one year after submission if all required documentation for licensure has not been received, per 456.013(1)(a), Florida Statutes.

Contact the Board office by email at [mqa.osteopath@flhealth.gov](mailto:mqa.osteopath@flhealth.gov) with additional questions or concerns.

Sincerely,

Jacqueline Clahar-Anderson  
Regulatory Specialist II  
Florida Board of Osteopathic Medicine

**Mission:**

To protect, promote & improve the health of all people in Florida through integrated state, county & community efforts.

**Ron DeSantis**  
Governor

June 5, 2020

Dr. Robert Andrew Ogg , DO  
2066 Higby Dr.  
Stow, OH 44224

**File Number: 17182**

Dear Dr. Ogg:

Your application for Osteopathic Physician license has been processed. Your application is incomplete for the following reason(s):

Your National Practitioner Data Bank (NPDB) report has not been received. You will need to request a self-query from the NPDB by visiting <https://www.npdb.hrsa.gov/ext/selfquery/SQHome.jsp> or contact the NPDB at (800) 767-6732. You will need to submit your self-query to the Board office. The NPDB will not submit this document on your behalf.

Your Postgraduate Training Evaluation Form has not been received. Your program director will need to submit a complete Postgraduate Training Evaluation Form. A copy of the Postgraduate Training Evaluation Form can be found on our website at: <http://floridasosteopathicmedicine.gov/resources>.

Your American Osteopathic Association (AOA) profile has not been received. Your profile may be sent by visiting <http://www.aoprofiles.org>, or by contacting the AOA directly at (800) 621-1773.

NBOME exam results for the required COMLEX/COMVEX exam sections have not been received. COMLEX Level 1 and 2 are required, as well as one of the following: COMLEX Level 3 or the COMVEX. Other examinations (USMLE, FLEX) are not accepted.

Your scores must be requested directly from the National Board of Osteopathic Medical Examiners. Information about score requests can be found at [www.nbome.org](http://www.nbome.org). The NBOME can be reached by phone at 866.479.6828 or by email at [ClientServices@nbome.org](mailto:ClientServices@nbome.org) if you require assistance with requesting your scores.

Your Federation of State Medical Boards (FSMB) Physician Profile has not been received. Your Profile may be sent by visiting: <http://www.fsmb.org/PDC>.

We have not received an official transcript from your School of Osteopathic Medicine. You will need to request that your transcript be sent from your school directly to the Board office; we cannot accept transcripts submitted by applicants. An official transcript must include your dates of enrollment and graduation and list the degree conferred.

You indicated on your application that you are NICA exempt. Submit documentation proving that you are NICA exempt. A list of acceptable exemption documents can be found online at: [https://www.nica.com/nonprt\\_obgyns/exemptions.html](https://www.nica.com/nonprt_obgyns/exemptions.html)

We have not received official license verification for all licenses listed on your application. License verifications must include the date of issuance, date of expiration, method by which you applied for licensure, and any documentation for all disciplinary action taken against the license. Request license verifications from the following states: Ohio, New York and Both licenses in Pennsylvania.

We have not received your Livescan results. If you have already had your electronic fingerprinting completed, please allow 24-72 hours for receipt of your results. You can find more information on this process, including how to find a provider in your area and your ORI number, by visiting the Background Screening Website at <http://www.flhealthsource.gov/background-screening/>. Should your Criminal Background Check disclose an arrest record(s), you will need to provide documentation related to each criminal event revealed in your background, if you have not already done so. You can find a detailed description of documents that will be required by visiting the FAQs on the Background Screening Website (Click on 'General FAQs'). Note: Criminal History will be reviewed by the Background Screening Unit, not the Board Office. Please email all criminal history documents to [mqa.backgroundscreen@flhealth.gov](mailto:mqa.backgroundscreen@flhealth.gov). Any original certified documents must be mailed to the following address: Attn: Background Screening Unit Florida Department of Health 4052 Bald Cypress Way, Bin BSU-01 Tallahassee, FL, 32399.

You will need to complete your application by submitting what is requested above. Please include your **file number** when submitting additional documentation or correspondence to us.

We may request information, explanation, or documentation based on a review of the documentation you submit. You will receive additional correspondence if anything further is required.

You may follow the progress of your application online at <http://flhealthsource.gov/mqa-services>. Your application will expire one year after submission if all required documentation for licensure has not been received, per 456.013(1)(a), Florida Statutes.

File # 17182

Dear Dr. Ogg:

This letter concerns your application/evaluation of credentials received by the Florida Board of Osteopathic Medicine. Upon completion of the initial review of your application/credentials it has been determined your documents must be presented to the Board of Osteopathic Medicine for review and consideration at the next board meeting. You are required to attend the meeting.

Your file is being reviewed because you answered yes to the institution discipline question.

The meeting is scheduled to take place at:

**9:00 a.m., Friday, August 21, 2020**

**Please join from your computer,  
tablet or smartphone.**

<https://global.gotomeeting.com/join/793180125>

**You can also dial in using your phone.**

**United States (Toll Free): 1-866-899-4679**

**Access Code: 793-180-125**

Appearance cases will be heard at approximately 9:00 am. **It is not possible to give you the exact time that your case will be reviewed by the Board.** We appreciate your continued cooperation and assistance.

456.013(3)(c), Florida Statutes - In considering applications for licensure, the board, or the department when there is no board, may require a personal appearance of the applicant. If the applicant is required to appear, the time period in which a licensure application must be granted or denied shall be tolled until such time as the applicant appears. However, if the applicant fails to appear before the board at either of the next two regularly scheduled board meetings or fails to appear before the department within 30 days if there is no board, the application for licensure shall be denied.

If you have any questions, you may contact the board office at the address listed below, or by telephone at (850) 245-4161.

### Florida Board of Osteopathic Medicine

Dear Mr. Dante,

As I am applying for Osteopathic physician license from February 2020, one of the questions I answered "yeas "to a situation which I already described before. case with unsuccessful central line placement, which apparently never being officially recorded, except verbal warning and deep conversation with my senior resident and attending physician about all main points. Specifically, that I have to use each and every time Ultra Sound machine to visualized vessel and only then placed a line.

I acknowledge and take full responsibility from that point on, continue practicing evidence based medicine only.

At that time, it was emphasized and handled only verbally.

Today again I have sent via email and txt message to Mrs. Greer internal medicine coordinator at Merit Health Wesley and asked her "if there is any other documentation to support that case" which I described prior. I did not receive any documentation .

Thank You,  
Sincerely,  
Gregory Avetisov DO

On Tue, Jul 14, 2020 at 11:23 AM Moore, Dontae <[Dontae.Moore@flhealth.gov](mailto:Dontae.Moore@flhealth.gov)> wrote:

Dr. Avetisov you will need to obtain a statement from your resident coordinator stating the incident was handled verbally.

If not, we need a statement from you stating he was unable to obtain any documentation from resident coordinator.

This document can be emailed to me.

Best,

Dontae Moore

**Mission:** To protect, promote and improve the health of all people in Florida through integrated state, county and community efforts.

**Vision:** To be the healthiest state in the nation.

*Please note: Florida has a very broad public records law. Most written communications to or from state officials regarding state business are public records available to the public and media upon request. Your e-mail communications may therefore be subject to public disclosure*

From Gregory Avetisov DO# File 16770

Dear Sir/Madam, as I am applying for the Medical license in the state of Florida explanation in regards of my probation .

During my PGY2 year at Merit Health Wesley, October 31, 2019 I was called into the Program Director office.

Before that I had all positive evaluations from attendings and peer reviews, however PD Dr.Thoppil stated that he received from "someone" complaining about you ,but i cannot show to you...he stated "that I was not a team player during my rotation, that I am only see positive without seeing negative" He asked me "How do you think you did your 3 month evaluation" my response was that I have completed which was request from me, in fact during my first 3 month I already had an offer from Jackson Health System Transplant Fellowship offer, which was really make for some reason my PD angry .However I had good feedback from Dr.Kosana, Dr. Messenger, Dr.Skarzynski, attending who did my evaluations. I signed every document. PD stated that I did less than 50%on my PGY2 in-service exam, my response was that I wasn't familiar with ACGME IM format, because I was coming from AOA Family Medicine, where I passed my PGY1 Inservice exam.

In any event, the Program Director stated that" I will assign a special mentor for you Dr, Grewal, who is going to follow your communication skills".

By the end of that first meeting I was really scared, and signed that document I also stated that "I believe my PD is doing everything to make me better physician"

Needless to say I only had 2 feedbacks from my special mentor Dr.Grewal, first during my ICU rotation he was just saying "Greg not everything is Cardiac related issues....." But did not provide constructive explanations as to what he really meant.

and second time when PD call him (Dr.Grewal) in December asked how am I doing ,placed him on speaker .He(Dr.Grewal) was saying that Greg slightly improving but he have to work more to get better"

I also requested from residency coordinator Mrs. Kathy Greer an official copy of that document which I signed on October 31 2019.

Thank You,

Sincerely,

Gregory Avetisov DO

**To:** AVETISOV, GREGORY ARKADY  
16 RIVIERA DR  
HATTIESBURG, MS 39402-9801

**From:** National Practitioner Data Bank  
**Re:** Response to Your Self-Query

The enclosed information is released by the National Practitioner Data Bank (NPDB) for restricted use under the provisions of Title IV of Public Law 99-660, the Health Care Quality Improvement Act of 1986, as amended; Section 1921 of the Social Security Act; and Section 1128E of the Social Security Act.

Title IV established the NPDB as an information clearinghouse to collect and release certain information related to malpractice payment history and professional competence or conduct of physicians, dentists, and other licensed health care practitioners.

Section 1921 of the Social Security Act expanded the scope of the NPDB. Section 1921 was enacted to protect program beneficiaries from unfit health care practitioners, and to improve the anti-fraud provisions of federal and state health care programs. Section 1921 authorizes the NPDB to collect certain adverse actions taken by state licensing and certification authorities, peer review organizations, and private accreditation organizations, as well as final adverse actions taken by state law or fraud enforcement agencies (including, but not limited to, state law enforcement agencies, state Medicaid Fraud Control Units, and state agencies administering or supervising the administration of a state health care program), against health care practitioners, health care entities, providers and suppliers.

Section 1128E of the Social Security Act was added by Section 221(a) of Public Law 104-191, the Health Insurance Portability and Accountability Act of 1996. The statute established a national data collection program (formerly known as the Healthcare Integrity and Protection Data Bank) to combat fraud and abuse in health care delivery and to improve the quality of patient care. Section 1128E information is now collected and disclosed by the NPDB as a result of amendments made by Section 6403 of the Affordable Care Act of 2010, Public Law 111-148. Section 1128E information includes certain final adverse actions taken by federal agencies and health plans against health care practitioners, providers, and suppliers.

Regulations governing the NPDB are codified at 45 CFR part 60. Responsibility for operating the NPDB resides with the Secretary of the U.S. Department of Health and Human Services (HHS), and HRSA, Division of Practitioner Data Banks.

Reports from the NPDB contain limited summary information and should be used in conjunction with information from other sources in granting privileges, or in making employment, affiliation, contracting or licensure decisions. NPDB responses may contain more than one report on a particular incident, if two or more actions were taken as a result of a single incident (e.g., an exclusion from a federal or state health care program and an adverse licensure action). The NPDB is a flagging system, and a report may be included for a variety of reasons that do not necessarily reflect adversely on the professional competence or conduct of the subject named in the report.

The response received from a self-query belongs to the subject of the self-query. Subjects may share the information contained in their own self-query responses with whomever they choose.

If you require additional assistance, visit the NPDB web site (<https://www.npdb.hrsa.gov>) or contact the NPDB Customer Service Center at 1-800-767-6732 (TDD: 1-703-802-9395). Information Specialists are available to speak with you weekdays from 8:30 a.m. to 6:00 p.m. (5:30 p.m. on Fridays) Eastern Time. The NPDB Customer Service Center is closed on all Federal holidays.

Dear Dr. Avetisov:

Your application for Osteopathic Physician license has been processed. Your application is incomplete for the following reason(s):

Your National Practitioner Data Bank (NPDB) report has not been received. You will need to request a self-query from the NPDB by visiting <https://www.npdb.hrsa.gov/ext/selfquery/SQHome.jsp> or contact the NPDB at (800) 767-6732. You will need to submit your self-query to the Board office. The NPDB will not submit this document on your behalf.

Your Postgraduate Training Evaluation Form has not been received. Your program director will need to submit a complete Postgraduate Training Evaluation Form. A copy of the Postgraduate Training Evaluation Form can be found on our website at: <http://floridasosteopathicmedicine.gov/resources>.

Missing data

NBOME exam results for the required COMLEX/COMVEX exam sections have not been received. COMLEX Level 1 and 2 are required, as well as one of the following: COMLEX Level 3 or the COMVEX. Other examinations (USMLE, FLEX) are not accepted.

Your scores must be requested directly from the National Board of Osteopathic Medical Examiners. Information about score requests can be found at [www.nbome.org](http://www.nbome.org). The NBOME can be reached by phone at 866.479.6828 or by email at [ClientServices@nbome.org](mailto:ClientServices@nbome.org) if you require assistance with requesting your scores.

Your American Osteopathic Association (AOA) profile has not been received. Your profile may be sent by visiting <http://www.aoprofiles.org>, or by contacting the AOA directly at (800) 621-1773.

Your Federation of State Medical Boards (FSMB) Physician Profile has not been received. Your Profile may be sent by visiting: <http://www.fsmb.org/PDC>.

Your COMLEX examination results were not received. You will need to request these results from the National Board of Medical Examiners (NBOME). Scores may be requested through the NBOME website at: <http://www.nbome.org>.

We have not received an official transcript from your School of Osteopathic Medicine. You will need to request that your transcript be sent from your school directly to the Board office; we cannot accept transcripts submitted by applicants. An official transcript must include your dates of enrollment and graduation and list the degree conferred.

We have not received official license verification for all licenses listed on your application. License verification's must include the date of issuance, date of expiration, method by which you applied for licensure, and any documentation for all disciplinary action taken against the license. Request license verification's from the following states: MISSOURI, MISSISSIPPI

You will need to complete your application by submitting what is requested above. Please include your **file number** when submitting additional documentation or correspondence to us.

We may request information, explanation, or documentation based on a review of the documentation you submit. You will receive additional correspondence if anything further is required.

You may follow the progress of your application online at <http://flhealthsource.gov/mqa-services>. Your application will expire one year after submission if all required documentation for licensure has not been received, per 456.013(1)(a), Florida Statutes.

Contact the Board office by email at [mqa.osteopath@flhealth.gov](mailto:mqa.osteopath@flhealth.gov) with additional questions or concerns.

File #16770

Dear Dr. Avetisov:

This letter concerns your application/evaluation of credentials received by the Florida Board of Osteopathic Medicine. Upon completion of the initial review of your application/credentials it has been determined your documents must be presented to the Board of Osteopathic Medicine for review and consideration at the next board meeting. You are required to attend the meeting.

Your file is being reviewed because you answered yes to the institution discipline question.

The meeting is scheduled to take place at:

**9:00 a.m., Friday, August 21, 2020**

**Please join from your computer,  
tablet or smartphone.**

<https://global.gotomeeting.com/join/793180125>

**You can also dial in using your phone.**

**United States (Toll Free): 1-866-899-4679**

**Access Code: 793-180-125**

Appearance cases will be heard at approximately 9:00 am. **It is not possible to give you the exact time that your case will be reviewed by the Board.** We appreciate your continued cooperation and assistance.

456.013(3)(c), Florida Statutes - In considering applications for licensure, the board, or the department when there is no board, may require a personal appearance of the applicant. If the applicant is required to appear, the time period in which a licensure application must be granted or denied shall be tolled until such time as the applicant appears. However, if the applicant fails to appear before the board at either of the next two regularly scheduled board meetings or fails to appear before the department within 30 days if there is no board, the application for licensure shall be denied.

If you have any questions, you may contact the board office at the address listed below, or by telephone at (850) 245-4161.

\*\* A "yes" in this column indicates that the state board has, at some time, reported final disciplinary actions taken to the AOA. Since this information is historical and never removed from the AOA physician record, the Report user should contact the state board directly for current detailed information.

**Osteopathic Specialty Board Certification(s):**

(Certification by one or more of the 18 AOA certifying boards as reported by the Bureau of Osteopathic Specialists.) Physicians holding time-limited board certification (those certifications with expiration dates) are required to participate in Osteopathic Continuous Certification (OCC) in order to maintain their AOA board certification. Physicians holding non-time-limited board certification (no expiration date) may voluntarily participate in OCC, but participation in OCC does not change their non-time-limited certification status. Please note that diplomate files will be closely monitored for compliance with OCC, and your organization will be automatically notified of any change of status. For more information on OCC, visit [www.osteopathic.org](http://www.osteopathic.org)

**To:** TAHA, MAHDI

50 SPRINGWATER SHRS

NEWNAN, GA 30265-3821

**From:** National Practitioner Data Bank

**Re:** Response to Your Self-Query

The enclosed information is released by the National Practitioner Data Bank (NPDB) for restricted use under the provisions of Title IV of Public Law 99-660, the Health Care Quality Improvement Act of 1986, as amended; Section 1921 of the Social Security Act; and Section 1128E of the Social Security Act.

Title IV established the NPDB as an information clearinghouse to collect and release certain information related to malpractice payment history and professional competence or conduct of physicians, dentists, and other licensed health care practitioners.

Section 1921 of the Social Security Act expanded the scope of the NPDB. Section 1921 was enacted to protect program beneficiaries from unfit health care practitioners, and to improve the anti-fraud provisions of federal and state health care programs. Section 1921 authorizes the NPDB to collect certain adverse actions taken by state licensing and certification authorities, peer review organizations, and private accreditation organizations, as well as final adverse actions taken by state law or fraud enforcement agencies (including, but not limited to, state law enforcement agencies, state Medicaid Fraud Control Units, and state agencies administering or supervising the administration of a state health care program), against health care practitioners, health care entities, providers and suppliers.

Section 1128E of the Social Security Act was added by Section 221(a) of Public Law 104-191, the Health Insurance Portability and Accountability Act of 1996. The statute established a national data collection program (formerly known as the Healthcare Integrity and Protection Data Bank) to combat fraud and abuse in health care delivery and to improve the quality of patient care. Section 1128E information is now collected and disclosed by the NPDB as a result of amendments made by Section 6403 of the Affordable Care Act of 2010, Public Law 111-148. Section 1128E information includes certain final adverse actions taken by federal agencies and health plans against health care practitioners, providers, and suppliers.

Regulations governing the NPDB are codified at 45 CFR part 60. Responsibility for operating the NPDB resides with the Secretary of the U.S. Department of Health and Human Services (HHS), and HRSA, Division of Practitioner Data Banks.

Reports from the NPDB contain limited summary information and should be used in conjunction with information from other sources in granting privileges, or in making employment, affiliation, contracting or licensure decisions. NPDB responses may contain more than one report on a particular incident, if two or more actions were taken as a result of a single incident (e.g., an exclusion from a federal or state health care program and an adverse licensure action). The NPDB is a flagging system, and a report may be included for a variety of reasons that do not necessarily reflect adversely on the professional competence or conduct of the subject named in the report.

The response received from a self-query belongs to the subject of the self-query. Subjects may share the information contained in their own self-query responses with whomever they choose.

If you require additional assistance, visit the NPDB web site (<https://www.npdb.hrsa.gov>) or contact the NPDB Customer Service Center at 1-800-767-6732 (TDD: 1-703-802-9395). Information Specialists are available to speak with you weekdays from 8:30 a.m. to 6:00 p.m. (5:30 p.m. on Fridays) Eastern Time. The NPDB Customer Service Center is closed on all Federal holidays.

Re: Mahdi Taha, D.O.

Dear Board members,

As requested this letter is a summary of Dr. Mahdi Taha's residency training at Saint Barnabas Medical Center (SBMC) and should provide a more detailed explanation for the following questions of the post graduate training form as requested:

Dr. Taha satisfactorily completed his PGY1 year at Union Hospital from July 2006 to June 2007. After Union Hospital closed, he transferred to SBMC to complete his residency. As a PGY2 his performance evaluations ranged from satisfactory to unsatisfactory. During his PGY2 year he was placed on probation for several months due to issues of professionalism and clinical competence. He had issues with absenteeism and gave conflicting excuses for this. Following is a quote from an email sent by one of his supervising attending regarding his clinical performance:

“Personally, I was very disappointed in his performance during the week I worked with him. It honestly took me two days before I realized he was the senior resident as he was basically invisible during rounds. The team that week was poorly organized to the point that I had to sit them down and lecture them about their patient care responsibilities after they mismanaged a patient. I feel this was a direct reflection of his poor performance as a senior medical resident. I was even more astonished to read his progress notes on the weekend when one of the interns had the day off. The notes showed absolutely no thought process and were frankly embarrassing. I feel very bad about being this harsh but I hope you realize that I usually give the residents high marks (to a fault). I think Dr. Taha is a very pleasant individual on a personal level but I would have great reservation on having him complete an Internal Medicine residency if he does not demonstrate dramatic improvement in both his work ethic and medicine knowledge.”

During his PGY3 year his academic and clinical performance varied and included satisfactory, marginal, and unsatisfactory evaluations. Again questions were raised about his professionalism. The faculty felt he had lied on several occasions. Following are communications from two different faculty members regarding Dr. Taha:

94 Old Short Hills Road

[www.barnabashealth.org](http://www.barnabashealth.org)

“On Thursday, July 31, 2008 at 4:00PM, Dr. Mahdi Taha approached me in the Intensive Care Unit to tell me that he had just had a meeting with Dr. Panush. Dr. Taha added that he had told Dr. Panush, during the meeting, that his rotation with the ICU team during the month of July had been extremely valuable, and that ‘the Intensivists are great.’ The next morning I discovered that Dr. Panush had been out-of-state and that such a meeting could not have taken place.”

“I bring these issues to your attention as they are quite disturbing and speak to Dr. Taha's integrity, reliability and professionalism and I am not confident that I can trust patients to his care given this experience.”

The housestaff competence committee sought to understand his repeated irregular behavior and requested that he seek professional evaluation. In December 2008, he was assessed by a psychiatrist through the Professional Assistance Program (PAP) of New Jersey. As summary of this evaluation follows:

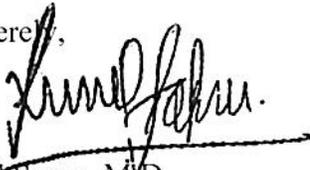

“A comprehensive interview and evaluation was performed, and according to his report, he did not meet any DSM-IV-TR criteria for any substance used disorder or any significant Axis I psychopathology....., however...there may be some interpersonal issue that could be addressed through some general consulting....the PAP agree that he is not a safety risk for patients.

In February he was reinstated into the program. In early March several incidents once again brought Dr. Taha's professionalism into question. The institutional information technology department found that he had accessed the electronic health records using a different physician's access information. Additionally, he left the hospital prior to the completion of his scheduled duties. He then gave conflicting reasons for doing so. The housestaff committee was investigating these issues when, on March 13, 2009, Dr. Taha resigned from the program for reason of personal and family difficulties.

Credit received for training:

PGY1—12 months at Union Hospital  
PGY2—12 months at SBMC  
PGY3—5 months at SBMC

Sincerely,

Sunil Sapru, M.D.

*Executive Director*

July 13, 2020

This is to certify that a standard search of the available records of the Nevada State Board of Osteopathic Medicine indicates the following:

Mahdi Taha, DO is fully licensed to practice Osteopathic Medicine in the State of Nevada.

His/Her License Number is: TL1010  
Issue Date: April 12, 2011  
Expiration Date: October 12, 2011  
License Status: Expired

His/Her license is in good standing and currently in compliance with all applicable Nevada laws (including NRS Chapter 633 and NAC Chapter 633) with no history of formal disciplinary action taken by the Board. Current investigations or history of dismissed complaints/investigations are confidential per NRS 633.611. However, any actions leading to formal complaints adjudicated by the Board are a matter of public record.

A handwritten signature in black ink, appearing to read "TS", written over a faint circular stamp.

**File Number: 17229**

Dear Dr. Taha:

Your application for Osteopathic Physician license has been processed. Your application is incomplete for the following reason(s):

Your Postgraduate Training Evaluation Form has not been received. Your program director will need to submit a complete Postgraduate Training Evaluation Form. A copy of the Postgraduate Training Evaluation Form can be found on our website at: <http://floridasosteopathicmedicine.gov/resources>.

Your American Osteopathic Association (AOA) profile has not been received. Your profile may be sent by visiting <http://www.aoprofiles.org>, or by contacting the AOA directly at (800) 621-1773.

We have not received an official transcript from your School of Osteopathic Medicine. You will need to request that your transcript be sent from your school directly to the Board office; we cannot accept transcripts submitted by applicants. An official transcript must include your dates of enrollment and graduation and list the degree conferred.

We have not received official license verification for all licenses listed on your application. License verification's must include the date of issuance, date of expiration, method by which you applied for licensure, and any documentation for all disciplinary action taken against the license. Request license verifications from the following states: Georgia, Nevada, New Jersey, New York, Oklahoma, Pennsylvania.

You will need to complete your application by submitting what is requested above. Please include your **file number** when submitting additional documentation or correspondence to us.

We may request information, explanation, or documentation based on a review of the documentation you submit. You will receive additional correspondence if anything further is required.

You may follow the progress of your application online at <http://flhealthsource.gov/mqa-services>. Your application will expire one year after submission if all required documentation for licensure has not been received, per 456.013(1)(a), Florida Statutes.

File #17229

Dear Dr. Taha:

This letter concerns your application/evaluation of credentials received by the Florida Board of Osteopathic Medicine. Upon completion of the initial review of your application/credentials it has been determined your documents must be presented to the Board of Osteopathic Medicine for review and consideration at the next board meeting. You are required to attend the meeting.

Your file is being reviewed because you received a “less than satisfactory” on your postgraduate training evaluation.

The meeting is scheduled to take place at:

**9:00 a.m., Friday, August 21, 2020**

**Please join from your computer,  
tablet or smartphone.**

<https://global.gotomeeting.com/join/793180125>

**You can also dial in using your phone.**

**United States (Toll Free): 1-866-899-4679**

**Access Code: 793-180-125**

Appearance cases will be heard at approximately 9:00 am. **It is not possible to give you the exact time that your case will be reviewed by the Board.** We appreciate your continued cooperation and assistance.

456.013(3)(c), Florida Statutes - In considering applications for licensure, the board, or the department when there is no board, may require a personal appearance of the applicant. If the applicant is required to appear, the time period in which a licensure application must be granted or denied shall be tolled until such time as the applicant appears. However, if the applicant fails to appear before the board at either of the next two regularly scheduled board meetings or fails to appear before the department within 30 days if there is no board, the application for licensure shall be denied.

If you have any questions, you may contact the board office at the address listed below, or by telephone at (850) 245-4161.

*Please Note: The content of this Official Osteopathic Physician Profile Report is intended to assist in the complete credentialing process by providing primary source verified information on osteopathic physicians. Appropriate use of this instrument, in combination with your organization's documented credentialing policies and procedures would meet the primary source requirements of the: American Osteopathic Association Healthcare Facilities Accreditation Program; Joint Commission on Accreditation of Healthcare Organizations; the American Accreditation Healthcare Commission, Inc.; and the National Association of Insurance Commissioners. The National Committee for Quality Assurance recognizes the information included in this Report as meeting its requirement for primary source verification of predoctoral education, postdoctoral education and specialty board certification.*

*If you note any discrepancies, please mark them on a copy of this report and return to the AOIA at the address above. Thank you.*

Dear Applicant:

The Department received your criminal history results. This letter is to acknowledge receipt of those results and does not replace anything requested in the application deficiency letter.

Enclosed (by mail only) is a copy of your criminal history report. This document is confidential and may not be used for any purpose other than your personal review. If you choose to return your criminal history report it will become public record. You are required to provide documentation for each item highlighted in the report.

Items required for each highlighted offense:

- Self-Explanation – a letter written in your own words that describe the circumstances surrounding each offense; including date, city, state, charges and final outcome.
- Court Dispositions/Sentencing – documentation from the county Clerk of Courts in the jurisdiction (state/county) in which the offense(s) occurred, including disposition/final outcome and sentencing (showing what was ordered, examples: probation, fines, etc.). You may be able to obtain this online through the clerk of court website. NOTE: Have all alias/maiden names included in the search.
- Arrest Report(s) – a copy of the arrest report for each offense. If you are unable to obtain a copy from the Clerk of Court, you can request a copy from the arresting agency.
- Probation/Parole, PTI Letters and/or Release (If applicable) – proof that you completed all court ordered probation/parole, PTI (Pre-trial intervention) or jail time ordered. This documentation must be issued by the probation office, Department of Corrections or the jail and must include the start date and termination date of your probation or supervised release.
- Receipt of Payment (If applicable) – proof that all fines, restitution, or other court costs have been paid in full for each offense. This documentation can be obtained from the Clerk of Court in the county in which the offense occurred and must include the date in which the payment/completion of the sanction was satisfied.

---

**64B15-12.0031 Registration as a Dispensing Physician; Delegation of Dispensing to Prescribing Physician Assistants.**

A physician may dispense drugs to his or her patient in the regular course of his or her practice provided that the physician is registered as a dispensing physician with the Board of Osteopathic Medicine. In order to register as a dispensing physician, the physician must:

(1) Submit application to the Board on form DH-MQA 1242, entitled "Osteopathic Physician Dispensing Registration," (8/10), which is hereby incorporated by reference and available from the Board of Osteopathic Medicine's website at <http://www.doh.state.fl.us/mqa/osteopath/index.html>.

(2) Comply with the provisions of Section 465.0276, F.S., regarding dispensing physicians; and,

(3) Pay the registration fee as set forth in Rule 64B15-10.005, F.A.C.

(4) Pursuant to Section 459.022(4)(e), F.S., a dispensing physician who supervises a Florida-licensed prescribing physician assistant has the authority to delegate to the prescribing physician assistant the dispensing of any medication used in the supervising physician's practice unless such medication is listed in the formulary set forth in Rule 64B15-6.0038, F.A.C. The delegation of dispensing to the prescribing physician assistant must be documented with the Board of Osteopathic Medicine by completing form DH-MQA 1240, entitled "Dispensing Physician Assistant," (8/10), which is hereby incorporated by reference and available from the Board of Osteopathic Medicine's website at [http://www.doh.state.fl.us/mqa/medical/me\\_applicant.html](http://www.doh.state.fl.us/mqa/medical/me_applicant.html). No fee is required for the delegation of dispensing to physician assistants.

**DRAFT LANGUAGE FOR REVIEW BY BOARD OF OSTEOPATHIC MEDICINE – AUGUST, 2020**

64B15-12.0031 Registration as a Dispensing Physician; Delegation of Dispensing to Prescribing Physician Assistants. A physician may dispense drugs to his or her patient in the regular course of his or her practice provided that the physician is registered as a dispensing physician with the Board of Osteopathic Medicine. In order to register as a dispensing physician, the physician must:

(1) Submit application to the Board on form DH-MQA 1242, entitled “Osteopathic Physician Dispensing Registration,” (8/10), which is hereby incorporated by reference and available from the Board of Osteopathic Medicine’s website at <http://www.doh.state.fl.us/mqa/osteopath/index.html>.

(2) Comply with the provisions of Section 465.0276, F.S., regarding dispensing physicians; and,

(3) Pay the registration fee as set forth in Rule 64B15-10.005, F.A.C.

(4) Pursuant to Section 459.022(4)(e), F.S., a dispensing physician who supervises a Florida-licensed prescribing physician assistant has the authority to delegate to the prescribing physician assistant the dispensing of any medication used in the supervising physician’s practice unless such medication is listed in the formulary set forth in Rule 64B15-6.0038, F.A.C. The delegation of dispensing to the prescribing physician assistant must be documented with the Board of Osteopathic Medicine by completing form DH-MQA 1240, entitled “Dispensing Physician Assistant,” (6/20) (8/10), which is hereby incorporated by reference and available from <http://www.flrules.org/Gateway/reference.asp?No=Ref-> or the Board of Osteopathic Medicine’s website at [http://www.doh.state.fl.us/mqa/medical/me\\_applicant.html](http://www.doh.state.fl.us/mqa/medical/me_applicant.html). No fee is required for the delegation of dispensing to physician assistants.

**DRAFT LANGUAGE – AUGUST, 2020**

**64B15-19.001 Purpose.**

The board provides within this rule chapter disciplinary guidelines which shall be imposed upon applicants or licensees whom it regulates under Chapter 459, F.S., or telehealth providers registered under section 456.47(4), F.S. The purpose of this rule chapter is to notify applicants and licensees of the ranges of penalties which will routinely be imposed during a formal or informal hearing unless the board finds it necessary to deviate from the stated guidelines ~~for the stated reasons given within this rule~~. Each range includes the lowest and highest penalty and all penalties falling between. For purposes of this rule chapter, the order of penalties, ranging from lowest to highest, is: letter of concern; reprimand; probation; fine; restriction or certification with restrictions; suspension, revocation or refusal to certify. For telehealth registrants, a suspension may be accompanied by a corrective action plan that addresses the conduct which resulted in the underlying disciplinary violations. The Board may require a corrective action plan to be completed prior to reinstatement of the suspended registration or the corrective action plan may follow a suspension for a definite term. Pursuant to Section 459.015(2), F.S., combinations of these penalties are permissible by law. Nothing in this rule chapter shall preclude any discipline imposed upon an applicant or licensee pursuant to a stipulation or settlement agreement, nor shall the stated ranges of penalties ~~set forth in this rule~~ preclude the probable cause panel from issuing a letter of guidance upon a finding of probable cause where appropriate.

**DRAFT LANGUAGE FOR TELEHEALTH VIOLATIONS, LEGISLATIVE CHANGES, AND OTHER – AUGUST, 2020**

**64B15-19.002 Violations and Penalties.**

In imposing discipline upon applicants and licensees, the board shall act in accordance with the following disciplinary guidelines and shall impose a penalty within the range corresponding to the violations set forth below. The statutory language is intended to provide a description of the violation and is not a complete statement of the violation; the complete statement may be found in the statutory provision cited directly under each violation description.

| <u>Violation</u>                                                                                                                                                                               | <u>Minimum</u>                                           | <u>Maximum</u>                                           |

[Title XXXII](#)  
REGULATION OF  
PROFESSIONS AND  
OCCUPATIONS

[Chapter 456](#)  
HEALTH PROFESSIONS AND  
OCCUPATIONS: GENERAL  
PROVISIONS

[View Entire Chapter](#)

456.47 Use of telehealth to provide services.—

(1) DEFINITIONS.—As used in this section, the term:

(a) “Telehealth” means the use of synchronous or asynchronous telecommunications technology by a telehealth provider to provide health care services, including, but not limited to, assessment, diagnosis, consultation, treatment, and monitoring of a patient; transfer of medical data; patient and professional health-related education; public health services; and health administration. The term does not include audio-only telephone calls, e-mail messages, or facsimile transmissions.

(b) “Telehealth provider” means any individual who provides health care and related services using telehealth and who is licensed or certified under s. [393.17](#); part III of chapter 401; chapter 457; chapter 458; chapter 459; chapter 460; chapter 461; chapter 463; chapter 464; chapter 465; chapter 466; chapter 467; part I, part III, part IV, part V, part X, part XIII, or part XIV of chapter 468; chapter 478; chapter 480; part II or part III of chapter 483; chapter 484; chapter 486; chapter 490; or chapter 491; who is licensed under a multistate health care licensure compact of which Florida is a member state; or who is registered under and complies with subsection (4).

(2) PRACTICE STANDARDS.—

(a) A telehealth provider has the duty to practice in a manner consistent with his or her scope of practice and the prevailing professional standard of practice for a health care professional who provides in-person health care services to patients in this state.

(b) A telehealth provider may use telehealth to perform a patient evaluation. If a telehealth provider conducts a patient evaluation sufficient to diagnose and treat the patient, the telehealth provider is not required to research a patient’s medical history or conduct a physical examination of the patient before using telehealth to provide health care services to the patient.

(c) A telehealth provider may not use telehealth to prescribe a controlled substance unless the controlled substance is prescribed for the following:

1. The treatment of a psychiatric disorder;
2. Inpatient treatment at a hospital licensed under chapter 395;
3. The treatment of a patient receiving hospice services as defined in s. [400.601](#); or
4. The treatment of a resident of a nursing home facility as defined in s. [400.021](#).

(d) A telehealth provider and a patient may be in separate locations when telehealth is used to provide health care services to a patient.

(e) A nonphysician telehealth provider using telehealth and acting within his or her relevant scope of practice, as established by Florida law or rule, is not in violation of s. [458.327\(1\)\(a\)](#) or s. [459.013\(1\)\(a\)](#).

(3) RECORDS.—A telehealth provider shall document in the patient’s medical record the health care services rendered using telehealth according to the same standard as used for in-person services. Medical records, including video, audio, electronic, or other records generated as a result of providing such services, are confidential pursuant to ss. [395.3025\(4\)](#) and [456.057](#).

(4) REGISTRATION OF OUT-OF-STATE TELEHEALTH PROVIDERS.—

(a) A health care professional not licensed in this state may provide health care services to a patient located in this state using telehealth if the health care professional registers with the applicable board, or the department if there is no board, and provides health care services within the applicable scope of practice established by Florida law or rule.

(b) The board, or the department if there is no board, shall register a health care professional not licensed in this state as a telehealth provider if the health care professional:

1. Completes an application in the format prescribed by the department;
2. Is licensed with an active, unencumbered license that is issued by another state, the District of Columbia, or a possession or territory of the United States and that is substantially similar to a license issued to a Florida-licensed provider specified in paragraph (1)(b);

3. Has not been the subject of disciplinary action relating to his or her license during the 5-year period immediately prior to the submission of the application;
4. Designates a duly appointed registered agent for service of process in this state on a form prescribed by the department; and
5. Demonstrates to the board, or the department if there is no board, that he or she is in compliance with paragraph (e).

The department shall use the National Practitioner Data Bank to verify the information submitted under this paragraph, as applicable.

(c) The website of a telehealth provider registered under paragraph (b) must prominently display a hyperlink to the department's website containing information required under paragraph (h).

(d) A health care professional may not register under this subsection if his or her license to provide health care services is subject to a pending disciplinary investigation or action, or has been revoked in any state or jurisdiction. A health care professional registered under this subsection must notify the appropriate board, or the department if there is no board, of restrictions placed on his or her license to practice, or any disciplinary action taken or pending against him or her, in any state or jurisdiction. The notification must be provided within 5 business days after the restriction is placed or disciplinary action is initiated or taken.

(e) A provider registered under this subsection shall maintain professional liability coverage or financial responsibility, that includes coverage or financial responsibility for telehealth services provided to patients not located in the provider's home state, in an amount equal to or greater than the requirements for a licensed practitioner under s. [456.048](#), s. [458.320](#), or s. [459.0085](#), as applicable.

(f) A health care professional registered under this subsection may not open an office in this state and may not provide in-person health care services to patients located in this state.

(g) A pharmacist registered under this subsection may only use a pharmacy permitted under chapter 465, a nonresident pharmacy registered under s. [465.0156](#), or a nonresident pharmacy or outsourcing facility holding an active permit pursuant to s. [465.0158](#) to dispense medicinal drugs to patients located in this state.

(h) The department shall publish on its website a list of all registrants and include, to the extent applicable, each registrant's:

1. Name.
2. Health care occupation.
3. Completed health care training and education, including completion dates and any certificates or degrees obtained.
4. Out-of-state health care license with the license number.
5. Florida telehealth provider registration number.
6. Specialty.
7. Board certification.
8. Five-year disciplinary history, including sanctions and board actions.
9. Medical malpractice insurance provider and policy limits, including whether the policy covers claims that arise in this state.
10. The name and address of the registered agent designated for service of process in this state.

(i) The board, or the department if there is no board, may take disciplinary action against an out-of-state telehealth provider registered under this subsection if the registrant:

1. Fails to notify the applicable board, or the department if there is no board, of any adverse actions taken against his or her license as required under paragraph (d).
2. Has restrictions placed on or disciplinary action taken against his or her license in any state or jurisdiction.
3. Violates any of the requirements of this section.
4. Commits any act that constitutes grounds for disciplinary action under s. [456.072\(1\)](#) or the applicable practice act for Florida-licensed providers.

Disciplinary action taken by a board, or the department if there is no board, under this paragraph may include suspension or revocation of the provider's registration or the issuance of a reprimand or letter of concern. A suspension may be accompanied by a corrective action plan as determined by the board, or the department if there is no board, the completion of which may lead to the suspended registration being reinstated according to rules adopted by the board, or the department if there is no board.

(5) VENUE.—For the purposes of this section, any act that constitutes the delivery of health care services is deemed to occur at the place where the patient is located at the time the act is performed or in the patient's county of residence. Venue for a civil or administrative action initiated by the department, the appropriate board, or a patient who receives telehealth services from an out-of-state telehealth provider may be located in the patient's county of residence or in Leon County.

(6) EXEMPTIONS.—A health care professional who is not licensed to provide health care services in this state but who holds an active license to provide health care services in another state or jurisdiction, and who provides health care services using telehealth to a

patient located in this state, is not subject to the registration requirement under this section if the services are provided:

(a) In response to an emergency medical condition as defined in s. [395.002](#); or

(b) In consultation with a health care professional licensed in this state who has ultimate authority over the diagnosis and care of the patient.

(7) RULEMAKING.—The applicable board, or the department if there is no board, may adopt rules to administer this section.

1  
2 An act relating to reproductive health; amending s.  
3 456.072, F.S.; providing grounds for disciplinary  
4 action; amending s. 456.074, F.S.; requiring the  
5 department to immediately suspend the license of  
6 certain health care practitioners under certain  
7 circumstances; creating s. 456.51, F.S.; defining the  
8 term "pelvic examination"; prohibiting health care  
9 practitioners and certain students from performing a  
10 pelvic examination on a patient without first  
11 obtaining the written consent of the patient or the  
12 patient's legal representative; providing exceptions;  
13 amending ss. 458.331 and 459.015, F.S.; providing  
14 grounds for disciplinary action; creating s. 784.086,  
15 F.S.; defining terms; establishing the criminal  
16 offense of reproductive battery; providing criminal  
17 penalties; providing an exception; tolling the period  
18 of limitations; providing that a recipient's consent  
19 to an anonymous donor is not a defense to the crime of  
20 reproductive battery; providing effective dates.

21  
22 Be It Enacted by the Legislature of the State of Florida:

23  
24 Section 1. Paragraph (pp) is added to subsection (1) of  
25 section 456.072, Florida Statutes, to read:

26 456.072 Grounds for discipline; penalties; enforcement.—

27 (1) The following acts shall constitute grounds for which  
28 the disciplinary actions specified in subsection (2) may be  
29 taken:

2020698er

30           (pp) Intentionally implanting a patient or causing a  
31 patient to be implanted with a human embryo without the  
32 recipient's consent to the use of that human embryo, or  
33 inseminating a patient or causing a patient to be inseminated  
34 with the human reproductive material, as defined in s. 784.086,  
35 of a donor without the recipient's consent to the use of human  
36 reproductive material from that donor.

37           Section 2. Subsection (1) of section 456.074, Florida  
38 Statutes, is amended to read:

39           456.074 Certain health care practitioners; immediate  
40 suspension of license.—

41           (1) The department shall issue an emergency order  
42 suspending the license of any person licensed under chapter 458,  
43 chapter 459, chapter 460, chapter 461, chapter 462, chapter 463,  
44 chapter 464, chapter 465, chapter 466, or chapter 484 who pleads  
45 guilty to, is convicted or found guilty of, or who enters a plea  
46 of nolo contendere to, regardless of adjudication, to:

47           (a) A felony under chapter 409, chapter 817, or chapter 893  
48 or under 21 U.S.C. ss. 801-970 or under 42 U.S.C. ss. 1395-1396;  
49 ~~or~~

50           (b) A misdemeanor or felony under 18 U.S.C. s. 669, ss.  
51 285-287, s. 371, s. 1001, s. 1035, s. 1341, s. 1343, s. 1347, s.  
52 1349, or s. 1518 or 42 U.S.C. ss. 1320a-7b, relating to the  
53 Medicaid program; or

54           (c) A felony under s. 784.086, relating to a reproductive  
55 battery.

56           Section 3. Section 456.51, Florida Statutes, is created to  
57 read:

58           456.51 Consent for pelvic examinations.—

2020698er

59       (1) As used in this section, the term "pelvic examination"  
60 means the series of tasks that comprise an examination of the  
61 vagina, cervix, uterus, fallopian tubes, ovaries, rectum, or  
62 external pelvic tissue or organs using any combination of  
63 modalities, which may include, but need not be limited to, the  
64 health care provider's gloved hand or instrumentation.

65       (2) A health care practitioner, a medical student, or any  
66 other student receiving training as a health care practitioner  
67 may not perform a pelvic examination on a patient without the  
68 written consent of the patient or the patient's legal  
69 representative executed specific to, and expressly identifying,  
70 the pelvic examination, unless:

71       (a) A court orders performance of the pelvic examination  
72 for the collection of evidence; or

73       (b) The pelvic examination is immediately necessary to  
74 avert a serious risk of imminent substantial and irreversible  
75 physical impairment of a major bodily function of the patient.

76       Section 4. Paragraph (ww) is added to subsection (1) of  
77 section 458.331, Florida Statutes, to read:

78       458.331 Grounds for disciplinary action; action by the  
79 board and department.—

80       (1) The following acts constitute grounds for denial of a  
81 license or disciplinary action, as specified in s. 456.072(2):

82       (ww) Implanting a patient or causing a patient to be  
83 implanted with a human embryo created with the human  
84 reproductive material, as defined in s. 784.086, of the  
85 licensee, or inseminating a patient or causing a patient to be  
86 inseminated with the human reproductive material of the  
87 licensee.

2020698er

88 Section 5. Paragraph (yy) is added to subsection (1) of  
89 section 459.015, Florida Statutes, to read:

90 459.015 Grounds for disciplinary action; action by the  
91 board and department.—

92 (1) The following acts constitute grounds for denial of a  
93 license or disciplinary action, as specified in s. 456.072(2):

94 (yy) Implanting a patient or causing a patient to be  
95 implanted with a human embryo created with the human  
96 reproductive material, as defined in s. 784.086, of the  
97 licensee, or inseminating a patient or causing a patient to be  
98 inseminated with the human reproductive material of the  
99 licensee.

100 Section 6. Effective October 1, 2020, section 784.086,  
101 Florida Statutes, is created to read:

102 784.086 Reproductive battery.—

103 (1) As used in this section, the term:

104 (a) "Donor" means a person who donates reproductive  
105 material, regardless of whether for personal use or  
106 compensation.

107 (b) "Health care practitioner" has the same meaning as  
108 provided in s. 456.001.

109 (c) "Recipient" means a person who receives reproductive  
110 material from a donor.

111 (d) "Reproductive material" means any human "egg" or  
112 "sperm" as those terms are defined in s. 742.13, or a human  
113 zygote.

114 (e) "Zygote" means a fertilized ovum.

115 (2) A health care practitioner may not intentionally  
116 transfer into the body of a recipient human reproductive

2020698er

117 material or implant a human embryo of a donor, knowing the  
118 recipient has not consented to the use of the human reproductive  
119 material or human embryo from that donor.

120 (a) A health care practitioner who violates this section  
121 commits reproductive battery, a felony of the third degree,  
122 punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

123 (b) A health care practitioner who violates this section  
124 and who is the donor of the reproductive material commits a  
125 felony of the second degree, punishable as provided in s.  
126 775.082, s. 775.083, or s. 775.084.

127 (3) Notwithstanding any other provision of law, the period  
128 of limitation for a violation under this section does not begin  
129 to run until the date on which the violation is discovered and  
130 reported to law enforcement or any other governmental agency.

131 (4) It is not a defense to the crime of reproductive  
132 battery that the recipient consented to an anonymous donor.

133 Section 7. Except as otherwise expressly provided in this  
134 act, this act shall take effect July 1, 2020.

**DEPARTMENT OF HEALTH  
ANESTHESIOLOGIST  
ASSISTANTS  
P.O. Box 6330  
Tallahassee, Florida 32399-6330  
(850) 245-4131**

**APPLICATION FOR LICENSURE AS AN  
ANESTHESIOLOGIST ASSISTANT  
(INSTRUCTIONS)**

Prior to completing the application, we strongly recommend that you carefully read Sections 458 and 459, Florida Statutes and Rule Chapters 64B8-31, and 64B15-7 Florida Administrative Code. You must know and comply with the laws and rules as they pertain to your professional practice. Laws and rules are subject to change at any time. For updated information refer to the following web-sites [www.leg.state.fl.us/](http://www.leg.state.fl.us/) (statutes) and [www.flrules.org](http://www.flrules.org) (Florida Administrative Code).

Please take personal responsibility for preparing your application. Carefully read and follow all instructions. If you have questions, call for clarification. Applicants are required to keep the application information updated during processing.

The Department strongly suggests that you refrain from making a commitment or accepting a position in Florida until you are licensed.

Upon employment as an Anesthesiologist Assistant, you must notify the Florida Department of Health, Board of Medicine, Anesthesiologist Assistants within 30 days of beginning such employment or after any subsequent changes in the supervising physician(s) and any address changes. An Anesthesiologist Assistant Protocol must be used for this purpose.

**THE FOLLOWING ITEMS MUST ACCOMPANY YOUR APPLICATION FOR LICENSURE AS AN ANESTHESIOLOGIST ASSISTANT: Copies must be legible. It is acceptable, and preferred that large documents be reduced to 8 1/2" x 11".**

**1. Applications and Initial License Fee:**

No application will be processed without the fees. Application and initial license fees must accompany the application. The application fee is non-refundable. The application fee is \$150 and the initial license fee is \$100 plus \$5.00 unlicensed activity fee for any person applying for licensure as an Anesthesiologist Assistant as provided in Sections 458 and 459, F.S., Submit a check, money order or cashier's check made payable to the Florida Department of Health in the amount of \$255. The biennial license period for Anesthesiologist Assistants is February 1 odd year through January 31 odd year.

**2. Anesthesiologist Assistant Diploma:** Submit a photocopy of your Anesthesiologist Assistant diploma. Additionally, you are responsible for mailing to your Anesthesiologist Assistants program the "Anesthesiologist Assistant Program Verification Form".

**3. NCCAA:** Submit a photocopy of your certificate issued to you by the National Commission on Certification of Anesthesiologist Assistants (NCCAA). If you have had a previous certificate that lapsed, please indicate the certification number. Chapters 458 and 459 require any person desiring to be licensed, as an Anesthesiologist Assistant, must have "satisfactorily passed a proficiency examination by an acceptable score established by the National Commission on Certification of Anesthesiologist Assistants (NCCAA). If an  
64B8-31.003 & 64B15-7.003, F.A.C. DH-MQA-1087, revised (06/2020)

applicant does not hold a current certificate issued by the NCCAA and has not actively practiced as an Anesthesiologist Assistant within the immediately preceding 4 years, the applicant must retake and successfully complete the entry-level examination of the NCCAA to be eligible for licensure.” By Board rule, the Board may require an applicant who does not pass the NCCAA exam after five or more attempts to complete additional remedial education or training. Additionally, you are responsible for mailing the “NCCAA Verification Form” to NCCAA.

**4. Advanced Cardiac Life Support (ACLS) Certificate:** Submit a photocopy of your ACLS certificate issued by the American Heart Association.

**5. United States Military and/or Public Health:** Provide a copy of your discharge documents indicating type of discharge.

**6. Name:** List your name as it appears on your birth certificate and/or a legal name-change document. Nicknames or shortened versions are unacceptable. If you have a hyphenated last name, enter both names in the last name space. It will be recognized by the first letter of the first name; e.g., Diaz-Jones.

**7. Financial Responsibility:** Pursuant to Section 456.048(1), F.S., prior to licensure, the Anesthesiologist Assistant must provide a statement of liability coverage on forms approved by the Board.

**8. Letters of Recommendation:** Two current, original, personalized and individualized letters of recommendation from Anesthesiologists, (MD’s or DO’s) on his or her letterhead paper. Each letter must be addressed to the Board of Medicine and must have been written no more than six (6) months prior to the filing of the application. Letters addressed only "TO WHOM IT MAY CONCERN" and/or containing a signature stamp will not be accepted. Identical letters that appear to have been composed by the same person, or from family members, will not be accepted. If you are a recent graduate, your recommendation letters must be from your faculty anesthesiologists. If you were employed as an Anesthesiologist Assistant, your recommendation letters must be from supervising anesthesiologist. If clinical rotations are completed in a state other than your program and your preceptor physician is submitting a recommendation letter, please have the physician clarify his/her association with you. Letters should expound on your clinical skills and abilities.

**9. License Verifications: (AA, PA, LPN, RN, EMT, CNA, Paramedic, RT, TT, PT, etc.)**

Provide verification of licensure as an Anesthesiologist Assistant and/or any other healthcare practitioner in any state. Some agencies charge a fee for license verifications. If you are, or have been, licensed in the United States, contact each state and have them forward licensure/registration/certification, (including temporary licenses/permits) verification directly to the Board of Medicine. If no license/registration/ certification was required during your employment, please request that the state board provide such statement directly to this office. A copy of your license is not acceptable in lieu of a written verification of licensure from the State Licensing Agency. You may want to request state licensure verifications as soon as possible; some states can take up to 6 weeks to complete and mail verifications. Additionally, you are responsible for mailing the “Licensure Verification Form” to all state Medical Boards where you have ever held a license as a health care provider. (Not limited to Anesthesiologist Assistant licensure)

**10. Education, Training, Employment and Non-Employment History:** Question 17 must contain and account for all non-medical periods of time, including vacations and non-employment during the past five years. Question 18 must contain and account for all medical related employment. Omission of this information will cause a delay in the application process. Do not leave off more than 30 days.

**11. Activities:** You are required to update your application by providing the Board office with a written statement of your activities within 30 days of the Committee meeting to which your application is being considered.

**12. Supplemental Documents:** If any of the questions numbered 20-23 and 25-40 on the application are answered "Yes", you must submit a detailed statement, composed by you, explaining the circumstances. Should any of the questions in the "YES/NO" portion of the application fail to provide sufficient space for the requested information, use an additional page and number the additional information with the corresponding number in the application.

- For Questions 33-38: \* Reports from all treating physicians/hospitals/institutions/agencies, including admission and discharge summary regarding treatment on conduct assessment(s); mental or physical conditions. Reports must include all DSM III R/DSM IV, Axis I and II diagnoses and codes and Axis III condition and prescribed medications. Applicants, who have any history of those listed above, may be required to undergo a current conduct assessment through Florida's Professionals Resource Network (PRN). Also see "Supplemental Documents".
- For Questions 23, 25-29, and 39-40: \* Submit court copies of charges/arrest report(s), indictments(s) and judgment(s) and satisfaction of judgment(s) Submit copies of any litigation or any other proceedings in any court of law or equity, any criminal court, any arbitration Board or before any governmental Board or Agency, to which you have been a party, either as a plaintiff, defendant, co-defendant, or otherwise. Also see "Supplemental Documents".
- For Questions 20-22 and 32: \* Submit Copies of supporting documentation. Also see "Supplemental Documents".
- For Questions 30: \* Submit court copies of complaint(s), amended complaint(s), and judgment(s). If litigation is pending, the attorney representing the case must submit a letter addressed to the Committee on Anesthesiologist Assistants explaining the current litigation status. Submit a statement, composed by you, stating how many cases you have been named in and the details of your involvement. Also see "Supplemental Documents".

\*Section 456.013(3)(c), Florida Statutes, permits the Board to require your personal appearance.

|                              |                                         |                                                |

**MILITARY HISTORY:**

19. Have you ever been in the United States Military and or Public Health Service? If yes, please list below the branch of service, rank and all dates of service. Provide a copy of your discharge document.

YES  NO

\_\_\_\_\_

**THE FOLLOWING QUESTIONS MUST BE ANSWERED YES OR NO. ALL AFFIRMATIVE ANSWERS MUST BE PERSONALLY EXPLAINED TO THE COUNCIL IN DETAIL ON AN ADDITIONAL SHEET. DOCUMENTATION SUBSTANTIATING THE EXPLANATION IS REQUIRED.**

20. Have you ever been denied a license as an Anesthesiologist Assistant or health care practitioner by any state board or other governmental agency of any state or country? YES  NO
21. Have you ever been notified to appear before any licensing agency for a hearing or complaint of any nature, including, but not limited to, a charge of violation of the medical practice act, unprofessional or unethical conduct? YES  NO
22. Have you ever had a license to practice as an Anesthesiologist Assistant or other health care practitioner revoked, suspended, or other disciplinary action taken in any state, territory or country? YES  NO
23. Have you ever been convicted of, or entered a plea of guilty, nolo contendere, or no contest to a crime in any jurisdiction other than a minor traffic offense? You must include all misdemeanors and felonies, even if the court withheld adjudication so that you would not have a record of conviction. Driving under the influence or driving while impaired is not a minor traffic offense for purposes of this question YES  NO
24. I have been provided and read the statement from the Florida Department of Law Enforcement regarding the sharing, retention, privacy and right to challenge incorrect criminal history records and the "Privacy Statement" document from the Federal Bureau of Investigation. YES  NO
25. Have you been convicted of, or entered a plea of guilty or nolo contendere to, regardless of adjudication, a felony under Chapter 409, F.S. (relating to social and economic assistance), Chapter 817, F.S. (relating to fraudulent practices), Chapter 893, F.S. (relating to drug abuse prevention and control) or a similar felony offense(s) in another state or jurisdiction? (If you responded "no", skip to #26.) YES  NO
- 25a. If "yes" to 25, for the felonies of the first or second degree, has it been more than 15 years from the date of the plea, sentence and completion of any subsequent probation? YES  NO
- 25b. If "yes" to 25, for the felonies of the third degree, has it been more than 10 years from the date of the plea, sentence and completion of any subsequent probation? (This question does not apply to felonies of the third degree under Section 893.13(6)(a), Florida Statutes.) YES  NO
- 25c. If "yes" to 25, for the felonies of the third degree under Section 893.13(6)(a), Florida Statutes, has it been more than 5 years from the date of the plea, sentence and completion of any subsequent probation? YES  NO
- 25d. If "yes" to 25, have you successfully completed a drug court program that resulted in the plea for the felony offense being withdrawn or charges dismissed? (If "yes", please provide supporting documentation.) YES  NO
26. Have you been convicted of, or entered a plea of guilty or nolo contendere to, regardless of adjudication, a felony under 21 U.S.C. ss. 801-970 (relating to controlled substances) or 42 U.S.C. ss. 1395-1396 (relating to public health, welfare, Medicare and Medicaid issues)? YES  NO
- 26a. If "yes" to 26, has it been more than 15 years before the date of application since the sentence and any subsequent period of probation for such conviction or plea ended? YES  NO
27. Have you ever been terminated for cause from the Florida Medicaid Program pursuant to Section 409.913, Florida Statutes? (If "No", do not answer 27a.) YES  NO
- 27a. If you have been terminated but reinstated, have you been in good standing with the Florida Medicaid Program for the most recent five years? YES  NO
28. Have you ever been terminated for cause, pursuant to the appeals procedures established by the state, from any other state Medicaid program? (If "No", do not answer 28a or 28b.) YES  NO
- 28a. Have you been in good standing with a state Medicaid program for the most recent five years? YES  NO
- 28b. Did the termination occur at least 20 years before the date of this application? YES  NO

29. Are you currently listed on the United States Department of Health and Human Services Office of Inspector General's List of Excluded Individuals and Entities (LEIE)? YES  NO
- a. If you responded "Yes" to the question above, are you listed because you defaulted or are delinquent on a student loan? YES  NO
- b. If you responded "Yes" to question 29.a., is the student loan default or delinquency the only reason you are listed on the LEIE? YES  NO
30. Have you ever been named in a lawsuit for malpractice or has any settlement or claim been paid on your behalf in relation to a claim of malpractice? YES  NO
31. Have you ever discontinued practice for any reason for a period of one month or longer? YES  NO
32. Have you ever had employment terminated for cause? YES  NO
33. In the last five years, have you been enrolled in, required to enter into, or participated in any drug and/or alcohol recovery program or impaired practitioner program for treatment of drug or alcohol abuse that occurred within the past five years? YES  NO
34. In the last five years, have you been admitted or referred to a hospital, facility or impaired practitioner program for treatment of a diagnosed mental disorder or YES  NO
35. During the last five years, have you been treated for or had a recurrence of a diagnosed mental disorder that has impaired your ability to practice medicine within the past five years? YES  NO
36. During the last five years, have you been treated for or had a recurrence of a diagnosed physical disorder that has impaired your ability to practice medicine? YES  NO
37. In the last five years, were you admitted or directed into a program for the treatment of a diagnosed substance-related (alcohol/drug) disorder or, if you were previously in such a program, did you suffer a relapse within the last five years? YES  NO
38. During the last five years, have you been treated for or had a recurrence of a diagnosed substance-related (alcohol/drug) disorder that has impaired your ability to practice medicine within the last five years? YES  NO
39. Have you had any felony convictions? YES  NO
40. Have you had any license revoked or denied? YES  NO

**AFFIDAVIT: (Applicable to questions 22, 39 and 40 only)**

The foregoing instrument was sworn before me this \_\_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_\_.

By \_\_\_\_\_ who is personally known to me or who has produced as identification \_\_\_\_\_ and did take an oath.

Name of Notary: \_\_\_\_\_ (typed, printed or stamped)

Signature of Notary: \_\_\_\_\_

We are required to ask that you furnish the following information as part of your voluntary compliance with Section 2, Uniform Guidelines on Employee Selection Procedure (1978) 43 FR38296 (August 25, 1978). This information is gathered for statistical and reporting purposes only and does not in any way affect your candidacy for licensure.

Male  Female  Black  Caucasian  Hispanic  Native American  Other

**Statement of Applicant:**

I state that these statements are true and correct. I recognize that providing false information may result in denial of licensure, disciplinary action against my license, or criminal penalties pursuant to Sections 456.067, 775.083, and 775.084, Florida Statutes. I state that I have read Chapters 456, 458 and 459, and sections 766.301-306, F.S. and Chapters 64B8-31, and 64B15-7, Florida Administrative Code.

I hereby authorize all hospitals, institutions or organizations, my references, personal physicians, employers (past and present), and all governmental agencies and instrumentalities (local, state, federal, or foreign) to release to the Florida Board of Medicine information which is material to my application for licensure.

I have carefully read the questions in the foregoing application and have answered them completely, without reservations of any kind. I state that my answers and all statements made by me herein are true and correct.

Should I furnish any false information in this application, I hereby agree that such act constitutes cause for denial, suspension, or revocation of my license to practice Medicine in the State of Florida. If there are any changes to my status or any change that would affect any of my answers to this application I must notify the board within 30 days.

I understand that my records are protected under federal and state regulations governing Confidentiality of Mental Health Patient Records and cannot be disclosed without my written consent unless otherwise provided in the regulations. I understand that my records are protected under federal and state regulations governing Confidentiality of Alcohol and Drug Abuse Patient Records, 42CFR Part 2, and cannot be disclosed without my written consent unless otherwise provided in the regulations. I also understand that I may revoke this consent at any time except to the extent that action has been taken in reliance upon it.

## ANESTHESIOLOGIST ASSISTANT PROTOCOL INSTRUCTIONS AND INFORMATION

- ✓ Always submit pages 18 - 21 of the Protocol. (Do not return the instruction page.)
- ✓ The Anesthesiologist MUST sign page 20 and the Anesthesiologist Assistant MUST sign page 21.
- ✓ A separate Protocol form must be submitted for each individual practice setting. (Satellite offices DO NOT require separate forms but DO need to be listed.)
- ✓ If you do not receive your stamped copy of the Protocol form within 30 days, please call us at (850) 245-4131.
- ✓ Please maintain a copy of your signed Protocol form for credentialing purposes.
- ✓ Failure to submit any changes or up-dates within 30 days of the occurrence will result in disciplinary action. (mailing / practice locations, adding / deleting supervising physicians)
- ✓ With the exception of practicing in a government facility, only anesthesiologists with an unrestricted Florida license, and whose license is not on probation, is qualified to employ and supervise anesthesiologist assistants.
- ✓ Licensees are required to keep his/her protocol and licensure information current at all times.

### PERFORMANCE OF SUPERVISING ANESTHESIOLOGIST(S):

Sections 458.3475 and 459.023, Florida Statutes, state that “an Anesthesiologist who directly supervises an anesthesiologist assistant must be qualified in the medical areas in which the anesthesiologist assistant performs and is liable for the performance of the anesthesiologist assistant.”

### Keep a copy of these frequently used phone numbers and Web sites

- **Anesthesiologist Assistant Website:** [www.flhealthsource.com](http://www.flhealthsource.com) (Applications, Protocols, renewal forms, CME requirements, address changes)

**ANESTHESIOLOGIST ASSISTANT PROTOCOL FORM**

Department of Health  
4052 Bald Cypress Way, Bin #C03  
Tallahassee, Florida 32399-3253  
(850) 245-4131

**IT IS THE RESPONSIBILITY OF THE ANESTHESIOLOGIST ASSISTANT TO KEEP THE PROTOCOL CURRENT.**

Sections 458.3475 and 459.023, Florida Statutes, and Rules 64B8-31 and 64B15-7, Florida Administrative Code, require that "Upon employment as a Anesthesiologist Assistant, a licensed Anesthesiologist Assistant must notify the Board office prior to such employment and/or after any subsequent changes in the supervising Anesthesiologist(s)". **Such notification shall include the full name, Florida license number and address of the supervising Anesthesiologist(s) as appropriate.**

A separate Protocol is required for each distinct practice, i.e., working full-time in one practice and then working part-time in an additional practice with different supervising Anesthesiologist (s) and would require two (2) completed Protocols. Satellite offices within the same practice do not constitute multiple practices, but must be documented on a single Protocol.

## Electronic Fingerprinting

Take this form with you to the Livescan service provider. Please check the service provider's requirements to see if you need to bring any additional items.

- Background screening results are obtained from the Florida Department of Law Enforcement and the Federal Bureau of Investigation by submitting to a fingerprint scan using the Livescan method;
- You can find an approved Livescan Service Provider at: <http://www.flhealthsource.gov/background-screening/> (Select Locate a Provider).
- If you do not provide the correct Originating Agency Identification (ORI) number to the Livescan service provider the Board office will not receive your background screening results;
- The ORI number for the **Board of Medicine is EDOH4510Z.**
- You must provide accurate demographic information to the Livescan service provider at the time your fingerprints are taken, including your Social Security number (SSN);
- Typically background screening results submitted through a Livescan service provider are received by the Board within 24-72 hours of being processed.
- If you obtain your Livescan from a service provider who does not capture your photo you may be required to be reprinted by another agency in the future.

## FLORIDA DEPARTMENT OF LAW ENFORCEMENT

NOTICE FOR APPLICANTS SUBMITTING FINGERPRINTS WHERE CRIMINAL RECORD RESULTS WILL BECOME PART OF THE CARE PROVIDER BACKGROUND SCREENING CLEARINGHOUSE

### NOTICE OF:

- **SHARING OF CRIMINAL HISTORY RECORD INFORMATION WITH SPECIFIED AGENCIES,**
- **RETENTION OF FINGERPRINTS,**
- **PRIVACY POLICY, AND**
- **RIGHT TO CHALLENGE AN INCORRECT CRIMINAL HISTORY RECORD**

This notice is to inform you that when you submit a set of fingerprints to the Florida Department of Law Enforcement (FDLE) for the purpose of conducting a search for any Florida and national criminal history records that may pertain to you, the results of that search will be returned to the Care Provider Background Screening Clearinghouse. By submitting fingerprints, you are authorizing the dissemination of any state national criminal history record that may pertain to you to the Specified Agency or Agencies from which you are seeking approval to be employed, licensed, work under contract, or to serve as a volunteer, pursuant to the National Child Protection Act of 1993, as amended, and Section 943.0542, Florida Statutes. "Specified agency" means the Department of Health, the Department of Children and Family Services, the Division of Vocational Rehabilitation within the Department of Education, the Agency for Health Care Administration, the Department of Elder Affairs, the Department of Juvenile Justice, and the Agency for Persons with Disabilities when these agencies are conducting state and national criminal history background screening on persons who provide care for children or persons who are elderly or disabled. The fingerprints submitted will be retained by FDLE and the Clearinghouse will be notified if FDLE receives Florida arrest information on you.

Your Social Security Number (SSN) is needed to keep records accurate because other people may have the same name and birth date. Disclosure of your SSN is imperative for the performance of the Clearinghouse agencies' duties in distinguishing your identity from that of other persons whose identification information may be the same as or similar to yours.

Licensing and employing agencies are allowed to release a copy of the state and national criminal record information to a person who requests a copy of his or her own record if the identification of the record was based on submission of the person's fingerprints. Therefore, if you wish to review your record, you may request that the agency that is screening the record provide you with a copy. After you have reviewed the criminal history record, if you believe it is incomplete or inaccurate, you may conduct a personal review as provided in s. 943.056, F.S., and Rule 11C-8.001, F.A.C. If national information is believed to be in error, the FBI should be contacted at 304-625-2000. You can receive any national criminal history record that may pertain to you directly from the FBI, pursuant to 28 CFR Sections 16.30-16.34. You have the right to obtain a prompt determination as to the validity of your challenge before a final decision is made about your status as an employee, volunteer, contractor, or subcontractor.

Until the criminal history background check is completed, you may be denied unsupervised access to children, the elderly, or persons with disabilities.

The FBI's Privacy Statement follows on a separate page and contains additional information.

## **Privacy Statement**

**Authority:** The FBI's acquisition, preservation and exchange of information requested by this form is generally authorized under 28 U.S.C. 534. Depending on the nature of your application, supplemental authorities include numerous Federal statutes, hundreds of State statutes pursuant to Pub.L.92-544, Presidential executive orders, regulations and/or orders of the Attorney General of the United States, or other authorized authorities. Examples include, but are not limited to: 5 U.S.C. 9101; Pub.L.94-29; Pub.L.101-604; and Executive Orders 10450 and 12968. Providing the requested information is voluntary; however, failure to furnish the information may affect timely completion of approval of your application.

**Social Security Account Number (SSAN):** Your SSAN is needed to keep records accurate because other people may have the same name and birth date. Pursuant to the Federal Privacy Act of 1974 (5 USC 552a), the requesting agency is responsible for informing you whether disclosure is mandatory or voluntary, by what statutory or other authority your SSAN is solicited, and what uses will be made of it. Executive Order 9397 also asks Federal Agencies to use this number to help identify individuals in agency records.

**Principal Purpose:** Certain determinations, such as employment, security, licensing and adoption, may be predicated on fingerprint based checks. Your fingerprints and other information contained on (and along with) this form may be submitted to the requesting agency, the agency conducting the application investigation, and/or FBI for the purpose of comparing the submitted information to available records in order to identify other information that may be pertinent to the application. During the processing of this application, and for as long hereafter as may be relevant to the activity for which this application is being submitted, the FBI (may disclose any potentially pertinent information to the requesting agency and/or to the agency conducting the investigation. The FBI may also retain the submitted information in the FBI's permanent collection of fingerprints and related information, where it will be subject to comparisons against other submissions received by the FBI. Depending on the nature of your application, the requesting agency and/or the agency conducting the application investigation may also retain the fingerprints and other submitted information for other authorized purposes of such agency(ies).

**Routine Uses:** The fingerprints and information reported on this form may be disclosed pursuant to your consent, and may also be disclosed by the FBI without your consent as permitted by the Federal Privacy Act of 1974 (5 USC 552a(b)) and all applicable routine uses as many be published at any time in the Federal Register, including the routine uses for the FBI Fingerprint Identification Records System (Justice, FBI-009) and the FBI's Blanket Routine Uses (Justice/FBI-BRU). Routine uses include, but are not limited to, disclosures to: appropriate governmental authorities responsible for civil or criminal law enforcement counterintelligence, national security or public safety matters to which the information may be relevant; to State and local governmental agencies and nongovernmental entities for application processing as authorized by Federal and State legislation, executive order, or regulation, including employment, security, licensing, and adoption checks; and as otherwise authorized by law, treaty, executive order, regulation, or other lawful authority. If other agencies are involved in processing the application, they may have additional routine uses.

**Additional Information:** The requesting agency and/or the agency conducting the application investigation will provide you additional information pertinent to the specific circumstances of this application, which may include identification of other authorities, purposes, uses, and consequences of not providing requested information. In addition, any such agency in the Federal Executive Branch has also published notice.

**DEPARTMENT OF HEALTH  
ANESTHESIOLOGIST  
ASSISTANTS  
P.O. Box 6330  
Tallahassee, Florida 32399-6330  
(850) 245-4131**

**APPLICATION FOR LICENSURE AS AN  
ANESTHESIOLOGIST ASSISTANT  
(INSTRUCTIONS)**

Prior to completing the application, we strongly recommend that you carefully read Sections 458 and 459, Florida Statutes and Rule Chapters 64B8-31, and 64B15-7 Florida Administrative Code. You must know and comply with the laws and rules as they pertain to your professional practice. Laws and rules are subject to change at any time. For updated information refer to the following web-sites [www.leg.state.fl.us/](http://www.leg.state.fl.us/) (statutes) and [www.flrules.org](http://www.flrules.org) (Florida Administrative Code).

**IMPORTANT NOTICE:**

Effective July 1, 2012, section 456.0635, Florida Statutes, provides that health care boards or the department **shall refuse** to issue a license, certificate or registration and **shall refuse** to admit a candidate for examination if the applicant:

1. ~~Has been convicted of, or entered a plea of guilty or nolo contendere to, regardless of adjudication, a felony under Chapter 409, F.S., (relating to social and economic assistance), Chapter 817, F.S., (relating to fraudulent practices), Chapter 893, F.S., (relating to drug abuse prevention and control) or a similar felony offense(s) in another state or jurisdiction unless the candidate or applicant has successfully completed a drug court program for that felony and provides proof that the plea has been withdrawn or the charges have been dismissed.~~

~~Any such conviction or plea shall exclude the applicant or candidate from licensure, examination, certification, or registration, unless the sentence and any subsequent period of probation for such conviction or plea ended:~~

~~For the felonies of the first or second degree, more than 15 years from the date of the plea, sentence and completion of any subsequent probation;~~

~~For the felonies of the third degree, more than 10 years from the date of the plea, sentence and completion of any subsequent probation;~~

~~For the felonies of the third degree under section 893.13(6)(a), F.S., more than five years from the date of the plea, sentence and completion of any subsequent probation;~~

2. ~~Has been convicted of, or entered a plea of guilty or nolo contendere to, regardless of adjudication, a felony under 21 U.S.C. ss. 801-970 (relating to controlled substances) or 42 U.S.C. ss. 1395-1396 (relating to public health, welfare, Medicare and Medicaid issues), unless the sentence and any subsequent period of probation for such conviction or plea ended more than 15 years prior to the date of the application;~~

- ~~3. Has been terminated for cause from the Florida Medicaid program pursuant to section 409.913, F.S., unless the candidate or applicant has been in good standing with the Florida Medicaid program for the most recent five years;~~
- ~~4. Has been terminated for cause, pursuant to the appeals procedures established by the state or Federal Government, from any other state Medicaid program, unless the candidate or applicant has been in good standing with a state Medicaid program for the most recent five years and the termination occurred at least 20 years before the date of the application;~~
- ~~5. Is Excluded currently listed on the United States Department of Health and Human Services Office of Inspector General's List of Individuals and Entities.~~

Please take personal responsibility for preparing your application. Carefully read and follow all instructions. If you have questions, call for clarification. Applicants are required to keep the application information updated during processing.

The Department strongly suggests that you refrain from making a commitment or accepting a position in Florida until you are licensed.

Upon employment as an Anesthesiologist Assistant, you must notify the Florida Department of Health, Board of Medicine, Anesthesiologist Assistants within 30 days of beginning such employment or after any subsequent changes in the supervising physician(s) and any address changes. An Anesthesiologist Assistant Protocol must be used for this purpose.

**THE FOLLOWING ITEMS MUST ACCOMPANY YOUR APPLICATION FOR LICENSURE AS AN ANESTHESIOLOGIST ASSISTANT: Copies must be legible. It is acceptable, and preferred that large documents be reduced to 8 1/2" x 11".**

**1. Applications and Initial License Fee:**

No application will be processed without the fees. Application and initial license fees must accompany the application. The application fee is non-refundable. The application fee is \$150 and the initial license fee is \$100 plus \$5.00 unlicensed activity fee for any person applying for licensure as an Anesthesiologist Assistant as provided in Sections 458 and 459, F.S., Submit a check, money order or cashier's check made payable to the Florida Department of Health in the amount of \$255. The biennial license period for Anesthesiologist Assistants is February 1 odd year through January 31 odd year.

**2. Anesthesiologist Assistant Diploma:** Submit a photocopy of your Anesthesiologist Assistant diploma. Additionally, you are responsible for mailing to your Anesthesiologist Assistants program the "Anesthesiologist Assistant Program Verification Form".

**3. NCCAA:** Submit a photocopy of your certificate issued to you by the National Commission on Certification of Anesthesiologist Assistants (NCCAA). If you have had a previous certificate that lapsed, please indicate the certification number. Chapters 458 and 459 require any person desiring to be licensed, as an Anesthesiologist Assistant, must have "satisfactorily passed a proficiency examination by an acceptable score established by the National Commission on Certification of Anesthesiologist Assistants (NCCAA). If an applicant does not hold a current certificate issued by the NCCAA and has not actively practiced as an Anesthesiologist Assistant within the immediately preceding 4 years, the applicant must retake and successfully complete the entry-level examination of the NCCAA to be eligible for licensure." By Board rule, the Board may require an applicant who does not pass the NCCAA exam after five or more attempts to complete additional remedial education or training. Additionally, you are responsible for mailing the "NCCAA Verification Form" to NCCAA.

**4. Advanced Cardiac Life Support (ACLS) Certificate:** Submit a photocopy of your ACLS certificate issued by the American Heart Association.

**5. United States Military and/or Public Health:** Provide a copy of your discharge documents indicating type of discharge.

**6. Name:** List your name as it appears on your birth certificate and/or a legal name-change document. Nicknames or shortened versions are unacceptable. If you have a hyphenated last name, enter both names in the last name space. It will be recognized by the first letter of the first name; e.g., Diaz-Jones.

**7. Financial Responsibility:** Pursuant to Section 456.048(1), F.S., prior to licensure, the Anesthesiologist Assistant must provide a statement of liability coverage on forms approved by the Board.

**8. Letters of Recommendation:** Two current, original, personalized and individualized letters of recommendation from Anesthesiologists, (MD's or DO's) on his or her letterhead paper. Each letter must be addressed to the Board of Medicine and must have been written no more than six (6) months prior to the filing of the application. Letters addressed only "TO WHOM IT MAY CONCERN" and/or containing a signature stamp will not be accepted. Identical letters that appear to have been composed by the same person, or from family members, will not be accepted. If you are a recent graduate, your recommendation letters must be from your faculty anesthesiologists. If you were employed as an Anesthesiologist Assistant, your recommendation letters must be from supervising anesthesiologist. If clinical rotations are completed in a state other than your program and your preceptor physician is submitting a recommendation letter, please have the physician clarify his/her association with you. Letters should expound on your clinical skills and abilities.

**9. License Verifications: (AA, PA, LPN, RN, EMT, CNA, Paramedic, RT, TT, PT, etc.)**

Provide verification of licensure as an Anesthesiologist Assistant and/or any other healthcare practitioner in any state. Some agencies charge a fee for license verifications. If you are, or have been, licensed in the United States, contact each state and have them forward licensure/registration/certification, (including temporary licenses/permits) verification directly to the Board of Medicine. If no license/registration/ certification was required during your employment, please request that the state board provide such statement directly to this office. A copy of your license is not acceptable in lieu of a written verification of licensure from the State Licensing Agency. You may want to request state licensure verifications as soon as possible; some states can take up to 6 weeks to complete and mail verifications. Additionally, you are responsible for mailing the "Licensure Verification Form" to all state Medical Boards where you have ever held a license as a health care provider. (Not limited to Anesthesiologist Assistant licensure)

**10. Education, Training, Employment and Non-Employment History:** Question 17 must contain and account for all non-medical periods of time, including vacations and non-employment during the past five years. Question 18 must contain and account for all medical related employment. Omission of this information will cause a delay in the application process. Do not leave off more than 30 days.

**11. Activities:** You are required to update your application by providing the Board office with a written statement of your activities within 30 days of the Committee meeting to which your application is being considered.

**12. Supplemental Documents:** If any of the questions numbered 20-23 and 25-40 on the application are answered "Yes", you must submit a detailed statement, composed by you, explaining the circumstances. Should any of the questions in the "YES/NO" portion of the application fail to provide sufficient space for the requested information, use an additional page and number the additional information with the corresponding number in the application.

- For Questions 33-38: \* Reports from all treating physicians/hospitals/institutions/agencies, including admission and discharge summary regarding treatment on conduct

assessment(s); mental or physical conditions. Reports must include all DSM III R/DSM IV, Axis I and II diagnoses and codes and Axis III condition and prescribed medications. Applicants, who have any history of those listed above, may be required to undergo a current conduct assessment through Florida's Professionals Resource Network (PRN). Also see "Supplemental Documents".

- For Questions 23, 25-29, and 39-40: \* Submit court copies of charges/arrest report(s), indictments(s) and judgment(s) and satisfaction of judgment(s) Submit copies of any litigation or any other proceedings in any court of law or equity, any criminal court, any arbitration Board or before any governmental Board or Agency, to which you have been a party, either as a plaintiff, defendant, co-defendant, or otherwise. Also see "Supplemental Documents".
- For Questions 20-22 and 32: \* Submit Copies of supporting documentation. Also see "Supplemental Documents".
- For Questions 30: \* Submit court copies of complaint(s), amended complaint(s), and judgment(s). If litigation is pending, the attorney representing the case must submit a letter addressed to the Committee on Anesthesiologist Assistants explaining the current litigation status. Submit a statement, composed by you, stating how many cases you have been named in and the details of your involvement. Also see "Supplemental Documents".

\*Section 456.013(3)(c), Florida Statutes, permits the Board to require your personal appearance.

|                                                                                                                                                                                                                                |                                                                                                                                                                                                                        |                                                                  |

|                                                                         |                                      |                                             |

**MEDICAL EMPLOYMENT HISTORY:**

18. In CHRONOLOGICAL order list all medical related employment. Give full name and address of the facility, dates of employment (month and year), positions / titles held, and reason for leaving. Failure to provide all required information will delay processing the application. Add additional sheets if necessary.

| Name and Address of Employer | Dates of Employment<br>(Month and Year) | Title of position held & reason<br>for leaving |
|------------------------------|-----------------------------------------|------------------------------------------------|
|                              |                                         |                                                |
|                              |                                         |                                                |
|                              |                                         |                                                |
|                              |                                         |                                                |

**MILITARY HISTORY:**

19. Have you ever been in the United States Military and or Public Health Service? If yes, please list below the branch of service, rank and all dates of service. Provide a copy of your discharge document.

YES  NO

---

**THE FOLLOWING QUESTIONS MUST BE ANSWERED YES OR NO. ALL AFFIRMATIVE ANSWERS MUST BE PERSONALLY EXPLAINED TO THE COUNCIL IN DETAIL ON AN ADDITIONAL SHEET. DOCUMENTATION SUBSTANTIATING THE EXPLANATION IS REQUIRED.**

20. Have you ever been denied a license as an Anesthesiologist Assistant or health care practitioner by any state board or other governmental agency of any state or country? YES  NO
21. Have you ever been notified to appear before any licensing agency for a hearing or complaint of any nature, including, but not limited to, a charge of violation of the medical practice act, unprofessional or unethical conduct? YES  NO
22. Have you ever had a license to practice as an Anesthesiologist Assistant or other health care practitioner revoked, suspended, or other disciplinary action taken in any state, territory or country? YES  NO
23. Have you ever been convicted of, or entered a plea of guilty, nolo contendere, or no contest to a crime in any jurisdiction other than a minor traffic offense? You must include all misdemeanors and felonies, even if the court withheld adjudication so that you would not have a record of conviction. Driving under the influence or driving while impaired is not a minor traffic offense for purposes of this question YES  NO
24. I have been provided and read the statement from the Florida Department of Law Enforcement regarding the sharing, retention, privacy and right to challenge incorrect criminal history records and the "Privacy Statement" document from the Federal Bureau of Investigation. YES  NO
25. Have you been convicted of, or entered a plea of guilty or nolo contendere to, regardless of adjudication, a felony under Chapter 409, F.S. (relating to social and economic assistance), Chapter 817, F.S. (relating to fraudulent practices), Chapter 893, F.S. (relating to drug abuse prevention and control) or a similar felony offense(s) in another state or jurisdiction? (If you responded "no", skip to #26.) YES  NO
- 25a. If "yes" to 25, for the felonies of the first or second degree, has it been more than 15 years from the date of the plea, sentence and completion of any subsequent probation? YES  NO
- 25b. If "yes" to 25, for the felonies of the third degree, has it been more than 10 years from the date of the plea, sentence and completion of any subsequent probation? (This question does not apply to felonies of the third degree under Section 893.13(6)(a), Florida Statutes.) YES  NO
- 25c. If "yes" to 25, for the felonies of the third degree under Section 893.13(6)(a), Florida Statutes, has it been more than 5 years from the date of the plea, sentence and completion of any subsequent probation? YES  NO
- 25d. If "yes" to 25, have you successfully completed a drug court program that resulted in the plea for the felony offense being withdrawn or charges dismissed? (If "yes", please provide supporting documentation.) YES  NO
26. Have you been convicted of, or entered a plea of guilty or nolo contendere to, regardless of adjudication, a felony under 21 U.S.C. ss. 801-970 (relating to controlled substances) or 42 U.S.C. ss. 1395-1396 (relating to public health, welfare, Medicare and Medicaid issues)? YES  NO
- 26a. If "yes" to 26, has it been more than 15 years before the date of application since the sentence and any subsequent period of probation for such conviction or plea ended? YES  NO
27. Have you ever been terminated for cause from the Florida Medicaid Program pursuant to Section 409.913, Florida Statutes? (If "No", do not answer 27a.) YES  NO
- 27a. If you have been terminated but reinstated, have you been in good standing with the Florida Medicaid Program for the most recent five years? YES  NO
28. Have you ever been terminated for cause, pursuant to the appeals procedures established by the state, from any other state Medicaid program? (If "No", do not answer 28a or 28b.) YES  NO
- 28a. Have you been in good standing with a state Medicaid program for the most recent five years? YES  NO
- 28b. Did the termination occur at least 20 years before the date of this application? YES  NO
- ~~29. Are you currently listed on the United States Department of Health and Human Services Office of Inspector General's List of Excluded Individuals and Entities?~~ YES  NO

29. Are you currently listed on the United States Department of Health and Human Services' Office of the Inspector General's List of Excluded Individuals and Entities (LEIE)? YES  NO

a. If you responded "Yes" to the question above, are you listed because you defaulted or are delinquent on a student loan? YES  No

b. If you responded "Yes" to question 29.a., is the student loan default or delinquency the only reason you are listed on the LEIE? YES  NO

- 30. Have you ever been named in a lawsuit for malpractice or has any settlement or claim been paid on your behalf in relation to a claim of malpractice? YES  NO
- 31. Have you ever discontinued practice for any reason for a period of one month or longer? YES  NO
- 32. Have you ever had employment terminated for cause? YES  NO
- 33. In the last five years, have you been enrolled in, required to enter into, or participated in any drug and/or alcohol recovery program or impaired practitioner program for treatment of drug or alcohol abuse that occurred within the past five years? YES  NO
- 34. In the last five years, have you been admitted or referred to a hospital, facility or impaired practitioner program for treatment of a diagnosed mental disorder or impairment? YES  NO
- 35. During the last five years, have you been treated for or had a recurrence of a diagnosed mental disorder that has impaired your ability to practice medicine within the past five years? YES  NO
- 36. During the last five years, have you been treated for or had a recurrence of a diagnosed physical disorder that has impaired your ability to practice medicine? YES  NO
- 37. In the last five years, were you admitted or directed into a program for the treatment of a diagnosed substance-related (alcohol/drug) disorder or, if you were previously in such a program, did you suffer a relapse within the last five years? YES  NO
- 38. During the last five years, have you been treated for or had a recurrence of a diagnosed substance-related (alcohol/drug) disorder that has impaired your ability to practice medicine within the last five years? YES  NO
- 39. Have you had any felony convictions? YES  NO
- 40. Have you had any license revoked or denied? YES  NO

**AFFIDAVIT: (Applicable to questions 22, 39 and 40 only)**

The foregoing instrument was sworn before me this \_\_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_\_, By \_\_\_\_\_ who is personally known to me or who has produced as identification \_\_\_\_\_ and did take an oath.

Name of Notary \_\_\_\_\_ (typed, printed or stamped) Signature of Notary: \_\_\_\_\_

We are required to ask that you furnish the following information as part of your voluntary compliance with Section 2, Uniform Guidelines on Employee Selection Procedure (1978) 43 FR38296 (August 25, 1978). This information is gathered for statistical and reporting purposes only and does not in any way affect your candidacy for licensure.

Male  Female  Black  Caucasian  Hispanic  Native American  Other

**Statement of Applicant:**

I state that these statements are true and correct. I recognize that providing false information may result in denial of licensure, disciplinary action against my license, or criminal penalties pursuant to Sections 456.067, 775.083, and 775.084, Florida Statutes. I state that I have read Chapters 456, 458 and 459, and sections 766.301-306, F.S. and Chapters 64B8-31, and 64B15-7, Florida Administrative Code.

I hereby authorize all hospitals, institutions or organizations, my references, personal physicians, employers (past and present), and all governmental agencies and instrumentalities (local, state, federal, or foreign) to release to the Florida Board of Medicine information which is material to my application for licensure.

I have carefully read the questions in the foregoing application and have answered them completely, without reservations of any kind. I state that my answers and all statements made by me herein are true and correct.

Should I furnish any false information in this application, I hereby agree that such act constitutes cause for denial, suspension, or revocation of my license to practice Medicine in the State of Florida. If there are any changes to my status or any change that would affect any of my answers to this application I must notify the board within 30 days.

I understand that my records are protected under federal and state regulations governing Confidentiality of Mental Health Patient Records and cannot be disclosed without my written consent unless otherwise provided in the regulations. I understand that my records are protected under federal and state regulations governing Confidentiality of Alcohol and Drug Abuse Patient Records, 42CFR Part 2, and cannot be disclosed without my written consent unless otherwise provided in the regulations. I also understand that I may revoke this consent at any time except to the extent that action has been taken in reliance upon it.

## ANESTHESIOLOGIST ASSISTANT PROTOCOL INSTRUCTIONS AND INFORMATION

- ✓ Always submit pages 18 - 21 of the Protocol. (Do not return the instruction page.)
- ✓ The Anesthesiologist MUST sign page 20 and the Anesthesiologist Assistant MUST sign page 21.
- ✓ A separate Protocol form must be submitted for each individual practice setting. (Satellite offices DO NOT require separate forms but DO need to be listed.)
- ✓ If you do not receive your stamped copy of the Protocol form within 30 days, please call us at (850) 245-4131.
- ✓ Please maintain a copy of your signed Protocol form for credentialing purposes.
- ✓ Failure to submit any changes or up-dates within 30 days of the occurrence will result in disciplinary action. (mailing / practice locations, adding / deleting supervising physicians)
- ✓ With the exception of practicing in a government facility, only anesthesiologists with an unrestricted Florida license, and whose license is not on probation, is qualified to employ and supervise anesthesiologist assistants.
- ✓ Licensees are required to keep his/her protocol and licensure information current at all times.

### PERFORMANCE OF SUPERVISING ANESTHESIOLOGIST(S):

Sections 458.3475 and 459.023, Florida Statutes, state that “an Anesthesiologist who directly supervises an anesthesiologist assistant must be qualified in the medical areas in which the anesthesiologist assistant performs and is liable for the performance of the anesthesiologist assistant.”

## Electronic Fingerprinting

Take this form with you to the Livescan service provider. Please check the service provider's requirements to see if you need to bring any additional items.

- Background screening results are obtained from the Florida Department of Law Enforcement and the Federal Bureau of Investigation by submitting to a fingerprint scan using the Livescan method;
- You can find an approved Livescan Service Provider at: <http://www.flhealthsource.gov/background-screening/> (Select Locate a Provider).
- If you do not provide the correct Originating Agency Identification (ORI) number to the Livescan service provider the Board office will not receive your background screening results;
- The ORI number for the **Board of Medicine is EDOH4510Z.**
- You must provide accurate demographic information to the Livescan service provider at the time your fingerprints are taken, including your Social Security number (SSN);
- Typically background screening results submitted through a Livescan service provider are received by the Board within 24-72 hours of being processed.
- If you obtain your Livescan from a service provider who does not capture your photo you may be required to be reprinted by another agency in the future.

# FLORIDA DEPARTMENT OF LAW ENFORCEMENT

NOTICE FOR APPLICANTS SUBMITTING FINGERPRINTS WHERE CRIMINAL RECORD RESULTS WILL BECOME PART OF THE CARE PROVIDER BACKGROUND SCREENING CLEARINGHOUSE

## NOTICE OF:

- **SHARING OF CRIMINAL HISTORY RECORD INFORMATION WITH SPECIFIED AGENCIES,**
- **RETENTION OF FINGERPRINTS,**
- **PRIVACY POLICY, AND**
- **RIGHT TO CHALLENGE AN INCORRECT CRIMINAL HISTORY RECORD**

This notice is to inform you that when you submit a set of fingerprints to the Florida Department of Law Enforcement (FDLE) for the purpose of conducting a search for any Florida and national criminal history records that may pertain to you, the results of that search will be returned to the Care Provider Background Screening Clearinghouse. By submitting fingerprints, you are authorizing the dissemination of any state national criminal history record that may pertain to you to the Specified Agency or Agencies from which you are seeking approval to be employed, licensed, work under contract, or to serve as a volunteer, pursuant to the National Child Protection Act of 1993, as amended, and Section 943.0542, Florida Statutes. "Specified agency" means the Department of Health, the Department of Children and Family Services, the Division of Vocational Rehabilitation within the Department of Education, the Agency for Health Care Administration, the Department of Elder Affairs, the Department of Juvenile Justice, and the Agency for Persons with Disabilities when these agencies are conducting state and national criminal history background screening on persons who provide care for children or persons who are elderly or disabled. The fingerprints submitted will be retained by FDLE and the Clearinghouse will be notified if FDLE receives Florida arrest information on you.

Your Social Security Number (SSN) is needed to keep records accurate because other people may have the same name and birth date. Disclosure of your SSN is imperative for the performance of the Clearinghouse agencies' duties in distinguishing your identity from that of other persons whose identification information may be the same as or similar to yours.

Licensing and employing agencies are allowed to release a copy of the state and national criminal record information to a person who requests a copy of his or her own record if the identification of the record was based on submission of the person's fingerprints. Therefore, if you wish to review your record, you may request that the agency that is screening the record provide you with a copy. After you have reviewed the criminal history record, if you believe it is incomplete or inaccurate, you may conduct a personal review as provided in s. 943.056, F.S., and Rule 11C-8.001, F.A.C. If national information is believed to be in error, the FBI should be contacted at 304-625-2000. You can receive any national criminal history record that may pertain to you directly from the FBI, pursuant to 28 CFR Sections 16.30-16.34. You have the right to obtain a prompt determination as to the validity of your challenge before a final decision is made about your status as an employee, volunteer, contractor, or subcontractor.

Until the criminal history background check is completed, you may be denied unsupervised access to children, the elderly, or persons with disabilities.

The FBI's Privacy Statement follows on a separate page and contains additional information.

US Department of Justice, Federal Bureau of Investigation, Criminal Justice Information Services Division

## Privacy Statement

**Authority:** The FBI's acquisition, preservation and exchange of information requested by this form is generally authorized under 28 U.S.C. 534. Depending on the nature of your application, supplemental authorities include numerous Federal statutes, hundreds of State statutes pursuant to Pub.L.92-544, Presidential executive orders, regulations and/or orders of the Attorney General of the United States, or other authorized authorities. Examples include, but are not limited to: 5 U.S.C. 9101; Pub.L.94-29; Pub.L.101-604; and Executive Orders 10450 and 12968. Providing the requested information is voluntary; however, failure to furnish the information may affect timely completion of approval of your application.

**Social Security Account Number (SSAN):** Your SSAN is needed to keep records accurate because other people may have the same name and birth date. Pursuant to the Federal Privacy Act of 1974 (5 USC 552a), the requesting agency is responsible for informing you whether disclosure is mandatory or voluntary, by what statutory or other authority your SSAN is solicited, and what uses will be made of it. Executive Order 9397 also asks Federal Agencies to use this number to help identify individuals in agency records.

**Principal Purpose:** Certain determinations, such as employment, security, licensing and adoption, may be predicated on fingerprint based checks. Your fingerprints and other information contained on (and along with) this form may be submitted to the requesting agency, the agency conducting the application investigation, and/or FBI for the purpose of comparing the submitted information to available records in order to identify other information that may be pertinent to the application. During the processing of this application, and for as long hereafter as may be relevant to the activity for which this application is being submitted, the FBI (may disclose any potentially pertinent information to the requesting agency and/or to the agency conducting the investigation. The FBI may also retain the submitted information in the FBI's permanent collection of fingerprints and related information, where it will be subject to comparisons against other submissions received by the FBI. Depending on the nature of your application, the requesting agency and/or the agency conducting the application investigation may also retain the fingerprints and other submitted information for other authorized purposes of such agency(ies).

**Routine Uses:** The fingerprints and information reported on this form may be disclosed pursuant to your consent, and may also be disclosed by the FBI without your consent as permitted by the Federal Privacy Act of 1974 (5 USC 552a(b)) and all applicable routine uses as many be published at any time in the Federal Register, including the routine uses for the FBI Fingerprint Identification Records System (Justice, FBI-009) and the FBI's Blanket Routine Uses (Justice/FBI-BRU). Routine uses include, but are not limited to, disclosures to: appropriate governmental authorities responsible for civil or criminal law enforcement counterintelligence, national security or public safety matters to which the information may be relevant; to State and local governmental agencies and nongovernmental entities for application processing as authorized by Federal and State legislation, executive order, or regulation, including employment, security, licensing, and adoption checks; and as otherwise authorized by law, treaty, executive order, regulation, or other lawful authority. If other agencies are involved in processing the application, they may have additional routine uses.

**Additional Information:** The requesting agency and/or the agency conducting the application investigation will provide you additional information pertinent to the specific circumstances of this application, which may include identification of other authorities, purposes, uses, and consequences of not providing requested information. In addition, any such agency in the Federal Executive Branch has also published notice.

HB 389

**Practice of Pharmacy**

The bill authorizes a pharmacist to enter into a collaborative pharmacy practice agreement (CPPA) with a physician to manage chronic health conditions if the pharmacist meets certain qualifications. A CPPA must meet certain terms and specify the health conditions, treatments, and tests governed by the CPPA.

The bill prohibits a collaborating pharmacist from initiating or prescribing a controlled substance or modifying or discontinuing any medication that is prescribed by a health care practitioner who does not have a CPPA with the pharmacist.

The bill authorizes a pharmacist, who meets certain qualifications, to test or screen for and treat minor, nonchronic health conditions within the framework of a written protocol with a supervising physician. The conditions are limited to influenza, streptococcus, lice, skin conditions, and minor, uncomplicated infections.

The protocol must specify the patients that may be seen, instructions for obtaining a patient's medical history, instructions for treatment, and a process and schedule for the pharmacist to provide patient information to the supervising physician and the supervising physician to review the pharmacist's actions under the protocol.

The bill requires the Board of Pharmacy to adopt, by rule, a formulary of medicinal drugs that an authorized pharmacist may prescribe to treat minor, non-chronic health conditions. A pharmacist may not prescribe any controlled substance; however, the Board-developed formulary may include any non-controlled substance, including those that typically need a prescription to dispense, such as antibiotics, and over-the-counter medications.

Requires Board of Pharmacy to adopt rules in consultation with the Boards of Medicine and Osteopathic Medicine

The bill authorizes CNAs and HHAs to assist with preventive skin care, applying bandages, and nebulizer treatments.</p> <p>The bill authorizes the Agency for Health Care Administration to adopt rules training paid feeding assistants in nursing homes and prohibits facilities from counting paid feeding assistants toward minimum staffing standards.</p> <p><b>Effective Date:</b> 7/1/2020</p>                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                                                            |  |
| <p><b>SB 698</b></p>  | <p><b>Reproductive Health</b></p> | <p>The bill requires the Department of Health (DOH), the Board of Medicine, or the Board of Osteopathic Medicine to take disciplinary action against the health care practitioner's license if he or she intentionally transfers an embryo or reproductive material into a recipient without the recipient's consent. DOH may issue an emergency order suspending the practitioner's license if he or she is found guilty of committing the felony of reproductive battery, which is discussed below.</p> <p>The bill also requires a health care practitioner, a medical student, or any other student who is receiving training as a health care practitioner to obtain the written consent of a patient or a patient's representative before performing a pelvic exam. Written consent for the pelvic exam is not required if a court orders the exam to collect evidence or if the exam is necessary to avert a serious risk of irreversible impairment of a major bodily function of the patient.</p> | <p>Section 6, s. 784.086 F.S., Reproductive Battery, effective date is October 1, 2020</p> |  |

|                                                                                                       |                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                       |  |

|                                                                                                       |                                 | <p>The bill creates the crime of reproductive battery. It is a third-degree felony for a health care practitioner to intentionally transfer human reproductive material into the body of a recipient or implant a human embryo of a donor, knowing that the recipient has not consented to the use of the reproductive material or embryo from that donor. If the health care practitioner is the donor of the reproductive material, the penalty is increased to a second-degree felony.</p> <p>The statute of limitations for prosecuting the crime of reproductive battery does not begin to run until the date that the violation is discovered and reported to a law enforcement agency or any other governmental agency. Additionally, it is not a defense to the crime that the recipient consented to the use of an anonymous donor.</p> <p><b>Effective date:</b> July 1, 2020</p>                                                                                                                                                                                          |                                       |  |
| <p><b>HB 713</b></p>  | <p><b>Health Regulation</b></p> | <p>The bill makes numerous updates and changes to programs and health care professions regulated under the Department of Health (DOH):</p> <ul style="list-style-type: none"> <li>• The bill grants rulemaking authority to the DOH for responsibilities relating to maximizing the use of existing programs and coordinating stakeholders and resources to develop a state strategic plan, including the process of selecting physicians under the Conrad 30 Waiver Program, and to encourage qualified physicians to relocate to Florida and practice in medically underserved and rural areas;</li> <li>• Requires an applicant for a health care professional license to provide his or her date of birth on the application;</li> <li>• Revises the DOH’s health care practitioner licensing provisions to permit the DOH to issue a temporary license, that expires in 60 days instead of 30 days, to a non-resident or non-citizen physician who has accepted a residency, internship, or fellowship in Florida and has not yet received a social security number;</li> </ul> | <p>Includes numerous MQA statutes</p> |  |

- Creates an exception to the 15-percent cap for self-referral for diagnostic imaging services normally imposed on solo or group practice settings for group practice entities that own an accountable care organization or an entity operating under an advanced alternative payment model, according to federal regulations, if such entity provides diagnostic imaging services and has more than 30,000 patients enrolled per year;
- Repeals a health care practitioner's failure to repay student loans as grounds for discipline by the DOH;
- Authorizes the DOH to issue medical faculty certificates to certain full-time faculty members of Nova Southeastern University and Lake Erie College of Osteopathic Medicine;
- Repeals the requirement that the Board of Medicine (BOM) conduct a triennial review of organizations that board-certify physicians in dermatology;
- Revises the composition of the Council on Physician Assistants, under the BOM, from four physicians and one physician assistant, to two physicians and three physician assistants;
- Revises the requirements for osteopathic internships and residencies to include those accredited by the Accreditation Council for Graduate Medical Education;
- Deregulates registered chiropractic assistants;
- Effective upon the bill becoming a law, allows a nursing education program seeking accreditation to apply to the Board of Nursing (BON) for a single extension of not more than two years if the program meets specific criteria and grants the BON rulemaking authority on criteria to qualify for the extension;
- Grants rulemaking authority to the BON to establish standards of practice, including discipline, for certified nursing assistants (CNA);
- Recognizes CNA certification in a U.S. territory or the District of Columbia for certification in Florida and eliminates the element of intent for violations of the practice act by CNAs;

- Defines the supplemental general dentistry education required for dental licensure applicants who have not graduated from a dental school accredited by the American Dental Association Commission on Dental Accreditation to exclude education in an advanced dental specialty;
- Repeals the requirement that dental and dental hygienist licensure examinations must be graded by Florida-licensed dentists and dental hygienists;
- Effective upon the bill becoming a law and applying retroactively to January 1, 2020, revives, reenacts, and amends statutory provisions relating to health access dental licenses, notwithstanding their sunset on January 1, 2020;
- Requires dentists and dental hygienists to report adverse incidents to the Board of Dentistry (BOD) and gives the BOD rulemaking authority;
- Authorizes an employee or independent contractor of a dental laboratory to engage in onsite consultation with a licensed dentist during a dental procedure and requires a dental laboratory to be inspected at least biennially;
- Requires an athletic trainer to work within his or her scope of practice as defined by the Board of Athletic Trainers and revises the educational and internship requirements for licensure;
- Requires the DOH to issue a single prosthetist-orthotist license to qualified applicants and establishes the educational requirements for dual registration;
- Revises massage therapy licensure requirements to:
  - Repeal Board of Massage Therapy (BMT) departmental examinations and require a BMT-specified national examination;
  - Eliminate massage apprenticeships as a path to licensure by 2023; and
  - Revise the definition of a massage therapy “apprentice” to include only those persons approved by the BMT to study colonic irrigation under a licensed massage therapist;

|                                                                                                   |                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |  |  |

**DRAFT LANGUAGE FOR REVIEW BY COUNCIL ON PHYSICIAN ASSISTANTS - JUNE, 2020**

64B8-30.003 Physician Assistant Licensure.

(1) Requirements for Licensure.

(a) All applicants for licensure as physician assistants shall apply on Form DH-MQA 2000, entitled “Physician Assistant Application for Licensure,” (revised ~~6/20~~ 8/16), hereby adopted and incorporated by reference, and can be obtained from the website at <http://www.flrules.org/Gateway/reference.asp?No=Ref-07600>, or <http://flboardofmedicine.gov/licensing/physician-assistant-licensure/>.

(b) In addition, upon employment, a licensed physician assistant must notify the Board of Medicine, in writing, utilizing Form DH-MQA 2004, entitled “Supervision Data Form,” (revised 8/10), hereby adopted and incorporated by reference, which can be obtained from the Board of Medicine’s website at <http://flboardofmedicine.gov/licensing/physician-assistant-licensure/>, within 30 days of such employment. Any subsequent changes to the physician assistant’s employment must also be made, in writing, within 30 days of such change, utilizing this same form.

(c) Applicants who have been granted a temporary license pursuant to Section 458.347(7)(e) or 459.022(7)(e), F.S., are eligible to seek an extension of the temporary license by submitting Form DH-MQA 1076, entitled “Extension of Temporary Licensure Application,” (Rev. 4/16), hereby adopted and incorporated by reference, and can be obtained from the website at <http://www.flrules.org/Gateway/reference.asp?No=Ref-07167>, or <http://flboardofmedicine.gov/licensing/physician-assistant-licensure/>.

(2) Applicants who have not passed the National Commission on Certification of Physician Assistants Physician Assistant National Certifying Exam within five (5) attempts and have not practiced as a fully licensed physician assistant shall be required to successfully complete a minimum of three (3) months in a full-time review course at an accredited physician assistant program approved by the Chair of the Council on Physician Assistants. Said completion shall be documented by a letter signed by the head of the program stating that the applicant has satisfactorily completed the course.

(3) Restrictions. For purposes of carrying out the provisions of Sections 458.347(7) and 459.022, F.S., every physician assistant is prohibited from being supervised by any physician whose license to practice medicine is on probation.

(4) Registration as a dispensing physician assistant shall be made on the form set forth in subsection 64B8-4.029(4), F.A.C.

# Do Professionalism Lapses in Medical School Predict Problems in Residency and Clinical Practice?

Edward Krupat, PhD, Jules L. Dienstag, MD, Susan L. Padrino, MD, John E. Mayer Jr, MD, Miles F. Shore, MD, Aaron Young, PhD, Humayun J. Chaudhry, DO, Stephen R. Pelletier, PhD, and Ben Y. Reis, PhD

## Abstract

### Purpose

Recognizing that physicians must exhibit high levels of professionalism, researchers have attempted to identify the precursors of clinicians' professionalism difficulties, typically using retrospective designs that trace sanctioned physicians back to medical school. To better establish relative risk for professionalism lapses in practice, however, this relationship must also be studied prospectively. Therefore, this study investigated the sequelae of medical school professionalism lapses by following students with medical school professionalism problems into residency and practice.

### Method

Beginning in 2014, 108 graduates from Harvard Medical School and Case

Western Reserve University School of Medicine who appeared before their schools' review boards between 1993 and 2007 for professionalism-related reasons were identified, as well as 216 controls matched by sex, minority status, and graduation year. Prematriculation information and medical school performance data were collected for both groups. Outcomes for the groups were studied at 2 points in time: ratings by residency directors, and state medical board sanctions and malpractice suits during clinical practice.

### Results

Compared with controls, students who appeared before their schools' review boards were over 5 times more likely to undergo disciplinary review during

residency (16% vs 3%, respectively) and almost 4 times more likely to require remediation or counseling (35% vs 9%, respectively). During clinical practice, 10% of those who had made review board appearances were sued or sanctioned vs 5% of controls. Logistic regression for these outcomes indicated, however, that professionalism lapses in medical school were not the only, or even the most important, predictor of problems in practice.

### Conclusions

Students with professionalism lapses in medical school are significantly more likely to experience professionalism-related problems during residency and practice, although other factors may also play an important predictive role.

**G**iven the substantial time and resources society invests in the selection and training of physicians and the responsibility placed upon them, practicing physicians are expected to adhere to the highest standards of professionalism.<sup>1-5</sup> When medical graduates fail to live up to their professional responsibilities, society incurs substantial real and opportunity costs in the form of wasted resources and lost workforce.<sup>6,7</sup>

Prior research has attempted to understand the precursors of physicians' lapses in professionalism. For instance,

Papadakis and others have reported that physicians disciplined by their state medical boards were found to exhibit lapses in professionalism during medical school at a higher frequency than case-controlled, nondisciplined peers.<sup>8-12</sup> Studies such as these have relied upon a classic retrospective design, in which the outcome of interest (physicians' being sanctioned by their state boards) was the starting point, following which the study subjects were followed backward in time to identify precursors. Methodological concerns have been raised about inferences that can be drawn from retrospective studies such as these<sup>13,14</sup>; moreover, some have even reported, mistakenly, that students in medical school who had professionalism lapses were later found to exhibit professionalism difficulties,<sup>15</sup> when in fact the temporal link was in the reverse direction.

Although a few prospective studies have been reported, most have followed students over a relatively short period of time, typically from early in medical school through the third

year or internship.<sup>16-19</sup> In the present study, we took a prospective approach by starting with a targeted predictor, students' nonprofessional behavior in medical school, and then following the students forward in time to determine whether this was associated with later professionalism-related outcomes in residency and practice. Adopting a simulated prospective design, we identified a student sample with a "preexisting condition" (appearances before their schools' review boards), matched these with case controls, and determined the extent to which the 2 groups experienced professionalism problems later in their careers. Focusing on the sequelae of professionalism problems in medical school, we asked the following: Do students who appeared before their schools' review boards differ from their peers on professionalism-related outcomes at 2 subsequent points in time? Compared with other variables, to what extent are professionalism problems in medical school predictive of negative outcomes in residency and practice?

## Method

### Participants

In 2014, records of the Promotion and Review Board at Harvard Medical School (HMS) and the Committee on Students at Case Western Reserve University (CWRU) School of Medicine were reviewed to identify all medical school graduates through 2007 who been required to come before the committees based upon a complaint of nonprofessional behavior (students who did not graduate, regardless of reason, were excluded). Reasons for the students' appearances varied, but these included standard concerns such as academic dishonesty and interpersonal problems with peers, faculty, and/or patients. Although substance abuse or psychiatric problems may have been identified in the course of pursuing some of these cases, reasons for appearances derived from specific forms of inappropriate behavior. We selected a latest graduation date of 2007 as a cutoff to provide time for virtually all identified students to have completed their medical training and entered the physician workforce. Based upon power calculations, we sought a minimum sample of 100 students, at least 50 cases per school, who had had professionalism problems, and selected 2 within-school controls for every identified student. To identify 50 cases per school with files that were complete enough to be usable, we had to search records back as far as 1993, which resulted in a total sample of 324: 165 students from HMS, consisting of 55 review board cases (referred to as RB cases) plus 110 nonboard cases (referred to as NB controls), and a total of 159 from CWRU (53 RB cases plus 106 NB cases). At both schools, each RB case was matched with 2 case controls (NB cases) based on 3 variables: gender, underrepresented status in medicine, and year of graduation. The data were kept in password-protected deidentified files under Level 3 conditions of security, with the provision that additional data could be added by reference to a given student's coded identification number, at which point all data were once again immediately deidentified. On behalf of both schools, this project was reviewed by the HMS Institutional Review Board and approved via expedited review.

### Data collected

We collected data from 4 time periods:

Time 1 (T1) consisted of all available prematriculation data, both demographic

and performance based, that were held in common by the 2 schools' admissions and registrar's offices. These were: Parental level of education, whether U.S.-born or not, selectivity of undergraduate college, college major, and total Medical College Admission Test (MCAT) score.

Time 2 (T2) data consisted of performance data during medical school: grades for the 6 clerkships that were common to both schools (medicine, neurology, obstetrics–gynecology, pediatrics, surgery, and psychiatry) and United States Medical Licensing Examination (USMLE) Step 1 and Step 2 Clinical Knowledge (CK) scores.

Time 3 (T3) data consisted of performance data during residency, collected via electronic survey, with the exception of USMLE Step 3 scores, which were obtained from the Federation of State Medical Boards (FSMB). For each case, we determined the individual's residency program as well as the name of the program director at that time, obtained via annual editions of the American Medical Association Graduate Medical Education Directory.<sup>20</sup> Through institutional websites, public information searches, and phone calls, we attempted to obtain current email addresses for the program directors. If current information could not be obtained for that individual, we contacted senior administrators in the programs, requested the name and contact information of an attending physician who had worked closely with the resident in question, and sent the survey to that person.

The survey identified the name of the resident and the year in which he or she entered the program. We stated that we were conducting follow-up research on some of our medical students, with no indication of the criteria used to select the individuals. If the program directors were not sufficiently familiar with the person, they were instructed to return the survey uncompleted.

The survey contained 10 questions relating to professional behaviors for each resident, such as “treated colleagues with respect” and “took responsibility for shortcomings/errors.” Because several years had passed, the survey directors could indicate that they had no recollection or leave out any item. For these 10 questions, those with sufficient

recollection were offered 3 simple response categories in order to capture the respondents' global affect: “generally met standards for the residents in your program,” “was exceptional or exceeded standards,” and “was unacceptable or did not meet standards.” We asked 2 additional questions reflecting positivity (“received recognition for high-level clinical work,” “received a leadership position”) and 2 reflecting negativity (“required remediation or counseling,” “underwent disciplinary review”). The directors were asked how enthusiastic they would have been had this resident applied for a staff position and to supply up to 2 adjectives that came to mind to describe the trainee. (The survey instrument is available in Supplemental Digital Appendix 1, available at <http://links.lww.com/ACADMED/A786>.) For 14 of the 324 students, we found no evidence that they had entered residency, reducing the survey sample to 310. We received usable responses for 155 students (response rate 50%).

Time 4 (T4) data consisted of post-training information. The FSMB provided data on whether the physicians in our sample had been sanctioned by their state medical boards for some form of misdeed, and the National Practitioner Data Bank (NPDB) provided data on whether these physicians had been sued for malpractice. These data covered a period from 1993, when the earliest student graduated, through 2013, at which point the FSMB and NPDB data were captured.

### Analyses

We analyzed the data in 2 phases. In phase 1, our main purpose was to determine whether significant differences existed between the RB cases and NB controls for each outcome. For these univariate analyses, we used *t* tests and chi-square tests, as appropriate. The data were analyzed with R version 3.5.1 and RStudio version 1.1.456 (Foundation for Statistical Computing, Vienna, Austria).

Phase 2 involved multivariate logistic regression analyses for 2 dichotomous outcomes: whether the individual had required remediation or undergone disciplinary review during residency (T3) and whether the individual had been sued or sanctioned during clinical practice (T4). All T1 and T2 variables were entered in predicting the T3 outcome,

and all T1, T2, and T3 variables were entered in predicting the T4 outcome. For each outcome, we tested all possible combinations of predictors to conduct an exhaustive search of the entire model space, selecting from the many possible models the one model with a package of variables that in combination produced the greatest adjusted  $R^2$ . For the T3 outcome, we tested for homoskedasticity, the constancy of variance of model errors, by examining the associations between the predictor variables and the residuals of the model using the White Test.<sup>21</sup> Because the number of variables in the T4 predictive model were too large to run the White Test, the Breusch-Pagan Test<sup>22</sup> was used to test for homoskedasticity for this outcome.

## Results

Overall characteristics of the combined sample as well as a comparison of the RB cases and NB controls on prematriculation characteristics (T1) and performance during medical school (T2) are presented in Table 1. We found no significant differences in the prematriculation data between the RB cases and NB controls on father's or mother's level of education, selectivity rating of undergraduate college, college major, or MCAT scores. Twenty-eight percent of RB cases were born outside of the United States, compared with 18% of NB controls, falling just short of statistical significance ( $P < .06$ ). Inspection of the data collected during medical school indicated that NB controls consistently outperformed RB cases, including USMLE Step 1 scores, Step 2 CK scores, and grades for all 6 clerkships.

As shown in the first section of Table 2, residency directors' ratings were significantly more negative for RB cases than NB controls on 6 of the 10 behavioral questions (with another question falling just short;  $P = .06$ ). RB cases were more than 5 times more likely than NB controls to be rated as not meeting standards for "being trustworthy and responsible" (26% of RB cases did not meet standards vs 5% of NB controls) and not meeting standards for "being honest in representing their actions" (19% vs 4%, respectively). In addition, 19% of RB cases were rated as deficient in "incorporating feedback to make changes," compared with 4% of NB controls. The only 2 items not indicating

large group differences pertained to direct care of patients, yet twice as many NB controls received special recognition for their clinical work (48% of NB controls vs 24% of RB cases).

RB cases were also approximately 4 times more likely to have required remediation or counseling (35% vs 9%, respectively) and more than 5 times more likely to have undergone disciplinary review (16% vs 3%, respectively). Residency directors would have been strongly enthusiastic to hire 56% of NB controls, compared with only 29% of RB case cases. Finally, while most of the unprompted adjectives residency directors used to describe both groups were positive, the rate of negative adjectives they generated (e.g., unmotivated, overconfident, rigid) was more than twice as high for RB cases than for NB controls (27% vs 12%, respectively).

Postresidency data demonstrated that instances of state medical board actions and malpractice suits brought during the early years of clinical practice for both groups were few. Malpractice suits were brought against 6% of RB cases and 4% of NB controls. Similarly, the rate of state medical board sanctions was 4% among RB cases compared with 1% of NB controls, neither difference reaching statistical significance. Combining the 2 outcomes into a single "sued or sanctioned" index aggregated the occurrences (no individual had experienced both), and the combined index showed a rate of 10% among RB cases vs 5% among NB controls.

Concerning the multivariate analyses, the exhaustive model search yielded a 5-variable best-fit model with an adjusted  $R^2$  of 0.17 (with an F statistic of 4.64;  $P < .001$ ) for the dichotomous T3 outcome, whether the resident required remediation or review. The 5 explanatory variables were: RB vs NB (case vs control), Step 2 CK score, MCAT total score, and grades in internal medicine and obstetrics-gynecology (see Table 3). The result of the White Test did not find evidence of heteroskedasticity ( $P > .05$ )

For the sued-or-sanctioned (T4) outcome, the best-fit model, with an adjusted  $R^2$  of 0.24, contained 11 variables (see Table 3). RB vs NB was one of these, in addition to 6 of the survey items about professional behavior

that were completed by the residency directors. MCAT score in addition to Step 2 CK and Step 3 scores were included in the final model, as was the student's clerkship grade in neurology. The Breusch-Pagan test did not find evidence of heteroskedasticity ( $P > .05$ ).

## Discussion

This study provides consistent and compelling evidence that medical students who exhibit lapses in professionalism during medical school show a higher frequency of deficiencies in professionalism during residency and demonstrate a tendency to be sued or sanctioned more frequently than matched controls. Residency directors rated trainees who had appeared before their medical schools' review boards as having significantly more deficiencies in professionalism, and review board cases were more likely to require remediation or counseling and to undergo disciplinary review than controls. Once in practice, those who appeared before their medical schools' review boards were sued or sanctioned at a ratio of 2:1 compared with controls.

By providing a prospective link between medical school lapses in professionalism and subsequent deficiencies both early (poor evaluations while in residency) and late (malpractice suits as well as sanctions while in practice), the findings of this study strengthen, complement, and expand existing knowledge about the relationship between early and late professionalism problems among physicians. In addition to offering data supporting the simple relationship between lapses in professionalism during medical school and after graduation, however, our multivariate analyses provide cautionary evidence that early lapses in professionalism may not be the only, or even the most important, predictor of problems once in practice.

Our prematriculation data, which contain information commonly available to admissions committees, did not generate any noteworthy predictors of professionalism lapses during medical school. Perhaps recent approaches such as multi-mini-interviews may generate useful insights into future nonprofessional behavior.<sup>23,24</sup> However, while mixed accounts of after-the-fact remediation efforts for instances of

Abbreviations: RB, review board; NB, nonboard; MCAT, Medical College Admission Test; CK, clinical knowledge.

<sup>a</sup>P values calculated using chi-square test to compare RB cases with NB controls for each variable.

<sup>b</sup>Both schools used a 4-category grading scale. At Harvard Medical School, the designation for highest grade was high honors, and at Case Western Reserve University School of Medicine, the highest designation was honors.

Table 2

**Univariate Analyses: Characteristics of Residency and Medical Practice Variables for the Sample as a Whole and Comparing Between RB Cases and NB Controls, From a Study of Medical School Professionalism Lapses and Problems in Residency and Practice, Harvard Medical School and Case Western Reserve University School of Medicine, 2014**

| Variable                                                    | Full sample<br>no./total (%) | RB cases<br>no./total (%) | NB controls<br>no./total (%) | P value <sup>a</sup> |

Abbreviations: RB, review board; NB, nonboard.

<sup>a</sup>P values calculated using chi-square test to compare RB cases with NB controls for each variable.

students' nonprofessional behavior have been reported,<sup>25-27</sup> we know of no existing evidence to assist admissions committees to make effective screening decisions for professionalism before matriculation.<sup>28</sup>

In medical school, we found that students who appeared before their schools' review boards received lower clinical clerkship grades. A possible explanation for this relationship may be that interpersonal sensitivity, reliability, and ability to work well in teams are likely to be as critical as knowledge or skills in determining clerkship grades. More surprising is the finding that RB cases, who performed just as well as NB controls on the MCAT, performed significantly worse on standardized tests such as Step 1 and Step 2 CK examinations.

Multivariate analyses showed that scores on standardized tests and some clerkship grades were included in the best-fit models predicting problems in professionalism during both residency and post-training practice, confirming previously reported findings.<sup>29-31</sup> A tempting interpretation of this finding is that professionalism deficits are more likely to occur among those who are academically less talented. By way of

speculation, we ask whether it is possible that weaker performance on national licensing exams may result as much from a lack of commitment and preparation as from a lack of knowledge or ability.

#### Limitations

Among the limitations of our findings, our sample was not large and came from 2 highly selective medical schools, and occurrences such as state medical board sanctions and malpractice suits were relatively uncommon. In addition, we were not able to study the extent to which remediation-oriented activities initiated at the 2 sites affected the outcomes.

Another possible concern is that in spite of the fact that we took the perspective of a prospective study by selecting cases who had an identifiable "risk factor" and collected data about them later in their careers to test the predictive validity of this variable, some of the data were collected after the fact. Objective outcome data, recorded in real time and stored in institutional records, remain unaffected by when they were interrogated. We acknowledge that subjective data such as residency directors' recollections may be influenced by retrospective biases; nonetheless, while random error may

have been introduced by the program directors' retrospections, we have no reason to suspect that this affected the results by introducing systematic bias. Last, research on memory indicates that recollection in the form global affect tends to remain relatively intact in spite of the passage of time.<sup>32,33</sup>

We also note that the duration of post-training independent clinical practice in our study was limited to early-career observations. Rather than a limitation, however, it is possible that this underestimated the relationship rather than vice versa. Had the number of suits and sanctions in the case and control groups continued to diverge in later career as they had begun to do in early career, medical school professionalism lapses might have been even more closely associated with full-career sanctions. Similarly, the fact that we studied only graduates of the 2 schools and their outcomes during residency and practice may have actually underestimated the negative impact of nonprofessionalism, as professionally challenged students who did not complete their undergraduate or graduate training did not enter the medical workforce, and, obviously, could not be counted among the ranks of those sued or sanctioned.

Table 3

**Multivariate Analyses: Best Fitting Models for Whether Residents Were Subject to Remediation or Disciplinary Review and Whether Independent Practitioners Had Malpractice Suits or Sanctions, From a Study of Medical School Professionalism Lapses and Problems in Residency and Practice, Harvard Medical School and Case Western Reserve University School of Medicine, 2014**

| Variable                                                                         | Estimate | Standard error | T value | P value |
|----------------------------------------------------------------------------------|----------|----------------|---------|---------|
| <b>Did resident undergo remediation of disciplinary review? (T3)<sup>a</sup></b> |          |                |         |         |
| Intercept                                                                        | 0.45     | 0.21           | 2.13    | .04     |
| RB case or not                                                                   | 0.23     | 0.09           | 2.63    | .01     |

Abbreviations: T3, Time 3 (during residency); RB, review board; CK, clinical knowledge; MCAT, Medical College Admission Test; T4, Time 4 (during independent practice).

<sup>a</sup>F statistic = 4.64; *P* = .0009.

<sup>b</sup>F statistic = 2.20; *P* < .04.

### Implications and future directions

These issues provide insight into directions for future research. For instance, while getting into disciplinary trouble may itself be predictive, an individual's response to being disciplined and to attempts at remediation may be a sensitive predictor of the person's risk status for future difficulties. Reflective ability and self-insight are key issues that may predict long-term outcomes.<sup>34,35</sup> In addition, differences in "explanatory style,"<sup>36,37</sup> a concept from the field of social psychology, may help account for reasons why some people accept personal responsibility and incorporate negative feedback to improve, while others discount negative feedback and reject personal blame, feeling nonresponsible at best or victimized at worst. We attempted to extract such data from institutional records but found that, too often, the records lacked sufficient detail.

### Conclusions

This investigation has illuminated the relationship between early and later lapses

of professionalism in several unique ways: by providing prospectively derived evidence about the long-term sequelae of professionalism lapses in medical school, by offering evidence about outcomes at 2 key points in time, by broadening the array of outcomes typically studied, and by supplying information about the relative predictive value of early problems in professionalism compared with other possible determinants of negative post-medical school performance.

Medical schools face the dilemma of walking a fine line between overreacting and underreacting to students who act nonprofessionally. To respond too strongly or quickly by censoring or dismissing remediable students risks the premature loss of talented potential contributors to the profession. At the opposite extreme is the "failure to fail."<sup>38,39</sup> Taking too permissive an approach may all but guarantee a certain level of professional difficulties among medical school graduates.

This study sets the stage for future efforts to design evidence-based approaches to both prevention and treatment and for ways of considering admissions decisions as well as approaches to and solutions for early nonprofessionalism. We propose that a diverse group of medical schools, working with related organizations and other stakeholders such as the Association of American Medical Colleges, Accreditation Council for Graduate Medical Education, FSMB, and NPDB delineate the variables hypothesized to be most predictive of problems in professionalism; systematically identify forms of remediation used; and engage in systematic, large-scale, and longitudinal data collection. Such an initiative would enable educators to generate evidence-based prediction models that are both sensitive and specific, that are capable of identifying potential future offenders, and that could lead to effective programs of early intervention.

*Dedication:* Dr. Miles Shore passed away in June 2019 at the age of 90, during the editing process of this manuscript. Among his substantial contributions to Harvard Medical School and the broader community, he served for many years as Chair of the HMS Promotion and Review Board. In that role, he was a champion of the value of professionalism in students, and he was both the inspiration for and a coinvestigator in the project that resulted in this publication. We hope that this piece of scholarship will, in a small way, serve to honor his memory and achievements.

*Acknowledgments:* The authors wish to acknowledge the administrative contributions of Terese Galuszka, Susan Zapatka, Elizabeth Peet, Nassrine Niemi-Farhoody, and Carole Chalkley at the study sites. They also thank the Federation of State Medical Boards and the National Practitioner Data Bank for their cooperation in providing data that made this study possible.

*Funding/Support:* This study was funded by a grant from the Stemmler Fund of the National Board of Medical Examiners.

*Other disclosures:* None reported.

*Ethical approval:* This study was approved on November 4, 2013, by the Office of Human Research Administration of Harvard Medical School on behalf of both study sites (HMS & CWRU), protocol #MOD 13-1223-01.

*Data:* Data from the Federation of State Medical Boards and National Practitioner Data Bank were used with permission, with the understanding that the identification of all participants would be protected.

## **ANNUAL BUSINESS MEETING MINUTES**

Saturday, May 2, 2020  
Virtual Meeting via ZOOM  
11:00 AM – 1:00 PM Central

### **Fellows Present:**

Jimmy Adams, DO, West Virginia Board of Osteopathic Medicine  
Jim Andriole, DO, Past President, AAOE; Florida Board of Osteopathic Medicine  
Molly Biehl, DO, Montana Board of Medical Examiners  
Alexios Carayannopoulos, DO, Vice President, AAOE; Rhode Island Board of Medical Licensure and Discipline  
Jim DiRenna, DO, Missouri Board of Registration for the Healing  
Jone Geimer-Flanders, DO, Hawaii Medical Board  
Dana Shaffer, DO, Past President, AAOE; Kentucky Board of Medical Licensure  
Scott Thomas, DO, Maine Board of Osteopathic Licensure  
Anna Hayden, DO, Past President, AAOE; Florida Board of Osteopathic Medicine  
Gary Hill, DO, Alabama Board of Medical Examiners  
Ron Januchowski, DO, South Carolina Board of Medical Examiners  
Karen O'Mara, DO, Illinois Division of Professional Regulation  
Geraldine O'Shea, DO, Past President, AAOE; Osteopathic Medical Board of California  
Samir Pancholi, DO, Nevada Osteopathic Board of Medicine  
Hemesh Patel, DO, Osteopathic Medical Board of California  
Joel Rose, DO, Florida Board of Osteopathic Medicine  
Otto Sabando, DO, New Jersey State Board of Medical Examiners  
Sandra Schwemmer, DO, Florida Board of Osteopathic Medicine  
Jill Shaw, DO, Oregon Medical Board  
Amit Shelat, DO, New York State Board for Medicine (Licensure)  
Barby Simmons, DO, Georgia Composite Medical Board  
Ryan Smith, DO, Maine Board of Osteopathic Licensure  
Scott Steingard, DO, Chair, FSMB; Arizona Board of Osteopathic Examiners in Medicine and Surgery  
David Tannehill, DO, Missouri Board of Registration for the Healing  
Barbara E. Walker, DO, Immediate Past President, AAOE; North Carolina Medical Board  
Michael Wieting, DO, Secretary-Treasurer, AAOE; Tennessee Board of Osteopathic Examiners  
Andrew Yuan, DO, Connecticut Medical Examining Board  
Joseph Zammuto, DO, Osteopathic Medical Board of California  
Jan Zieren, DO, Tennessee Board of Osteopathic Examiners

### **Non-Members/Observers Present:**

Humayun J. Chaudhry, DO, President & CEO, Federation of State Medical Boards (FSMB)  
John Gimpel, DO, President & CEO, National Board of Osteopathic Medical Examiners (NBOME)

## **AOA Leaders/Staff:**

Ronald Burns, DO, President

Kim Kuman, Executive Assistant, State Government Affairs

Raine Richards, JD, Director, State Government Affairs

- I. AAOE President J. Michael Wieting, DO called the meeting to order at 11:00 AM.
- II. Dr. Wieting presented the agenda; Anna Hayden, DO made a motion to adopt the agenda; seconded by Jimmy Adams, DO; approved unanimously. Final February 29, 2020 meeting minutes were presented as informational.
- III. **FSMB Candidates, Committees and Workgroups** – J. Michael Wieting, President, AAOE
  - a. Candidates presented as informational:
    - i. Chair-elect: Kenneth B. Simons, MD – Wisconsin
    - ii. Board of Trustees (\*at least 1 non-physician must be elected):
      1. Jeffrey D. Carter, MD – Missouri
      2. Katie L. Templeton, JD – Oklahoma Osteopathic
      3. Barbara E. Walker, DO – North Carolina
      4. Richard A. Whitehouse, JD – Kentucky
      5. Sherif Z. Zaafran, MD – Texas
    - iii. Nominating Committee (\*at least 1 public member must be elected):
      1. Alexander S. Gross, MD – Georgia
      2. Reverend Janet Harman – West Virginia Medical
      3. John “Jake” M. Manahan, JD – Minnesota
      4. J. Michael Wieting, DO – Tennessee Osteopathic
  - b. Committees and Workgroups
    - i. AAOE fellows encouraged to become involved and serve on FSMB committees and workgroups.

## **IV. Affiliate Partners Update**

- a. **Federation of State Medical Boards (FSMB) Update** – Humayun J. Chaudhry, DO, President & CEO, FSMB and Scott Steingard, DO, Chair, FSMB
  - i. Humayun Chaudhry, DO discussed FSMB’s Response to COVID-19:
    1. Mobilized data and advocacy resources to assist states and territories to quickly increase health care workforce
    2. Free access to FSMB Physician Data Center (PDC) to enable hospitals to quickly/accurately verify medical licenses
    3. Creation of Ad Hoc Task Force on Pandemic Preparedness (later renamed Pandemic Response) - February 25, 2020
    4. Development of a COVID-19 website with state-by-state details on waivers of license renewal requirements/deadlines & other resources
    5. Released recommendations for license portability during pandemic
  - ii. State and Territorial – Response to COVID-19
    1. States increasing flexibility by temporarily waiving/modifying medical licensure requirements to meet the needs of their population:
      - a. 49 states - modified medical licensure requirements and/or renewals for out of state health care professionals
      - b. 45 states - modified in-state medical licensure requirements for telehealth from other states

- c. 33 states - expedited licensure for retired or inactive physicians
  - d. 29 states - Interstate Medical Licensure Compact
  - e. 11 states - allow early MD and DO graduates to provide care under the supervision of a licensed physician before July 1, 2020
- iii. New York State Response to COVID-19 – Epicenter
- 1. 100,000 volunteers answered Governor Cuomo’s call for health care workers to treat NY patients
  - 2. FSMB worked with states and territories to help verify credentials of physicians and PAs using FSMB’s Physician Data Center (PDC)
  - 3. The PDC database ([www.DocInfo.org](http://www.DocInfo.org)) includes current and historical medical licensure information for every physician and PA in the U.S.
    - a. Name, DOB, Medical Education, Licensure Status and History, Disciplinary History, Specialty Certification Status
- iv. Coalition for Physician Accountability – April 9, 2020
- 1. FSMB partnered with leaders of the AMA, AOA, CMSS, AAMC, AACOM, ACCME, ACGME, ECFMG, LCME, NBME, and NBOME to issue a consensus statement:
    - a. “Strengthened efforts must be in place to safeguard the public and... protect our nation’s health care workforce during the COVID-19 pandemic so they remain able to meet the public’s needs.”
- v. Lessons Learned
- 1. States and territories need:
    - a. Flexibility to rapidly expand access to quality health care in an emergency
    - b. Accurate/Current Electronic Data & Records
      - i. Along with hospitals, medical boards need the capability to rapidly verify qualifications and credentials of physicians and PAs (through FSMB’s Physician Data Center) who are already licensed in the US
      - ii. Along with medical schools, medical boards need to move beyond paper credentials (“wet” signatures) and transcripts
    - c. Safeguards for the public as well as for health care workers
    - d. Creation of the U.S. Public Health Service’s Ready Reserve Corps under the CARES Act (2020) is timely
- vi. Scott Steingard, DO acknowledged the hard work that has been done by Dr. Chaudhry and FSMB staff during the pandemic.
- b. **National Board of Osteopathic Medical Examiners (NBOME) Update** – John Gimpel, DO, President & CEO, NBOME and Geraldine O’Shea, DO, Board Chair, NBOME
- i. Geraldine O’Shea, DO reviewed NBOME’s mission and an overview of their recent activities
  - ii. John Gimpel, DO presented a review of NBOME’s portfolio across the education, licensure, and practice spectrum
  - iii. Overview of COMLEX exam series
  - iv. Response to COVID-19 and Issues Related to Licensing
    - 1. Exam postponements, self-proctoring and rescheduling discussed

- a. Rescheduling fees waived
  - b. Need to ensure safe testing environments
- v. UME to GME
  - 1. Resources available for the transition from medical school to residency
  - 2. Reach out to Program Directors
    - a. COMLEX-USA Percentile Score Converter
- vi. NRMP Match 2020 (first single GME match)
  - 1. 90.7% of DO seniors matched
  - 2. 81% Fellowship match
- vii. 2020 US Osteopathic Medical Regulatory Summit
  - 1. Summit has been postponed (TBD)
  - 2. Focus of summit will be defining osteopathic distinctiveness
- viii. Hospitals have received financial support – COMs at a disadvantage because the majority do not have affiliated hospitals
- c. **AOA Update** – Raine Richards, JD, Director, AOA State Government Affairs
  - i. Goal of the Bureau of State Government Affairs (BSGA) is to develop policy – Dr. Flanders is the current AAOE representative to the BSGA
  - ii. All 50 states slated to hold legislative sessions this year; COVID-19 has caused 20 to suspend/cancel or postpone sessions, and legislation is focused on COVID-19
  - iii. Federal COVID-19 Advocacy
    - 1. Advocating for:
      - a. Financial Relief
      - b. Medical Liability Reform
      - c. Protections to shield physician volunteers from additional liability for services rendered in response to a disaster
      - d. Student Debt Relief
      - e. Non-Profit Support
      - f. Paid Medical Leave
    - 2. Accomplished:
      - a. Financial Relief
        - i. \$175 billion for providers in areas heavily impacted by pandemic
        - ii. Expanded loans for small businesses
        - iii. Financial relief for federal student loan borrowers
      - b. Telehealth
        - i. Medicare:
          - 1. Increased payment rates for telehealth
          - 2. Expanded telehealth flexibilities (i.e. audio-only)
        - ii. A high-deductible health plan with a health savings account can cover telehealth services
      - c. Liability Protections
        - i. Liability protections shielding physician volunteers from additional liability for services rendered in response to a disaster; a future “ask” will be to extend this to non-volunteer physicians
      - d. Funding for Medical Supplies
        - i. Additional funding allocated for shortages in medical supplies (i.e. ventilators, PPE)

iv. State COVID-19 Advocacy

1. Letters

- a. Requested medical malpractice protections for physicians responding to the COVID-19 emergency in nine states
- b. Requested relief from medical malpractice premiums for physicians in solo or small group practices in nine states
- c. Template letter drafted for state affiliates to use to ask their State Opioid Treatment Authorities to request blanket exceptions from opioid use disorder treatment restrictions from the U.S. Substance Abuse and Mental Health Services Administration

2. Future Advocacy

- a. Extended workers' comp protections for "essential workers" who contract COVID in the course of their employment
- b. Opposition to Medicaid budget cuts
- c. State medical board flexibility in licensing renewal/CME requirements during the state of emergency

**V. AAOE Budget Report – J. Michael Wieting, DO, President, AAOE**

- a. The status of FY20 AAOE budget was shared. Currently, the organization is under budget, largely due to the shift in the Annual Meeting to a virtual format.

**VI. Appointment of AAOE Secretary -Treasurer – J. Michael Wieting, DO, President, AAOE**

- a. Dr. Wieting addressed the vacancy of the AAOE's Secretary -Treasurer position. He asked the Fellows if there was interest in the open position. Hearing none, per the AAOE Bylaws, Dr. Wieting suggested the nomination of Jan D. Zieren, DO, Tennessee Board of Osteopathic Examiners.
  - i. A motion was made to nominate Dr. Zieren for AAOE Secretary-Treasurer by Jone Geimer-Flanders, DO; seconded by Barbara Walker, DO.
  - ii. Dr. Zieren was honored to accept the nomination.
  - iii. Motion carried unanimously.
- b. Dr. Zieren welcomed to the AAOE Executive Committee.

**VII. FSMB Annual Meeting Reports – J. Michael Wieting, DO, President, AAOE**

- a. Dr. Wieting presented the FSMB Annual Meeting reports that would be considered during the FSMB meeting later that afternoon.

**VIII. AOA 2019 Referred and 2015 Sunset Resolutions – Raine Richards, JD, Director, AOA  
State Government Affairs**

- a. Ms. Richards provided relevant policies to the Fellows that will be considered before the 2020 AOA House of Delegates. She encouraged review of the policies and solicited feedback.

**IX. State Roundtable: Medical Licensing Board Activity Related to COVID-19**

- a. The following states provided updates:
  - i. Alabama: Relaxed telemedicine and telehealth requirements; and DEA regulations for practitioners prescribing controlled substances with no history of abuse

- ii. California: Governor relaxed the physician-to-Nurse Practitioner (NP) ratio to 1:4; independent practice for NPs struck down, waiver for CME until pandemic subsides
- iii. Connecticut: Governor mirrored activity in New York and New Jersey to create more access to telemedicine and utilize retired physicians in the pandemic response
- iv. Florida: The Licensure Modernization Act is awaiting the Governor's signature
- v. Georgia: Remote board meetings; relaxing telehealth requirements and license renewal requirements for 2020 and 2021
- vi. Hawaii: Medical Practice Act suspended March 14, 2020; all license renewals are due June 30, 2020; waiting for the Governor's decision
- vii. Kentucky: Executive Order by the Governor; expediting licenses and reaching out to retired physicians
- viii. Maine: PAs granted independent practice; brief respite from the push toward a composite medical board
- ix. Missouri: Executive Order from Governor on March 15, 2020; board holding licensing, malpractice and operational meetings virtually
- x. Montana: No CME requirements above those required by a DO's Certifying Board (if any)
- xi. New Jersey: Executive Order by the Governor for emergency licensure for foreign physicians; retired physicians asked to come back
- xii. New York: Epicenter of the pandemic; Governor issuing Executive Orders on a daily basis; been liberal with allowing providers to practice without NY licenses; expiring licenses automatically extended for six months; CME is a non-issue as it is audit based; reached out to retired physicians
- xiii. North Carolina: Virtual meetings being held successfully
- xiv. Oregon: Virtual board meetings held; CME is audit-based
- xv. Rhode Island: Board still holding disciplinary meetings; considering field/alternative hospitals
- xvi. South Carolina: Administrative meetings held; no disciplinary activity

#### **X. Announcements/Adjournment**

- a. Dr. Wieting announced that the AOA House of Delegates (HOD) meeting has been rescheduled for October 13-14 in Austin, TX. More information about the AAOE Business Meeting that is normally held in conjunction with the HOD will be sent out as it becomes available. AOA event updates can be viewed [here](#).
- b. Support was suggested for FSMB candidates Barbara Walker, DO (Board of Directors); J. Michael Wieting, DO (Nominating Committee); Katie Templeton, JD, Oklahoma State Board of Osteopathic Examiners (Board of Directors)
- c. Dr. Wieting asked for a motion to adjourn. Otto Sabando, DO made a motion to adjourn, seconded by Dr. Walker.
- d. Meeting adjourned at 1:02 PM by Dr. Wieting.

## MEETING MINUTES SUMMARY

### COUNCIL ON PHYSICIAN ASSISTANTS TELECONFERENCE FLORIDA BOARD OF MEDICINE June 4, 2020

The Council was called to order at 2:02 p.m. and reviewed 4 licensure cases.

**Approved for Licensure: 2**

Tabs 1 and 3

**Tabled: 1**

Tab 2

**Denied Request to Lift Condition (direct supervision for 6 months): 1**

Tab 4

### **Approval of April 2, 2020 Meeting Minutes**

The Council recommended approval of the minutes for the meeting held on April 2, 2020. The motion was seconded and carried unanimously.

### **Approved List of Full and Temporary Physician Assistants Licenses issued March 5, 2020 – May 13, 2020**

A motion was made to ratify the licensure list from the agenda. The motion was seconded and carried unanimously.

### **RULES DISCUSSION**

#### **Tab 7 – Rules Discussion**

Purpose: To delete the 16-credit hour graduate clerkship since it is no longer offered at Nova Southeastern University and replace it with proof of recertification by NCCPA.

**Rule 64B8-30.005, F.A.C. – Physician Assistant Licensure Renewal and Reactivation – Board of Medicine**

**Rule 64B15-6.0035, F.A.C. – Physician Assistant Licensure Renewal and Reactivation – Board of Osteopathic Medicine**

After discussion, a motion was made, seconded, and carried unanimously to approve the modifications to the rules, 64B8-30.005 and 64B15-6.0035, F.A.C. A motion was made and seconded that the proposed rules will not have an adverse impact on small business and will not likely to directly or indirectly increase regulatory costs to any entity in excess of \$200,000 in the aggregate in Florida within one year after the implementation of the rule. The Council also voted “no” to minor violation and “no” to adding a sunset provision to this rule. The motion carried 5/0.

**Tab 8 – Rules Discussion**

Purpose: To implement the legislative change as it relates to HB115.

**Rule 64B8-30.003, F.A.C. – Physician Assistant Licensure- Board of Medicine**

**Rule 64B15-6.003, F.A.C. – Physician Assistant Licensure – Board of Osteopathic Medicine**

After the discussion, a motion was made, seconded, and carried unanimously to open for rule development, 64B8-30.003 and 64B15-6.003, F.A.C. provided that HB 115 is signed into law. A motion was made and seconded that the proposed rules will not have an adverse impact on small business and will not likely to directly or indirectly increase regulatory costs to any entity in excess of \$200,000 in the aggregate in Florida within one year after the implementation of the rule. The Council also voted “no” to minor violation and “no” to adding a sunset provision to this rule. The motion carried 5/0.

**COUNCIL BUSINESS**

There was no council business for discussion.

**NEW BUSINESS**

There was no new business for discussion.

The meeting adjourned at 3:26 p.m.

**MEETING MINUTES**  
**COUNCIL ON PHYSICIAN ASSISTANTS TELECONFERENCE**  
**FLORIDA BOARD OF MEDICINE**  
**June 4, 2020**

**Teleconference Call In Number**

**Toll Free: 1-888-585-9008**

**Conference Room Number:**

**432 162 565 #**

To accommodate individuals required to appear before the Council, the Chair may adjust the sequence of the agenda items. The minutes reflect the actual sequence of events rather than the original agenda order.

Ms. Alonso called the meeting to order at 2:02 p.m. Those present included the following:

**Members Present:**

Dayne Alonso, PA-C – Chair  
David Diamond, MD – Vice-Chair  
Joel Rose, DO  
Luz Pages, MD  
Jorge Lopez, MD

**Staff Present:**

Claudia Kemp, Executive Director  
Wendy Alls, Program Operations Administrator

**Court Reporter:**

Lindsey Sampson, Court Reporter  
[kay@tallahasseecourtreporting.com](mailto:kay@tallahasseecourtreporting.com)  
1500 Mahan Drive, Suite 140  
Tallahassee, FL 32308  
Phone: (850) 222-5491

**Board Counsel:**

Donna McNulty, Esquire  
Nancy Murphy, Certified Paralegal

**PERSONAL APPEARANCES**

**Tab 1 – Katie Riegler, PA-C**

Issue(s):

Alabama Medical Board Action  
Health History

The applicant was present. After discussion, a motion was made to approve the application for licensure. The motion was seconded, which carried 5/0.

Action Taken: The Council voted to approve the application for licensure.

**Tab 2 – Dominic Salvatore Ascioti, PA-C**

Issue(s):

- New York Medical Board Action
- Health History
- Criminal History
- Pending Malpractice Case

The applicant was present. After discussion, a motion was made to table the application for up to six (6) months pending the evaluation and recommendation from PRN and require the applicant to reappear before the Council on Physician Assistants. The motion was seconded, which carried 5/0. The applicant waived the 90-day requirement.

Action Taken: The Council voted to table the application for up to six (6) months pending the evaluation and recommendation from PRN and require the applicant to reappear before the Council on Physician Assistants.

**Tab 3 – Jennifer Lynn DeFilippo, PA-C**

Issue(s):

- New York Medical Board Action
- Health History
- Criminal History

The applicant was present. After discussion, a motion was made to approve the application for licensure. The motion was seconded, which carried 4/1.

Action Taken: The Council voted to approve the application for licensure.

**INDIVIDUAL CONSIDERATIONS**

**Tab 4 – Michelle Vorce Laguens, PA-C**

Issue(s): Request to lift condition of direct supervision for six (6) months

The applicant was present. The Council made a motion to deny the request to lift the condition of direct supervision for six (6) months. The motion was seconded, which carried, 5/0.

Action Taken: The Council voted to deny the request to lift the condition of direct supervision for six (6) months.

**Tab 5 - Approval of April 2, 2020 Meeting Minutes**

The Council recommended approval of the minutes for the meeting held on April 2, 2020. The motion was seconded and carried unanimously.

Action Taken: The Council voted to approve the minutes for the meeting held on April 2, 2020.

**Tab 6 - List of Full and Temporary Physician Assistants Licenses issued March 5, 2020 – May 13, 2020**

A motion was made to ratify the licensure list from the agenda. The motion was seconded and carried unanimously.

Action Taken: The Council voted to ratify the list of licensees.

**Tab 7 – Rules Discussion**

**Rule 64B8-30.005, F.A.C. – Physician Assistant Licensure Renewal and Reactivation – Board of Medicine**  
**Rule 64B15-6.0035, F.A.C. – Physician Assistant Licensure Renewal and Reactivation – Board of Osteopathic Medicine**

After discussion, a motion was made, seconded, and carried unanimously to approve the modifications to the rules, 64B8-30.005 and 64B15-6.0035, F.A.C. A motion was made and seconded that the proposed rules will not have an adverse impact on small business and will not likely to directly or indirectly increase regulatory costs to any entity in excess of \$200,000 in the aggregate in Florida within one year after the implementation of the rule. The Council also voted “no” to minor violation and “no” to adding a sunset provision to this rule. The motion carried 5/0.

**Tab 8 – Rules Discussion**

**Rule 64B8-30.003, F.A.C. – Physician Assistant Licensure- Board of Medicine**  
**Rule 64B15-6.003, F.A.C. – Physician Assistant Licensure – Board of Osteopathic Medicine**

After the discussion, a motion was made, seconded, and carried unanimously to open for rule development, 64B8-30.003 and 64B15-6.003, F.A.C. provided that HB 115 is signed into law. A motion was made and seconded that the proposed rules will not have an adverse impact on small business and will not likely to directly or indirectly increase regulatory costs to any entity in excess of \$200,000 in the aggregate in Florida within one year after the implementation of the rule. The Council also voted “no” to minor violation and “no” to adding a sunset provision to this rule. The motion carried 5/0.

**FYI -** The Council briefly discussed HB 115 and HB 713 and the legislative summary.

**COUNCIL BUSINESS**

There was no council business for discussion.

**NEW BUSINESS**

There was no new business for discussion.

The meeting adjourned at 3:26 p.m.

## **64B16-31.007 Collaborative Practice Certification: Chronic Health Conditions.**

Pursuant to Section 465.1865, F.S., the Board hereby adopts the following list of chronic health conditions for which a pharmacist certified pursuant to section 465.1865, F.S., can provide specified patient care services to patients of a collaborating physician pursuant to a pending Collaborative Pharmacy Practice Agreement:

- 1) Hyperlipidemia;
- 2) Hypertension;
- 3) Anti-coagulation management;
- 4) Smoking cessation;
- 5) Osteoporosis and Osteoarthritis;
- 6) Opioid use disorder; and
- 7) Those chronic health conditions enumerated in section 465.1865(1)(b), F.S.
- 8) Any disease state that is expected to last greater than one (1) year or more and will require ongoing medical treatment and drug therapy services.

### **64B16-31.039 Test and Treat Certification: Formulary of Medical Drugs**

(1) Pursuant to section 465.1895, F.S., the Board hereby incorporates all medicinal drugs approved by the United States Food and Drug Administration (“FDA”) as the formulary of medicinal drugs that a pharmacist may prescribe pursuant to a written test and treat protocol.

~~(b) All compounded medicinal drugs that utilize only active pharmaceutical ingredients approved by the FDA.~~

(2) A pharmacist may not prescribe controlled substances as described in s. 893.03 or 21 U.S.C. s. 812.

Dear Ms. Sapp:

Thank you for the opportunity to have spoken briefly at last week's Board of Pharmacy Rules Committee meeting with regard to the above rule.

As I and my clients believe that questions still remain as to whether the existence of subsection (8) is supported by sufficient statutory authority, is arbitrary and capricious in its wording, as well as whether the addition of certain diseases has been supported by competent substantial evidence, the Florida Chapter of the American College of Physicians and the Florida Academy of Family Physicians would like to request a formal workshop on the proposed rule.

Thank you for your time and consideration of this request, and I hope you all stay well.

Sincerely,

CHRIS NULAND  
[nulandlaw@aol.com](mailto:nulandlaw@aol.com)

## RE: Rule Making Authority 465.1865, 64B16-31.007 Collaborative Practice Certification – Chronic Health Conditions

Dear Board of Pharmacy Committee Members,

The Florida Society of Rheumatology (FSR) represents the physicians and other medical professionals practicing rheumatology in the state of Florida and facilitates the recognition of the role of the rheumatologist as the provider of choice for patients with arthritis, chronic pain, osteoporosis, and musculoskeletal disease.

We manage a select, specific group of highly complex autoimmune diseases that require specialized medications that modulate the immune system - much like oncologists who use chemotherapy, immunomodulatory and at times immunosuppressive medications to treat cancer. These medications have specific indications, target the immune system, and have to prescribe with great care and consideration to the appropriate patient, in order to maximize effectiveness and minimize side effects.

In response to the Collaborative Practice Certification – Chronic Health Conditions, the FSR respectfully requests that **section (8) eight, “any disease state that is expected to last greater than (1) year or more and will require ongoing medical treatment and drug therapy services”** be deleted from the proposed rule. The FSR agrees that the Board of Pharmacy has the authority to approve certain chronic health conditions, but to unilaterally allow all chronic health conditions to be subjected to this agreement raises serious concerns for the care and safety of our patient community.

FSR believes the Board of Pharmacy shares our concern to protect the health, safety and welfare of our unique patient population, and each condition should be considered prior to inclusion. Just because a health condition is expected to last greater than (1) year, does nothing in the consideration as to if the disease state lends itself well to a written constraints of collaborative practice and if comorbidities outside the chronic condition also need to be part of the management of the drug therapies in question.

@FloridaRheums

After all, the pharmacist is not managing the disease, but the drug therapies to be used in treating that disease, and the pharmacist does not go to school or have the required training to be a specialist in any one disease type, so we believe training must be added to the CME requirements for each disease state added.

Furthermore, the FSR opposes the BOP from including **“osteoporosis” in section (5) five of the Collaborative Practice Certification – Chronic Health Conditions**. There are many choices in the treatment of osteoporosis. The choice of the right treatment depends on the severity of the disease as well as comorbidities. It is not a simple decision in many cases whether the patient should or should not receive treatment. There are many drug choices for therapy in osteoporosis. The choice of which drug should be used not only depends on the severity of disease but also other additional diseases the patient may have, or comorbidities. So, the choice of which drug to use in a specific patient is a complex decision, within a mostly elder and fragile patient population.

The diagnosis must be verified by thorough review of the patient’s history, bone mineral density scan results and often, imaging study. Cognitive evaluation is also done by the physician to verify the diagnosis and severity of disease to select the right drug. After verifying that the diagnosis is, in fact, osteoporosis, the patient’s history of related comorbidities is determined and the severity of each of those must be ascertained to select the medication which will not only be the most effective, but importantly, the safest for that unique patient.

Osteoporosis is complex to manage and could result in permanent negative patient outcomes if treated improperly. There are a number of underlying causes/contributing factors for osteoporosis which must be evaluated and treated differently for optimal treatment results. We oppose the management of this condition by consulting pharmacists, and this disease does not fit into a simple algorithm of care such as the other conditions contemplated under a collaborative agreement.

We do not object to **“osteoarthritis” being included in section (5) five**. When treating osteoarthritis, care pathways are more straightforward algorithms of care, conducive to a collaborative agreement.

However, many of our patients have arthritis that represents an inflammatory and/or autoimmune disease. These are complex diseases that even physicians outside of our specialty do not manage. These diseases require complex assessments to ascertain whether the current treatment is effective and safe. Conducting these assessments is not simple and straightforward. It is often not obvious whether a treatment regimen should be changed. It takes specialized training and experience to be skilled enough to conduct these assessments competently.

In the case of the best known of these diseases, rheumatoid arthritis, such assessment includes obtaining validated patient reported outcomes, conducting a physical exam including a swollen and tender joint count, as well as review of radiology and laboratory findings. Synthesizing this information and then making the decision whether treatment should be changed is something that is beyond the scope of a consulting pharmacist. After the decision is made to change therapy, the decision of what the next best treatment regimen is also complex. This capacity takes experience and specialized training, beyond the scope of a consulting pharmacist.

Other examples of complex inflammatory and autoimmune diseases that FSR believes should not be managed by a consulting pharmacist include systemic lupus erythematosus and psoriatic arthritis. This is not an inclusive list as there are many more diseases in this category of inflammatory and autoimmune

arthritis. It is the firm opinion of FSR that Consulting Pharmacists should not be allowed to manage these forms of inflammatory and autoimmune diseases.

FSR stands committed in working with the Florida Board of Pharmacy in helping provide the best treatment options for Floridians with chronic conditions. Toward that end, please include us as an interested party in any future communications regarding the proposed rule. Thank you for your consideration.

Respectfully,

A handwritten signature in black ink, appearing to read 'G. Valenzuela', is positioned above the typed name.

126 Osteopathic Medicine.

127 (2) To provide services under a collaborative pharmacy  
128 practice agreement, a pharmacist must be certified by the board,  
129 according to the rules adopted by the board in consultation with  
130 the Board of Medicine and the Board of Osteopathic Medicine. To  
131 be certified, a pharmacist must, at a minimum:

132 (a) Hold an active and unencumbered license to practice  
133 pharmacy in this state.

134 (b) Have earned a degree of doctor of pharmacy or have  
135 completed 5 years of experience as a licensed pharmacist.

136 (c) Have completed an initial 20-hour course approved by  
137 the board, in consultation with the Board of Medicine and Board  
138 of Osteopathic Medicine, that includes, at a minimum,  
139 instruction on the following:

140 1. Performance of patient assessments.

141 2. Ordering, performing, and interpreting clinical and  
142 laboratory tests related to collaborative pharmacy practice.

143 3. Evaluating and managing diseases and health conditions  
144 in collaboration with other health care practitioners.

145 4. Any other area required by board.

146 (d) Maintain at least \$250,000 of professional liability  
147 insurance coverage. However, a pharmacist who maintains  
148 professional liability insurance coverage pursuant to s.  
149 465.1895 satisfies this requirement.

150 (e) Have established a system to maintain records of all

2020 Legislature

151 patients receiving services under a collaborative pharmacy  
152 practice agreement for a period of 5 years from each patient's  
153 most recent provision of service.

154 (3) The terms and conditions of the collaborative pharmacy  
155 practice agreement must be appropriate to the pharmacist's  
156 training and the services delegated to the pharmacist must be  
157 within the collaborating physician's scope of practice. A copy  
158 of the certification issued under subsection (2) must be  
159 included as an attachment to the collaborative pharmacy practice  
160 agreement.

161 (a) A collaborative pharmacy practice agreement must  
162 include the following:

163 1. Name of the collaborating physician's patient or  
164 patients for whom a pharmacist may provide services.

165 2. Each chronic health condition to be collaboratively  
166 managed.

167 3. Specific medicinal drug or drugs to be managed by the  
168 pharmacist for each patient.

169 4. Circumstances under which the pharmacist may order or  
170 perform and evaluate laboratory or clinical tests.

171 5. Conditions and events upon which the pharmacist must  
172 notify the collaborating physician and the manner and timeframe  
173 in which such notification must occur.

174 6. Beginning and ending dates for the collaborative  
175 pharmacy practice agreement and termination procedures,

176 | including procedures for patient notification and medical  
177 | records transfers.

178 | 7. A statement that the collaborative pharmacy practice  
179 | agreement may be terminated, in writing, by either party at any  
180 | time.

181 | (b) A collaborative pharmacy practice agreement shall  
182 | automatically terminate 2 years after execution if not renewed.

183 | (c) The pharmacist, along with the collaborating  
184 | physician, must maintain on file the collaborative pharmacy  
185 | practice agreement at his or her practice location, and must  
186 | make such agreements available to the department or board upon  
187 | request or inspection.

188 | (d) A pharmacist who enters into a collaborative pharmacy  
189 | practice agreement must submit a copy of the signed agreement to  
190 | the board before the agreement may be implemented.

191 | (4) A pharmacist may not:

192 | (a) Modify or discontinue medicinal drugs prescribed by a  
193 | health care practitioner with whom he or she does not have a  
194 | collaborative pharmacy practice agreement.

195 | (b) Enter into a collaborative pharmacy practice agreement  
196 | while acting as an employee without the written approval of the  
197 | owner of the pharmacy.

198 | (5) A physician may not delegate the authority to initiate  
199 | or prescribe a controlled substance as described in s. 893.03 or  
200 | 21 U.S.C. s. 812 to a pharmacist.

ENROLLED

CS/HB 389, Engrossed 1

2020 Legislature

201           (6) A pharmacist who practices under a collaborative  
 202 pharmacy practice agreement must complete an 8-hour continuing  
 203 education course approved by the board that addresses issues  
 204 related to collaborative pharmacy practice each biennial  
 205 licensure renewal in addition to the continuing education  
 206 requirements under s. 465.009. A pharmacist must submit  
 207 confirmation of having completed such course when applying for  
 208 licensure renewal. A pharmacist who fails to comply with this  
 209 subsection shall be prohibited from practicing under a  
 210 collaborative pharmacy practice agreement under this section.

211           (7) The board, in consultation with the Board of Medicine  
 212 and the Board of Osteopathic Medicine, shall adopt rules  
 213 pursuant to ss. 120.536(1) and 120.54 to implement this section.

214           Section 4. Section 465.1895, Florida Statutes, is created  
 215 to read:

216           465.1895 Testing or screening for and treatment of minor,  
 217 nonchronic health conditions.—

218           (1) A pharmacist may test or screen for and treat minor,  
 219 nonchronic health conditions within the framework of an  
 220 established written protocol with a supervising physician  
 221 licensed under chapter 458 or chapter 459. For purposes of this  
 222 section, a minor, nonchronic health condition is typically a  
 223 short-term condition that is generally managed with minimal  
 224 treatment or self-care, and includes:

225           (a) Influenza.

ENROLLED

CS/HB 389, Engrossed 1

2020 Legislature

226        (b) Streptococcus.  
 227        (c) Lice.  
 228        (d) Skin conditions, such as ringworm and athlete's foot.  
 229        (e) Minor, uncomplicated infections.  
 230        (2) A pharmacist who tests or screens for and treats  
 231 minor, nonchronic health conditions under this section must:  
 232        (a) Hold an active and unencumbered license to practice  
 233 pharmacy in the state.  
 234        (b) Hold a certification issued by the board to test and  
 235 screen for and treat minor, nonchronic health conditions, in  
 236 accordance with requirements established by the board in rule in  
 237 consultation with the Board of Medicine and Board of Osteopathic  
 238 Medicine. The certification must require a pharmacist to  
 239 complete, on a one-time basis, a 20-hour education course  
 240 approved by the board in consultation with the Board of Medicine  
 241 and the Board of Osteopathic Medicine. The course, at a minimum,  
 242 must address patient assessments; point-of-care testing  
 243 procedures; safe and effective treatment of minor, nonchronic  
 244 health conditions; and identification of contraindications.  
 245        (c) Maintain at least \$250,000 of liability coverage. A  
 246 pharmacist who maintains liability coverage pursuant to s.  
 247 465.1865 satisfies this requirement.  
 248        (d) Report a diagnosis or suspected existence of a disease  
 249 of public health significance to the department pursuant to s.  
 250 381.0031.

ENROLLED

CS/HB 389, Engrossed 1

2020 Legislature

251 (e) Upon request of a patient, furnish patient records to  
 252 a health care practitioner designated by the patient.

253 (f) Maintain records of all patients receiving services  
 254 under this section for a period of 5 years from each patient's  
 255 most recent provision of service.

256 (3) The board shall adopt, by rule, a formulary of  
 257 medicinal drugs that a pharmacist may prescribe for the minor,  
 258 nonchronic health conditions approved under subsection (1). The  
 259 formulary must include medicinal drugs approved by the United  
 260 States Food and Drug Administration which are indicated for  
 261 treatment of the minor, nonchronic health condition. The  
 262 formulary may not include any controlled substance as described  
 263 in s. 893.03 or 21 U.S.C. s. 812.

264 (4) A pharmacist who tests or screens for and treats  
 265 minor, nonchronic health conditions under this section may use  
 266 any tests that may guide diagnosis or clinical decisionmaking  
 267 which the Centers for Medicare and Medicaid Services has  
 268 determined qualifies for a waiver under the federal Clinical  
 269 Laboratory Improvement Amendments of 1988, or the federal rules  
 270 adopted thereunder, or any established screening procedures that  
 271 can safely be performed by a pharmacist.

272 (5) The written protocol between a pharmacist and  
 273 supervising physician under this subsection must include  
 274 particular terms and conditions imposed by the supervising  
 275 physician relating to the testing and screening for and

ENROLLED

CS/HB 389, Engrossed 1

2020 Legislature

276 treatment of minor, nonchronic health conditions under this  
277 section. The terms and conditions must be appropriate to the  
278 pharmacist's training. A pharmacist who enters into such a  
279 protocol with a supervising physician must submit the protocol  
280 to the board.

281 (a) At a minimum, the protocol shall include:

282 1. Specific categories of patients who the pharmacist is  
283 authorized to test or screen for and treat minor, nonchronic  
284 health conditions.

285 2. The physician's instructions for obtaining relevant  
286 patient medical history for the purpose of identifying  
287 disqualifying health conditions, adverse reactions, and  
288 contraindications to the approved course of treatment.

289 3. The physician's instructions for the treatment of  
290 minor, nonchronic health conditions based on the patient's age,  
291 symptoms, and test results, including negative results.

292 4. A process and schedule for the physician to review the  
293 pharmacist's actions under the protocol.

294 5. A process and schedule for the pharmacist to notify the  
295 physician of the patient's condition, tests administered, test  
296 results, and course of treatment.

297 6. Any other requirements as established by the board in  
298 consultation with the Board of Medicine and the Board of  
299 Osteopathic Medicine.

300 (b) A pharmacist authorized to test and screen for and

ENROLLED

2020 Legislature

301 treat minor, nonchronic conditions under a protocol shall  
302 provide evidence of current certification by the board to the  
303 supervising physician. A supervising physician shall review the  
304 pharmacist's actions in accordance with the protocol.

305 (6) A pharmacist providing services under this section may  
306 not perform such services while acting as an employee without  
307 the written approval of the owner of the pharmacy.

308 (7) A pharmacist providing services under this section  
309 must complete a 3-hour continuing education course approved by  
310 the board addressing issues related to minor, nonchronic health  
311 conditions each biennial licensure renewal in addition to the  
312 continuing education requirements under s. 465.009. Each  
313 pharmacist must submit confirmation of having completed the  
314 course when applying for licensure renewal. A pharmacist who  
315 fails to comply with this subsection may not provide testing,  
316 screening, or treatment services.

317 (8) A pharmacist providing services under this section  
318 must provide a patient with written information to advise the  
319 patient to seek followup care from his or her primary care  
320 physician. The board, by rule, shall adopt guidelines for the  
321 circumstances under which the information required under this  
322 subsection shall be provided.

323 (9) The pharmacy in which a pharmacist tests and screens  
324 for and treats minor, nonchronic health conditions must  
325 prominently display signage indicating that any patient

326 | receiving testing, screening, or treatment services under this  
 327 | section is advised to seek followup care from his or her primary  
 328 | care physician.

329 |       (10) A pharmacist providing services under this section  
 330 | must comply with applicable state and federal laws and  
 331 | regulations.

332 |       (11) The requirements of the section do not apply with  
 333 | respect to minor, nonchronic health conditions when treated with  
 334 | over-the-counter products.

335 |       Section 5. This act shall take effect July 1, 2020.

### **64B16-31.001 Collaborative Practice Certification (CPC).**

Applicants for CPC shall submit an application using Form DH-MQA XXXX (eff. 0X/20), “Application for Pharmacist Collaborative Practice Certification<sup>3</sup>” that is hereby incorporated by reference and available at <http://www.flrules.org/Gateway/reference.asp?No=Ref-XXXX> or <http://floridapharmacy.gov>. Applicants for certification shall ~~must~~ meet and comply with all requirements in Section 465.1865, F.S.

*Rulemaking Authority 465.1865, FS. Law Implemented 465.1865, FS. History – New XX-XX-20.*

### **64B16-31.003 Collaborative Practice Certification: Initial Certification Course.**

(1) Applicants for Initial Certification Course approval shall submit an application using Form DH-MQA XXX (eff. XX/20) “Application for Initial Collaborative Practice Certification Course<sup>4</sup>” that is hereby incorporated by reference and available at <http://www.flrules.org/Gateway/reference.asp?No=Ref-XXXX> or <http://floridapharmacy.gov>.

(2) Initial collaborative practice certification courses shall be a minimum of 20 hours in duration, and shall meet all the following mandatory requirements:

(a) The course may only be offered by a program provider who is accredited by the Accreditation Council for Pharmacy Education (ACPE), ~~or~~ a program provider who is accredited to provide educational activities designated for the American Medical Association Physician’s Recognition Award Category 1 credit, or a program provider approved by the American Osteopathic Association Category 1-A to offer continuing medical education credits.

(b) The course content and objectives offered by an approved provider shall be developed in conjunction with an individual licensed to practice pharmacy and an individual who is a licensed allopathic or osteopathic physician, or an individual who is dual licensed in both pharmacy and allopathic medicine or osteopathic medicine.

(c) The course content shall include all those areas enumerated in section 465.1865 (2)(c), F.S., and shall also cover the following areas:

<sup>3</sup> Please See Appendix C for a Copy of the [Application](#).

<sup>4</sup> Please See Appendix D for a Copy of the [Application](#).

1. Laws and rules applicable to the collaborative practice for the treatment of chronic health care conditions; and

2. Writing and entering into a collaborative practice agreement.

(d) No less than 12 hours of the course shall be offered through a live seminar or a live video teleconference.

(3) A pharmacist who successfully completes a board approved collaborative practice certification course shall be awarded 20 hours of general continuing education credits.

Place holder for consultation with BOM and BOOM.

*Rulemaking Authority 465.1865, FS. Law Implemented 465.1865, FS. History – New XX-XX-20.*

#### **64B16-31.005 Collaborative Practice Certification: Collaborative Pharmacy Practice Agreement Submission.**

(1) Prior to providing or implementing patient care services under a Collaborative Pharmacy Practice Agreement or immediately after the renewal of such an Agreement, the Pharmacist shall submit the executed Agreement to the Board Office through the pharmacist's online licensure account at <http://www.flhealthsource.gov> or via U.S. Mail to 4052 Bald Cypress Way, Bin C-04, Tallahassee, FL 32399.

(2) In the event of an addendum to the material terms of an existing collaborative pharmacy practice agreement, the pharmacist shall maintain a copy of the addendum and the initial agreement pursuant to Section 465.1865(3)(c), F.S. Material terms shall be defined as those terms enumerated in Section 465.1865(3)(a), F.S.

*Rulemaking Authority 465.1865, FS. Law Implemented 465.1865, FS. History – New XX-XX-20.*

#### **64B16-31.007 Collaborative Practice Certification: Chronic Health Conditions.**

Pursuant to Section 465.1865, F.S., the Board hereby adopts the following list of chronic health conditions for which a pharmacist certified pursuant to section 465.1865, F.S., can provide specified patient care services to patients of a collaborating physician pursuant to a pending Collaborative Pharmacy Practice Agreement:

- 1) Hyperlipidemia;
- 2) Hypertension;
- 3) Anti-coagulation management;
- 4) Smoking cessation;

- 5) Osteoporosis and Osteoarthritis;
- 6) Opioid use disorder; and
- 7) Those chronic health conditions enumerated in section 465.1865(1)(b), F.S.
- 8) Any disease state that is expected to last greater than one (1) year or more and will require ongoing medical treatment and drug therapy services.

Place holder for discussion with Board to determine appropriate list of chronic health conditions in consultation with BOM and BOOM.

*Rulemaking Authority 465.1865, FS. Law Implemented 465.1865, FS. History – New XX-XX-20.*

### **64B16-31.009 Collaborative Practice Certification: Mandatory Continuing Education.**

A licensee shall not be required to complete the 8-hour continuing education related to collaborative pharmacy practice if the initial certificate was issued less than 12 months prior to the expiration date of the license.

*Rulemaking Authority 465.1865, FS. Law Implemented 465.1865, FS. History – New XX-XX-20.*

### **64B16-31.033 Test and Treat Certification (TTC)**

Applicants for TTC shall submit an application using Form DH-MQA XXXX (eff. 0X/20), “Application for Pharmacist Test and Treat Certification<sup>5</sup>” that is hereby incorporated by reference and available at <http://www.flrules.org/Gateway/reference.asp?No=Ref-XXXX> or <http://floridapharmacy.gov>. Applicants for certification shall must meet and comply with all requirements in Section 465.1895, F.S.

### **64B16-31.037 Test and Treat Certification: Written Protocol and Written Protocol Submission**

(1) Within 5 business days of entering into a written protocol with a supervising physician pursuant to section 465.1895, F.S., the pharmacist shall submit a copy of

the written agreement to the Board Office through the pharmacist's online licensure account at <http://www.flhealthsource.gov> or via U.S. Mail to 4052 Bald Cypress Way, Bin C-04, Tallahassee, FL 32399.

(2) In the event of an addendum to the material terms of an existing written protocol, the pharmacist shall maintain a copy of the addendum and the initial agreement. Material terms shall be defined as those terms enumerated in Section 465.1895(5)(a), F.S.

*Rulemaking Authority 465.1895, FS. Law Implemented 465.1895, FS. History – New XX-XX-20.*

### **64B16-31.039 Test and Treat Certification: Formulary of Medical Drugs**

(1) Pursuant to section 465.1895, F.S., the Board hereby incorporates all medicinal drugs approved by the United States Food and Drug Administration (“FDA”) as the formulary of medicinal drugs that a pharmacist may prescribe pursuant to a written test and treat protocol.

~~(b) All compounded medicinal drugs that utilize only active pharmaceutical ingredients approved by the FDA.~~

(2) A pharmacist may not prescribe controlled substances as described in s. 893.03 or 21 U.S.C. s. 812.

*Rulemaking Authority 465.1895, FS. Law Implemented 465.1895, FS. History – New XX-XX-20.*

### **64B16-31.041 Test and Treat Certification: Patient Records**

Upon receipt of a patient request, a pharmacist shall furnish patient records to a health care practitioner designated by the patient within a reasonable time frame, not to exceed 5 business days.

*Rulemaking Authority 465.1895, FS. Law Implemented 465.1895, FS. History – New XX-XX-20.*

### **64B16-31.043 Test and Treat Certification: Follow-up Care**

A pharmacist must provide written information to the patient advising the patient when to seek follow-up care from his or her primary care physician. A pharmacist shall provide follow-up care written information:

- (1) Immediately prior to performing testing, screening, or treatment services on a patient for the first time;
- (2) As outlined in the written protocol; and
- (3) When the pharmacist determines in his or her judgment that the patient should follow-up with his or her primary care provider.

*Rulemaking Authority 465.1895, FS. Law Implemented 465.1895, FS. History – New XX-XX-20.*

#### **64B16-31.045 Test and Treat Certification: Mandatory Continuing Education.**

A licensee shall not be required to complete the 3-hour continuing education related to minor, nonchronic health conditions if the initial certificate was issued less than 12 months prior to the expiration date of the license.

P.O. Box 6330  
Tallahassee, FL 32314-6330  
Fax: (850) 921-5389  
Email: info@floridaspharmacy.gov

All applicants must hold a current Florida Pharmacist license that is active and in good standing.

## Pharmacist Collaborative Practice Certification

Prior to providing services under a collaborative pharmacy practice agreement, a pharmacist must be certified by the board. Additionally, a pharmacist must enter into a written agreement with a physician licensed under Chapter 458 or Chapter 459, Florida Statutes, in which a collaborating physician authorizes a pharmacist to provide specified patient care services for chronic health conditions. Please refer to section 465.1865, Florida Statutes, prior to submitting your application.

### 1. PERSONAL INFORMATION

Name: \_\_\_\_\_ Date of Birth: \_\_\_\_\_  
Last/Surname First Middle MM/DD/YYYY

Mailing Address: (This address is where mail and your certification will be sent)

Street/P.O. Box Apt. No. City

State ZIP Country Home/Cell Telephone (Input without dashes)

Physical Location: (Required if mailing address is a P.O. Box – this address will be posted on the Department of Health’s website)

Street Apt. No. City

State ZIP Country Business Telephone (Input without dashes)

Email Notification: To be notified of the status of your application by email, check the “Yes” box and fill in your email address on the line provided. If you choose to be notified via email you will be responsible for checking your email regularly and updating your email address with the board office.

Yes  No Email Address: \_\_\_\_\_

Under Florida law, email addresses are public records. If you do not want your email address released in response to a public records request, do not provide an email address or send electronic mail to our office. Instead contact the office by phone or in writing.

Name: \_\_\_\_\_

## 2. LICENSURE HISTORY

A. What is your Florida Pharmacist (PS) license number? \_\_\_\_\_

## 3. CERTIFICATION TRAINING

To qualify for certification, an applicant must have completed an initial 20-hour certification course that meets the statutory and rule requirements of section 465.1865, Florida Statutes, and Rule 64B16-31.003, F.A.C.

B. Have you successfully completed an initial 20-hour course approved by the Florida Board of Pharmacy?  Yes  No

If **yes**, provide a copy of the certificate of completion and the following information.

| Provider Name | Provider Number | Date of Completion | Certificate Number |
|---------------|-----------------|--------------------|--------------------|
|               |                 |                    |                    |

## 4. APPLICANT BACKGROUND

To qualify for certification, an applicant must have earned a degree of doctor of pharmacy or have completed 5 years of experience as a licensed pharmacist.

A. Have you earned a degree of doctor of pharmacy?  Yes  No

If **yes**, please list the name of university, college, or school of pharmacy you attended.

| School Name | City/State or Country | Graduation Date | Degree Awarded |
|-------------|-----------------------|-----------------|----------------|
|             |                       |                 |                |
|             |                       |                 |                |
|             |                       |                 |                |
|             |                       |                 |                |

B. Have you completed 5 years of experience as a licensed pharmacist?  Yes  No

If **yes**, please list your experience below.

| Employer | Location Address | Dates<br>(From-To) MM/DD/YYYY |
|----------|------------------|-------------------------------|
|          |                  |                               |
|          |                  |                               |
|          |                  |                               |

Name: \_\_\_\_\_

## 5. PROFESSIONAL LIABILITY INSURANCE

To provide services under a collaborative pharmacy practice agreement, a pharmacist must maintain at least \$250,000 of professional liability insurance coverage. A pharmacist who maintains professional liability insurance coverage as a requirement of the Test and Treat Certification, pursuant to section 465.1895, Florida Statutes, satisfies this requirement.

A. Do you maintain at least \$250,000 of professional liability insurance?  Yes  No

If “Yes,” provide the following information:

| Insurance Provider Name | Policy Number | Policy Expiration Date |
|-------------------------|---------------|------------------------|
|                         |               |                        |

## 6. SYSTEM TO MAINTAIN RECORDS

To provide services under a collaborative pharmacy practice agreement, a pharmacist must have established a system to maintain records of all patients receiving services under a collaborative pharmacy practice agreement for a period of 5 years from each patient’s most recent provision of services, pursuant to section 465.1865, Florida Statutes.

A. Have you established a system to maintain records of all patients receiving services under a collaborative pharmacy practice agreement?  Yes  No

## 7. COLLABORATING PHYSICIAN

If available, provide the following information for the physician licensed under chapter 458 or 459, Florida Statutes, with whom you have entered into an agreement.

Physician Name: \_\_\_\_\_

Physician License #: \_\_\_\_\_

## COLLABORATIVE PHARMACY PRACTICE AGREEMENT INFORMATION

Section 465.1865(3), Florida Statutes, requires each collaborative pharmacy practice agreement include terms and conditions that are appropriate to the pharmacist’s training and the services delegated to the pharmacist must be within the collaborating physician’s scope of practice.

The collaborative practice agreement must include the following information:

1. Name of the collaborating physician’s patient or patients for whom a pharmacist may provide services.
2. Each chronic health condition to be collaboratively managed.
3. Specific medicinal drug or drugs to be managed by the pharmacist for each patient.
4. Circumstances under which the pharmacist may order or perform and evaluate laboratory or clinical tests.
5. Conditions and events upon which the pharmacist must notify the collaborating physician and the manner and timeframe in which such notification must occur.
6. Beginning and ending dates for the collaborative pharmacy practice agreement and termination procedures, including procedures for patient notification and medical records transfers.
7. A statement that the collaborative pharmacy practice agreement may be terminated, in writing, by either party at any time.

The collaborative pharmacy practice agreement shall automatically terminate 2 years after execution if not renewed. The pharmacist, along with the collaborating physician, must maintain on file the collaborative pharmacy practice agreement at his or her practice location, and must make such agreements available to the department or board upon request or inspection.

A pharmacist who enters into a collaborative pharmacy practice agreement must submit a copy of the signed agreement to the board before the agreement may be implemented.

**8. SOCIAL SECURITY DISCLOSURE**

**This information is exempt from public records disclosure.**

Pursuant to Title 42 United States Code § 666(a)(13), the department is required and authorized to collect Social Security numbers relating to applications for professional licensure. Additionally, section (s.) 456.013(1)(a), Florida Statutes (F.S.), authorizes the collection of Social Security numbers as part of the general licensing provisions.

**Last Name:** \_\_\_\_\_

**First Name:** \_\_\_\_\_

**Middle Name:** \_\_\_\_\_

**Social Security Number:** \_\_\_\_\_

(Input without dashes)

**Social Security Information-** \* Under the Federal Privacy Act, disclosure of Social Security numbers is voluntary unless specifically required by federal statute. In this instance, Social Security numbers are mandatory pursuant to Title 42 United States Code § 653 and 654; and s. 456.013(1), 409.2577, and 409.2598, F.S. Social Security numbers are used to allow efficient screening of applicants and licensees by a Title IV-D child support agency to ensure compliance with child support obligations. Social Security numbers must also be recorded on all professional and occupational license applications and will be used for license identification pursuant to Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (Welfare Reform Act. 104 Pub. L. Section 317). Clarification of the SSA process may be reviewed at [www.ssa.gov](http://www.ssa.gov) or by calling 1-800-772-1213.

Name: \_\_\_\_\_

**9. APPLICANT SIGNATURE**

I, the undersigned, state that I am the person referred to in this application for certification in the state of Florida.

I recognize that providing false information may result in disciplinary action against my license or criminal penalties pursuant to s. 456.067 and 775.083, Florida Statutes.

Florida law requires me to immediately inform the board of any material change in any circumstances or condition stated in the application which takes place between the initial filing and the final granting or denial of the license and to supplement the information on this application as needed.

Section 456.013(1)(a), Florida Statutes, provides that an incomplete application shall expire one year after the initial filing with the department.

Applicant Signature \_\_\_\_\_ Date \_\_\_\_\_  
*You may print out this application and sign it or sign it digitally.* MM/DD/YYYY

## 2. LICENSURE HISTORY

- A. What is your Florida Pharmacist (PS) license number? \_\_\_\_\_

## 3. CERTIFICATION TRAINING

To qualify for certification, an applicant must have completed an initial 20-hour certification course that meets the statutory and rule requirements of section 465.1895, Florida Statutes, and Rule 64B31.035, F.A.C.

- A. Have you successfully completed an initial 20-hour course approved by the Florida Board of Pharmacy?  Yes  No

If “Yes,” provide a copy of the certificate of completion and the following information.

| Provider Name | Provider Number | Date of Completion | Certificate Number |
|---------------|-----------------|--------------------|--------------------|
|               |                 |                    |                    |

## 4. PROFESSIONAL LIABILITY INSURANCE

To test or screen for and treat minor, nonchronic health conditions within the framework of a written protocol, a pharmacist must maintain at least \$250,000 of professional liability insurance coverage. A pharmacist who maintains professional liability coverage as a requirement of their Collaborative Practice Certification satisfies this requirement.

- A. Do you maintain at least \$250,000 of professional liability insurance?  Yes  No

If “Yes,” provide the following information:

| Insurance Provider Name | Policy Number | Policy Expiration Date |
|-------------------------|---------------|------------------------|
|                         |               |                        |

## 5. REPORTING REQUIREMENTS

To test or screen for and treat minor, nonchronic health conditions within the framework of a written protocol, a pharmacist must report a diagnosis or suspected existence of a disease of public health significance to the Department of Health pursuant to section 381.0031, Florida Statutes.

- A. Have you reviewed the Disease Reporting and Management Information at <http://www.floridahealth.gov/diseases-and-conditions/index.html>?  Yes  No

## 6. SYSTEM TO MAINTAIN RECORDS

To test or screen for and treat minor, nonchronic health conditions within the framework of a written protocol, a pharmacist must furnish patient records to a health care practitioner designated by the patient upon request. Additionally, a pharmacist must maintain records of all patients receiving services for a period of five (5) years from each patient’s most recent provision of service.

- A. Have you established a system to maintain records of all patients receiving services within the framework of a written protocol?  Yes  No

Name: \_\_\_\_\_

## 7. SUPERVISING PHYSICIAN

If available, provide the following information for the physician licensed under chapter 458 or 459, Florida Statutes (F.S.), with whom you have entered into a protocol.

Physician Name: \_\_\_\_\_

Physician License #: \_\_\_\_\_

## 8. WRITTEN PROTOCOL INFORMATION

Each written protocol must include particular terms and conditions imposed by the supervising physician relating to the testing and screening for and treatment of minor, nonchronic health conditions. The terms and conditions must be appropriate to the pharmacist's training.

The written protocol must include, at a minimum, the following information:

1. Specific categories of patients who the pharmacist is authorized to test or screen for and treat minor, nonchronic health conditions.
2. The physician's instructions for obtaining relevant patient medical history for the purpose of identifying disqualifying health conditions, adverse reactions, and contraindications to the approved course of treatment.
3. The physician's instructions for the treatment of minor, nonchronic health conditions based on the patient's age, symptoms, and test results, including negative results.
4. A process and schedule for the physician to review the pharmacist's actions under the protocol.
5. A process and schedule for the pharmacist to notify the physician of the patient's condition, tests administered, test results, and course of treatment.

A pharmacist who enters into a written protocol must submit a copy of the protocol to the board.

## 9. SOCIAL SECURITY DISCLOSURE

**This information is exempt from public records disclosure.**

Pursuant to Title 42 United States Code § 666(a)(13), the department is required and authorized to collect Social Security numbers relating to applications for professional licensure. Additionally, section (s.) 456.013(1)(a), Florida Statutes (F.S.), authorizes the collection of Social Security numbers as part of the general licensing provisions.

**Last Name:** \_\_\_\_\_

**II. RULES DISCUSSION**

- a. HB 389 Practice of Pharmacy
  - i. Chapter 64B16-31, F.A.C., Collaborative Practice and Test and Treat Certifications

This bill was enrolled and signed into law with an effective date of July 1, 2020. This adds to the definition of the practice of pharmacy the ability to initiate, modify, discontinue drug therapy under a collaborative practice agreement with a physician, for patients with chronic illnesses. It also allows a pharmacist to test for and treat certain nonchronic health conditions. The bill requires additional education and training requirements that will create two certification types: Collaborative Practice Certification (CPC) and the Test and Treat Certification (TTC). The bill outlines the requirements to

obtain the certifications as well as terms and conditions are to be included in a collaborative practice pharmacy agreement and in the written protocol between a pharmacist and a physician. The bill requires continuing education to maintain the certifications and it requires the Board to adopt by rule a formulary of medicinal drugs that a pharmacist may prescribe for the treatment of non-chronic health conditions.

The Board of Pharmacy Rules Committee held a meeting on June 2, 2020 to review and discuss draft rule language for Chapter 64B16-31, F.A.C. Subsequent to the Rules Committee Meeting, Ms. Sapp sent out invitations to the Board of Medicine (BOM) and the Board of Osteopathic Medicine (BOOM) to request representatives from each Board in order to form a Joint Rules Committee to review the draft rule language.

The BOM reviewed and discussed the draft rule language during their June 3, 2020 Board Meeting and determined that Dr. Vila and Dr. TerKonda would represent the BOM. The BOOM held a meeting on June 9, 2020 to discuss and review the language and determined that Dr. Rose and Dr. Mendez would represent BOOM.

The Joint Committee reviewed the below proposed draft rule language.

The Committee along with BOM and BOOM determined to only discuss the rules that require collaboration between the three Boards.

**64B16-31.001 Collaborative Practice Certification (CPC).**

Applicants for CPC shall submit an application using Form DH-MQA XXXX (eff. 0X/20), "Application for Pharmacist Collaborative Practice Certification<sup>1</sup>" that is hereby incorporated by reference and available at <http://www.flrules.org/Gateway/reference.asp?No=Ref-XXXX> or <http://floridapharmacy.gov>. Applicants for certification must meet and comply with all requirements in Section 465.1865, F.S.

*Rulemaking Authority 465.1865, FS. Law Implemented 465.1865, FS. History – New XX-XX-20.*

**64B16-31.003 Collaborative Practice Certification: Initial Certification Course.**

(1) Applicants for Initial Certification Course approval shall submit an application using Form DH-MQA XXX (eff. XX/20) "Application for Initial Collaborative Practice Certification Course<sup>2</sup>" that is hereby incorporated by reference and available at <http://www.flrules.org/Gateway/reference.asp?No=Ref-XXXX> or <http://floridapharmacy.gov>.

(2) Initial collaborative practice certification courses shall be a minimum of 20 hours in duration, and shall meet all the following mandatory requirements:

(a) The course may only be offered by a program provider who is accredited by the Accreditation Council for Pharmacy Education (ACPE) or a program provider who is accredited to provide educational activities designated for the American Medical Association Physician's Recognition Award Category 1 credit or the American Osteopathic Association Category 1-A continuing medical education credit.

(b) The course content shall include all those areas enumerated in section 465.1865 (2)(c), F.S., and shall also cover the following areas:

1. Laws and rules applicable to the collaborative practice for the treatment of chronic health care conditions;

2. Writing and entering into a collaborative practice agreement;

3. Place holder for discussion with Board to determine appropriate content list in consultation with BOM and BOOM.

(c) No less than 12 hours of the course shall be offered through a live seminar or a live video teleconference.

Place holder for discussion with Board to determine appropriate format of specific hour requirements with BOM and BOOM.

(3) A pharmacist who successfully completes a board approved collaborative practice certification course shall be awarded 20 hours of general continuing education credits.

*Rulemaking Authority 465.1865, FS. Law Implemented 465.1865, FS. History – New XX-XX-20.*

**64B16-31.005 Collaborative Practice Certification: Collaborative Pharmacy Practice Agreement Submission.**

(1) Prior to providing or implementing patient care services under a Collaborative Pharmacy Practice Agreement or immediately after the renewal of such an Agreement, the Pharmacist shall submit the executed Agreement to the Board Office through the pharmacist's online licensure account at <http://www.flhealthsource.gov> or via U.S. Mail to 4052 Bald Cypress Way, Bin C-04, Tallahassee, FL 32399.

(2) In the event of an addendum to the material terms of an existing collaborative pharmacy practice agreement, the pharmacist shall maintain a copy of the addendum and the initial agreement pursuant to Section 465.1865(3)(c), F.S. Material terms shall be defined as those terms enumerated in Section 465.1865(3)(a), F.S.

*Rulemaking Authority 465.1865, FS. Law Implemented 465.1865, FS. History – New XX-XX-20.*

**64B16-31.007 Collaborative Practice Certification: Chronic Health Conditions.**

Pursuant to Section 465.1865, F.S., the Board hereby adopts the following list of chronic health conditions for which a pharmacist certified pursuant to section 465.1865, F.S., can provide specified patient care services to patients of a collaborating physician pursuant to a pending Collaborative Pharmacy Practice Agreement:

1) Hyperlipidemia;

2) Hypertension;

3) Anti-coagulation management;

4) Smoking cessation;

5) Osteoporosis and osteo-arthritis;

6) Opioid use disorder;

7) Those chronic health conditions enumerated in section 465.1865(1)(b), F.S.; and

8) Any disease state that is expected to last greater than one (1) year or more and will require ongoing medical treatment and drug therapy services.

Place holder for discussion with Board to determine appropriate list of chronic health conditions in consultation with BOM and BOOM.

*Rulemaking Authority 465.1865, FS. Law Implemented 465.1865, FS. History – New XX-XX-20.*

**64B16-31.009 Collaborative Practice Certification: Mandatory Continuing Education.**

A licensee shall not be required to complete the 8-hour continuing education related to collaborative pharmacy practice if the initial certificate was issued less than 12 months prior to the expiration date of the license.

*Rulemaking Authority 465.1865, FS. Law Implemented 465.1865, FS. History – New XX-XX-20.*

#### **64B16-31.033 Test and Treat Certification (TTC)**

Applicants for TTC shall submit an application using Form DH-MQA XXXX (eff. 0X/20), “Application for Pharmacist Test and Treat Certification<sup>3</sup>” that is hereby incorporated by reference and available at <http://www.flrules.org/Gateway/reference.asp?No=Ref-XXXX> or <http://floridapharmacy.gov>. Applicants for certification must meet and comply with all requirements in Section 465.1895, F.S.

*Rulemaking Authority 465.1895, FS. Law Implemented 465.1895, FS. History – New XX-XX-20.*

#### **64B16-31.035 Test and Treat Certification: Initial Certification Course**

(1) Applicants for Initial Certification Course approval shall submit an application using Form DH-MQA XXX (eff. XX/20) “Application for Initial Test and Treat Certification Course<sup>4</sup>” that is hereby incorporated by reference and available at <http://www.flrules.org/Gateway/reference.asp?No=Ref-XXXX> or <http://floridapharmacy.gov>.

(2) Initial test and treat certification courses shall be a minimum of 20 hours in duration, and shall meet all the following mandatory requirements:

(a) The course may only be offered by a program provider who is accredited by the Accreditation Council for Pharmacy Education (ACPE) or a program provider who is accredited to provide educational activities designated for the American Medical Association Physician’s Recognition Award Category 1 credit or the American Osteopathic Association Category 1-A continuing medical education credit.

(b) The course content shall include all those areas enumerated in section 465.1895 (2)(b), F.S., and shall also cover the following areas:

1. Laws and rules applicable to test and treat certifications;

2. Writing and entering into a written protocol;

3. Place holder for discussion with Board to determine appropriate content list in consultation with BOM and BOOM.

(c) No less than 12 hours of the course shall be offered through a live seminar or a live video teleconference.

(3) A pharmacist who successfully completes a board approved test and treat certification course shall be awarded 20 hours of general continuing education credits.

*Rulemaking Authority 465.1895, FS. Law Implemented 465.1895, FS. History – New XX-XX-20.*

#### **64B16-31.037 Test and Treat Certification: Written Protocol and Written Protocol Submission**

(1) Within 5 business days of entering into a written protocol with a supervising physician pursuant to section 465.1895, F.S., the pharmacist shall submit a copy of the written

agreement to the Board Office through the pharmacist's online licensure account at <http://www.flhealthsource.gov> or via U.S. Mail to 4052 Bald Cypress Way, Bin C-04, Tallahassee, FL 32399.

(2) In the event of an addendum to the material terms of an existing written protocol, the pharmacist shall maintain a copy of the addendum and the initial agreement. Material terms shall be defined as those terms enumerated in Section 465.1895(5)(a), F.S.

Place holder for discussion with Board to determine if it wants to provide additional requirements for the written protocol in consultation with BOOM and BOM pursuant to Section 465.1895(5)(a)6.

*Rulemaking Authority 465.1895, FS. Law Implemented 465.1895, FS. History – New XX-XX-20.*

#### **64B16-31.039 Test and Treat Certification: Formulary of Medical Drugs**

(1) Pursuant to section 465.1895, F.S., the Board hereby incorporates the following as the formulary of medicinal drugs that a pharmacist may prescribe pursuant to a written test and treat protocol:

(a) All medicinal drugs approved by the United States Food and Drug Administration ("FDA");

(b) All compounded medicinal drugs that utilize only active pharmaceutical ingredients approved by the FDA.

(2) A pharmacist may not prescribe controlled substances as described in s. 893.03 or 21 U.S.C. s. 812.

Placeholder for discussion with Boards regarding additional drugs that should be excluded.

*Rulemaking Authority 465.1895, FS. Law Implemented 465.1895, FS. History – New XX-XX-20.*

#### **64B16-31.041 Test and Treat Certification: Patient Records**

Upon receipt of a patient request, a pharmacist shall furnish patient records to a health care practitioner designated by the patient within a reasonable time frame, not to exceed 5 business days.

Place holder for discussion with Board regarding reasonable time frame for production of records.

*Rulemaking Authority 465.1895, FS. Law Implemented 465.1895, FS. History – New XX-XX-20.*

#### **64B16-31.043 Test and Treat Certification: Follow-up Care**

A pharmacist must provide written information to the patient advising the patient when to seek follow-up care from his or her primary care physician. A pharmacist shall provide follow-up care written information:

(1) Immediately prior to performing testing, screening, or treatment services on a patient for the first time;

(2) As outlined in the written protocol; and

(3) When the pharmacist determines in his or her judgment that the patient should follow-up with his or her primary care provider.

*Rulemaking Authority 465.1895, FS. Law Implemented 465.1895, FS. History – New XX-XX-20.*

**64B16-31.045 Test and Treat Certification: Mandatory Continuing Education.**

A licensee shall not be required to complete the 3-hour continuing education related to minor, nonchronic health conditions if the initial certificate was issued less than 12 months prior to the expiration date of the license.

*Rulemaking Authority 465.1895, FS. Law Implemented 465.1895, FS. History – New XX-XX-20.*

**64B16-31.050 Mandatory Review of Rule Chapter 64B16-31, F.A.C.**

(1) No later than 90 days prior to December 31, 2025, the Board shall review each rule in this Chapter and amend, modify or repeal any rule that creates barriers to entry for private business competition, is duplicative, outdated, obsolete, overly burdensome, or imposes excessive costs.

(2) In the event the Board fails to complete this review, the board, for any rule that has not been reviewed in accordance with subsection (1), shall begin the rule repeal process in accordance with the Administrative Procedures Act.

*Rulemaking Authority 465.1895, FS. Law Implemented 465.1895, FS. History – New XX-XX-20.*

The Joint Committee reviewed and began discussion on 64B16-31.003, F.A.C., Collaborative Practice Certification.

Dr. Rose addressed the Committee regarding (2)(a) and suggested to strike “category” in subsection (2)(a): American Osteopathic Association Category 1 A as they are subject to change.

Dr. Hickman addressed the Committee and inquired if taking the course by one of these associations listed in the rule, meet the requirements for the certification, or would the pharmacist need to complete a course that is specifically ACPE accredited.

Mr. Flynn confirmed that yes, this would apply in the state of Florida for general education credit hours if taken by one of the listed providers.

Dr. Vila addressed the Committee regarding the content of the course and suggested requiring specific hours in evaluation and management of chronic diseases and suggested those hours be completed on a human simulator.

Dr. Hickman confirmed that when the BOP reviews courses for approval, the course content will be reviewed to assure all requirements are being captured.

Mr. Philip addressed the Committee and agreed with Dr. Vila that the requirements of the evaluation and management is outlined in the statute and will be included in the approved course.

Dr. Mendez addressed the Committee regarding the intent of the certification and what setting it would be utilized in.

Mr. Philip stated the bill does not specify what setting the certification is to be utilized in and the intent is to be available to any practitioners whom qualify for the certifications.

Dr. Mendez stated that laboratory testing can be very different depending on what setting the pharmacist and collaborating physician are practicing.

Dr. Mikhael addressed the Committee and Dr. Mendez and confirmed that the intent is to increase patient access.

Dr. TerKonda addressed the Committee regarding the provider of the course and suggested the highlighted change in subsection (2)(a): The course may only be offered by a program provider who is accredited by the Accreditation Council for Pharmacy Education (ACPE) or and a program provider who is accredited to provide educational activities designated for the American Medical Association Physician's Recognition Award Category 1 credit or the American Osteopathic Association Category 1-A continuing medical education credit as he would like to see the course be offered in conjunction with ACPE, AMA and AOMA.

Mr. Wright addressed the Committee regarding the benefits of the course being offered in conjunction with multiple accrediting bodies but was not sure if historically had ever been done.

Dr. Vila suggested splitting up the required course hours between the accrediting bodies and requiring specific hours per entity.

Mr. Flynn addressed the Committee and suggested requiring the instructor of the course be a licensed physician.

Dr. Mesaros summarized the discussion.

Dr. Villa inquired with the Committee regarding how the rule will capture the requirement of the patient's medical records and the communication between the pharmacist and the collaborating physician.

Mr. Philip addressed Dr. Villa's inquiry and stated the rule should not be prescriptive, as that would be outlined in the collaborative practice agreement and the certification should capture if a pharmacist has the knowledge, skills, and ability to enter into an agreement.

Dr. Mesaros opened the floor to additional Board Members.

No additional Board Member comments were provided.

Dr. Mesaros opened the floor for public comment.

Nicole Garrett, Clinical Ambulatory Pharmacist in Florida, addressed the Committee regarding the term CPA and that the statute requires the delegation be appropriate to the pharmacist's education and training and to the physician's scope of practice. She indicated pharmacists and physicians will only enter into an agreement in which both parties feel comfortable.

Mary Thomas, representing the Florida Medical Association (FMA) and the Florida Osteopathic Medical Association (FOMA), addressed the Committee regarding the continuing education requirements for physicians in order to diagnose patients and inquired what the process will be for approving the continuing education courses.

Ms. Sapp addressed the Committee regarding the process of approving continuing education courses and indicated that through this rulemaking the process, the rule shall outline who the course will be given by and what requirements will be included in the course. Courses will be reviewed by our staff pharmacist to ensure they meet the requirements in the statute and rule.

Mr. Flynn confirmed that the course will be approved by the Board of Pharmacy.

Dr. Vila suggested having multiple courses depending on the subject area.

Mr. Dierlam addressed the Committee indicating the bill requires a 20-hour course and outlines the requirements of the course and suggested the course be widely applicable.

Dr. Schwimmer, Vice-Chair of the BOOM, addressed the Committee and asked Mr. Flynn if anything in the statute prohibits the physician from requiring additional training for the pharmacists.

Mr. Flynn addressed Dr. Schwimmer and the Committee and confirmed, the CPA is a contractual agreement that is driven by the physician. A physician has the authority to select, create, and enter into an agreement with their pharmacist of choice. A pharmacist may not enter into an agreement unless they are appropriately qualified. Mr. Flynn indicated that requiring additional training would strictly be up to the physician when entering into an agreement.

Dr. Hickman indicated this agreement is between one practitioner and one pharmacist for the specific patient and the agreement could not be applied to multiple patients.

Louis Adams addressed the Committee regarding if a consultant license would qualify a pharmacist for this certification.

Mr. Flynn stated this statute stands independently and would be a separate certification.

Mr. Dierlam addressed the Committee regarding the requirements of a Consultant Pharmacist.

Dr. Villa addressed the Committee regarding how the course would be presented, either live, online, or otherwise and suggested no less than three hours of the course be live with interactive patient scenarios.

Dr. Mikhael addressed Dr. Vila regarding the human simulator.

Dr. Hickman and Dr. Mikhael addressed the Committee and agree with Dr. Vila for a live interaction requirement within the course.

Dr. Rose and Dr. Schwimmer suggested to be cognizant of COVID-19 and the difficulties with live hours during these times.

Dr. Mesaros thanked everyone for the discussion and stated that the Committee would take the comments into consideration when amending the draft rule language.

The Joint Committee began discussion on Rule 64B16-31.007, F.A.C., Collaborative Practice Certification: Chronic Health Conditions.

Dr. Mesaros summarized the proposed rule language and opened the floor for discussion.

Mr. Philip addressed the Committee regarding the chronic health conditions outlined in the rule. He indicated the agreement entered will be between a single physician and single pharmacist to manage a specific patient. The goal is to work together to ensure that the patient's quality of care is improved. Terms and conditions must be appropriate to a pharmacist's education and training to assure the pharmacist participating in the agreement be educated and prepared for that specific condition of the patient.

Mr. Wright addressed the Committee and agrees with, (7) Those chronic health conditions enumerated in section 465.1865(1)(b), F.S.; and stated this lets the physician determine states of the disease that can be covered.

Dr. Hickman addressed the Committee and agreed with Mr. Philip regarding evidence based in improving patient care and advised that, (8) Any disease state that is expected to last greater than one (1) year or more and will require ongoing medical treatment and drug therapy services., is necessary as there are a lot of additional chronic medical conditions that are not listed within the proposed rule.

Dr. Rose addressed the Committee regarding subsection 8 and expressed the intent of the legislature was not to put a catch all. He stated this option would bypass the ability for the Boards to collaborate on what chronic diseases could listed and would prefer to only list what is outlined in the bill.

Dr. Mendez addressed the Committee and would prefer to start slow and be deliberate when considering additional chronic conditions.

Dr. TerKonda addressed the Committee and agreed with Dr. Rose regarding his concerns with subsection 8.

Dr. Vila addressed the Committee and stated he has no opposition with the six additional diseases listed; however, would like to remove subsection 8.

Chris Nuland, representing the Florida Chapter, American College of Physicians, addressed the Committee and recommended the deletion of subsection 8.

Dr. Schwimmer, addressed the Committee and agreed with the deletion of subsection 8 and suggested adding behavioral health conditions.

Dr. Mikhael addressed the Committee regarding becoming too restrictive and expressed he believes the intent of subsection 8 was to fall back on the physician's responsibility with the pharmacist to determine what conditions are appropriate. Deleting this addition could be doing a disservice to accessing patient care.

Toni Large, representing the Florida Society of Rheumatology, addressed the Committee in opposition to (5) Osteoporosis and osteo-arthritis and expressed that most patients who go to a rheumatologist have potentially been treated by several physicians prior to being under the care a specialist to manage their conditions.

Mary Thomas, FMA, addressed the Committee in opposition of subsection 8 and suggested the bill does not authorize a catchall provision.

Kathy Baldwin, representing the Florida Society of Health-System Pharmacists (FSHP), addressed the Committee regarding the benefits of physicians collaborating with pharmacists as pharmacists can effectively manage medications and create an efficient path for patient access.

Jason Wynn, representing the Florida Osteopathic Medical Association, addressed the Committee in opposition of subsection 8.

Dr. Vila addressed the Committee regarding what items should be listed in the CPA.

Mr. Philip addressed Dr. Villa and the Committee and confirmed that the requirements of the CPA are outlined in the statute and those are also identified in the proposed application.

Mr. Flynn addressed the Committee regarding the statutory requirements of rulemaking and confirmed a statute should not be duplicated in rule.

Dr. TerKonda dismissed himself from the call.

Dr. Mendez dismissed herself from the call.

The Joint Committee began discussion on Rule 64B16-31.035, F.A.C., Test and Treat Certification: Initial Certification Course

Dr. Mesaros addressed the Committee and indicated that comments and suggestions from the discussion regarding the Collaborative Practice Certification will be incorporated in the Test and Treat Certification proposed rule language.

Mr. Philip addressed the Committee and stated he had no additional content areas to be added to the list as they are outlined in the statute and suggested lowering the requirement for live hours from twelve to eight.

Dr. Vila addressed the Committee regarding adopting the philosophy of not being too broad as that will delay the implementation of the proposed rules.

Dr. Rose addressed the Committee regarding the follow up care requirement.

Mr. Flynn indicated that the follow up requirement will be outlined within Rule 64B16-31.043, F.A.C., Test and Treat Certification: Follow-up Care.

Dr. Rose commented on the authority for compounded drugs within the drug formulary outlined in (b) All compounded medicinal drugs that utilize only active pharmaceutical ingredients approved by the FDA.

Dr. Hickman addressed the Committee and confirmed (b) was outlined due to the Tamiflu shortage.

Mr. Flynn confirmed the rule will be dictated by what is in the written protocol and indicated he indicated the current language will be clarified to specifically exclude controlled substances. The formulary shall include a list of US FDA approved active ingredients as the proposed language could be open for potential abuse of compounded drugs.

Dr. Rose dismissed himself from the meeting.

Dr. Schwimmer addressed the Committee regarding the formulary to Medicaid patients and should the rule address a Medicaid formulary.

Mr. Wright addressed the Committee regarding the formulary and how it may potentially alleviate the concern with compounding.

Dr. Hickman agreed with Mr. Wright and volunteered to work with Mr. Flynn on amending the proposed language to address the concerns.

Dr. Vila addressed the Committee and inquired about the electronic medical records.

Mr. Philip addressed Dr. Vila's concerns and confirmed this would depend on how communication is set up between each physician.

Dr. Mikhael addressed the Committee and extended his gratitude for the open discussion today.

Dr. Mesaros opened for public comment.

No public comments were received.

Ms. Sapp addressed the Committee and confirmed the comments from the discussion will be taken into consideration and amendments to the proposed rules will be presented at the next Committee Meeting.

### **III. ADJOURNMENT**

There being no further discussion, the meeting adjourned at 12:45 p.m.

## Zeh, Traci

**From:** Sapp, Jessica  
**Sent:** Wednesday, July 1, 2020 1:36 PM  
**Subject:** Board of Pharmacy Joint Rules Committee Meeting

Good afternoon,

The Board of Pharmacy has scheduled a second Joint Rules Committee meeting for **July 29, 2020 at 9:00 a.m.** to review draft rules based on the discussion during the June 25 meeting. We have received a request for a Rules Workshop on proposed rules 64B16-31.007 and 31.039 which will also take place during this meeting. The meeting materials will be published to you approximately 10 days prior to the meeting. Please let me know if you have any questions or concerns.

All committee members, board counsels and staff have been blind copied on this email.

Regards,

**Jessica Sapp**

Tallahassee, FL 32399-3258

Re: Rulemaking process regarding CS/HB 389

Dear Mr. Montgomery,

I write to you today as a concerned pharmacist and very interested party in regards to the rulemaking surrounding FL CS/HB 389. My name is Kevin Duane, and I am a pharmacist and pharmacy owner in Jacksonville, FL.

The legislature made a very bold step in empowering pharmacists in this state to be able to aid in the management of chronic disease states, as well as to be able to provide a means for testing and treatment of certain acute conditions. While this was a bold step, it was certainly not one taken lightly by the legislature or the governor. Indeed, as we have seen these past few months we are in uncharted territory, and we must provide our practitioners with any and all tools possible to implement this legislation to the best of our ability for the betterment of patient care and health management.

As the owner of two pharmacies which are located within physician office buildings, I see this bill as a very good opportunity to bring care to patients who sorely need it. My pharmacies are located in very poor parts of Jacksonville, and many patients come to us for care because the primary care landscape poses many barriers to proper care whether that be financial, or personal. My rural colleagues express the same barriers to care, and these barriers are ones that this bill aims to begin to solve. Above all, the bill allows us to better care for our patients than we are able to do so currently.

The legislature's actions were promising and progressive in the best interest of the patient, and I believe that the board's rulemaking process should be as well. Therefore, I make the following suggestions:

1. Allow individual protocols, rather than preconstructed blank forms which must be followed strictly.

- a. Florida is a diverse state of over 21,000,000 people. We have densely populated city centers with dozens of pharmacies and physicians within walking distance. We have rural areas where oftentimes the pharmacy is the only health care entity for miles. Simply put, it is not a state that lends itself to a one-size-fits-all approach to this practice.
- b. Different pharmacy practice settings will have different goals for implementation - restricting the practice to a single protocol for each acute condition listed under 465.1895 (1)(a)-(e) F.S. will stifle the entrepreneurial aspirations of self-employed pharmacists like myself, and may provide perverse incentives for chain-pharmacies who do not have to share the profits with their pharmacist employees.
  - i. In this state we have consistently seen chain pharmacists that are being asked to do more and more work with less and less help. They have no decision making input into their staffing levels and no ability to enjoy their share of revenue generation they have created. Only allowing a single protocol eliminates the ability for such a pharmacist to be able to tailor their practice limitations or situations to suit their current employment circumstances. Furthermore, a single protocol will limit the ability of pharmacy owners such as myself to change their practice to fit the needs of their own business or their specific patient population. Ultimately, if a physician is to sign on to any protocol under this statute, whether or not it is standardized, they understand what is written within the protocol is what they are signing off on. The physician has the professional discretion to make responsible medical decisions concerning the collaborative programs in a way that is in the best interest of their patients' health management.
- c. Certain procedures outlined in the protocol may be impossible for some practitioners to meet.
  - i. For example, if it is obligated that the protocol is transmitted electronically only, and a physician and/or pharmacists does not have the technology available to do so, or is financially not in the position to spend hefty sums of money to upgrade to said technology for this purpose, why would the rule compel them to do so? If they are unable and thus cannot collaborate and provide

expertise for the benefit of Florida's public, that is a disservice to the citizens and not at all what the legislature had intended. There should not be any substantial financial limitations to a pharmacist being able to implement this in their practice.

2. Do not limit to only conditions specifically outlined in statute.

- a. The legislature recognized the need for pharmacists to be involved in this aspect of patient care. They also recognized the need to add in language to protect and preserve the pharmacist's and physician's ability to choose and augment those conditions with new or evolving conditions as time progressed.
  - i. Indeed, when this bill was filed in the fall no one had even considered a threat to Florida such as Covid-19, and yet it is now at the forefront of everyone's daily routine. To deny pharmacists and physicians the ability to agree to collaborate on conditions that the legislature was not able to contemplate is counter to what is in the public's interest, and frankly a disservice to the health of the citizens of the state of Florida. New progressions in treatment for conditions are developed constantly, and legislation and rulemaking will always lag behind. The rules must be left open for pharmacists and physicians to adopt protocols for new unforeseen illnesses and treatments. We know that leaving the inclusivity of conditions up to rule amendments by the board may take valuable time to implement. Time which could be spent helping patients with such a disease reach better outcomes and potentially save their quality of life.
  - ii. Additionally, being that a physician and a pharmacist are collaborating regarding the scope of services able to be provided, I feel it an unnecessary and improper intrusion by the government into the private agreement between these two parties.
  - iii. Finally, I believe that most of the commentary regarding the need to slow the development and limit the list of conditions eligible for collaboration under this protocol stems from physician discomfort surrounding the intrusion of pharmacy upon their scope of practice. Many physicians are not accepting of the vital role pharmacists can

play in the healthcare system due to their own personal reservations, rather than genuine concern for the patient. They do not seem to mind other physician extenders such as CNAs and MAs to play a large role in their patient care, and after all, they can always choose not to enter into such a collaborative agreement with pharmacists or other midlevel practitioners such as APRNs or PAs if they do not feel comfortable doing so. It was clearly the legislature's intent to allow other conditions to be collaborated on, and rulemaking (or delaying rulemaking) regarding such is counter to the body's intent.

3. Allow drug formularies to be defined by class, and do not allow negative drug formularies.
  - a. In the same way the landscape of disease has shifted so drastically in our lives, so too have treatments - and they will continue to do so! We need again to only look to the COVID-19 pandemic to see how a rigidly defined drug formulary could absolutely impede expert patient care from being delivered. Remdesivir was a drug initially designed for the ebola virus outbreak, and was found to be ineffective. Had a rigid formulary been in place, we would not have had the power to pick it back up and have it find its home as the mainstay of treatment in critically ill COVID-19 patients. Drugs that are the current mainstay of therapy for certain diseases may soon be discovered to have a certain side effect that makes it undesirable to use, or a previously unknown benefit that brings it from the last line of therapy to the first line. A defined drug formulary in rule makes changes like this very inflexible to do, and again impedes the collaborative aspect of the physician and the pharmacist. If the physician wishes for the pharmacist to use or not to use certain drugs for certain conditions, it should be left to them to decide that collaboratively rather than to rely on the long and arduous process of board rulemaking.
  - b. Limited formularies in rule do not consider that not all patients are the same. A certain first line treatment the patient may have an allergic reaction to. The FDA is notoriously slow and has often no impetus to change certain approvals. It is again only serving to hurt patient care by doing so. An APRN or PA does not have a formulary restriction, and in the same way the physician and the pharmacist should be the ones to be able to make these decisions collaboratively.

4. Do not allow exclusivity of initial training CE or renewal CE to one body
  - a. Currently, pharmacists are permitted to immunize patients, but only in the framework of a protocol in collaboration with a physician. In order to renew his or her license, though, the pharmacist must complete a continuing education program that "...shall be offered by a statewide professional association of physicians in this state accredited to provide educational activities designated for the American Medical Association Physician's Recognition Award (AMA PRA) Category I credit...". I believe that CS/HB 389 is a bill that fosters collaboration with pharmacists and physicians, and as such neither group should have a monopoly on the ability to offer continuing education. Allowing only one of the stakeholders to have full authority on the continuing education offerings necessarily tips the balance of control unfavorably away from the other stakeholders.

This bill adds a wonderful opportunity for pharmacists to be able to collaborate with physicians for the betterment of healthcare delivery to the citizens of the state. The theme of collaboration is well evidenced throughout the bill. I hope that this same theme carries itself well throughout the rulemaking process, and that the private collaborative agreement process between physician and pharmacists is respected and upheld. The above points serve to point out potential pitfalls that I hope the rulemaking process avoids. I am available via e-mail at [Kevin@PanamaRX.com](mailto:Kevin@PanamaRX.com) for any further input if it is needed. I appreciate the efforts of the Boards of Pharmacy, Medicine, and Osteopathic Medicine, and I am hopeful that the legislature's bold vision embodied in this bill carries forward and is evidenced in the final rulemaking product.

Respectfully,

A handwritten signature in black ink, appearing to read 'Kevin J. Duane', with a long horizontal line extending to the right.

Kevin J. Duane, Pharm.D.  
President, Panama Pharmacy

General comments: I listened to the BOOM conference call on 6-9-29 and agree with the comments and discussion. My two general suggestions are:

1. The BOP should adopt rules that mirror and are limited to the legislation wording and examples only at this time. Expansion to diseases not listed as examples can occur later via a process that allows for proposals from pharmacists followed by input from the BOM/BOOM. Formulary should be limited to FDA approved first line treatment for these diseases and specified in the CPA.
2. The BOP should provide a sample blank CPA that contains each of the elements required by the legislation. I also suggest this process become fully electronic online and updated in real time with reporting that can be used to fulfill the legislative requirements.

Comments to sections identified by BOP for consultation with BOM

1. CPC Initial Certification Course -20 hrs
  - a. Performance of patient assessments – I recommend in-person with human simulator no less than 3 hours of content for this portion
  - b. Testing, evaluation and management portions should include content specific to the diseases requested to be covered in the Collaborative practice agreement.
2. Collaborative practice agreement

I suggest providing a sample blank agreement. I also suggest this process become fully electronic online and updated in real time with reporting that can be used to fulfill the legislative requirements
3. Chronic health condition
  - a. I would limit the conditions initially to those examples listed in the legislation.
  - b. I would limit formulary to medications considered to be first line or initial treatments most commonly used in treatment of the listed chronic conditions consistent with the FDA labeling of the medications
  - c. Very important that the formulary be limited to medications that are considered initial treatments of the illnesses and not secondary or tertiary treatments without a consultation with the collaborating physician.
4. Test and treat certification
  - a. I would limit the conditions initially to those examples listed in the legislation.
  - b. I would limit formulary to medications considered to be first line or initial treatments most commonly used in treatment of the listed minor illnesses consistent with the FDA labeling of the medications
  - c. Very important that the formulary be limited to medications that are considered initial treatments of the illnesses and not secondary or tertiary treatments without a consultation with primary care physician.

5. Test and treat an initial certification course must cover the specific disease and treatments specified by the rule with examples of diseases that are similar clinically and often misdiagnosed and mistreated.

June 9, 2020

RE; CS/HB 389

Dear Ed and Claudia,

Below are some thoughts offered for further elaboration, clarification, discussion and consideration.

Respectfully Submitted.

Robert London MD

1. Standards of Care: Clarify that participating pharmacists, their practice, employees and agents held to the same standards as physicians with regards to:
  - a. Existing Florida Statutes and Administrative Rules (Ex. See Appendix A for medical record documentation)
  - b. HIPAA compliance
  - c. Medicare/Medicaid compliance
  - d. Requirements for electronic medical record keeping
  
2. Practice Model: The intent of the law is to expand the current pharmacy-based scope of practice. Are the following models of practice permissible?
  - a. Pharmacist independently practices in an office setting indistinguishable to that of a physician or ARNP.
  - b. Pharmacist owns the medical practice, and employs physicians, who enter into a collaborative agreement with the pharmacist.
  - c. The pharmacist restricts their professional activity solely/exclusively to the expanded scope of practice established by the law.
  - d. Pharmacist is hired by a participating physician as a physician-extender to work in their office.
  
3. Collaborative Agreements:
  - a. Standardization/simplification: Creation of individualized agreements for each patient, potentially by multiple providers and pharmacists, invites the risk of error, where a pharmacist inadvertently treats a patient outside of their particular agreement, or duplication or contrary managements are put in place.
  - b. Creating a small number of standardized agreements based on the specific disease, severity of disease, or existence of patient co-morbidities may mitigate risk. An example of a risk stratification method based on disease states and comorbidity is the American Society of Anesthesiologists (ASA) Risk Classes (ASA I, II, III, IV, V) (See Appendix B)

- c. Implementation of a process whereby overlapping CPAs (more than one Collaborative Practice Agreement for a single patient) can be identified and reviewed or eliminated if needed.
  - d. Patient centric/control:
    - i. Consider documentation of patient's informed consent to allow the pharmacist's provision of care and physician/pharmacist sharing of protected health information.
    - ii. Consider patient acknowledgement, and approval of expanded role of pharmacist in their personal care
    - iii. Consider the patient's signature on the collaborative agreement
  - e. Clarification of physician/pharmacist liability in such arrangements
    - i. If pharmacist treats the patient outside of the terms of the collaborative agreement,
    - ii. If changes to the patient's care/treatment are not reported back to the physician in a timely fashion,
    - iii. Delays in diagnosis due to a patient not feeling the need to follow-up with a physician.
    - iv. If patient follows pharmacist care against the medical advice of the physician?
  - f. If patient leaves physician's practice?
  - g. Clarification of the number of times or the duration of time a pharmacist can manage a patient for a particular condition without improvement or resolution before having to refer the patient to a physician.
  - h. Clarification of the number of supervising physicians and pharmacists who can be involved with CPAs with regard to a specific patient. Example, any prohibition on an internist, family physician, and pulmonologist each having a CPA with their preferred pharmacist (multiple) regarding the same patient.
4. Continuing Medical Education:
- a. The 20-hour CME is one time. Are continuing medical education requirements to be included to assist the pharmacist in maintaining competency over time?
  - b. Objective assessment of competency? Testing? Evaluations? Auditing? Other?
5. Are BOM and BOOM able to create standards for rules applying to physicians for entering into a collaborative practice agreement with a pharmacist?
- a. Establishment of clear communication protocols
  - b. Avoid the confusion of multiple physicians and pharmacists managing the same patient for the same condition
  - c. Standards of care
  - d. Liability
  - e.

## Appendix A: Documentation requirements for medical record keeping

### Example FS 458.331(1)(m):

(m) Failing to keep legible, as defined by department rule in consultation with the board, medical records that identify the licensed physician or the physician extender and supervising physician by name and professional title who is or are responsible for rendering, ordering, supervising, or billing for each diagnostic or treatment procedure and that justify the course of treatment of the patient, including, but not limited to, patient histories; examination results; test results; records of drugs prescribed, dispensed, or administered; and reports of consultations and hospitalizations.

## Appendix B: ASA Risk Classes

### Current Definitions and ASA-Approved Examples

| ASA PS Classification | Definition                                                                      | Adult Examples, Including, but not Limited to:                                                                                                                                                                                                                                                                                                                                                                                   |
|-----------------------|---------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>ASA I</b>          | A normal healthy patient                                                        | Healthy, non-smoking, no or minimal alcohol use                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>ASA II</b>         | A patient with mild systemic disease                                            | Mild diseases only without substantive functional limitations. Examples include (but not limited to): current smoker, social alcohol drinker, pregnancy, obesity (30 < BMI < 40), well-controlled DM/HTN, mild lung disease                                                                                                                                                                                                      |
| <b>ASA III</b>        | A patient with severe systemic disease                                          | Substantive functional limitations; One or more moderate to severe diseases. Examples include (but not limited to): poorly controlled DM or HTN, COPD, morbid obesity (BMI ≥40), active hepatitis, alcohol dependence or abuse, implanted pacemaker, moderate reduction of ejection fraction, ESRD undergoing regularly scheduled dialysis, premature infant PCA < 60 weeks, history (>3 months) of MI, CVA, TIA, or CAD/stents. |
| <b>ASA IV</b>         | A patient with severe systemic disease that is a constant threat to life        | Examples include (but not limited to): recent (< 3 months) MI, CVA, TIA, or CAD/stents, ongoing cardiac ischemia or severe valve dysfunction, severe reduction of ejection fraction, sepsis, DIC, ARD or ESRD not undergoing regularly scheduled dialysis                                                                                                                                                                        |
| <b>ASA V</b>          | A moribund patient who is not expected to survive without the operation         | Examples include (but not limited to): ruptured abdominal/thoracic aneurysm, massive trauma, intracranial bleed with mass effect, ischemic bowel in the face of significant cardiac pathology or multiple organ/system dysfunction                                                                                                                                                                                               |
| <b>ASA VI</b>         | A declared brain-dead patient whose organs are being removed for donor purposes |                                                                                                                                                                                                                                                                                                                                                                                                                                  |

\*The addition of "E" denotes Emergency surgery: (An emergency is defined as existing when delay in treatment of the patient would lead to a significant increase in the threat to life or body part)

Lindsey Sampson  
1500 Mahan Drive, Suite 140  
Tallahassee, FL 32308

**Legislative Discussion**

**Legislative Summary ..... 1**

Ms. Kemp addressed the Committee and provided a brief summary of the bills. She said the Governor signed HB 389 (Practice of Pharmacy) and HB 607 (Direct Care Workers). She added that HB 743 (Nonopioid Alternatives) has been presented to the Governor but is pending his signature. She said the rest of the bills have not yet been presented to the Governor.

**No action necessary**

**May 2020 Rules Report ..... 3**

The Rules Report, prepared by Ms. Murphy, provided updates on rules currently in development.

**No action necessary.**

**House Bill 389 ..... 2 and Addendum V3**

Ms. Kemp presented the bill and the draft work completed by the Board of Pharmacy on the rule language. She explained she sent updated information to the members that morning from the Board of Pharmacy (attached). She said they plan to meet on the rule again on June 25, 2020.

Dr. Vila expressed concerns over the process because there were issues to talk about like the timing, the items for consultation in the rule, and how the Board of Medicine can provide consultation to the Board of Pharmacy.

Ms. Kemp suggested a couple of ways to proceed, such as having a medical doctor on the call with the Board of Osteopathic Medicine when they consider the rule at their June 9, 2020 conference call. She also suggested presenting this to the entire Board at Friday's meeting.

Dr. Vila felt full Board participation was necessary.

Mr. Tellechea said he has spoken with counsel to the Board of Pharmacy, David Flynn. He said the language being presented today was preliminary language and they would be solidifying the language at their June 25<sup>th</sup> meeting. He said the Pharmacy Board wanted to hear the Board's input and concerns including meeting with a member and are waiting to hear from us and the Osteopathic Board before their June 25<sup>th</sup> meeting.

Ms. Kemp confirmed Mr. Tellechea's statement and said she has been in direct contact with the Executive Director of the Board of Pharmacy, Jessica Sapp, and in other conversations about the rule and the Board's input.

Dr. Zachariah said he was happy to hear the Pharmacy Board wanted to their input. He suggested conducting a joint committee meeting.

Mr. Tellechea suggested the members write down their comments and concerns and send those to Ms. Kemp. Ms. Kemp could then provide that information to Ms. Sapp to include in the agenda materials for the June 25<sup>th</sup> meeting. He explained the Pharmacy Board is being asked to have this rule in place by August 1, 2020 so Florida is ready for the Fall when COVID-19 is expected to flare again.

Dr. Vila said this was a big change and going slow and deliberate equals success. He suggested starting with a few conditions, see how that goes, then expand to other conditions. He said he was willing to meet at any time and would send his comments to Mr. Tellechea.

Ms. Kemp suggested taking this discussion to the full Board during Friday's meeting.

Dr. Gupta said the Board should offer to meet and work with the Pharmacy Board.

Mr. Tellechea reminded the members about the Sunshine Law. He suggested the members send their comments. He said there is no action yet and today was a good discussion.

Dr. Zachariah advised for members to send their comments to Ms. Kemp and Mr. Tellechea.

**Action taken:** members to submit comments to Ms. Kemp and Mr. Tellechea; discuss at Friday's Board Meeting

**Rules/Legislative Committee ..... No tab**

Dr. Gupta provided the report for the meeting held June 3, 2020. He explained the Committee discussed HB 389 and the best way to consult with the Board of Pharmacy on their rule. He

encouraged all members to send their comments to Mr. Tellechea and Ms. Kemp who would share the comments with the Board of Pharmacy members.

Ms. Kemp reminded the members the rule language is still being drafted. She said the Board of Pharmacy's Rules Committee will be conducting another meeting on June 25, 2020 and encouraged members to listen in to the call.

Dr. Pages asked if the law differentiates between adults and pediatric patients.

Mr. Tellechea said the law did not differentiate between them.

Dr. Zachariah said the process should be methodical, thoughtful and should not be rushed. He suggested asking for members of the Boards of Medicine, Osteopathic Medicine and Pharmacy hold a joint meeting to work on the rule language.

Dr. Pimentel asked if there was a similar law in other states.

Mr. Tellechea said he was not aware of other states.

Ms. Kemp said she could find out and let the members know.

Dr. Gupta asked how the Board asks for a joint meeting.

Ms. Kemp said she and Mr. Tellechea could talk to their Executive Director and Board Counsel.

Dr. TerKonda said there are a lot of questions and the members need a better understanding. He said he would be on the call on June 25<sup>th</sup>.

Dr. London said this is a significant increase in scope of practice.

Dr. Vila said he had concerns but glad to have the opportunity to work with the Board of Pharmacy so patients have more access to care.

Dr. Gupta brought up the next topic from the meeting which concerned Telehealth by Electrologists doing Laser Hair Removal.

Dr. Zachariah called speakers to address the Board.

Jolynn Greenhalgh, DNP, ARNP, Electrology Council Chair, addressed the Board in support of their rule.

Judy Adams, Legislative Liaison with the Electrolysis Society of Florida, addressed the Board in support of the rule language.

Tali Arviv was called but was not on the call.

Christopher Nuland, Esquire, representing the Florida Society of Dermatology and Dermatologic Surgeons and the Florida Society of Plastic Surgeons, addressed the Board in opposition to the rule language. He said Chapters 456 and 458, F.S. define direct supervision requiring the onsite presence of the physicians. He said the Legislature specifically put supervision in the law.

Lawrence Gonzalez, Counsel to the Electrolysis Society of Florida and the Electrolysis Association of Florida, addressed the Board in support of the language. He said the language

would allow supervision under telehealth and direct supervision and responsibility was within the Board's scope to define. He reminded the Board the profession has a superior safety record.

A motion was made and seconded to accept the report.

Mr. Tellechea read the language into the record.

Dr. Vila asked if the rule would now go into rule making.

Mr. Tellechea confirmed.

The motion passed unanimously.

**Action taken:** report accepted; send comments to Ms. Kemp and Mr. Tellechea regarding the Pharmacy rule, members encouraged to attend June 25<sup>th</sup> Pharmacy meeting, Mr. Tellechea and Ms. Kemp to discuss a joint meeting with Pharmacy's Executive Director and Board Council, Electrology telehealth rule language approved

# FLORIDA | Board of Osteopathic Medicine

June 9, 2020

**DRAFT MEETING MINUTES**  
**Board of Osteopathic Medicine**  
**Teleconference Business Meeting**  
**June 9, 2020**  
**1:00 p.m.**

The meeting was called to order by Dr. Joel Rose, Chair, at approximately 1:00 p.m.

Those present for all or part of the meeting included the following:

**MEMBERS PRESENT:**

Joel B. Rose, DO, Chair  
Sandra Schwemmer, DO, Vice-Chair  
Anna Hayden, DO  
Michelle R. Mendez, DO  
Bridget Bellinger, DO.

**MEMBERS ABSENT**

Valerie Jackson, Consumer Member

**COURT REPORTER:**

For the Record Reporting  
(850) 222-5491

**OTHERS PRESENT:**

Jessica Sapp, Board of Pharmacy Executive Director  
Claudia Kemp, Board of Medicine Executive Director  
Ed Tellachea, Board of Medicine Board Counsel  
David Fynn, Board of Pharmacy Board Counsel  
Dr. Terkonda, Board of Medicine  
Dr. Gupta, Board of Medicine  
Dr. London, Board of Medicine  
Dr. Mesaros, Board of Pharmacy

**BOARD STAFF PRESENT:**

Kama Monroe, Executive Director  
Carol Taylor, Program Administrator

**BOARD COUNSEL**

Donna McNulty, Board Counsel  
Nancy Murphy, Paralegal

*Please note that the meeting minutes reflect the actual order that agenda items were discussed during the meeting and may differ from the agenda outline*

## **TAB 1: Discussion of Board of Pharmacy's Draft Rules Related to HB389 Informational Materials for Review for Discussion**

Board Chair, Dr. Joel Rose, called the meeting to order and welcomed all attendees.

Program Administrator, Carol Taylor, noted that the purpose of the meeting was to discuss House Bill 389 (HB 389). Dr. Rose provided a brief overview of HB 389 and the items the board would discuss.

Dr. Rose asked for volunteers from the Osteopathic board who would be interested in serving as the board's second member of the joint committee with the Board of Pharmacy and the Board of Medicine. He also stated that he would serve as the first member. The first Joint Committee meeting is scheduled for June 25, 2020.

Dr. Bellinger nominated Dr. Mendez to serve as the second member of the Joint Committee. Dr. Hayden seconded the nomination. The nomination passed.

Direction was given to the board to provide any comments or questions they might have, following the meeting, to the Board of Osteopathic Medicine board office.

Discussion ensued with input from the board and meeting attendees. Discussion included the desire from an attendee, that there be a single standard of care that is no less than the standard currently in place. There was a further desire that the term "interactive computer based" when discussing a course, be better defined. Several questions and comments arose during discussion of Rule 64B16-0035. A desire to see in rule something that specifies what modification entails was conveyed. Discussion regarding the Collaborative Agreement resulted in much input from all present, including concerns with HIPAA compliance. Board of Pharmacy board counsel noted HIPAA concerns would be further discussed at the June 25<sup>th</sup> joint meeting. In discussion of test and treat, there was concern that movement forward should be in a safe and responsible manner. Much discussion entailed regarding concerns with sharing of information, records, and a failure to specify which board when referencing the board. This discussion generated much input and many concerns.

Direction was again provided for osteopathic physicians to provide comments or questions to Board of Osteopathic Medicine board office and for medical physicians to provide comments or questions to Board of Medicine board staff.

A Joint Committee Meeting with representation from the Board of Osteopathic Medicine, Board of Pharmacy and Board of Medicine is scheduled for June 25, 2020.

### **ADJOURN**

Motion: by Dr. Hayden, to adjourn the meeting.  
Meeting adjourned at 2:00 pm.

### **ADJOURN**

**Next Meeting: June 22, 2020  
Teleconference**

**64B16-26.XXXX Collaborative Pharmacy Practice Certification.**

(1) An application for certification to provide services under a collaborative pharmacy practice agreement shall be made on Board approved form DH-MQA XXXX, "Board of Pharmacy Collaborative Pharmacy Practice Certification Application," dated XX/20, which is hereby incorporated by reference. To obtain an application go to XXXXXX, or contact the Board of Pharmacy at 4052 Bald Cypress Way, Bin #C04, Tallahassee, FL 32399-3254 or (850)488-0595, or download the application from the web at <http://www.doh.state.fl.us/mqa/pharmacy>.

(2) The Board shall approve a 20-hour education course offered by an Accreditation Council of Pharmacy Education (ACPE) accredited provider for initial certification to provide services under a collaborative pharmacy practice agreement. The course shall cover all of the following:

- (a) Performance of patient assessments;
- (b) Ordering, performing, and interpreting clinical and laboratory tests related to collaborative pharmacy practice;
- (c) Evaluating and managing diseases and health conditions in collaboration with other health care practitioners; and
- (d) Review of applicable state and federal laws and rules.

(3) The 20-hours of education for initial certification may be applied to the 30 hours of continuing education required under section 465.009, F.S.

(4) The Board shall approve an 8-hour continuing education course offered by an ACPE accredited provider to be completed by a pharmacist who practices under a collaborative pharmacy practice each biennial license renewal period. The course shall provide a review of the material covered in the initial certification course and any applicable updated information.

**64B16-27.XXXX Collaborative Pharmacy Practice for Chronic Health Conditions.**

In addition to the chronic health conditions listed in section 465.1865, F.S., “chronic health condition” means any chronic condition to be collaboratively managed by a pharmacist and a collaborating physician under a collaborative pharmacy practice agreement that meets the requirements of 465.1865(3), F.S.

**64B16-26.XXXX Certification for Testing or Screening for and Treating Minor, Nonchronic Health Conditions.**

(1) An application for certification to test or screen for and treat minor, nonchronic health conditions shall be made on Board approved form DH-MQA XXXX, "Board of Pharmacy Test and Treat Certification Application," dated XX/20, which is hereby incorporated by reference. To obtain an application go to XXXXXX, or contact the Board of Pharmacy at 4052 Bald Cypress Way, Bin #C04, Tallahassee, FL 32399-3254 or (850)488-0595, or download the application from the web at <http://www.doh.state.fl.us/mqa/pharmacy>.

(2) The Board shall approve a 20-hour education course offered by an Accreditation Council of Pharmacy Education (ACPE) accredited provider for initial certification to test or screen for and treat minor, nonchronic health conditions. The course, at a minimum, shall cover all of the following:

- (a) Patient assessments;
- (b) Point-of-care testing procedures;
- (c) Safe and effective treatment of minor, nonchronic health conditions;
- (d) Identification of contraindications;
- (e) Applicable state and federal laws and rules.

(3) The 20-hours of education for initial certification may be applied to the 30 hours of continuing education required under section 465.009, F.S.

(4) The Board shall approve a 3-hour continuing education course offered by an ACPE accredited provider to be completed by a pharmacist providing services under section 465.1895, F.S., each biennial license renewal period. The course shall provide a review of the material covered in the initial certification course and any applicable updated information.

**64B16-27.XXXX Formulary of Drugs for Treating Minor, Nonchronic Health Conditions**

A pharmacist certified to treat minor, nonchronic health conditions in accordance with section 465.1895, F.S., may prescribe any medicinal drug for the treatment of a minor, nonchronic health condition that is:

- (1) Not a controlled substance as described in section 893.03, F.S., or 21 U.S.C. section 812;
- (2) Approved by the United States Food and Drug Administration; and
- (3) Indicated for treatment of the minor, nonchronic health condition.

**64B16-27.XXXX Guidelines for Providing Patients with Written Information Advising Patients to Seek Followup Care**

A pharmacist who tests or screens for and treats minor, nonchronic health conditions in accordance with section 465.1895, F.S., must provide a patient with written information advising the patient to followup with his or her primary care provider when:

- (1) The written protocol between the pharmacist and the supervising physician requires the pharmacist to advise the patient to followup with his or her primary care provider.
- (2) The pharmacist determines in his or her professional judgment that the patient should followup with his or her primary care provider.

# FLORIDA BOARD OF PHARMACY

June 8, 2020

Dear Dr. Zachariah,

On March 11, 2020, CS/HB 389 Practice of Pharmacy was approved by the Governor and is effective July 1, 2020. This bill authorizes a pharmacist, who meets certain qualifications, to enter into a collaborative pharmacy practice agreement with a physician to manage chronic health conditions. It also authorizes a pharmacist, who meets certain qualifications, to test or screen for and treat minor, non-chronic health conditions within the framework of a written protocol with a supervising physician.

The Board of Pharmacy must consult with the Boards of Medicine and Osteopathic Medicine to develop rules to implement certain provisions of the bill. The first draft of the proposed rules has been provided to your Board identifying the sections in which consultation is required. The Board of Pharmacy will hold a Rules Committee meeting on June 25, 2020 at 1:00 p.m. ET wherein we invite two representatives from the Board of Medicine to participate in rulemaking discussion. Multi-board collaboration will ensure quality rules are produced. Please inform the Board of Pharmacy, through your Executive Director, of your chosen representatives so that we may provide them with the meeting materials.

The Board of Pharmacy looks forward to working with the Board of Medicine to implement this bill. Together, we will continue to protect, promote, and improve the health of all people in Florida.

Sincerely,

Jessica Sapp, Executive Director

---

Hi Kama and Carol,

From your call today, I understand that Dr. Mendez and Dr. Schwemmer were selected as your Board's representatives. Please let them know, as well as the rest of your Board, that our June 25 meeting begins at 9:00 a.m., not 1:00 p.m. We discussed two different times and I did not amend the letter when 9:00 a.m. was finalized so I apologize for the typo.

Claudia- Will you also let your Board know as you all are still deciding on your representatives?

Thank you!

***Re: HB 389 - Boards of Pharmacy, Medicine and Osteopathic Medicine Joint Committee***

Dear Mr. Montgomery,

On March 11, 2020, Governor Ron DeSantis signed into law House Bill 389 which greatly expands the role pharmacists play in Florida's healthcare system. HB 389 is best characterized as having two major pieces of legislation wrapped up in one. First, it creates a collaborative pharmacy practice agreement between a physician and pharmacist for the management of chronic conditions and second, establishes a protocol for pharmacists that may test and treat for minor, nonchronic conditions.

HB 389 calls for the promulgation of several rules by the Board of Pharmacy in consultation with the Boards of Medicine and Osteopathic Medicine. It is the role of all three boards to protect the public and to assure competency and safety to practice in their respective service for the people of Florida. In order for that mission to be accomplished in regard to HB 389, it is imperative that all three boards have a seat at the table so that the proper expertise can be shared. Rules that must be developed in consultation include the following:

Chronic conditions under a collaborative pharmacy practice agreement –

- **Chronic conditions** – HB 389 defines “chronic health conditions” as arthritis, asthma, COPD, type 2 diabetes, HIV/AIDS, obesity, or any other chronic condition adopted in rule by the Board of Pharmacy (BOP), in consultation with the Board of Medicine (BOM) and Board of Osteopathic Medicine (BOOM).
- **Certification Criteria** – In order to provide services under a collaborative pharmacy practice agreement, the BOP must certify the pharmacist according to rules adopted in consultation with the BOM and BOOM.
- **Educational Requirements** – In order to be certified to provide services under a collaborative pharmacy practice agreement, the pharmacist must complete an initial 20-hour course approved by the BOP in consultation with the BOM and BOOM.
- **Implementation** – all other rules required to implement this section shall be done in consultation with the BOM and BOOM.

Minor, non-chronic conditions under a protocol –

- **Certification Criteria** – In order to provide services under a protocol agreement to test and treat for minor, non-chronic conditions, the BOP must certify the pharmacist in accordance to requirements established by rule in consultation with the BOM and BOOM.
- **Educational Requirements** – In order to be certified to test and treat for minor, nonchronic health conditions, the pharmacist must complete an initial 20-hour course approved by the BOP in consultation with the BOM and BOOM.
- **Protocol Requirements** – HB 389 sets the minimum requirements for what a protocol must contain and allows for other requirements as established by rule in consultation with the BOM and BOOM.

While HB 389 does not mandate the Board of Pharmacy adopt rules in consultation in other areas of the legislation, such as establishing the drug formulary and guidelines for providing medical record information to patients for physician follow-up, it would be best practice for the three boards to continue to collaborate. The FMA believes that the BOP would benefit from the presence of BOM and BOOM members throughout the rulemaking process.

The Florida Medical Association hereby respectfully requests that the Board of Pharmacy create a Joint Committee with the Boards of Medicine and Osteopathic Medicine in order to collaborate and streamline the rulemaking process.

Thank you for your consideration in this matter. If you have any questions, please do not hesitate to contact me via email at [MThomas@flmedical.org](mailto:MThomas@flmedical.org) or by telephone at 850-224-6496.

Sincerely,

Mary Thomas, Esq.

Re: HB 389 – Board of Pharmacy, Medicine and Osteopathic Medicine Joint Committee

Dear Mr. Montgomery,

As General Counsel to the Florida Osteopathic Medical Association (FOMA), please accept this letter on behalf of the FOMA requesting the Board of Pharmacy create a Joint Committee with the Boards of Medicine and Osteopathic Medicine for rulemaking regarding HB389.

As you are aware, HB389 passed during the 2020 Legislative Session, and Governor DeSantis signed the bill into law on March 11, 2020, expanding the role of pharmacists in Florida. There are two major components to this new law: creating a collaborative pharmacy practice agreement between a physician and pharmacist for the management of chronic conditions; and, establishing a protocol for pharmacists that may test and treat for minor, non-chronic conditions.

## **CHRONIC HEALTH CONDITIONS**

HB389 defines **chronic health conditions** as: Arthritis, Asthma, Chronic obstructive pulmonary diseases, type 2 diabetes, human immunodeficiency virus or acquired immune deficiency syndrome, obesity, or any other chronic condition adopted in rule by the board, in consultation with the Boards of Medicine and Board of Osteopathic Medicine. (465.1865(1)(b), (FS)).

Also, HB389 requires the Board of Pharmacy to collaborate with the Boards of Medicine and Osteopathic Medicine to: 1. certify pharmacists under a collaborative agreement; 2. Provide an approved 20-hour course; and, 3. Any other rules required to implement HB389.

## **NON-CHRONIC & MINOR CONDITIONS**

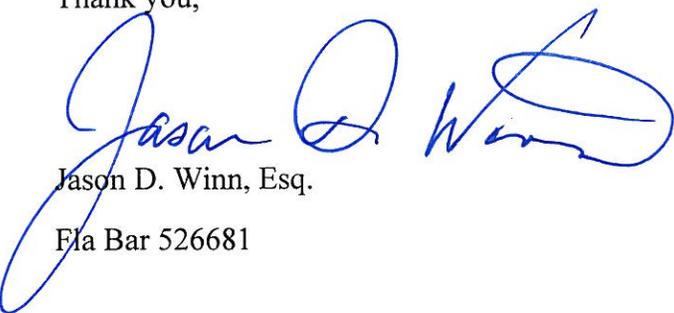

HB389 defines non-chronic & minor conditions as: Influenza, Streptococcus, lice, skin conditions such as ringworm and athlete's foot, and minor uncomplicated infections. Again, this new law requires consultation by this Board with the Boards of Medicine and Osteopathic Medicine to: 1. Set requirements for certification of pharmacists to test and treat for non-chronic and minor conditions; 2. Provide an approved 20-hour course; 3.

Set the minimum requirements for what a protocol must contain; and, 4. Any other requirements established by rule.

The FOMA supports the FMA's letter dated March 30, 2020 in requesting the Board of Pharmacy create a Joint Committee with the Boards of Medicine and Osteopathic Medicine in order to collaborate during the rulemaking process. The FOMA supports the position that the Board of Pharmacy would benefit from the inclusion of members from the Board of Medicine and Board of Osteopathic Medicine.

Thank you for your time in this matter, and please contact me via email at [jwinn@jwinnlaw.com](mailto:jwinn@jwinnlaw.com) or by phone at 850/519-5876.

Thank you,

A handwritten signature in blue ink, reading "Jason D. Winn, Esq.", with a large, stylized flourish at the end.
